# UNLOCK AI VALUE

Integrated Annual Report 2025-26

# From possibilities to enterprise AI impact

There's a particular moment, in every technology shift, when the conversation changes. The question stops being whether the technology is real, or whether it matters, or whether the enterprise should pay attention. Those questions get answered. What replaces them is harder, and more honest. Where is the value? Who is realizing it? And what does it take to claim it at scale? That moment, for AI, is now.

Across boardrooms and operating reviews, the conversation has turned from possibilities to outcomes. Enterprises that began with curiosity and pilots are asking sharper questions. How does AI move the needle on revenue, on cost, on customer experience, on the speed at which the business can respond to change? How does it stop being an experiment run by an enthusiastic team and become the operating substrate of the enterprise: the way decisions get made, the way work gets done, the way trust gets built with customers and regulators alike?

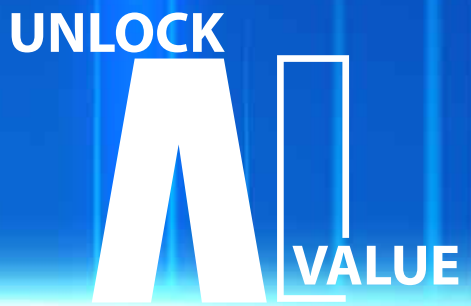

Getting there asks more from an enterprise than merely tools. Data, both structured and unstructured, has to be prepared for an AI world and turned into a trusted strategic asset that fuels predictive intelligence and real-time decisions. Core processes, designed for a pre-AI era, have to be reimagined around domain-aware agents working alongside people, redesigning workflows for step-change improvements in efficiency and experience. Legacy estates, long treated as immovable, can now be reverse-engineered by AI agents that understand their intent and modernized progressively; it is an unprecedented

"AI at Liberty Global is no longer an experiment—it's becoming foundational to how we run our business and serve our customers across Europe. With Infosys, we're delivering real, measurable outcomes, from improved customer experience through Super Search to significantly fewer outages. The trust at the heart of this partnership enables us to innovate and deliver at scale."

**Mike Fries, Chairman and Chief Executive Officer, Liberty Global**

# Liberty Glob

## From AI experiments to enterprise How Liberty Global is improving cu experience with Infosys.

### Supporting 1000+ Platform Deliveries

Liberty Global, one of Europe's leading connectivity and entertainment providers, partnered with Infosys as AI shifted from being an experiment to becoming foundational to how the company runs its business and serves customers across Europe.

Together, Liberty Global and Infosys operate and continuously evolve the connectivity and entertainment platforms that support tens of millions of customers across Liberty Global's footprint. The partnership has helped Liberty Global increase its pace of innovation by strengthening engineering capacity and enabling ideas to move into production quickly and reliably.

Over the past year alone, Infosys supported more than 1,000 platform deliveries, helping Liberty Global introduce new capabilities at scale while maintaining stability across its platforms.

This included deploying AI enabled solutions such as:

• Super Search, which serves around 8 million TV customers and uses advanced large language models to make content discovery conversational and intuitive across linear TV, on demand, and streaming services.

• Agent Assist and Customer Assist programs, deployed across multiple markets, transforming customer care by enabling more self service journeys, improving customer satisfaction, and

# Hertz

## Hertz modernized critical workflow faster with AI-first code engineerin

### AI First Approach

Hertz, a global leader in car rentals, had long relied on complex COBOL systems running on the legacy platform. These systems have grown rigid, costly, and increasingly difficult to scale for modern business needs. To modernize, Hertz worked with Infosys to adopt an AI first approach, placing artificial intelligence at the core of the transformation. Infosys leveraged its mainframe to cloud expertise and a robust AI stack, including OpenAI, Claude Sonnet, and AWS Bedrock to build an AI first foundation for transformation. Infosys experts analyzed nearly three million lines of legacy COBOL code and used multimodal LLMs to craft a modernization blueprint suited for the cloud. Infosys applied AI powered reverse engineering to extract core business logic and reimagined it as domain centric Java microservices built using Infosys iLEAD and GitHub Copilot. With AI enabled testing, reusable components, and enterprise governance, Infosys scaled modernization efforts rapidly and consistently.

This AI driven, domain centric approach enabled accelerated modernization while significantly de risking transformation at scale. The resulting microservices based digital core will materially improve platform agility, scalability, and system resilience, enabling the enterprise to support high transaction volumes and respond rapidly to evolving business and customer demands on AWS Cloud.

The transformation will deliver measurable outcomes, including 60% faster modernization timelines, increased reuse of cross channel business capabilities, reduced hosting costs, and a scalable foundation for continued modernization and automation across additional business domains. This engagement demonstrates how an AI driven, domain aligned modernization strategy can establish

The platform has been implemented in the North America region, with Europe planned to begin rollout in second half of 2026. The platform delivers enterprise wide traceability at scale and connects more than 50 suppliers, captures over 0.5 million events per day, integrates more than 220 plants and distribution centers, and maps more than 150 raw to finished goods processes.

Regulatory audits that once required extensive effort can now be accelerated with prebuilt FSMA compliance reports and one-touch batch and handling unit traceability via top-down and bottom-up tracking, strengthening food safety readiness, compliance reliability, and customer trust.

# ABN AMRO

## ABN AMRO collaborates with Infos to modernize its enterprise conten operations

### Unlocking €64 Million in Annual Efficiency savings

ABN AMRO is a Netherlands-based bank serving around 5 million retail customers and 365,000 business clients. With billions of documents within its enterprise content management (ECM) ecosystem, efficiency and compliance are critical to its operations.

The bank's document landscape spans scanned inputs, emails, and archived records. While partial automation worked well for simple cases, complex document retrieval depended on manual processes that could take several minutes per file. Documents needed to be downloaded from ECM archive, making compliance enforcement difficult. Rising regulatory pressure and increasing data volumes further limited the ability to scale.

ABN AMRO partnered with Infosys to modernize its enterprise content operations through a structured transformation. The engagement began with an assessment of the ECM landscape, followed by a proof of concept referring to the Infosys Document Intelligence platform. Building on this, ABN AMRO with Infosys implemented a generative AI-powered ECM AI layer using retrieval-augmented generation, integrated with Microsoft Azure AI and data services. This enabled automated classification, contextual information extraction, and faster retrieval of complex documents - without the need for downloads.

Infosys adopted the Global Reporting Initiative (GRI) principles to disclose performance on non-financial aspects of the business 18 years ago and also became the first IT company to publish sustainability performance in accordance with the GRI G4 (comprehensive) criteria in 2014.

Our Integrated Annual Report provides a comprehensive overview of our company's performance and progress over the past year. It includes quantitative and qualitative disclosures on material topics, such as financial performance, environmental sustainability, social responsibility, and our relationship with our stakeholders. It also describes our strategy, leadership commitment and culture that celebrates people, performance and purpose.

The Infosys Integrated Annual Report 2025-26 has been prepared in accordance with the International Integrated Reporting Framework, developed by the International Integrated Reporting Council (IIRC), the GRI Standards and the International Financial Reporting Standards (IFRS). This report also includes the Business Responsibility and Sustainability Report (BRSR), prepared in accordance with the guidelines issued by the Securities and Exchange Board of India (SEBI). We have also mapped our contribution to the UN Sustainable Development Goals (SDGs) through the Infosys ESG report.

The financial and statutory data disclosed in the statutory sections of this report meet the requirements of the Companies Act, 2013 (including the rules made thereunder) and the applicable SEBI regulations.

The Auditors' Report for fiscal 2026 from Deloitte Haskins & Sells LLP, Chartered Accountants (ICAI Firm Registration Number 117366W/W-100018) does not contain any qualification, reservation or adverse remark. The Report is enclosed with the financial statements in this Integrated Annual Report.

The Secretarial Auditors' Report for fiscal 2026 from Makarand M. Joshi of Makarand M. Joshi & Co., Company Secretaries, does not contain any qualification, reservation or adverse remark. The Secretarial Auditors' Report is enclosed with this Integrated Annual Report.

The Independent Assurance Statement for our BRSR core disclosures from Deloitte Haskins & Sells LLP is available as part of this Integrated Annual Report. Additionally, select non-financial sustainability disclosures in this Integrated Annual Report are assured by Deloitte Haskins & Sells LLP.

This Integrated Annual Report has been reviewed and approved, for publication, by the Management of the Company.

# The age of orchestration

Whenever there is a major technology transition, questions are asked of Infosys. Whether we will master the transition, continue to be relevant, establish a defensible position, and maintain growth and margins. Given that AI is a much larger and disruptive technology transition than ever before, the questions, and even doubts, are louder and more insistent. Moreover, the existential question asked of us: If coding becomes automated, then why are we needed at all? More than 3 years after the launch of Generative AI, we can unequivocally say that Infosys is more relevant than ever, and we have a bright future in front of us. The shift from predictable machines to probabilistic ones is as consequential as the speed of adoption, and it is reshaping what the work now requires.

While we will embrace the best coding tools and improve our productivity, there is much more to do in the software development life cycle. Solutions need to be tested and validated, and architectures designed for speed, scale and resilience. Cybersecurity must be prioritized, and data protected per company rules and other governance policies. There is plenty to be done as we address the deployment gap in our large enterprise customers.

Continuous learning and talent transformation have been core to Infosys for several decades. The new era of AI requires fresh learning and new mental models. We are well prepared for this challenge. We will completely prepare our talent for this new age and redistribute those released by productivity to grow new accounts and offerings.

The AI revolution has also created an extreme sense of urgency in our customers for legacy modernization, eliminating data silos, addressing AI-identified cyber vulnerabilities, and in general reducing and eliminating the technical debt accumulated over decades. The preference will be to build versus buy for software. All this creates significant opportunities.

The biggest prize will be how we meld the world of models and agents with the traditional deterministic systems that currently dominate the enterprise. While the new capabilities bring intelligence, simplified user experience and extreme automation, the highly scalable and reliable transaction systems of yore are still highly relevant. This will also create a large set of opportunities.

The environment has not become any simpler. Supply chains have continued to redraw themselves, and AI regulation is being written in real time across many jurisdictions. This is not a detour from the work of building durable enterprises. It is the terrain on which that work is now done.

Dear shareholder,

Last year marked an inflection point as AI began evolving from experimentation to enterprise-scale adoption. At Infosys, we acted early and decisively to lead this transition – shifting our portfolio, investing in talent, and scaling partnerships to help clients unlock value from AI at speed and scale. Infosys is emerging as a leader in AI services, with AI-led programs now deployed across 90% of our top 200 clients and rapidly scaling across industries.

Infosys is well-positioned as the leading company for AI services.

Our AI strategy is built on six core pillars of our AI-First value framework – strategy & engineering, data, process, legacy modernization, physical AI, and trust – together addressing a US$300 billion opportunity, based on market estimates. These capabilities enable clients to accelerate growth programs and reimagine their legacy systems landscape, support data and process readiness, and deploy AI responsibly.

For Q3, we shared that our revenue from these six areas was 5.5% of our total revenue and growing at a significantly faster pace than the company. We are executing on our strategy of pivoting to AI services at speed. We have built strong partnerships with leading AI native companies and have a large base of employees trained on their foundation models. This is resulting in accelerated enterprise deployment helping our clients to unlock AI value at scale. Our focus is to continuously re-skill our over 3,25,000 employees on AI.

We are advising clients across a wide range of AI powered transformation programs. Some of the key areas of interest from our clients include rapid AI adoption for coding and code modernization as well as for building agents across business functions.

We are harnessing the power of our industry-leading AI Suite, Infosys Topaz to help enterprises accelerate growth and productivity from AI. Our purpose-built composable stack of services and agents in Topaz Fabric enables our clients to leverage the full benefit of different foundation models in a token-efficient manner maximizing value while minimizing cost and risk.

Our clients' trust in Infosys, our deep knowledge of their technology landscape, our market leading offerings, our innovation track record, and our comprehensive understanding of AI, make us an ideal partner and a navigator for our clients' AI programs.

Technology continues to fundamentally reshape businesses across industries worldwide. AI is increasingly being applied to fine tune domain specific capabilities and industry focused use cases. Clients are navigating the challenge of rapidly reinventing their processes and systems in the AI era, which requires a strong understanding of emerging technologies, new ways of working, and a deep appreciation of AI ecosystems, business processes, and operational practices.

We are supporting clients in transforming every aspect of their businesses through technology – ranging from building a robust digital core to reimagining business operations – to enhance agility, efficiency, and resilience, while accelerating growth initiatives. Responsible business practices, including the adoption of ESG principles, continue to gain momentum. During the year, organizations increasingly focused on reconfiguring cost structures, improving resilience and agility, delivering personalized experiences for customers and employees, and launching innovative and disruptive products and services.

Our strategic objective is to build a sustainable and resilient organization that remains relevant to the agenda of our clients, while creating growth opportunities for our employees, generating profitable returns for our investors and contributing to the communities that we operate in.

Our clients and prospective clients are faced with transformative business opportunities powered by advances in software and computing technology, especially in AI. These organizations are dealing with the challenge of having to reimagine their core offerings, processes and systems rapidly and position themselves as leaders in their industry. Our strategy is to be a navigator for our clients on their AI journey and help them unlock business value. We help our clients ideate, plan and scale their AI future by building strong data foundations with robust cloud capabilities. At the same time, we are also conscious of the need to build adequate safeguards around privacy, ethics, and controls through Responsible AI practices, which we are evangelizing not only within the company, but also across the industry.

## Infosys AI vision

We aspire to be the leading partner to "unlock AI value" and deliver business outcomes on revenue growth, cost optimization and innovation.

We have a two-pronged strategy for AI: AI first services – To capture new demand to drive growth and AI augmented services – To reinvent existing services to win higher wallet share. These are built on a strong foundation of platforms and intellectual property, ecosystem partnerships, talent base, and a strong brand.

suite, Infosys Topaz™. This move opens a new frontier in IT services and will enable the company to tap into an incremental AI first services opportunity of USD 300-400 billion by 2030 as per market estimates.

Our AI-first value framework is designed to support this journey, helping clients move beyond experimentation and responsibly scale AI as an integral component of their enterprise systems. The framework defines six value pools through which AI can deliver meaningful, sustainable business impact. These value pools are deeply interconnected, reflecting the complexity of real-world enterprises and legacy environments. Together, they provide a structured and disciplined path to orchestrate data, technology, and operations at scale.

- **AI Strategy & Engineering:** Design and implement AI strategies, platforms, and architectures tailored to business needs. By orchestrating AI agents, proprietary platforms, and third-party tools on purpose-built infrastructure, enterprises can move beyond experimentation to establish a unified, enterprise-wide AI operating model.
- **Data for AI:** Prepare enterprise data, both structured and unstructured, for AI model readiness. By building AI-ready data platforms and applying AI-grade data engineering (including finger printing and synthetic data services), organizations can convert raw data into a trusted strategic asset that fuels advanced analytics, predictive intelligence, and more informed, real-time decision-making.
- **Process AI:** Transform core business processes by integrating AI agents and human expertise, with a focus on redesigning end-to-end workflows. It enables domain-aware agents to work alongside humans to drive step-change improvements in efficiency, experience and deliver business outcomes across functions and industries.
- **Agentic Legacy Modernization:** Leverage AI agents to reverse-engineer existing estates, understand their intent and progressively modernize them without disruption. This helps enterprises reduce technical debt while gaining the agility to respond to changing business demands.
- **Physical AI:** Design intelligent products and embed AI into physical devices so they can capture sensor data, interpret signals, and take real-time action. By combining digital twins, robotics, autonomous systems, and edge intelligence, organizations can reimagine products, operations, and experiences where digital and physical converge.
- **AI Trust:** Ensure AI systems and agents embrace responsible, secure, and ethical AI practices across

# Managing financial capital

Infosys has a high cash-generating business with access to capital markets across the world. Our strong credit rating allows us to raise debt at competitive rates in the future, if needed. The primary source of funds is cash from operations and income from short and long-term investments, among others.

Our primary sources of liquidity are cash and cash equivalents, and the cash flow generated from our operations. We continue to remain debt-free, and we maintain adequate cash to meet our operational and strategic requirements, and unforeseen events, while also earning sufficient returns.

Our consolidated cash and investments include deposits in banks, investments in debt mutual funds, Commercial Paper (CP), quoted bonds and securities issued by government and quasi-government organizations, non-convertible debentures and such instruments issued by eligible financial institutions with high credit ratings guided by our treasury policy.

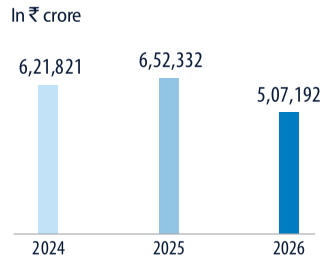

We also build financial assets and create financial value by investing in the startup ecosystem. These investments enable us to access innovation, which together with our services and solutions, deliver benefits to our clients. Most often, our investments comprise minority equity positions in startup organizations and / or venture capital funds.

## Shareholder value creation

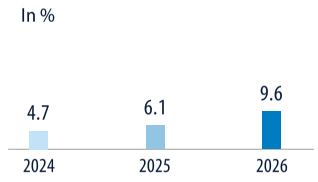

We constantly endeavor to fulfill the expectations of our investors through responsible business decisions and governance. Integrity and transparency are top priorities in our relationship with our investors.

We are privileged to share a strong relationship with investors, based on a deep understanding of their expectations and our commitment to

to deliver superior revenue growth and operating margins through prudent financial management and sound corporate governance – resulting in share value appreciation, leading to sustained value creation for investors. We maintain transparency in our disclosures and frequent communication with investors through channels such as quarterly post-result calls, analyst meets, the Annual General Meeting, and regular one-to-one and group interactions.

## Distribution of value created through Capital Allocation Policy

Effective from financial year 2025, the Company expects to continue its policy of returning

flow cumulatively over a 5-year period through a combination of semi-annual dividends and/or share buyback / special dividends, subject to applicable laws and requisite approvals, if any. Under this policy, the Company expects to progressively increase its annual dividend per share (excluding special dividend, if any). Details of our Capital Allocation Policy are available at https://www.infosys.com/investors/corporate-governance/documents/capital-allocation-policy.pdf.

The Company has returned approximately 82.1% of the free cash flow for fiscals 2025 and 2026 through dividends and buybacks, in line with the Capital Allocation Policy.

**We bring our Employee Value Proposition (EVP) to life through the experiences we design and deliver every day – anchored in meaningful work, continuous growth, protected well-being, and a genuine sense of belonging. This focus enables our workforce to perform at its best while staying connected to a shared purpose.**

**We strive to create a world-class employee experience, focusing on Experience by Design – designing consistent best-in-class policies, processes, programs and systems, keeping employees at the core of whatever we do.**

## Employee Value Proposition

Our Employee Value Proposition (EVP) is the unique set of experiences, rewards, benefits, and fulfillment that the employee gets for their commitment and skills. This is Infosys' promise to its employees – proudly called 'Infoscions'.

## Nurturing workplace inclusivity

At Infosys, inclusion is a part of our culture, embedded in how we lead, learn, and grow together.

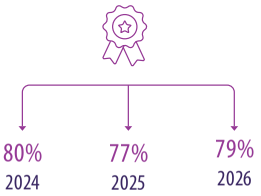

As part of our ESG Vision 2030, we aim to achieve 45% female representation in our workforce by 2030. In fiscal 2026, women made up 39.5 % of the total workforce.

## Employee health and wellness

Infosys is committed to fostering a safe, healthy, and incident-free workplace for employees, contractors and other stakeholders. Through our integrated Occupational Health and Safety Management System aligned with ISO 45001, the organization proactively identifies workplace hazards, implements risk mitigation controls and strengthens a culture of safety excellence. Regular audits, safety initiatives, employee engagement programs, and emergency preparedness drills contribute towards continuous improvement in safety performance and employee well-being. Infosys' wellness philosophy is embodied in HALE (Health Assessment & Lifestyle Enrichment) – a comprehensive, award-winning framework that integrates well-being into the Company's culture and operating model. HALE is anchored on the four pillars of Physical, Emotional, Social, and Digital Well-being, with Safety embedded as a core, non-negotiable component. This holistic approach ensures that wellness is accessible, inclusive, and relevant across geographies, work models, and diverse workforce needs.

## Infosys Pulse

Infosys Pulse is the Company's employee feedback platform designed to capture insights on workplace experience. It enables leadership to stay aligned with employee sentiment and drive continuous improvement. The platform supports data-driven decision-making by translating feedback into meaningful organizational actions.

## InStep

Infosys' flagship global internship program, InStep, has

- 220+ partner institutions in over 50 countries
- more than 3,500 alumni members and interns from over 50 nationalities.

InStep has been ranked as the World's #1 Internship Program, five times in a row by Vault Firsthand, a prestigious career intelligence platform. InStep has been instrumental in building strong academic partnerships for Infosys with premier global institutions, generating numerous patents and publications, along with contributing to the overall localization efforts. The recent launch of InStep Japan marks another milestone in our journey to nurture global talent.

## Flexibility by design and distributed workforce

We established innovation hubs, nearshore centers and digital design

people and their comfort, offers the flexibility to work from home and office, at locations closest to their homes. As part of this strategy, we have set up offices in Ahmedabad, Guwahati, Kolkata, Visakhapatnam, Noida, Hubballi, Indore, Navi Mumbai, Nagpur and Coimbatore in India over the last few years.

We follow a distributed-hybrid model that supports self-development, collaboration, and business outcomes. The vast majority of our workforce operates in a hybrid manner. We proactively monitor work-hour patterns to identify risks of excessive or unsustainable workloads and nudge employees to pause, recharge, and restore balance. Managers play a critical role in making flexibility fair and effective. They are regularly reminded and supported with insights to help identify workload imbalances, staffing challenges, or individuals who may need additional support. By ensuring equitable distribution of work, we actively mitigate the risks of stress and burnout and foster healthier, more resilient teams.

## Leveraging AI to improve employee experience

At Infosys, we recognize that each employee is unique, and so should their journey within the organization be. In today's digital-first world, we are harnessing the power of Artificial Intelligence (AI) to deliver personalized experiences at scale. In line with this, we are reimagining the employee experience by integrating AI across the entire talent lifecycle – from recruitment to onboarding to performance management and continuous learning till offboarding. We are committed to working with experts, partners, academia, and other stakeholders to develop new products and services that meet the needs of our customers and communities. We are also focused on strengthening our Tech for Good solutions and providing an environment to incubate new businesses and scale startup-led offerings.**

**With iCETS, Living Labs, Infosys Innovation Network, and Infosys Business Incubator, we have a broad portfolio of offerings across industry segments, while the Infosys Prize and the Aarohan Social Innovation Awards provide a platform for innovators and social entrepreneurs, respectively.**

## Infosys Center for Emerging Technology Solutions (iCETS)

iCETS is the emerging technology incubation unit for Infosys, delivering next-generation platforms and innovation-as-a-service powered by New Emerging and eXploratory Technologies (NEXT).

**Driving next-generation innovation:** As AI adoption accelerates, generative AI is scaling from experiments to enterprise deployment, transforming how businesses operate and innovate. iCETS leads this shift by enabling enterprises to apply emerging technologies through a structured, outcome-driven approach.

**A structured innovation journey: Now, Near, and Next:** iCETS innovation framework is grounded in a clear and scalable model that balances long-term vision with immediate business impact:

### Now

**Platforms and ecosystems:** Driving enterprise-scale value through reusable platforms, accelerators, and integration capabilities that operationalize AI at scale. Together, these pillars form a cohesive measurable business outcomes. At the core of our "Now" strategy is Infosys Topaz Fabric – composable and interoperable AI agents, tools, services, and models. The stack enables organizations to optimize existing IT processes and eliminate or automate manual tasks. It helps enterprises build on existing investments through a platform-of-platforms approach, unlocking value across the enterprise landscape.

### Near

**Living Labs:** Bringing innovation to reality through co-creation, rapid prototyping, and real-world validation, Living Labs enable clients to contextualize, experiment, iterate, and de-risk innovations in controlled environments.

**Infosys Living Labs** are global innovation hubs where clients, partners, startups, and academia co-create solutions using emerging technologies.

**Client Living Labs** deliver Innovation-as-a-Service, enabled by three flagship programs: IncubateNext for scalable, real-world innovation; ImagineNext for future opportunity discovery; and market and technology signals into action.

### Next

**Applied Research Centers (ARC):** We innovate across Advanced AI, New Interaction Models, Cybersecurity, Autonomous Machines, Humanoids, and Quantum – bringing research-driven emerging technologies into enterprises for real client impact.

## Nurturing innovation

**Be The Navigator (BTN)** empowers our teams to develop innovative solutions for our valued clients with a structured framework for ideation, prototyping and incubation. 12,435 BTN ideas were submitted, 2,429 implementations have been completed and 1,101 are in progress.

**Infosys Innovation Network (IIN)** is a well-orchestrated partnership of select startups, universities, hyperscalers and Infosys to incubate and bring the best of innovations in emerging tech areas such as AI, gen AI, data, fintech, cloud, cybersecurity, InsurTech and more, from across the globe. Today, IIN boasts of 430+ startups that have generated 1,300+ client impressions.

**Infosys Business Incubator (IBI)** is designed to create and scale entrepreneurship capabilities within Infosys with next-generation micro platform and micro service line-led businesses for Infosys. The incubator curates new cohorts of businesses each year to sustain and nurture talent. IBI has engaged with 1,000+ entrepreneurs and five ventures have been selected for incubation from cohort 1 and three from cohort 2.

**Be A Maker** program offers opportunities for showcasing creative expressions of ideas in mentored by ENGG, Kaleidoscope, and iCETS, enables rapid innovation and iterative learning through direct feedback from experts. 200+ ideas have been generated and five phygital showcases have been created for clients.

## Infosys Knowledge Institute (IKI)

IKI is the business research and thought leadership arm of Infosys. IKI harnesses the intellectual capital of Infosys' experts and client collaborations to produce novel, distinctive content and insights on the business impact that technology can drive for enterprises. IKI also develops proprietary data and insights through primary research, including large-scale surveys and quantitative analysis. These are published through its flagship Radar maturity reports, the annual Tech Navigator report and ongoing TechCompass tech trends series, and industry-focused market outlooks and executive journals. IKI has collaborated with over 1,000 clients and created over 2,000 assets since inception. For more information, visit https://infosys.com/iki.

**Long before climate change emerged as a global boardroom priority, Infosys recognized that natural capital is integral to long-term value creation. Our approach to environmental stewardship is holistic, science-driven, and anchored in responsible growth.**

**We are advancing decisively towards climate positivity through our Reduce and Restore strategy.**

## Advancing climate positivity

In FY26, Infosys continued to advance its journey from carbon neutrality to climate positivity. By integrating efficiency, clean energy, and carbon sequestration with regenerative, nature-based solutions, we are moving beyond emissions reduction to creating net positive environmental outcomes. The initiatives that follow reflect our commitment to Reduce and Restore – strengthening resilience across operations, value chains, and ecosystems.

### 1. Energy efficiency and low-carbon approach

Infosys continues to lead in energy efficient, low-carbon infrastructure, embedding efficiency across the full life cycle of our buildings. Our campuses leverage advanced technologies such as radiant cooling, radiant heating, innovative climate-adaptive cooling, intelligent controls, and climate-responsive design, enabling sustained reductions in operational energy demand.

Today, 84% of our office space is certified to the highest green building standards.

### 2. Renewable energy

Infosys continued to accelerate its clean energy journey, strengthening resilience while navigating an evolving regulatory and policy landscape. We have installed 62.42 MWp of solar photovoltaic capacity ground-mounted systems, reducing dependence on conventional energy sources and enhancing onsite generation.

Complementing this, we increasingly procure renewable power through third-party power purchase agreements and green tariff mechanisms, adapting our sourcing strategy to align with changing regulations across geographies.

### 3. Decarbonizing the supply chain

We are working closely with our supplier ecosystem to decarbonize the value chain. We have prioritized engagement with high-emission IT hardware suppliers through onsite assessments and senior-level dialogues to strengthen alignment on decarbonization roadmaps. We supported suppliers in improving Scope 1, 2, and 3 emissions measurement, establishing robust baselines, and adopting verified Environmental Product Declarations. Ongoing handholding and performance tracking continue to help embed climate action into supplier operations, reinforcing a resilient, future-ready, and responsible supply chain.

### 4. Carbon offsets and regeneration

We address unavoidable emissions through community-centric, high-quality carbon offset programs, including clean cookstove initiatives in Maharashtra and Karnataka. Complementing offsets, Infosys has built one of India's largest corporate agroforestry programs, with around 14 million saplings planted across multiple states. These long-term plantations enhance carbon sequestration, improve soil and water resilience, and strengthen rural livelihoods – marking a decisive shift from compensation to ecological restoration at scale.

To date, these initiatives have benefited over 3,00,000 rural families and created more than 4,800 local jobs, delivering climate action with strong social benefits.

## Water stewardship

Water stewardship continues to be a core pillar of our environmental strategy, with sustained progress in reducing freshwater withdrawal and strengthening local water ecosystems. As a UN CEO Water Mandate signatory, we remain focused on minimizing consumption, maximizing reuse, and enhancing water availability in the communities where we operate.

100% of wastewater across our campuses is recycled, supported by large-scale rainwater harvesting systems and demand-side efficiency measures. Together, these interventions have further reduced our reliance on external water sources and strengthened resilience to increasing water stress. Our Bangalore campus is certified as water positive. In continuation of our efforts on achieving water positive / neutral status based on NITI AAYOG guidelines in our campuses, we achieved Scope 1 certification at nine of our campuses in India this year reflecting consistent performance over time.

### Lake rejuvenation

Extending our water stewardship beyond campus boundaries, we continue to implement lake rejuvenation projects in partnership with local stakeholders. Till date, our lake rejuvenation efforts increased cumulative storage capacity from 6 bn liters to 10.3 bn liters, adding 4.3 bn liters of freshwater capacity contributing to urban resilience, biodiversity revival, and community water security. This effort remains central to our goal of climate positivity, restoring more water than we consume.

## Waste management

At Infosys, our waste management strategy continues to be anchored in the principles of reduce, reuse, refurbish, repurpose, and recycle with steady progress toward our ambition of zero waste to landfill. We continue to strengthen segregation, onsite processing, and material recovery across our campuses, further embedding circularity into daily operations.

Organic waste continues to be treated onsite through biogas plants, composting and recycling mechanisms, minimizing offsite disposal and associated emissions, and also replacing a part of cooking gas requirements in our campuses. These sustained efforts have enabled consistent improvements in diversion rates and operational efficiency

Our e-waste includes IT equipment, mobile phones, printers, cartridges, electrical and electronic equipment such as refrigerators, microwaves, and air conditioners, lithium ion batteries, and cables, among others. We strive to extend asset life through hardware upgrades, component replacements, and re-imaging. Our

**Our Manufactured Capital includes our energy-efficient offices, data centers, innovation hubs, digital studios, and our technology infrastructure across the globe. Our infrastructure is modeled taking into consideration stakeholder expectations of our commitments towards climate change mitigation, judicious use of natural resources and preserving our environment.**

**With a growing portfolio of highest-rated green buildings and accelerated investments in intelligent, collaborative workplace technologies, we are elevating the quality of our hybrid work environments. We continue to lead from the front, redefining benchmarks in environmental sustainability and future-ready infrastructure.**

## Advancing the frontiers of energy performance

Through progressive design strategies, enhanced building envelopes, intelligent HVAC systems, and seamless integration of renewable energy, we continue to expand what high-performance buildings can achieve. The use of high-performance materials with recycled content, passive design principles, and real-time monitoring enables reduced energy intensity while improving occupant well-being.

Guided by our six core principles – health and wellness, social connect, sustainability, inclusivity, and technology enablement – our campuses are transforming into dynamic ecosystems that cater to varied work patterns, emerging capabilities, and an enhanced employee journey. Environmental stewardship is integrated through efficient interior solutions, sustainable materials, enhanced lighting and air quality, along with intelligent digital systems that minimize ecological footprint while improving usability and comfort, ensuring accessibility for all.

Infosys campuses, known for their world-class infrastructure and green

84% of our office spaces certified as green buildings, we strive to redefine benchmarks in sustainable infrastructure, while delivering world-class, sustainable workplaces.

## Embedding circularity and innovation in design

As a key participant in the built environment, we recognize the importance of addressing embodied carbon, which remains a significant contributor to the life cycle emissions of buildings. We continue to integrate Life Cycle Assessment (LCA) into early-stage decision-making to support responsible material selection and design optimization.

Steel and cement, which account for nearly 70% of embodied carbon in office buildings, have been primary focus areas. We have prioritized the procurement of secondary steel produced from recycled scrap, which has a significantly lower emission intensity (1–1.5 $tCO_2e/t$ compared to 2.5–3.5 $tCO_2e/t$ for primary steel). Further, we have optimized cement use through blending with industrial by-products such as fly ash and ground granulated blast furnace slag.

While advancing thermal management in our office buildings through innovative technologies

conditions, we have standardized the procurement of air-conditioning equipment using refrigerants with very low global warming potential as a regular practice.

We strengthened our circularity efforts by eliminating plastic and thermocol-based packaging for IT equipment and embedding sustainable packaging criteria into our procurement processes. Partnering closely with suppliers, we transitioned to paper-based, recycled, and biodegradable fibre alternatives, including materials derived from agricultural waste – demonstrating a shift from operational waste management to design-led circularity.

### Resource circularity in operations

Our Circular Economy initiatives focus on responsible utilization of IT assets, ensuring maximum value extraction across the asset lifecycle while minimizing environmental impact. We adopt a structured approach to extend asset life through reuse, redeployment, and refurbishment, thereby reducing e-waste generation and the demand for new resources.

A strong emphasis is placed on repurposing and reuse of IT assets across functions and delivery centers, enabling optimal utilization and avoiding premature disposals. Assets that reach the end of their usable life are handled through responsible end-of-life management.

## Green IT

InfosysIT has embedded sustainable practices across the life cycles of service design, operations, and disposal of IT assets.

### Data center efficiency

the key pillars of its sustainability and responsible growth strategy. Recognizing the environmental impact of traditional infrastructure models, the organization has architected its data center ecosystem to prioritize efficiency, scalability, and long-term resource optimization.

This transformation is enabled through the adoption of density-optimized hyperscale platforms that enable cloud-scale agility and high-density server virtualization. This approach has significantly reduced infrastructure sprawl while maximizing utilization of compute resources, embedding sustainability principles directly into core IT operations.

Building on this modernized platform, InfosysIT rationalized and consolidated data centers and server rooms across development centers. This consolidation effort reduced redundancy, optimized space usage, and enabled a more sustainable operating footprint.

To ensure sustainability gains are continuously improved, InfosysIT has made focused investments in Data Center Infrastructure Management (DCIM) capabilities. These tools provide integrated, real-time visibility across both IT and facilities infrastructure, enabling data-driven decisions, proactive optimization, and informed consolidation planning. By embedding observability and governance into the operating model, InfosysIT ensures that sustainability outcomes are measurable, repeatable, and scalable over time.

### Creating value for our customers

#### AI-first digital transformation

We help our clients accelerate their business transformation through our AI-first value framework. Our suite of services and solutions can deliver meaningful and sustainable business impact across six strategic pillars – Orchestrate, Insight, Transform, Modernize, Innovate and Assure. The pillars are deeply integrated and together, they provide a structured path to orchestrate data, technology, and operations at scale. Our approach enables clients to navigate the full AI journey with confidence, speed, and value realization. Details of our key customer services and solutions are available at https://www.infosys.com/industries/.

#### Client satisfaction

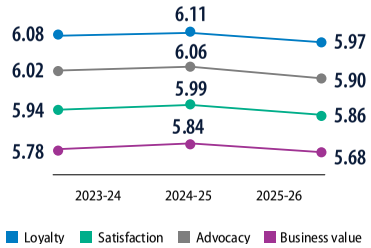

At Infosys, delivering value to our clients is at the center of everything we do. We conduct structured Annual Client Value and Quarterly Engagement surveys. These surveys are designed to enhance our understanding of our relationships with client organizations, prioritize areas for improvement, and remain attuned to their evolving needs. The latest annual client survey indicates remains strong, with 91% of clients reporting high satisfaction scores and responses from 86% of accounts.

Infosys is viewed as a trusted long-term partner, differentiated by strong account management, partnership orientation, and consistent delivery excellence supported by experienced subject-matter experts.

Tenured client relationships reinforce trust and business alignment, while proactive AI, automation, and strategic technology advisory are increasingly recognized as value drivers.

Clients indicate an expectation for forward-looking, business-led AI advisory to support the evolution of AI roadmaps, identification of high-value use cases, and scalable business outcomes, with Infosys viewed positively in this context.

**Client satisfaction: Trend of key outcomes (scale 1 to 7)**

### Community

#### Digital skilling at scale

Infosys Springboard is Infosys' flagship digital learning platform that empowers people with skills to be successful in the 21st century. Till date, we have reached 15 million+ people including employees, client's workforce, students, teachers and communities with digital skilling initiatives.

#### Infosys Foundation

Infosys Foundation has touched over 7 million lives in the last year alone through its programs in the areas of education, healthcare, women empowerment, and environmental sustainability, among others, to create long-lasting impact. Recognizing that social innovations from the heart could transform societies, the Foundation launched the Aarohan Social Innovation Awards in 2018, which has completed four editions so far.

##### Infosys Springboard Livelihood Program

In 2024, Infosys Foundation launched the Infosys Springboard Livelihood Program, aligning with the Company's ESG ambition to create employment opportunities for 5,00,000 people by 2030. The program partnered with multiple implementation agencies working across rural belts, tribal regions, aspirational districts, urban slums, ITIs, and colleges. So far, the program has trained over 4,10,000 individuals, and 2,20,000+ individuals have been enabled with job offers across STEM and non-STEM roles.

##### Cornea care initiatives

Infosys Foundation has partnered with the LV Prasad Eye Institute (LVPEI) for the Universal Cornea from early detection and treatment / surgery to eye banking and long-term follow-up. During FY26, the initiative reached 1,74,659 beneficiaries, conducted 2,28,334 school screenings, and supported the harvesting of 15,911 corneas. It is being implemented across Andhra Pradesh, Odisha and Telangana. The Foundation is also supporting Project Cornea – Corneal Blindness Screening and Treatment Initiative, implemented by Vivekananda Netralaya, a part of Ramakrishna Mission Ashrama, Dehradun. The initiative that began in August 2025, covering Uttarakhand (Garhwal region) and adjoining districts of Western Uttar Pradesh, Haryana, and Himachal Pradesh, has so far screened 15,270 individuals. Read more in the Foundation's annual reports at https://www.infosys.com/infosys-foundation/about/reports.html.

#### Infosys Foundation USA

Infosys Foundation USA is committed to expanding access to inclusive computer science education and digital upskilling opportunities for all learners. Through targeted programs, strategic partnerships, and continued innovation of the Infosys Springboard digital learning platform. The Foundation reached more than 1.26 mn students and 16,000 educators in fiscal 2026 and impacted over 27 mn students and 1.4 mn educators, since its inception in 2015. ## Capital Allocation Policy

Effective from financial year 2025, the Company expects to continue its policy of returning approximately 85% of the free cash flow cumulatively over a five-year period through a combination of semi-annual dividends and / or share buyback / special dividends, subject to applicable laws and requisite approvals, if any. Under this policy, the Company expects to progressively increase its annual dividend per share (excluding special dividend, if any). Free cash flow is defined as net cash provided by operating activities less capital expenditure as per the Consolidated Statement of Cash Flows prepared under IFRS. Dividend and buyback include applicable taxes.

In line with the Capital Allocation Policy, the Board, at its meeting held on September 11, 2025, approved a proposal to buy back fully paid-up equity shares of face value ₹5 each, aggregating up to ₹18,000 crore, which was subsequently approved by shareholders via postal ballot on November 4, 2025.

The Buyback involved the purchase of 10,00,00,000 equity shares, representing approximately 2.41% of the Company's paid-up equity share capital (standalone) as of June 30, 2025, at a price of ₹1,800 per share. The offer was made to all eligible shareholders as on the record date (November 14, 2025) on a proportionate basis through the tender offer route, including shareholders who became eligible via ADS cancellation. The tender period was open from November 20 to November 26, 2025. The buyback was completed on December 4, 2025, with all shares extinguished, resulting in a cash outflow of ₹18,000 crore (excluding transaction costs), funded from free reserves including securities premium, in accordance with Section 68 of the Companies Act, 2013.

Further, as required under Section 69, the Company created a Capital Redemption Reserve of ₹50 crore as at March 31, 2026, equivalent to the nominal value of shares bought back, by appropriating from general reserves.

During the year ended March 31, 2026, the Company paid an interim dividend of ₹23 per equity share and announced a final dividend of ₹25 per share, subject to shareholders' approval in the ensuing Annual General Meeting (AGM), including the final dividend declared above, the Company has returned approximately ₹55,523 crore, which is 82.1% of the free cash flow for fiscal 2025 and 2026 through dividends and buybacks, in line with the Capital Allocation Policy.

The Capital Allocation Policy is available on our website, at https://www.infosys.com/investors/corporate-governance/documents/capital-allocation-policy.pdf.

## Liquidity

Our principal sources of liquidity are cash and cash equivalents, investments and the cash flow that we generate from our operations. We continue to be debt-free and maintain sufficient cash to meet our strategic and operational requirements. We understand that liquidity in the Balance Sheet has to balance between earning adequate returns and the need to cover financial and business requirements. Liquidity enables us to be agile and ready to meet unforeseen strategic and business needs and opportunities.

As of March 31, 2026, we had ₹40,794 crore in working capital on a standalone basis, and ₹51,167 crore on a consolidated basis.

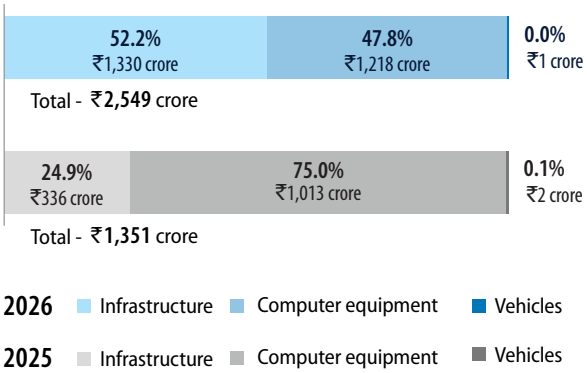

Consolidated cash and investments stand at ₹28,662 crore on a standalone basis and ₹43,075 crore on a consolidated basis as on March 31, 2026, as against ₹35,916 crore on a standalone basis, and ₹47,549 crore on a consolidated basis as on March 31, 2025.

Consolidated cash and investments, on both standalone and consolidated basis, include deposits with banks with high credit ratings assigned by international and domestic credit rating agencies. As a result, liquidity risk of cash and cash equivalents is limited. Ratings are monitored periodically. Liquid assets also include investments in debt mutual fund units, tax-free bonds, Certificates of Deposit (CDs), Commercial Paper (CP), quoted bonds and securities issued by government and quasi-government organizations, and non-convertible debentures. CDs and CPs represent marketable securities of banks, Non-Banking Financial Companies (NBFCs) and eligible financial institutions for a specified time period with high credit rating given by domestic credit rating agencies. Government securities are highly liquid and marketable instruments issued across tenure, backed by the Government and carrying a sovereign credit. Investments made in non-convertible debentures are issued by government-aided institutions and financial institutions with high credit rating. We invest after considering counterparty risks based on multiple criteria including Tier-I capital, capital adequacy ratio, credit rating, profitability, Non Performing Asset (NPA) levels and deposit base of banks and financial institutions.

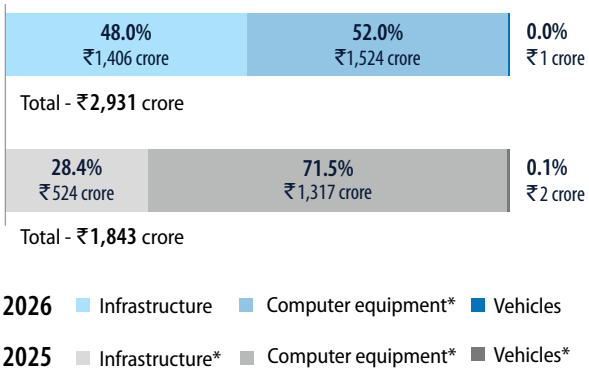

The details of these investments are disclosed under the 'non-current and current investments' section in the *Standalone* and *Consolidated financial statements* in this Integrated Annual Report.

Note:

The Company declares and pays dividend in Indian rupees. Companies are required to pay / distribute dividend after deducting applicable withholding income taxes. The remittance of dividends outside India is governed by Indian law on foreign exchange and is also subject to withholding tax at applicable rates.

* Payout ratio is computed as a percentage of free cash flow prepared under IFRS.

\# Excludes buyback transaction cost of ₹58 crore

(1) Recommended by the Board of Directors at its meeting held on April 23, 2026. The payment is subject to the approval of the shareholders at the ensuing AGM of the Company to be held on June 23, 2026. The record date for the purposes of the final dividend will be June 10, 2026 and payment will be made on June 25, 2026.

(2) Our present Capital Allocation Policy is to pay approximately 85% of the free cash flow cumulatively over a five-year period through a combination of semi-annual dividends and / or share buyback and / or special dividends, subject to applicable laws and requisite approvals, if any. Free cash flow is defined as net cash provided by operating activities less capital expenditure as per the Consolidated Statement of Cash Flows prepared under IFRS. Including buyback, the Company has returned 82.1% of the cumulative free cash flow for the years ended March 31, 2025 and March 31, 2026.

## Employee stock options / Restricted Stock Units (RSUs) / Performance stock units (PSUs)

The Company grants share-based benefits to eligible employees with a view to attract, retain the best talent, and encourage employees to align individual performances with the Company objectives, and promote their increased participation in the growth of the Company.

### Infosys Expanded Stock Ownership Program 2019 ("the 2019 Plan")

On June 22, 2019, pursuant to the approval by the shareholders at the AGM, the Board was authorized to introduce, offer, issue and provide share-based incentives to eligible employees of the Company and its subsidiaries under the 2019 Plan. The maximum number of shares under the 2019 Plan shall not exceed 5,00,00,000 equity shares. To implement the 2019 Plan, up to 4,50,00,000 equity shares may be issued by way of secondary acquisition of shares by the Infosys Expanded Stock Ownership Trust. The RSUs granted under the 2019 Plan shall vest based on the achievement of defined annual performance parameters as determined by the administrator (the Nomination and Remuneration Committee). The performance parameters will be based on a combination of relative Total Shareholder Return (TSR) against selected industry peers and certain broader market domestic and global indices and operating performance metrics of the Company as decided by the administrator.

Each of the above performance parameters will be distinct for the purposes of calculation of the quantity of shares to vest based on performance. These instruments will generally vest between a minimum of one and a maximum of three years from the grant date.

Further, based on the recommendation of the Nomination and Remuneration Committee, the board approved the amendment to the 2019 Plan to extend the grant period by seven (7) years from the date of shareholder approval, thereby extending the validity of the Plan to a total period of ten (10) years from such approval, for the grant of stock incentives to eligible employees of the Company and its subsidiary companies. The amendment to the 2019 Plan shall be subject to the shareholders approval and the details of the amendment are available in Explanatory statement of the Notice of the 45th Annual General Meeting of the Company.

### 2015 Stock Incentive Compensation Plan ("the 2015 Plan")

On March 31, 2016, pursuant to the approval by the shareholders through postal ballot, the Board was authorized to introduce, offer, issue and allot share-based incentives to eligible employees of the Company and its subsidiaries under the 2015 Plan. The maximum number of shares under the 2015 Plan shall not exceed 2,40,38,883 equity shares (not adjusted for bonus issue). These instruments will generally vest over a period of four years and shall be exercisable within the period as approved by the administrator. The exercise price of the RSUs will be equal to the par value of the shares and the exercise price of the stock options would be the market price as on the date of grant.

Consequent to the September 2018 bonus issue, all the then outstanding options granted under the stock option plan have been adjusted for bonus shares.

The total number of equity shares and American Depositary Receipts (ADRs) to be allotted to the employees of the Company and its subsidiaries under the 2015 Plan does not cumulatively exceed 1% of the issued capital. For the shares and ADRs issued under the 2019 Plan, the cumulative amount does not exceed 1.15% of the issued capital. The 2019 Plan and 2015 Plan are in compliance with the SEBI (Share Based Employee Benefits and Sweat Equity) Regulations, 2021, as amended from time to time, and there has been no material change to the plans during fiscal 2026 except for the changes in 2019 plan as proposed in the ensuing AGM.

The details of the 2019 Plan and 2015 Plan, including terms of reference, and the requirement specified under Regulation 14 of the SEBI (Share Based Employee Benefits and Sweat Equity) Regulations, 2021, are available on the Company's website, at https://www.infosys.com/investors/reports-filings/Documents/disclosures-pursuant-SEBI-regulations2026.pdf.

The details of the 2019 Plan and 2015 Plan also form part of the Notes to accounts of the financial statements in this Integrated Annual Report.

## 4. Corporate governance

### Our corporate governance philosophy

Our corporate governance practices are a reflection of our value system encompassing our culture, policies, and relationships with our stakeholders. Integrity and transparency are key to our corporate governance practices to ensure that we gain and retain the trust of our stakeholders at all times. Corporate governance is about maximizing shareholder value legally, ethically and sustainably. At Infosys, the Board exercises its fiduciary responsibilities in the widest sense of the term. Our disclosures seek to attain the best practices in international corporate governance. We also endeavor to enhance long-term shareholder value and respect minority rights in all our business decisions.

Our *Corporate governance report* for fiscal 2026 forms part of this Integrated Annual Report.

### Board diversity

The Company recognizes and embraces the importance of a diverse Board in its success. We believe that a truly diverse Board will leverage differences in thought, perspective, regional and industry experience, cultural and geographical background, age, ethnicity, race, gender, knowledge and skills, including expertise in financial, diversity, global business, leadership, information technology, mergers and acquisitions, Board service and governance, sales and marketing, Environmental, Social and Governance (ESG), risk management and cybersecurity and other domains, which will ensure that Infosys retains its competitive advantage. The Board Diversity Policy adopted by the Board sets out its approach to diversity.

The policy is available on our website, at https://www.infosys.com/investors/corporate-governance/documents/board-diversity-policy.pdf.

Additional details on Board diversity are available in the *Corporate governance report* that forms part of this Integrated Annual Report.

### Number of meetings of the Board

The Board met eight times during the financial year. The meeting details are provided in the *Corporate governance report* that forms part of this Integrated Annual Report. The maximum interval between any two meetings did not exceed 120 days, as prescribed by the Act.

### Policy on directors' appointment and remuneration

The current policy is to have an appropriate mix of executive, non-executive and independent directors to maintain the independence of the Board and separate its functions of governance and management. As of March 31, 2026, the Board has nine members, consisting of an executive director, a non-executive and non-independent director and seven independent directors. Two of the independent directors on the Board are women. Post fiscal 2026, Diane Enberg Jurgens has been appointed as an Additional and Independent Director on the Board of the Company with effect from April 22, 2026, subject to shareholders approval. The details of Board and committee composition, tenure of directors, areas of expertise and other details are available in the *Corporate overview* section that forms part of this Integrated Annual Report.

The policy of the Company on directors' appointment and remuneration, including the criteria for determining qualifications, positive attributes, independence of a director and other matters, as required under sub-section (3) of Section 178 of the Act, is available on our website, at https://www.infosys.com/investors/corporate-governance/documents/nomination-remuneration-policy.pdf.

We affirm that the remuneration paid to the directors is as per the terms laid out in the Nomination and Remuneration Policy of the Company.

### Declaration by independent directors

The Company has received necessary declaration from each independent director that he / she meets the criteria of independence laid down in Section 149(6), Code for independent directors of the Act and Regulation 16(1)(b) of the Listing Regulations.

### Board evaluation

The Nomination and Remuneration Committee engaged Egon Zehnder, external consultants, to conduct Board evaluation for the year. The evaluation of all the directors, committees, Chairman of the Board, and the Board as a whole, was conducted based on the criteria and framework adopted by the Board. The Board evaluation process was completed during fiscal 2026. The evaluation parameters and the process are explained in the *Corporate governance report* that forms part of this Integrated Annual Report.

### Familiarization program for independent directors

All new independent directors inducted into the Board attend an orientation program. The details of the training and familiarization program are provided in the *Corporate governance report*. Further, at the time of the appointment of an independent director, the Company issues a formal letter of appointment outlining his / her role, function, duties and responsibilities. ## Committees of the Board

As on March 31, 2026, the Board had six committees: Audit Committee, Corporate Social Responsibility Committee, Nomination and Remuneration Committee, Risk Management Committee, Stakeholders Relationship Committee and Environment, Social and Governance (ESG) Committee. All committees comprise only independent directors, one of whom is chosen as the chairperson of the committee.

A Cybersecurity Risk Sub-Committee of the Risk Management Committee has been constituted to assess and enhance preparedness to mitigate cybersecurity risks. The sub-committee comprises only independent directors, one of whom is chosen as the chairperson of the committee.

During the year, all recommendations made by the committees were approved by the Board.

A detailed note on the composition of the Board and its committees is provided in the *Corporate governance report*, which forms part of this Integrated Annual Report.

## Cybersecurity

At Infosys, our employees operate in a hybrid model. Hence, we continue to remain vigilant about and stay abreast of the evolving cybersecurity threats globally. To maintain a strong cybersecurity posture, the Information Security team monitors global cybersecurity events, ensuring compliance and its sustenance. Infosys is certified against the Information Security Management System (ISMS) Standard ISO 27001:2022. Additionally, we have been attested for SSAE 18 and ISAE 3402 SOC 1 and SOC 2 by an independent audit firm.

During fiscal 2026, we successfully strengthened our cybersecurity posture by embracing cutting-edge technology, tools, and processes. We focused on continuous cybersecurity workforce training and reskilling, fostering an inclusive security culture with shared ownership, while strengthening capabilities across AI/ML security, cyber resiliency, and secure supply chain ecosystems. We have empowered the developer community with dedicated courses and resource kits, aligning with our broader initiatives to enhance cybersecurity processes, technologies, and overall posture.

## 6. Corporate Social Responsibility (CSR)

Infosys has been an early adopter of CSR initiatives. The Company undertakes its CSR initiatives primarily through the Infosys Foundation, focusing on areas such as education, healthcare, women empowerment, and environmental sustainability. Its key areas of intervention include education and skill development to enable sustained livelihoods; healthcare, including preventive health; environmental sustainability and ecological balance; gender equality and empowerment of women; promotion of national heritage, art and culture; rural development; and disaster relief and rehabilitation.

The Company's CSR Policy is available on our website, at https://www.infosys.com/investors/corporate-governance/Documents/corporate-social-responsibility-policy.pdf.

The annual report on our CSR activities is appended as *Annexure 6* to the *Board's report*, which forms part of this Integrated Annual Report. Infosys also undertakes CSR initiatives outside of India, in US, Australia, and various parts of Europe. The initiatives in the US are carried out through Infosys Foundation USA. The said initiatives are over and above the statutory requirement.

The highlights of the initiatives undertaken by the Company, Infosys Foundation, and Infosys Foundation USA form part of this Integrated Annual Report.

### Environmental, Social and Governance (ESG)

In October 2020, the Company launched its ESG Vision 2030. Our focus is steadfast on leveraging technology to battle climate change, water management and waste management. On the social front, the emphasis is on the development of people, especially in the areas of digital skilling, improving diversity and inclusion, facilitating employee wellness and experience, delivering technology for good and energizing the communities we work in. We are also redoubling our efforts to serve the interests of all our stakeholders, by leading through our core values and setting benchmarks in corporate governance.

The ESG Committee was constituted on April 14, 2021, to oversee matters related to organization-wide ESG initiatives, priorities, and leading ESG practices. The ESG Committee reports to the Board and meets every quarter to review progress on the ESG ambitions mentioned in our ESG Vision 2030.

### Business Responsibility and Sustainability Report (BRSR)

In accordance with Regulation 34(2)(f) of the Listing Regulations, the BRSR forms part of this Integrated Annual Report. The report describes initiatives undertaken by the Company from an environmental, social and governance perspective. Further, SEBI vide its circular no. SEBI/HO/CFD/CFD-SEC-2/P/CIR/2023/122 dated July 12, 2023, updated the format of BRSR to incorporate BRSR core, a subset of BRSR, indicating specific Key Performance Indicators (KPIs) under nine ESG attributes, which are subject to mandatory reasonable assurance by an independent assurance provider. In accordance with this requirement, the Company has appointed Deloitte Haskins & Sells LLP as the assurance provider.

In addition to this, we also publish a comprehensive ESG Report annually, based on the GRI standard 2021. The ESG Report is available at https://www.infosys.com/sustainability/documents/infosys-esg-report-2025-26.pdf. Deloitte Haskins & Sells LLP has also assured certain select indicators of the ESG report designed based on GRI standards.

# Annexure 3 – Particulars of employees

We are a leading provider of AI-first business consulting and technology services, to enable organizations to unlock AI value at scale. We enable clients across 59 countries to outperform their competition and stay ahead on the innovation curve. The remuneration and perquisites provided to our employees, including that of the Management, are on par with industry benchmarks. The nomination and remuneration committee continuously reviews the compensation of the CEO and other Senior Management Personnel (SMP) to align both the short-term and long-term business objectives of the Company and to link compensation with the achievement of goals.

The details of remuneration to directors, KMP and other employees are in compliance with Rule 5 of Chapter XIII, the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014. In accordance with the requirements, tables 3(a) and 3(b) include the perquisite value of stock incentives at the time of their exercise and do not include the value of the stock incentives at the time of grant.

The change in remuneration in fiscal 2026 as compared to fiscal 2025 is primarily on account of change in perquisite value of stock incentives granted in previous years and exercised during the year and revision in compensation. The change in perquisite value of stock incentives exercised during the year includes the impact of number of units exercised and change in the share price.

MRE – Median Remuneration of Employees

Notes:

The remuneration details in the above table pertain to directors and KMP as required under the Companies Act, 2013. The table above additionally includes the % increase in remuneration and ratio of remuneration to MRE, excluding perquisite value of stock incentives exercised during the year.

The details in the above table are on accrual basis.

The % increase in remuneration is provided for directors and KMP with remuneration for the full current year and previous fiscal year. The ratio of remuneration to MRE is provided for directors and KMP with remuneration for the full current fiscal year.

The change in remuneration of independent director(s) is primarily attributable to foreign exchange fluctuations and changes in the composition of Board committees.

The change in remuneration in fiscal 2026 as compared to fiscal 2025 is primarily on account of change in perquisite value of stock incentives granted in previous years and exercised during the year and revision in compensation.

(1) Remuneration to KMP includes fixed pay, variable pay, retiral benefits and the perquisite value of stock incentives exercised during the period, determined in accordance with the provisions of the Income-tax Act, 1961. Accordingly, the value of stock incentives granted during the period is not included. The number of stock incentives granted in fiscal 2026 is mentioned in the above table. Independent Directors are not entitled to any stock incentives.

(2) Nandan M. Nilekani voluntarily chose not to receive any remuneration for his services rendered to the Company.

(3) a) Remuneration includes ₹50.75 crore pertaining to exercise of 2,72,400 Restricted Stock Units (RSUs) under the 2015 Plan and 64,690 RSUs under the 2019 Plan during fiscal 2026.

b) On the recommendation of the Nomination and Remuneration Committee and as approved by the shareholders, in accordance with the terms of his employment agreement effective July 1, 2022, the Board approved

i) the grant of 2,30,621 performance-based RSUs under the 2015 Plan effective May 2, 2025. These will vest based on the achievement of certain performance targets.

ii) the grant of 13,273 performance-based RSUs under the 2015 Plan effective May 2, 2025. These will vest based on the achievement of certain environment, social, and governance milestones as determined by the Board.

iii) the grant of 33,183 performance-based RSUs under the 2015 Plan effective May 2, 2025. These will vest based on the achievement of the Company's performance on cumulative relative TSR over the years and as determined by the Board.

iv) the grant of 18,132 annual time-based RSUs for fiscal 2026 under the 2015 Plan effective February 1, 2026. These will vest over a period of three years.

v) the grant of 66,366 performance-based RSUs for fiscal 2026 under the 2019 Plan effective May 2, 2025. These will vest based on the Company's achievement of certain performance criteria as laid out in the 2019 Plan.

These RSUs will vest in line with the employment agreement.

(4) a) Remuneration includes ₹5.53 crore on account of exercise of 21,346 RSUs and 6,876 ESOPs under the 2015 Plan and 10,098 RSUs under the 2019 Plan during fiscal 2026.

b) On the recommendations of the Nomination and Remuneration Committee, the Board approved

i) the grant of 53,020 time-based ESOPs under the 2015 Plan effective June 5, 2025. These ESOPs will vest over a period of four years and shall be exercisable within the period as approved by the Committee. The exercise price of the ESOPs would be the market price as on the date of grant.

ii) the grant of 20,020 time-based RSUs under the 2015 Plan effective February 1, 2026. These will vest over a period of four years.

iii) the grant of 16,900 performance-based RSUs under the 2019 Plan effective February 1, 2026. These will vest based on the Company's achievement of certain performance criteria as laid out in the 2019 Plan.

(5) a) Remuneration includes ₹0.38 crore on account of exercise of 1,224 RSUs under the 2015 Plan and 1,214 RSUs under the 2019 Plan during fiscal 2026.

b) On the recommendations of the Nomination and Remuneration Committee, the Board approved

i) the grant of 6,100 time-based ESOPs under the 2015 Plan effective June 5, 2025. These ESOPs will vest over a period of four years and shall be exercisable within the period as approved by the Committee. The exercise price of the ESOPs would be the market price as on the date of grant.

ii) the grant of 2,450 performance-based RSUs under the 2019 Plan effective February 1, 2026. These RSUs will vest based on the Company's achievement of certain performance criteria as laid out in the 2019 Plan.

The MRE was ₹11,13,024 and ₹10,72,008 in fiscal 2026 and fiscal 2025, respectively. The increase in MRE in fiscal 2026, as compared to fiscal 2025, is approximately 4%.

The average annual increase in the salaries of employees was 11% in India after accounting for promotions and other event-based compensation revisions for employees covered as part of the rewards program. Employees outside India received a wage increase in line with the market trends in the respective countries.

f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 and Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 2025 regarding the Companies Act and dealing with client;

g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2021; **(Not applicable to the Company during the audit period)** and

h) The Securities and Exchange Board of India (Buy-back of Securities) Regulations, 2018.

We have also examined compliance with the applicable clauses of the following:

(i) Secretarial Standards issued by The Institute of Company Secretaries of India.

(ii) The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 and amendments made thereunder ("Listing Regulations").

We further report that, with regard to the compliance system prevailing in the Company and on the examination of the relevant documents and records in pursuance thereof, on test-check basis, the Company has generally complied with the following laws applicable specifically to the Company:

- The Special Economic Zones Act, 2005 and the rules made thereunder; and
- Software Technology Parks of India Rules and Regulations

During the audit period, the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines and Standards etc. made thereunder.

**We further report that**

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors, and Independent Directors. During the audit period no changes took place in the composition of the Board of Directors.

Adequate notice was given to all directors to schedule Board meetings, agenda and detailed notes on agenda were sent at least seven days in advance (except in two cases where meetings were convened at a shorter notice for which necessary approvals obtained as per applicable provisions) and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

All decisions at Board meetings and Committee meetings are carried out unanimously as recorded in the minutes of the meetings of the Board of Directors or Committees of the Board, as the case may be.

We further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations, and guidelines.

We further report that during the audit period,

*[Pursuant to Section 135 of the Companies Act, 2013 read with Companies (Corporate Social Responsibility Policy) Rules, 2014, as amended.]*

## 1. Brief outline on CSR Policy of the Company:

Over the years, we have been focusing on sustainable business practices encompassing economic, environmental, and social imperatives, not only for business but also for the communities around us. Our Corporate Social Responsibility ("CSR") encompasses holistic community development and institution-building, while shaping and sharing solutions that serve the development of businesses and communities. Infosys' CSR Policy aims to contribute to the sustainable development of society and the environment, and to make our planet more livable for future generations. Infosys' CSR activities, amongst others, focus on Education and Skill Development to Enable Sustained Livelihoods, Healthcare, including Preventive Health, Environmental Sustainability and Ecological Balance, Gender Equality and Empowerment of Women, Promotion of National Heritage, Art and Culture, Rural Development, and Disaster Relief and Rehabilitation.

### CSR activities

Infosys Limited ("Infosys" or "the Company") has been an early adopter of CSR initiatives. Infosys undertakes CSR initiatives both directly as well as through Infosys Foundation ("the Foundation"). The Foundation was established in 1996 with a vision to boost our CSR initiatives. This was long before the Companies Act, 2013, mandated CSR activities to be undertaken by the Company.

Key highlights of the activities during the year are listed below:

- Continued education to employment initiatives that focus on skilling underserved youth through strategic partnerships and livelihood training programs.
- Scholarships provided for students who intend to pursue undergraduate studies in the National Institutional Ranking Framework-accredited colleges in the fields of Engineering and other STEM streams, such as nursing, pharmacy, biochemistry, and biotechnology.
- Infosys Springboard digital literacy program, powered by a tech platform that enabled students to learn core digital and life skills and become lifelong learners.
- Initiated the Universal Cornea Care Mission at the L.V. Prasad Eye Institute by optimizing, operationalizing, and validating the model and defined an actionable strategy to replicate across the country.
- Construction of a mother and child healthcare center at the Government Hospital, Kunigal.
- Promote environmental sustainability, maintain ecological balance, and enhance farmer livelihood/income through tree plantation initiatives.
- Co-implementing the Gear for Gold program to build sustainable, inclusive, and high-performing sports academies by equipping them with robust systems, expertise, and resources across coaching, infrastructure, sports science, governance, and administration.
- Supported the rapid operationalization of advance mother and child center by providing high-quality medical equipment at PGIMER Chandigarh.

## 2. Composition of CSR Committee:

| Sl. No. | Name of the director | Designation / Nature of directorship | Number of meetings of CSR Committee held during the year | Number of meetings of CSR Committee attended during the year |
|---|---|---|---|---|
| 1 | Govind Iyer | Chairperson | 4 | 4 |
| 2 | Chitra Nayak | Member | 4 | 4 |
| 3 | Michael Gibbs | Member | 4 | 4 |

## 3. Web link(s) for composition of CSR Committee, CSR policy and CSR projects approved by the Board:

- The composition of the CSR committee is available on our website, at https://www.infosys.com/investors/corporate-governance/documents/committee-composition.pdf.
- The Committee, with the approval of the Board, has adopted the CSR Policy as required under Section 135 of the Companies Act, which is available on our website, at https://www.infosys.com/investors/corporate-governance/documents/corporate-social-responsibility-policy.pdf.
- The Company has also adopted the CSR committee charter, which is available on our website, at https://www.infosys.com/investors/corporate-governance/Documents/corporate-social-responsibility-committee-charter.pdf.
- The Board, based on the recommendation of the CSR Committee, at its meeting held on April 23, 2026, has approved the annual action plan / projects for fiscal 2027, the details of which are available on our website, at csr-projects2026-27.pdf.

**4. Executive summary along with web-link(s) of Impact Assessment of CSR Projects carried out in pursuance of subrule (3) of rule 8:**

The Company has been implementing various CSR projects for holistic community development and institution building to serve the enrichment and evolution of businesses and communities. For fiscal 2026, the Company has engaged an external agency to provide support and assistance for an independent review and impact assessment.

**Methodology:**

In order to assess the impact of its CSR projects, a mixed-method approach was deployed which involved one of or both the quantitative and qualitative research tools (as relevant) for primary data collection. Using these tools, the team conducted interactions (virtual and on-field) with the project beneficiaries and other relevant stakeholders. Post data collection and analysis, the key insights and findings were collated in the form of a consolidated report for the Management's consideration. This study was guided by the Inclusiveness, Relevance, Effectiveness, Convergence and Sustainability (IRECS) Framework which was used to provide overall feedback on the efficacy of implementation as well as its efficiency in terms of achievement of the desired project outputs with reference to inputs.

**Summary:**

During the year, impact assessment study was conducted on 12 eligible CSR projects across various states in India. These projects align with the ESG framework and support 13 of the UN SDGs which cover the broad themes of education, healthcare, women empowerment, sustainability and others.

**Theme 1: Education and skill development**

Impact: Emphasis on digital education and easy access to the online learning content ensured a positive impact on the students' academic performance and a reduction in the dropout rates.

| Sl. No. | CSR project under assessment | Project location | Implementation |
|---|---|---|---|
| 1. | Sree Guruvayurappan Bhajan Samaj (SGBS) Unnati Foundation – UNXT Youth Training | Karnataka | Infosys Foundation |
| 2. | Bhandarkar Oriental Research Institute (BORI) – Oriental Studies Research and Preservation | Maharashtra | Infosys Foundation |
| 3. | eVidyaloka trust – Rural digital and STEM education programme | Andhra Pradesh, Karnataka, Maharashtra, Madhya Pradesh, Odisha, Rajasthan, Tamil Nadu, Telangana and Uttar Pradesh | Infosys Foundation |

**Theme 2: Environment sustainability and ecological balance**

Impact: Improved cookstove projects reported reduction in waste generation, cooking time, indoor air pollution and associated health hazards. Women have been empowered through engagement in social activities within their community.

| Sl. No. | CSR project under assessment | Project location | Implementation |
|---|---|---|---|
| 1. | Improved cookstoves in Udaipur – Helping women and environment | Rajasthan | Self-implementation |
| 2. | Improved cookstoves in Salumber – Helping women and environment | Rajasthan | Self-implementation |

| | | | |
|---|---|---|---|
| 3. | Sustainable impact through improved cookstoves and clean energy solutions | Meghalaya | Self-implementation |
| 4. | Improved cookstoves in Maharashtra – Helping women and environment | Maharashtra | Self-implementation |
| 5. | Bringing circularity through biogas installation in Karnataka | Karnataka | Self-implementation |
| 6. | Bringing circularity through biogas installation in Maharashtra | Maharashtra | Self-implementation |

**Theme 3: Promotion of national heritage, art and culture**

Impact: Strengthening the physical, digital, and institutional environments that enable art and heritage to thrive. Renovated and purpose-built performance spaces restored scale, dignity, and accessibility for artists and audiences, while outreach programs expanded visibility, fair support, and participation for under represented practitioners.

| Sl. No. | CSR Project under Assessment | Project Location | Implementation |
|---|---|---|---|
| 1. | Bharatiya Vidya Bhavan - Khincha Auditorium Renovation | Karnataka | Infosys Foundation |
| 2. | Yakshagana Kalaranga - Construction of Infosys Foundation Yakshagana Development, Training and Research Centre (IYCTRC) | Karnataka | Infosys Foundation |
| 3. | Bharatiya Vidya Bhavan - Indian Arts Cultural Outreach Programme | Delhi, Karnataka, Kerala, Madhya Pradesh, Maharashtra, Punjab, and Telangana | Infosys Foundation |

# Annexure 7 – Conservation of energy, research and development, technology absorption, foreign exchange earnings and outgo.

*[Particulars pursuant to the Companies (Accounts) Rules, 2014]*

Our consistent focus on energy efficiency, increasing use of renewable energy, and credible carbon offset projects have enabled Infosys to sustain carbon neutrality for the seventh consecutive year since fiscal 2020. In fiscal 2026, we once again maintained carbon neutral operations, reinforcing the consistency and discipline of our climate strategy.

Building on this momentum, we are advancing towards climate positivity – seeking to restore more natural capital than we consume and to generate meaningful environmental and social benefits for the ecosystems and communities we engage with. Looking ahead, Infosys will continue to scale systemic interventions, accelerate low-carbon innovation, and deepen partnerships to drive long-term climate resilience and contribute to a net-zero future.

### Resource conservation initiatives

Resource conservation initiatives at Infosys are focused, continuing and embedded into our operations and new infrastructure development. The introduction of highly efficient new buildings, retrofits in existing buildings, automation and continuous optimization, water management strategies, and waste treatment and management projects have significantly reduced our environmental impact.

The increased adoption of renewable energy in our operations has helped avoid emissions significantly, and our high-impact carbon offset projects have enabled us to offset unavoidable emissions.

Energy: In fiscal 2026, Infosys continued to demonstrate a strong commitment to energy conservation through a set of initiatives focused on enhancing operational efficiency and reducing overall energy consumption. These efforts span advanced, energy-efficient building design for new infrastructure, including embodied carbon analysis, continuous operational optimization, and active employee engagement. In Fiscal 2026, about ₹1.27 crore was spent on retrofits in some of our infrastructure to improve operational efficiency. By integrating innovative technologies with strong operational discipline, Infosys has consistently reinforced the importance of systematic, technology-driven approaches to conservation in achieving long-term sustainability outcomes.

To scale the impact of high-performance building design and operations beyond our campuses, Infosys continues to advance ASSURE (Accelerating Sustainable and Super efficient Real Estate), a multi-stakeholder initiative launched in partnership with the Indian Institute for Human Settlements. ASSURE aims to accelerate decarbonization of India's building sector through the development of lighthouse projects, capacity-building for students and practitioners, policy advocacy, and deeper ecosystem collaboration. During fiscal 2026, the program achieved significant progress with over 15 million square feet of built-up area onboarded as lighthouse projects, translating sustainable design and operational excellence into demonstrable, replicable outcomes at scale.

Through ASSURE and its broader real estate sustainability strategy, Infosys continues to provide thought leadership in advancing climate-resilient, low-carbon buildings. These efforts support India's national commitments under the Paris Agreement and contribute meaningfully to a more sustainable and energy-efficient built environment.

Renewable energy: Infosys has a total installed solar capacity of 62.4 MWp across campuses, including a 42.5 MWp captive solar plant in Karnataka. Additionally, the Company leverages Power Purchase Agreements (PPAs) and green tariff from DISCOMs to expand its clean energy portfolio. Infosys is steadily reducing its dependence on fossil fuels and accelerating the shift to a low-carbon future. In fiscal 2026, 81.8% of our electricity in India operations was met through renewables.

Green buildings: All new developments are designed to achieve the highest level of green building certification. Currently, about 84% of office space across Infosys has been certified to the highest level of green building standards.

Smarter spaces: Infosys continues to reimagine workplace design to support inclusive, flexible, and sustainable ways of working in an evolving environment. Our next-generation offices combine digital connectivity, ergonomic design, and intelligent energy systems that respond to real-time usage.

Advanced Building Management Systems optimize lighting, ventilation, and thermal comfort – reducing energy consumption while creating safe, healthy, and people-centric workspaces. By enabling hybrid work models and designing environments that support diverse employee needs, Infosys is strengthening employee well-being, inclusivity, and operational efficiency, while lowering its environmental footprint.

Water management: Aligned with its climate positive aspirations, Infosys continues to strengthen its water stewardship practices across operations. Infosys maintains zero wastewater discharge, is a signatory to the UN CEO Water Mandate, and remains committed to recharging more water than it consumes by 2030. Our water management strategy focuses on reducing freshwater demand through efficiency measures, maximizing wastewater treatment and reuse, and enhancing rainwater harvesting across campuses.

Beyond operational boundaries, Infosys is committed to lake rejuvenation initiatives to create shared value for surrounding communities and ecosystems. These interventions contribute to improved groundwater recharge, biodiversity enhancement, and long-term water security.

Waste management: Infosys continues to progress towards its goal of zero waste to landfill, aligned with global sustainability frameworks. Guided by circular economy principles, the Company focuses on minimizing waste generation and maximizing recovery to reduce environmental impact across operations.

Through strengthened waste segregation practices and effective treatment and management systems, Infosys has achieved 99% waste diversion from landfill. In fiscal 2026, we significantly scaled our zero waste initiatives, with a total of 11 campuses achieving True Zero Waste Certification from the Green Business Certification Institute. This milestone reflects the consistent expansion of best-in-class waste management practices across our campuses and reinforces our commitment to responsible resource stewardship.

Carbon offset: Infosys addresses unavoidable emissions through community-based carbon offset projects. Projects in the clean cooking space implemented in five states across India have significantly improved health, livelihoods and helped generate income for rural women.

We have initiated large-scale carbon sequestration projects through agroforestry. These projects go beyond environmental benefits, positively impacting small and marginal farmers by improving their livelihoods, and enhancing soil health, food security, and climate resilience.

Carbon neutral events: Infosys continues to embed carbon neutral events into its broader climate action strategy. All emissions associated with Company-hosted events are systematically measured, reduced where feasible, and offset through certified carbon offset projects. This disciplined approach extends Infosys' sustainability practices beyond its operations to external engagements, reinforcing the Company's leadership on responsible business conduct.

In fiscal 2026, Infosys sustained its focus in organizing eight carbon neutral events, building on the momentum of previous years and strengthening the integration of climate considerations into its corporate events and stakeholder interactions.

## Health, Safety and Environment

Our Health, Safety, and Environmental Management System (HSEMS) reflects our commitment to creating a safe, healthy, and sustainable workplace for employees, contractors, and visitors alike. Aligned with our broader climate and sustainability goals, Infosys is certified to ISO 14001:2015 for Environmental Management and ISO 45001:2018 for Occupational Health and Safety. The HSEMS is built on a strong framework of compliance, taking into account the needs of all stakeholders and ensuring adherence to applicable laws across all regions where we operate.

## Technology absorption

### AI-first @ Infosys

Internal IT – AI-first software engineering

Our internal IT organization, which supports and manages 200 enterprise applications, has been an early and proactive adopter of AI-led transformation. To accelerate adoption at scale, we have pursued a two-pronged strategy. Firstly, AI for Engineering Excellence and Lifecycle Compression. We have embedded AI deeply into the software engineering lifecycle to drive productivity, quality, and speed. At the core of this approach is the creation of a digital twin of our enterprise landscape, a unified model that captures contextual knowledge across applications, platforms, and layers.

Leveraging this digital twin, we have built a suite of AI-powered agents that augment every phase of the lifecycle from requirements and design to development, testing, deployment, and support. These agents significantly enhance developer productivity, improve decision-making, and enable meaningful compression of the overall software delivery lifecycle.

Second is AI for Business & Operations, where we have focused on using AI Agents and Gen AI solutions for improving operational efficiency of enterprise functions like Finance, HR etc. These agents are designed to address user queries across applications, simplify interactions, and provide contextual assistance in real time by autonomously responding to helpdesk emails, improving first-contact resolution and easing service desk workload. These initiatives are transforming how employees engage with enterprise systems – making them more intuitive, responsive, and user-centric.

Infosys Topaz Fabric: We have rolled out Infosys Topaz Fabric platform across the organization to democratize innovation, crowd source quality Gen AI and Agentic solutions, enable rapid experimentation and innovation and make the AI apps available to everyone to amplify their potential.

Education, Training & Assessment (ETA): ETA has built an agentic AI-powered learning ecosystem, anchored on Lex, our internal learning platform, and extended through Infosys Springboard, our free, public learning platform, to enable continuous learning at scale. As an early adopter of generative AI, solutions like Zoiee, Knowledge Assistant and SynthAIz have evolved into an integrated ecosystem that delivers personalized learning experiences. Learners benefit from intelligent recommendations, real-time assistance, and continuous guidance through the Zoiee AI companion. At the same time, creation of learning content has been streamlined through SynthAIz and AI agents, enabling faster development of high-quality, multimodal content with automated transcription, translation, and video localization.

AI cloud: To accelerate our AI-first transformation, Infosys continues to invest in proprietary, on-premise GPU infrastructure engineered for advanced model training and inferencing. This dedicated compute capability empowers us to seamlessly integrate best-in-class open-source Large Language Models (LLMs) and deploy our own specialized Small Language Models (SLMs) while maintaining strict data sovereignty. By establishing this robust and secure internal ecosystem, we are expediting enterprise-wide AI adoption, ensuring the highest standards of data confidentiality, and optimizing operational costs by reducing external token dependencies.

## Energy-efficient IT infrastructure

We have adopted a multi-pronged strategy to make our network and computer workload energy-efficient and environmentally friendly. Some of the measures implemented are:

Energy-efficient network infrastructure: InfosysIT uses network gears with power-saving features to enhance energy efficiency.

Public cloud adoption: The organization has largely transitioned its internal IT applications to the public cloud, enabling scalable, on-demand infrastructure and reducing reliance on on-premise data centers. Employees are empowered with cloud-based collaboration and secure access solutions that enhance hybrid work experiences.

The IT Service Management (ITSM) landscape has undergone significant transformation with the adoption of a standardized, AI-enabled service desk on a SaaS-hosted platform. This advancement has delivered standardization in operational processes, enhanced automation, and improved overall user experience across all support services. In addition to improvements, the introduction of AI-assisted agents has further strengthened the employee experience. These agents serve as productivity catalysts by supporting staff in daily tasks and enabling AI-driven approaches to work. As a result, our employees are able to perform more efficiently, leveraging advanced tools and technologies to optimize their effectiveness.

Data center modernization: InfosysIT has positioned data center modernization as one of the key pillars of its sustainability and responsible growth strategy. Recognizing the environmental impact of traditional infrastructure models, the organization has architected its data center ecosystem to prioritize efficiency, scalability, and long-term resource optimization.

This transformation is enabled through the adoption of density-optimized hyperscale platforms that enable cloud scale agility and high-density server virtualization. This approach has significantly reduced infrastructure sprawl while maximizing utilization of compute resources, embedding sustainability principles directly into core IT operations.

To ensure sustainability gains are continuously improved, InfosysIT has made focused investments in Data Center Infrastructure Management (DCIM) capabilities. These tools provide integrated, real-time visibility across both IT and facilities infrastructure, enabling data-driven decisions, proactive optimization, and informed consolidation planning. By embedding observability and governance into the operating model, InfosysIT ensures that sustainability outcomes are measurable, repeatable, and scalable over time.

Enterprise storage: The internal IT team delivers robust storage services to all delivery units, utilizing multi-protocol storage technology that incorporates flash storage, fabric pool, and storage grid solutions. These technologies enable flexible and efficient data management, ensuring that the various delivery units have access to high-performance storage tailored to their needs. By leveraging storage grid technology, the organization adopts a highly efficient and innovative approach to managing storage capacity. This strategy helps minimize the physical footprint required in data centers, leading to reduced power consumption and lower cooling demands.

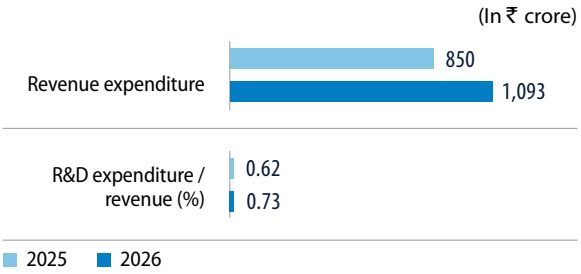

For certain workloads, hybrid cloud storage is employed to enhance flexibility and scalability. This solution features built-in data protection and seamless scaling capabilities, which eliminate the necessity for buffer investments. As a result, the organization achieves reduced on-premises data center space, power consumption, and cooling requirements.

Cloud-native development environment: The internal IT team utilizes an open-source-based cloud-native development platform that is specifically built upon Hyper Converged Infrastructure (HCI) and compute resources. This architectural approach streamlines the deployment and management of development environments, allowing teams to efficiently leverage modern cloud technologies. A significant benefit of this strategy is the reduction in physical data center footprint. By consolidating resources through HCI, the need for extensive hardware is minimized, leading to more compact infrastructure.

# Annexure 8 – Corporate policies

We seek to promote and follow the highest level of ethical standards in all our business transactions guided by our value system. The SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended, mandates the formulation of certain policies for all listed companies. The corporate governance policies are available on the Company's website, at https://www.infosys.com/investors/corporate-governance/Pages/policies.aspx. The policies are reviewed periodically by the Board and are updated as needed. During the year and at its meeting held on April 23, 2026, the Board revised and adopted some of the policies.

Key policies that have been adopted are as follows:

| Name of the policy | Brief description | Web link |
|---|---|---|
| Whistleblower Policy (Policy on vigil mechanism) | The Company has adopted a Whistleblower mechanism to report concerns about unethical behavior, actual or suspected fraud, or violation of the Company's Code of Conduct and Ethics. The policy was revised and adopted effective January 16, 2025. | https://www.infosys.com/investors/corporate-governance/documents/whistleblower-policy.pdf |
| Code of Conduct and Ethics | The Company has adopted the Code of Conduct and Ethics, which forms the foundation of its ethics and compliance program. The policy was revised and adopted effective April 23, 2026. | https://www.infosys.com/investors/corporate-governance/documents/codeofconduct.pdf |
| Corporate Policy on Capital Allocation | The policy applies to the distribution of free cash flow as dividends or buy-back over the next five-year period ending in fiscal 2029. # Management's discussion and analysis

## Overview

Infosys is a leading provider of AI-first business consulting and technology services, enabling organizations to unlock AI value at scale. With over four decades of experience in managing the systems and workings of global enterprises, Infosys accelerates business transformation through its AI-first value framework, deep domain expertise, and unique ability to orchestrate innovations from its AI-native partner ecosystem. Our strategy is to be the navigator for our clients as they ideate, plan and execute on their journey to an AI-first future.

Our vision is to build a globally respected organization delivering best-of-breed business solutions, leveraging technology, delivered by best-in-class people. We are guided by our value system which motivates our attitudes and actions. Our core values are Client Value, Leadership by Example, Integrity and Transparency, Fairness and Excellence (C-LIFE).

Our strategic objective is to build a sustainable and resilient organization that remains relevant to the agenda of our clients, while creating growth opportunities for our employees, generating profitable returns for our investors and contributing to the communities that we operate in. There are numerous risks and challenges affecting our business. These are discussed in the *Risk management report* of the Integrated Annual Report.

## I. Industry structure and developments

Fiscal 2026 saw lower interest rates and stable economic sentiment but policy changes and geopolitical uncertainties weighed on the tech services industry.

This was a year of subdued growth with pockets of economic green shoots that have kept technology-led growth active. Radical transformation in technology led by AI is shifting the dynamics of discretionary spending and mounting pressure on traditional IT services.

Global GDP growth remained flat at 3.3% in CY 2025[1]. During the same period, IT services contracted by 10 bps, growing at 4.6%[2]. We expect client spending and investments to continue to move towards AI in the near term. These investments are expected to be crucial during this period of economic uncertainty.

We saw AI reshaping the industry in fiscal 2026. We continued to witness businesses attempting to reimagine their cost structures, increase business resilience and agility, personalize experiences for customers and employees, and launch new and disruptive products and services, aided by enterprise AI. With our early lead in AI, we believe we are well-positioned to take advantage of these market opportunities.

For more information, refer to *Our business context* section of the Integrated Annual Report.

## II. Opportunities and threats

### Our strategy

Our clients and prospective clients are faced with transformative business opportunities powered by advances in software and computing technology, especially in AI. These organizations are dealing with the challenge of having to reimagine their core offerings, processes and systems rapidly and position themselves as leaders in their industry. Our strategy is to be a navigator for our clients on their AI journey and help them unlock business value. We help our clients ideate, plan and scale their AI future by building strong data foundations with robust cloud capabilities. At the same time, we are also conscious of the need to build adequate safeguards around privacy, ethics, and controls through Responsible AI practices, which we are evangelizing not only within the company, but also across the industry.

### Our strengths

We believe that we are well-positioned for the principal competitive factors in our business. With more than four decades of experience in managing the systems and workings of global enterprises, we are uniquely positioned to help clients navigate their AI transformation, backed by our own AI-first strategy and continued investments in strengthening AI capabilities.

### Our competition

We operate in an environment marked by intense competition in traditional services, rapid technology change and continued emergence of specialized players addressing niche areas. We have invested in building proprietary intellectual property in software platforms and products. We have continued to invest in Infosys Cobalt™ – a set of services, solutions and platforms for enterprises to accelerate their cloud journey, Infosys Topaz™– a set of AI-first services, solutions and platforms using generative and agentic AI technology and Infosys Aster™ – an AI-amplified marketing suite.

## III. Financial condition

Refer to the *Standalone and Consolidated financial statements* in this Integrated Annual Report for detailed schedules and notes.

### 1. Equity share capital

We have one class of shares – equity shares of par value ₹5 each. During the year, the movement in share capital was on account of buyback of 10,00,00,000 shares resulting in a cash outflow of ₹18,000 crore (excluding transaction cost) and shares issued on exercise of stock options.

### 2. Other equity

The movement in retained earnings was on account of profit earned during the year and payment of dividends and buyback of equity shares. The Company funded the buyback from its free reserves, including securities premium, as explained in Section 68 of the Companies Act, 2013. In accordance with Section 69 of the Companies Act, 2013, as at March 31, 2026, the Company has created a Capital Redemption Reserve of ₹50 crore, equal to the nominal value of the shares bought back, as an

appropriation from the general reserve. The increase in securities premium is mainly on account of the exercise of stock options. The Group has made an irrevocable election to present the subsequent changes in fair value of certain instruments in other comprehensive income.

The Special Economic Zone Re-Investment Reserve has been created out of the profit of the eligible SEZ unit in terms of the provisions of Section 10AA(1)(ii) of the Income-Tax Act, 1961. The reserve should be utilized by the Company for acquiring new plant and machinery for the purpose of its business in terms of the provisions of the Section 10AA (2) of the Income-Tax Act, 1961.

## 3. Property, plant and equipment

Additions to gross block were mainly on computer equipment and infrastructure.

## 4. Goodwill and other intangible assets

On a consolidated basis, the carrying value of goodwill as at March 31, 2026, amounted to ₹12,117 crore, as compared to ₹10,106 crore as at March 31, 2025. The increase during the year is primarily attributable to goodwill recognized on the acquisition of MRE Consulting Ltd. and The Missing Link Security Pty. Ltd., The Missing Link Security Limited, and The Missing Link Automation Pty. Ltd. (collectively referred to as "The Missing Link"), amounting to ₹444 crore, along with a translation difference of ₹1,567 crore arising from foreign currency fluctuations.

On a consolidated basis, the carrying value of intangible assets as on March 31, 2026, is ₹2,825 crore, whereas on March 31, 2025, it was ₹2,766 crore. During the year ended March 31, 2026, intangibles amounting to ₹297 crore comprising mainly of customer related intangibles were added on account of acquisitions. *Refer to Note 2.4.2 of the Consolidated Financial Statements* for further details.

## 5. Financial assets

### A. Investments

On a standalone basis, during the year, we invested additionally in our subsidiaries, for the purpose of acquisition of entities, operations and expansions.

Refer to *Annexure 1* to the *Board's report* for the statement pursuant to Section 129(3) of the Companies Act, 2013, for the summary of the financial performance of our subsidiaries.

The audited financial statements and related information of subsidiaries will be available on our website at www.infosys.com.

We invest in the startup ecosystem to gain access to innovations that, when combined with our services and solutions, can benefit our clients. These investments are typically minority equity positions in startup companies and / or venture capital funds.

Our investments comprise mutual funds units, tax-free bonds, non-convertible debentures, certificates of deposit, commercial paper and quoted bonds and securities issued by government and quasi-government organizations. Certificates of deposit and commercial papers represent marketable securities of banks, NBFCs and eligible financial institutions for a specified time period with high credit rating by domestic credit rating agencies. Government securities (G-secs) are highly liquid and marketable instruments issued across tenure, backed by the Government and carrying a sovereign credit. Investments made in non-convertible debentures represent debt instruments issued by government-aided institutions and financial institutions with high credit rating. The majority of investments of the Company are fair valued based on Level 1 or Level 2 inputs. The Company invests after considering counterparty risks based on multiple criteria, including Tier-I capital, capital adequacy ratio, credit rating, profitability, Non-Performing Assets (NPA) levels and deposit base of banks and financial institutions. These risks are monitored regularly as part of our risk management program.

### B. Trade receivables

Days Sales Outstanding (DSO) in USD terms was 67 days for the year ended March 31, 2026, compared to 69 days in the previous year.

### C. Cash and cash equivalents

Our cash and cash equivalents comprise deposits with banks with high credit ratings assigned by international and domestic credit rating agencies which can be withdrawn at any point of time without prior notice or penalty on principal. Ratings are monitored periodically.

### D. Loans

Loans are provided to subsidiaries as per business requirements. The Company does not have any loans outstanding as at March 31, 2026.

### E. Other financial assets

Deposit with corporations represent restricted deposits to settle employee-related obligations as and when they arise during the normal course of business. Unbilled revenues are classified as financial assets as right to consideration is unconditional and is due only after passage of time. Foreign currency forward and options contracts are entered into to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts is generally a bank.

## 6. Other assets

Unbilled revenues are classified as non-financial asset where the right to consideration is dependent on completion of contractual milestones. Withholding taxes and others represent credits that can be availed against local taxes payable in various countries. Deferred contract cost mainly comprises the cost of obtaining a contract and the cost of fulfilling a contract recorded in accordance with Ind AS 115, *Revenue from Contracts with Customers*.

## 7. Deferred tax assets / liabilities

Deferred tax asset is primarily on account of temporary difference in property, plant and equipment, lease liabilities, allowances for trade receivables, credits related to branch profits and compensated absences partially offset by deferred tax liability on the Special Economic Zone Re-investment Reserve, branch profit tax and intangibles from business combination.

A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. *Refer to Note 2.17* of the *Standalone and Consolidated Financial Statements*.

### 8. Income tax assets / liabilities

Our net profit earned from providing software development and other services outside India is subject to tax in the country where we perform the work. Most of our taxes paid in countries other than India can be claimed as credit against our tax liabilities in India. *Refer to Note 2.17* of the *Standalone and Consolidated Financial Statements*.

### 9. Other financial liabilities

Liabilities for accrued compensation to employees include the provision for bonus, accrued salaries, incentives and retention bonus payable to the staff. Financial liability under option arrangements represents redemption liability towards acquisitions to purchase the corresponding minority stake.

Accrued expenses represent amounts accrued for other operational expenses. Compensated absences are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation.

### 10. Other liabilities

Invoicing in excess of revenues are classified as unearned revenues. Withholding and other taxes payable represent local taxes payable in various countries in which we operate. We provide for provident fund to eligible employees of Infosys, which is a defined benefit plan as the Company has an obligation to make good the shortfall, if any, between the return from the investments of the trust and the notified interest rate.
The Company operates the defined benefit pension plan in certain overseas jurisdictions, in accordance with local laws. These plans are managed by third-party fund managers. We provide for gratuity, a defined benefit retirement plan ("the Gratuity Plan"), covering eligible employees in India. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation, or termination of employment, of an amount based on the respective employee's salary and the tenure of employment. The plans provide for periodic payouts after retirement and / or a lump-sum payment as set out in rules of each fund and includes death and disability benefits.

### 11. Provisions

Provision for post-sales client support is towards likely cost for providing client support to fixed-price and fixed-timeframe contracts.

### 12. Leases

Additions mainly comprise lease of computers and buildings taken on lease in certain locations outside India.

## IV. Results of our operations

For details about results of our operations, refer to 'Results of our operations and state of affairs' section in the *Boards' report*.

During fiscal 2026, the Company continued running Project Maximus, a comprehensive margin expansion program structured across five pillars – Value-based selling; Efficient pyramid; Lean, automation and gen AI; Improving key portfolios, and Optimization of indirect costs. Value-based selling is a focused strategy to identify opportunities to align pricing to the value clients received for the services. Efficient pyramid brings in efficiencies to reduce effort costs by improving utilization, reducing sub-contractors, improving role mix, location mix, etc. Lean, Automation and gen AI is a strategic initiative to combine productivity and process improvement using automation technologies, including generative AI, to enhance efficiency. Improving key portfolios is a targeted approach to improve margins on large client engagements and service lines. Savings from Project Maximus, through the optimization of indirect costs, helped us invest in strategic areas such as talent, AI, and sales and marketing.

### 1. Revenue

The growth in our revenues in fiscal 2026 from fiscal 2025 is as follows:

(In ₹ crore)

| Particulars | Standalone | | | Consolidated | | |
|---|---|---|---|---|---|---|
| | 2026 | 2025 | % change | 2026 | 2025 | % change |
| Revenue | 1,48,819 | 1,36,592 | 9.0 | 1,78,650 | 1,62,990 | 9.6 |

The increase in revenue was primarily attributable to an increase in realization (due to role mix, improved pricing and productivity), acquisitions and currency benefit.

Revenue growth in reported terms includes the impact of currency fluctuations. We, therefore, additionally report the revenue growth in constant currency terms, which represents the real growth in revenue, excluding the impact of currency fluctuations. We calculate constant currency growth by comparing current-period revenues in respective local currencies converted to USD using prior-period exchange rates and comparing the same to our prior-period reported revenues. Our consolidated revenues in reported currency terms for fiscal 2026 is ₹1,78,650 crore, a growth of 9.6%. Our consolidated revenues for fiscal 2026 in constant currency grew by 3.1%.

We added 443 new customers (gross) during fiscal 2026 as compared to 365 new customers (gross) during fiscal 2025.

On a consolidated basis, for the year ended March 31, 2026, approximately 97.1% were export revenues whereas 2.9% were domestic revenues, while for the year ended March 31, 2025, 96.9% were export revenues whereas 3.1% were domestic revenues. Refer to the 'Segmental profitability' section in this report for more details on the analysis of segment revenues.

## 2. Expenditure

The following table gives an overview of the standalone and consolidated operating expenses for fiscal 2026 and fiscal 2025:

(In ₹ crore)

| Particulars | Standalone | | | | Consolidated | | | |
|---|---|---|---|---|---|---|---|---|
| | 2026 | As a % of revenue | 2025 | As a % of revenue | 2026 | As a % of revenue | 2025 | As a % of revenue |
| Expenses, excluding finance cost | | | | | | | | |
| Employee benefit expenses | 73,239 | 49.2% | 67,466 | 49.4% | 95,094 | 53.2% | 85,950 | 52.7% |
| Cost of technical sub-contractors | 22,388 | 15.0% | 19,353 | 14.2% | 15,421 | 8.6% | 12,937 | 7.9% |
| Travel expenses | 1,596 | 1.1% | 1,467 | 1.1% | 2,097 | 1.2% | 1,894 | 1.2% |
| Cost of software packages and others | 9,274 | 6.2% | 9,617 | 7.0% | 15,722 | 8.8% | 15,911 | 9.8% |
| Communication expenses | 419 | 0.3% | 448 | 0.3% | 603 | 0.3% | 620 | 0.4% |
| Consultancy and professional charges | 1,846 | 1.2% | 1,245 | 0.9% | 2,090 | 1.2% | 1,655 | 1.0% |
| Depreciation and amortization expenses | 2,394 | 1.6% | 2,619 | 1.9% | 4,902 | 2.7% | 4,812 | 3.0% |
| Other expenses | 4,044 | 2.7% | 3,497 | 2.6% | 5,343 | 3.0% | 4,787 | 2.9% |
| **Total** | **1,15,200** | **77.4%** | **1,05,712** | **77.4%** | **1,41,272** | **79.1%** | **1,28,566** | **78.9%** |

The cost of efforts (comprising of employee benefit expenses and cost of technical sub-contractors) as a percentage of revenue has increased in fiscal 2026 compared to fiscal 2025 mainly on account of a compensation increase, reduction in utilization, and higher use of sub-contractors partially offset by an improvement in offshore mix.

Cost of software packages and others includes third-party items bought for service delivery to clients and has decresed in fiscal 2026 compared to fiscal 2025. Third-party items bought for service delivery to clients include software and hardware, which are integral to our overall service delivery to clients.

The following table additionally presents the function wise classification of operating expenses for fiscal 2026 and fiscal 2025:

(In ₹ crore)

| Particulars | Standalone | | | | Consolidated | | | |
|---|---|---|---|---|---|---|---|---|
| | 2026 | As a % of revenue | 2025 | As a % of revenue | 2026 | As a % of revenue | 2025 | As a % of revenue |
| Cost of Sales | 1,01,584 | 68.3% | 94,111 | 68.9% | 1,23,531 | 69.1% | 1,13,347 | 69.5% |
| Selling and marketing expenses | 7,488 | 5.0% | 6,282 | 4.6% | 9,062 | 5.1% | 7,588 | 4.7% |
| General and administration expenses | 6,128 | 4.1% | 5,319 | 3.9% | 8,679 | 4.9% | 7,631 | 4.7% |
| **Total** | **1,15,200** | **77.4%** | **1,05,712** | **77.4%** | **1,41,272** | **79.1%** | **1,28,566** | **78.9%** |

## 3. Other income and finance cost

Other income primarily includes income from investments, gain / loss on investments, foreign exchange gain / loss on forward and options contracts, foreign exchange gain / loss on translation of other assets and liabilities and interest on income tax refund. Other income for fiscal 2026 includes interest (pre-tax) on income tax refund of ₹381 crore on account of orders received under Sections 250 and 254 of the Income-tax Act, 1961, from the income tax authorities in India for certain assessment years. Other income for fiscal 2025 includes interest (pre-tax) on income tax refund of ₹327 crore on account of orders received under Section 250 of the Income-tax Act, 1961, from the income tax authorities in India for certain assessment years.

The Company received dividend of ₹2,676 crore and ₹1,522 crore from subsidiaries during fiscal 2026 and fiscal 2025, respectively, which are reflected in the *Standalone Financial Statements* Other Income also includes profit on sale of property, plant and equipment amounting to ₹165 crore for fiscal 2026.

Interest income in fiscal 2026 has increased as compared to fiscal 2025 primarily due to increase in investible base during the year. We use foreign exchange forward and options contracts to hedge our exposure against movements in foreign exchange rates. Finance cost is on account of leases. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases.

## 4. Exceptional items

On November 21, 2025, the Government of India notified provisions of the Code on Wages, 2019, the Industrial Relations Code, 2020, the Code on Social Security, 2020 and the Occupational Safety, Health and Working Conditions Code, 2020, ('Labour Codes') which consolidate 29 existing labour laws into a unified framework governing employee benefits during employment and post-employment. The Labour Codes, among other things, introduces changes, including a uniform definition of wages and enhanced benefits relating to leave. The Group has assessed the financial implications of these changes, which has resulted in increase in gratuity liability, a defined benefit plan arising from past service cost and an increase in compensated absences. Accordingly, ₹1,146 crore and ₹1,289 crore has been recognized in the Standalone and Consolidated Statement of Profit and Loss, respectively, for the year ended March 31, 2026. Considering that the impact arising out of the enactment of the new legislation is an event of a non-recurring nature, the Company has presented this incremental amount as "Impact of Labour Codes" under "Exceptional Item" in the Standalone and Consolidated Statement of Profit and Loss for the year ended March 31, 2026.

## 5. Provision for tax

We have provided for our tax liability both in India and overseas.

The applicable Indian corporate statutory tax rate for both the years ended March 31, 2026 and March 31, 2025, is 25.17%. The Taxation Laws (Amendment) Act, 2019 has introduced Section 115BAA wherein a domestic company can exercise option for a reduced rate of corporate tax without claim of certain deductions mentioned therein, including deduction for SEZ units under Section 10AA of the Income-tax Act, 1961. From fiscal 2025, the Income-Tax expense of the Company has been recognized by applying the provision of Section 115BAA of the Income-tax Act without claim of deduction for SEZ units under Section 10AA of the Income-tax Act.

| Particulars | Standalone | | Consolidated | |
|---|---|---|---|---|
| | 2026 | 2025 | 2026 | 2025 |
| Income tax expense (In ₹ crore) | 9,546 | 9,873 | 10,521 | 10,858 |
| Effective tax rate (In %) | 24.6 | 27.9 | 26.3 | 28.9 |

Effective tax rate is generally influenced by various factors, including differential tax rates, non-deductible expenses, exempt non-operating income, overseas taxes, tax reversals and provisions pertaining to prior periods, changes to tax regulations and other tax deductions. Our effective tax rate in fiscal 2026 was lower primarily on account of reversal of tax provision due to receipt of order giving effects received in fiscal 2026 for prior assessment years resulting in reduction in effective tax rate by 2.2%.

During fiscal 2026, the Company received orders under Sections 250 and 254 of the Income-Tax Act, 1961, from the Income-Tax Authorities in India for the assessment years 2013-14 and 2017-18 to 2021-22. These orders confirmed the Company's position with respect to tax treatment of certain matters. As a result, interest income (pre-tax) of ₹381 crore was recognized and provision for income tax aggregating ₹869 crore was reversed with a corresponding credit to the Statement of Profit and Loss. Also, upon resolution of the disputes, an amount aggregating to ₹86 crore has been reduced from contingent liabilities.

During fiscal 2025, the Company received orders under Section 250 of the Income-Tax Act, 1961, from the Income-Tax Authorities in India for the assessment years 2016-17 and 2019-20. These orders confirmed the Company's position with respect to tax treatment of certain matters. As a result, interest income (pre-tax) of ₹327 crore was recognized and provision for income tax aggregating to ₹183 crore was reversed with a corresponding credit to the Statement of Profit and Loss. Also, upon resolution of the disputes, an amount aggregating to ₹1,068 crore has been reduced from contingent liabilities.

## 6. Segmental profitability

The Company's operations predominantly relate to providing end-to-end business solutions to enable clients to enhance performance of their business. Business segments of the Company are primarily enterprises in Financial Services and Insurance; Manufacturing; Retail, Consumer Packaged Goods and Logistics; Energy, Utilities, Resources and Services; Communication, Telecom OEM and Media; Hi-Tech; Life Sciences and Healthcare; and all other segments. All other segments represent the operating segments of businesses in India, Japan, China, Infosys Public Services and identified enterprises in public services. This is discussed in detail in *Note 2.26* to the *Consolidated Financial Statement* in this Integrated Annual Report.

### Business segments – Consolidated

| Segmental operating margin (%) | | | | | | | | | |
| 2026 | 25.3 | 22.1 | 25.1 | 30.7 | 17.7 | 23.1 | 20.0 | 14.8 | 23.7 |
| 2025 | 24.6 | 19.3 | 28.1 | 32.3 | 17.5 | 24.6 | 22.5 | 17.2 | 24.1 |

Overall segment profitability has decreased primarily on account of lower utilization; and investments in talent, AI, sales & marketing, which was partially offset by benefits arising from increased realization through pricing and productivity, improved onsite mix and foreign currency translation.

The following graph sets forth our revenue by geography:

(In ₹ crore)

## 7. Liquidity

Our principal source of liquidity are cash and cash equivalents and cash flow that we generate from operations. We have no outstanding borrowings. We believe our working capital is sufficient for the requirements of our business operations.

Our growth has been financed largely through cash generated from operations.

Our cash flows are robust. Our operating cash flows have decreased marginally in fiscal 2026 as compared to fiscal 2025 primarily on account of higher income tax refunds received during fiscal 2025, higher outflow on working capital and partially offset by an increase in net profits adjusted for non-cash items.

Consolidated cash and investments of ₹43,075 crore comprise cash and cash equivalents, current and non-current investments, excluding investments in equity and preference shares and others.

### Capital Allocation Policy

Refer to the Board's report in this Integrated Annual Report for details on our Capital Allocation Policy, reviewed and approved on April 18, 2024.

## 8. Related party transactions

These have been discussed in detail in *Note 2.24* to the *Standalone Financial Statements* in this Integrated Annual Report.

## 9. Events occurring after Balance Sheet date

There were no significant events that occurred after the Balance Sheet date apart from the ones mentioned in 'Material changes and commitments affecting financial position between the end of the fiscal and date of the report' in the *Board's report* in this Integrated Annual Report.

## 10. Key financial ratios

In accordance with the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Company is required to give details of significant changes (change of 25% or more as compared to the immediately previous financial year) in key sector-specific financial ratios.

The Company has identified the following ratios as key financial ratios:

| Particulars | Standalone | | Consolidated | |
|---|---|---|---|---|
| | 2026 | 2025 | 2026 | 2025 |
| Market capitalization to revenues (times) | NA | NA | 2.8 | 4.0 |
| Price / Earnings (times) | NA | NA | 17.5 | 24.4 |
| Days Sales Outstanding (DSO) in USD terms[1] | – | – | 67 | 69 |
| Cash and investment[2] as a % of total assets | 22.6 | 28.7 | 27.6 | 31.9 |
| Revenue growth (%) | 9.0 | 5.9 | 9.6 | 6.1 |
| Operating margin (%)[5] | 21.9 | 22.6 | 20.3 | 21.1 |
| Net profit margin (%) | 19.6 | 18.7 | 16.5 | 16.4 |
| Current ratio (times) | 2.0 | 2.4 | 2.0 | 2.3 |
| Debt equity ratio (times)[3] | 0.0 | 0.0 | 0.1 | 0.1 |
| Debtors turnover (times) | 5.2 | 5.3 | 5.4 | 5.3 |
| Interest coverage ratio (times)[4] | 188.2 | 161.4 | 97.1 | 91.4 |
| Basic EPS (₹)[6] | 70.87 | 61.58 | 71.58 | 64.50 |

(1) The Company does not track DSO at a standalone level.

(2) Includes cash and cash equivalents and investments, excluding investments in equity, preference shares and others.

(3) Debt represents only lease liabilities.

(4) Primarily lease interest.

(5) In fiscal 2026, the provisions of The Labour Codes notified by The Government of India on November 21, 2025, has resulted in an increase in gratuity liability, a defined benefit plan (arising out of past service cost relating to plan amendment) and compensated absences by ₹1,146 crore and ₹1,289 crore on a standalone and consolidated basis, respectively. Consequently the operating margin has dropped by 0.8% and 0.7% on a standalone and consolidated basis, respectively.

(6) Includes positive impact on Basic EPS of ₹2.81 and ₹2.80, respectively, on account of orders received under Sections 250 and 254 of the Income Tax Act, 1961, from the Income tax authorities in India for certain assessment years, on a consolidated and standalone basis, respectively. This was partially offset by a negative impact on Basic EPS of ₹2.36 and ₹2.10, respectively, attributable to the Labour Codes notified by the Government of India on November 21, 2025, which resulted in an increase in gratuity liability, a defined benefit plan (arising out of past service cost relating to plan amendment) and compensated absences on a consolidated and standalone basis respectively for fiscal 2026.

Includes positive impact on Basic EPS of ₹1.03 on account of orders received under Section 250 of the Income-Tax Act, 1961, from the Income tax authorities in India for certain assessment years on a consolidated and standalone basis respectively for fiscal 2025 (*Refer to Note 2.17* of the *Standalone and Consolidated Financial Statements* included in this Integrated Annual Report for further details).

### Return on net worth

The details of return on net worth at standalone and consolidated levels are as follows:

| Particulars | Standalone | | Consolidated | |
|---|---|---|---|---|
| | 2026 | 2025 | 2026 | 2025 |
| Return on net worth (%) | 34.7 | 30.3 | 31.2 | 29.0 |

Return on net worth is computed as net profit by average net worth. Net profit increased from ₹26,713 crore to ₹29,440 crore on a consolidated basis and increased from ₹25,568 crore to ₹29,211 crore on a standalone basis. Return on net worth has increased in line with the net profit increase and changes in average net worth on account of dividends and buyback.

### Ratios where there has been a significant change from fiscal 2025 to fiscal 2026

1. Revenue growth for fiscal 2026 is more compared to revenue growth for fiscal 2025 and segment-level details have been explained in the relevant section above.
2. Market capitalization to revenues (times) reflects the share price decrease by 20% and revenue growth of 9.6% in fiscal 2026.
3. Price / Earnings (times) reflects the share price decrease by 20% and EPS growth of 11.0% in fiscal 2026.

## V. Outlook, risks and concerns

We have adopted an integrated ERM framework that is implemented across the organization by the Risk Management Office. Our ERM framework is developed by incorporating the best practices based on COSO and ISO 31000 and then tailored to suit our unique business requirements.

We have provided the details of the Infosys ERM framework, key and emerging risks along with mitigation in the *Risk management report* of this Integrated Annual Report. The list of risk factors that we track for our business are covered in our 20-F filing available at https://www.infosys.com/investors/reports-filings/annual-report/annual-reports.html.

## VI. Internal Financial Control Systems and their adequacy

Infosys has aligned its current systems of internal financial control with the requirement of the Companies Act, 2013, based on criteria established in the Internal Control – Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Internal Control – Integrated Framework is intended to increase transparency and accountability in an organization's process of designing and implementing a system of internal control. The framework requires a company to identify and analyze risks and manage appropriate responses.

Internal financial control systems include the design, implementation and maintenance of adequate internal financial controls that are operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, safeguarding of its assets, prevention and detection of frauds and errors, accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

In designing and evaluating our disclosure controls and procedures, the Management recognizes that any controls and procedures, no matter how well-conceived and operated, can only provide reasonable assurance that the objectives of the disclosure controls and procedures are met. Based on

their evaluation as of the end of the period covered by this Integrated Annual Report , our CEO and CFO have concluded that our disclosure controls and procedures were effective to provide reasonable assurance that the information required to be disclosed in filings and submissions, is recorded, processed, summarized, and reported within the time periods specified, and that material information related to us and our consolidated subsidiaries is accumulated and communicated to the Management, including themselves as appropriate to allow timely decisions about required disclosure.

Deloitte Haskins & Sells LLP, the statutory auditors of Infosys Limited, has audited the financial statements included in this Integrated Annual Report, and as part of their audit, has issued their report on the Company's internal financial controls (as defined in Section 143 of Companies Act, 2013), on the effectiveness of our internal financial controls over *Standalone and Consolidated Financial Statement* as at March 31, 2026.

Infosys Limited has appointed Ernst & Young LLP to oversee and carry out internal audit of its activities. The audit is based on an internal audit plan, which is reviewed each year in consultation with the statutory auditors and approved by the Audit Committee.

The CEO and CFO certification provided in the *CEO and CFO Certification* section of the Integrated Annual Report discusses the adequacy of our internal control systems and procedures.

## VII. Material developments in human resources / industrial relations, including number of people employed

Our culture and reputation as a leader in AI-first business consulting and technology services enable us to attract and retain some of the best talent.

### Human resources management

Our employees are our most important assets. We are committed to hiring and retaining the best talent and being among the industry's leading employers. For this, we focus on promoting a collaborative, transparent and participative organizational culture, and rewarding merit and sustained high performance. Our human resources management focuses on allowing our employees to develop their skills, grow in their careers and navigate their next. Infosys remains committed to nurture an inclusive workplace for our diverse talent.

We strive to create a world-class employee experience, focusing on Experience by Design – designing consistent best-in-class policies, processes, programs and systems, keeping employees at the core of whatever we do.

Infosys continues to uphold its belief that its people are its greatest strength. Guided by this philosophy, the organization remains committed to harnessing the full potential of technology to deliver world-class employee experience. A range of strategic initiatives has been implemented to empower employees to find purpose in their work, contribute meaningfully through high-performing teams, pursue continuous learning, and shape the future of the enterprise. These initiatives create opportunities for employees at all career stages to advance, supported by the Company's strong culture and values.

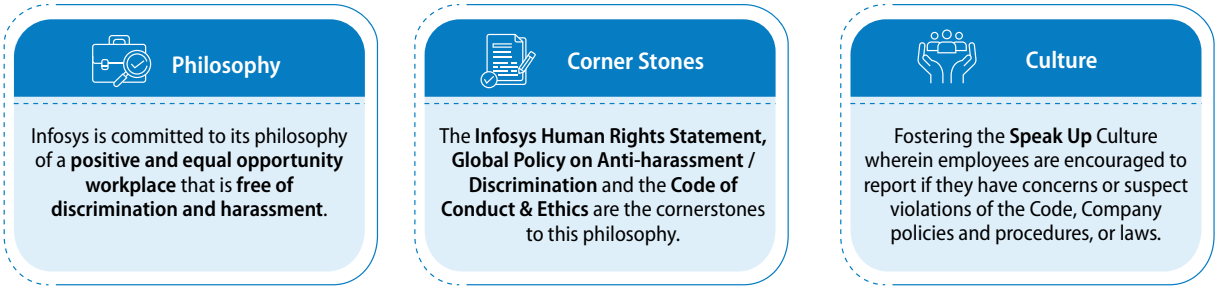

Leadership development remains a key focus area, enabling Infosys to maintain a deep and diverse leadership pipeline. This emphasis ensures that capable leaders from within the organization are consistently prepared to take on expanded roles and emerging challenges.

In response to evolving workplace dynamics, Infosys has adopted a hybrid work model that balances flexibility with business needs. Through increased deployment of technology and automation, the Company has enhanced workforce productivity, employee engagement, and operational excellence. A strong framework for recognition and rewards, along with the reinforcement of diversity, equity, and inclusion, contributes to a safe, supportive, and collaborative environment. Infosys' best-in-class HR practices have been acknowledged through numerous awards and industry accolades.

### Resolution hubs

Infosys is committed to providing a safe and positive work environment. In keeping with this philosophy, the organization envisages an open-door policy. Employees also have access to several forums where they can highlight matters or concerns faced at the workplace. This is achieved through a well-established and robust grievance resolution mechanism comprising resolution hubs.

Resolution hubs adhere to the principles of natural justice, confidentiality, sensitivity, non-retaliation and fairness while addressing concerns. The concerns are handled with a lot of sensitivity, while delivering timely action and closure. A detailed investigation process ensures fairness for all involved, with an opportunity to present facts and any material evidence.

Resolution Hubs at Infosys include

**HEAR** (Hearing Employees And Resolving)

- Formal forum for resolution of workplace grievances that are unresolved at the Unit HR / Manager levels
- Multiple layers of grievance redressal with appeal mechanism
- Neutral panel investigates concerns to arrive at objective outcomes
- The forum also reviews anonymous concerns in collaboration with the Whistleblower Office

**ASHI** (Anti-Sexual Harassment Initiative )

- This initiative aims at prevention, prohibition and redressal of sexual harassment-related concerns.
- Grievance Redressal Body (GRB) is the custodian of this initiative
- Follows an Internal Complaints Committee (ICC) framework for handling and resolution of incidents
- The scope is gender-neutral and addresses the aspect of sexual harassment at the workplace

The HR team implemented many enablement and preventive initiatives across the organization to strengthen awareness, enhance employee responsibility and contribute to building a more engaged and empathetic work culture.

### HEAR (Hearing Employees and Resolving)

The HEAR (Hearing Employees and Resolving) is an independent forum that functions as an employee grievance resolution hub under the Human Resources Department. The HEAR office reviews grievances from employees on various workplace-related aspects that purportedly impede a positive work environment. The HEAR Office adopts a decentralized model with institutionalized presence in business, units, geographies and affiliates, including subsidiaries.

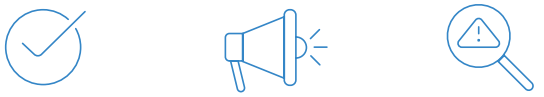

The HEAR Office works to respond quickly and effectively to the grievances through objective reviews mediated through a neutral panel or through compliance audits that ensure adherence with relevant policies. The HEAR Office also offers advice and guidance to other departments on matters involving policy / process compliance as well as upward feedback to the senior management of the Company on the employee pulse. The mission of the HEAR Office is to serve as a fair, trusted, and effective independent resolution mechanism for the organization. This guide is based on due diligence, insights and experience gained from panel review / investigations facilitated across the organization. To know more about HEAR forum and HEAR Structure, click on ESG report 2025-2026.

### The Anti Sexual Harassment Initiative (ASHI)

The Anti Sexual Harassment Initiative (ASHI) is Infosys' enterprise-wide framework to prevent, prohibit, and redress sexual harassment at the workplace, in line with the organization's values of integrity, respect, and fairness. ASHI is anchored in the Company's commitment to providing a safe, inclusive, and dignified work environment for all employees, contractors, and associates, with zero tolerance towards harassment and strict non-retaliation for those who raise concerns. ASHI goes beyond statutory compliance by adopting a gender-neutral, employee-centric, and globally consistent approach, ensuring procedural fairness, confidentiality, and adherence to principles of natural justice.

In accordance with the Prevention of Sexual Harassment (POSH) Act, Internal Committees (ICs) have been established across all development centers falling under regulatory jurisdiction. These committees are responsible for redressal of sexual harassment concerns raised by women employees.

ASHI places strong emphasis on prevention and early intervention, recognizing that a safe workplace is built through awareness, leadership accountability, and behavioral reinforcement.

Multiple safe reporting channels

Continuous awareness, education and enablement

Monitoring and analytics

In addition, the Grievance Redressal Body (GRB) comprising external experts, senior internal leaders, and the Investigative Council oversees governance, policy interpretation, and implementation pertaining to prevention of sexual harassment at the workplace.

Employees can report concerns via the ASHI web application, the InfyMe app, or by writing to GRB@infosys.com. All cases follow a formal process aligned with statutory requirements and Company policies.

### Behavior Matters

The Behavior Matters campaign aims to draw attention to the attributes that contribute to a positive work culture, while ensuring that every employee feels valued and respected. Behavior at the workplace matters as it has a direct impact on the work environment. Good behavior from every employee contributes to the overall culture, well-being of teams, and the work environment. Positive behavior fosters a culture of respect, collaboration and productivity. When employees feel valued and respected, they are likely to be engaged, motivated and committed to their work.

## A GREAT WORKPLACE STARTS WITH EVERYDAY BEHAVIOR

#BehaviorMatters

**Behavior Matters** is an initiative that reinforces our core values by promoting respectful interactions, inclusive practices, accountability, and a speak-up culture. It reflects our commitment to a positive workplace by encouraging everyday actions that shape a culture where everyone feels valued and heard.

**Our Commitment:**

- Infosys is one of the first signatories to the United Nations Compact - a commitment by Corporations to create a good working environment for employees
- As per the Infosys Human Rights Statement, all of us need to treat each other with "Respect" and "Dignity"

**What it means for our employees:**

- Be mindful of how your actions affect others
- Support a culture where everyone feels heard
- Take ownership of your words, behavior & impact
- Foster psychological safety within teams

### Extending the commitment to contract staff

Infosys extends its commitment of a safe and inclusive workplace to all third-party personnel operating on its campuses. Refresher training sessions, delivered in nine Indian languages, are conducted to reinforce key messages on safety and conduct. Emergency and safety cards with essential contact information are also provided to employees and contracted staff.

### Whistleblower Policy

The Company has formulated the Whistleblower Policy in line with the mandated regulatory requirements – Sarbanes-Oxley Act (SOX), 2002 and the Companies Act, 2013 – which mandates listed companies to establish a "vigil mechanism" for reporting genuine concerns.

The forum is predominantly for the receipt, retention and treatment of complaints regarding matters of probable discrepancies in accounting, internal accounting controls or auditing, and also enables anonymous reporting by employees. While the Whistleblower Policy and the forum is administered and managed by the Office of Integrity and Compliance, complaints (anonymous or otherwise) pertaining to deviations in workplace policies / processes involving employees are reviewed in tandem by the Employee Relations Department.

### Human rights

As a signatory to the "United Nations Global Compact", Infosys Limited supports the protection and elevation of human rights in accordance with the United Nations Universal Declaration of Human Rights, United Nations Guiding Principles on Business and Human Rights ("UN Guiding Principles") and the International Labor Organization's Declaration on Fundamental Principles and Rights at Work ("ILO Declaration"). We are signatories to the UN Women's Empowerment Principles.

A fundamental tenet of the Infosys Code of Conduct and Ethics is 'Respecting Each Other.' This articulates our commitment to provide an equal opportunity workplace free of discrimination or harassment. Our Human Rights Statement provides a broad framework to ensure that all employees are treated with respect and dignity and that a common set of principles apply to our business practices to ensure that we do not condone human rights violations or abuses.

Further details are available in the Infosys Code of Conduct: https://www.infosys.com/investors/corporate-Governance/documents/codeofconduct.pdf.

### Recruitment

As of March 31, 2026, the Group employed 3,28,594 employees, of which 3,10,887 were professionals involved in service delivery to clients, including trainees.

We continually seek and employ a diverse workforce across various IT fields. We have established strong connections with leading institutions worldwide and recruit students who consistently demonstrate exceptional performance. Our flagship initiative, HackWithInfy, an online coding competition, has earned international recognition over the years, enabling us to attract top-tier coding talent.

We remained steadfast in our commitment to the RestartWithInfy initiative to welcome back women who had taken a career break. We were able to hire 947 women into the Infosys ecosystem in Fiscal 2026 through this successful endeavor.

During fiscal 2026, we received 58,84,480 employment applications, interviewed 4,50,901 applicants and extended offers of employment to 87,286 applicants. These statistics do not include our subsidiaries.

### Education, training and assessment (ETA)

Infosys continues to invest in developing human potential for the organization, and the world at large. We are now experiencing the play of Human + AI in multiple fields, including learning. This technology wave gives us the ability to hyper personalize learning, at scale, across all our learning offerings. These efforts have helped us garner recognitions, including from Brandon Hall and ATD Best.

The Foundation Training Program, enables newly onboarded entry-level hires to transform into corporate professionals. Comprising over 40+ technology streams, the curriculum has kept pace with the dynamic business requirements and the preferred pedagogical approach of the current generation of talent. Generative AI and prompt engineering courses have been introduced to ensure freshers are adept in the new skills fiscal 2026, 10,766 fresh graduates completed the training at the Global Education Center (GEC) campus, Mysuru and were released to delivery units. Many of them are first-generation professionals from diverse geographies.

Our Continuous Education Program is aimed at reskilling / upskilling our existing employees with the twin objectives of increasing fulfilment of skilled talents in client projects and enriching their expertise in next-generation digital technologies and methodologies, including gen AI technologies. We provide online self-learning, instructor-led virtual training opportunities along with in-person classroom training opportunities to our employees. Bridge programs help employees with training and internship opportunities to switch to a new career field, while retaining them within the organization. In fiscal 2026, 81.8% of our workforce trained with annual employee learning hours averaging at 113 hours. Cumulatively, 84% of our workforce is now AI-aware, reflecting strong progress in future-ready skills.

Lex, our in-house learning platform, offers over 40,000+ curated courses, which includes over 30,000 courses procured from vendor partners both for enterprise consumption and niche communities with specific knowledge requirements. On an average, 37,000 employees used Lex on weekdays and around 8,000 employees used it on weekends, with an average learning time of 39 minutes.

Infosys Wingspan, our configurable talent transformation platform for clients, is used by several global organizations for their talent transformation programs.

Infosys Springboard, led by a dedicated team of experts collaborating globally with curriculum partners, non-profits, and a global network of leading educational institutions. More than 20,000 courses are available and about 11 million learners across the world are actively consuming content on Infosys Springboard.

## VIII. Other details

### 1. Quality

The Quality function at Infosys, in line with the organization's vision and strategy of 'Navigate the Next', has three strategic imperatives:

- Differentiate Infosys' services through superior performance and quality
- Optimize Infosys' client projects as well as internal functions for greater efficiency and agility
- De-risk Infosys' operations by ensuring delivery excellence, compliance and sustainability

While AI adoption is rapidly gaining traction with clients, there is a wide spectrum of AI maturity. To standardize adoption across services while contextualizing to a client's AI journey, our Quality team has defined an adaptable AI-first software engineering framework with AI-augmented and agentic AI engineering. With AI-augmented, teams can seamlessly adopt AI-infused processes integrated with AI platforms, tools (Infosys and third party) and accelerators. For early AI adopters, agentic AI helps them re-imagine the way they work, with tailorable blueprints, pre-built agents to orchestrate with human in the loop, agent governance and responsible AI guardrails.

We continue to evolve our capabilities in new ways of working for the AI-first world. From Agile, DevSecOps, Site Reliability Engineering to our product-led, platform-driven operating model are all transforming to be relevant for AI-led organizations. In addition, Quality consulting helps clients transform to new AI-infused ways of working and culture, embed AI engineering and practices, and set up AI governance within their organizations.

Quality has been leading the way in driving lean and automation in the organization to enhance productivity and quality, which has resulted in sustained, large optimization in projects. It deployed robust frameworks, process levers, tools and platforms across service lines in a collaborative manner to drive hyper-productivity and engineering excellence. Our holistic automation maturity model is actively used to help projects increasing automation levels, from point tools towards cognitive and autonomous operations, leveraging AI and gen AI. Our focus on bringing new and emerging AI technologies and tools continues to guide the new ways of working for the organization helping deliver enhanced value for our clients.

Quality continues to propel best practices and long-term sustainability within our organization. Through our structured audits and assessment frameworks, we are actively focusing on de-risking the organization and have expanded our coverage to include a broader range of services, centers, and subsidiaries. This ongoing commitment ensures we stay ahead in our industry.

We consistently comply with international management system standards and models, including ISO 9001, ISO 27001, ISO 14001, ISO 45001, ISO 50001, ISO 22301, ISO 20000, ISO 27701, AS 9100, and ISO 13485.

Infosys has onboarded AI practices from CMMI.AI, and we were among the first few organizations in the world to successfully complete pilot assessment by CMMI institute. In addition, Infosys has achieved Reasonable assurance on ISO 14068-1: Climate change management – Transition to net zero – Part 1- Carbon neutrality underscoring our dedication to ESG principles. Infosys China and Infosys Brazil got certified for Privacy Information Management System – ISO 27701 standard.

## 2. Infosys Center for Emerging Technology Solutions (ICETS)

As organizations enter a new era of AI-led transformation, the momentum around artificial intelligence continues to accelerate. Generative AI is rapidly evolving from experimentation to enterprise-scale deployment, fundamentally reshaping how businesses design products, deliver services, and solve complex challenges. Increasingly, the focus is shifting from isolated innovation to orchestrated, scalable execution – where intelligence, autonomy, ethics and governance must work in harmony.

ICETS is at the forefront of this transformation, enabling enterprises to harness emerging technologies with a structured, outcome-driven approach.

### A structured innovation journey: Next, Near, and Now

ICETS innovation framework is grounded in a clear and scalable model that balances long-term vision with immediate business impact.

### Next – Applied Research Centers (ARC)

Applied Research Centers are designed to research, create and apply emerging technologies, such as advanced AI, cybersecurity, robotics, autonomous machines, quantum computing, and next-gen interaction models, with a balance of medium / long-term visionary research and near-term application of these technologies to help our clients. The focus is to build in-house expertise and intellectual property that helps accelerate this journey for Infosys and clients.

**Advanced AI**

Advanced AI is undergoing a fundamental redefinition. While early progress emphasized model sophistication, the focus today has shifted to how AI systems reason, act, and operate autonomously within enterprise environments. Organizations are embedding AI agents into real-world workflows, enabling systems to:

- Plan and execute multi-step processes
- Collaborate with humans and other agents
- Adapt dynamically to changing contexts

This evolution introduces new challenges around coordination, governance, and cost predictability, making execution – not intelligence alone – the defining factor of success.

At ICETS, our Applied Research Centers are addressing these challenges through initiatives such as:

- AI agent orchestration frameworks
- Automated model lifecycle transitions (LLM-to-SLM)
- Agent certification and governance models

We are also advancing capabilities in runtime observability, auditability, and control, ensuring AI systems remain transparent, accountable, and enterprise-ready.

**New interaction model**

Generative AI is reshaping digital experiences through the emergence of expressive avatars and digital humans. These AI-powered interfaces enable more natural, intuitive, and human-like interactions and are transforming customer experience, education, and accessibility – shifting interactions from transactional to relationship-driven through:

- Realistic speech, lip-sync, and facial expressions
- Emotion-aware, personalized, and context-driven engagement

**Cybersecurity**

- AI-driven threat detection and response
- Privacy-preserving techniques (federated learning, secure inference)
- Multimodal threat analytics and real-time security operations

**Autonomous Machines**

- Intelligent systems operating in dynamic, real-world environments
- Sensor fusion, simulation, and edge intelligence
- Scalable deployment across logistics, mobility, and infrastructure

**Humanoids**

- Human-like robots with advanced perception and dexterity
- Collaboration between humans and machines in complex tasks
- Focus on safety, productivity, and real-world adaptability

**Quantum**

- Hybrid quantum-classical computing approaches
- Optimization and scientific computing use cases
- Post-quantum cryptography and enterprise readiness

### Near – Living Labs

Bringing innovation to reality through co-creation, rapid prototyping, and real-world validation, Living Labs enable clients to contextualize, experiment, iterate and de-risk innovations in controlled environments.

**Infosys Living Labs**

Infosys Living Labs are present in all major geographies, and the network is growing rapidly to cover even more locations. They have already hosted hundreds of client visits.

The innovations, solutions and capabilities on display in these locations cover all major areas such as Infosys Topaz™, Infosys Cobalt™, Infosys Aster™, brand partnerships, hyperscaler and other alliances, Infosys Innovation Network of startups, academic collaborations, CSR initiatives, and almost all service lines and business verticals in which Infosys operates. Often, these focus areas result in specialized sets of showcases around specific themes such as Responsible AI, accessibility, cybersecurity or around industry themes such as Future of Retail, payments, banking, manufacturing and so on.

Most importantly, Infosys Living Labs provide open, efficient playgrounds for our innovation teams to engage with clients, one client at a time, to address their specific challenges and opportunities through Client Living Labs.

**Client Living Labs**

Client Living Labs are 'innovation-as-a-service engagements' with clients, driven by client needs and experience, to address client / industry-specific challenges through emerging technologies, design, innovation management expertise and rapid experimentation.

Client Living Labs continue to gain momentum, with 40 active engagements. The innovation services are centered around the flagship programs:

**IncubateNext:** Driving rapid experimentation through internal experts and external partnerships. Enabling scalable innovation by applying emerging technologies and design to real-world use cases across domains and geographies.

**ImagineNext:** Exploring future possibilities through trend sensing and innovation insights. Identifying new business opportunities using signals from evolving technologies.

**SenseNext:** Capturing early signals of market and technology shifts. Helping clients stay ahead by translating insights into actionable strategies.

**Now – Platforms and Ecosystems: Infosys Topaz Fabric**

Driving enterprise-scale value through reusable platforms, accelerators, and integration capabilities that operationalize AI at scale.

Together, these pillars form a cohesive approach that transforms ideas into measurable business outcomes – ensuring innovation is not only visionary but also executable.

At the core of our Now strategy is Infosys Topaz Fabric – composable, and interoperable AI agents, tools, services, and models. The stack enables organizations to optimize existing IT processes and eliminate or automate manual tasks. It helps enterprises build on existing investments, through a platform-of-platforms approach, unlocking value across the enterprise landscape by unleashing, accelerating, amplifying, and maximizing value realization.

**Consulting**

Brings together strategic intelligence, AI-powered insights, and structured frameworks to help organizations make better decisions and drive meaningful change. It supports end-to-end advisory needs – from research and product discovery to large deal solutions, value management, and process re-reimagining, enabling enterprises to design clear roadmaps, prioritize initiatives, and realize measurable business outcomes with speed and confidence.

**Engineering**

Accelerates the full spectrum of software delivery by combining modern architectures, intelligent automation, and AI-driven execution. It spans greenfield engineering, application modernization, platform and cloud migration, data and quality engineering, and process re-engineering. By embedding intelligence across build, migrate, and run phases, engineering enables scalable, resilient, and future-ready digital systems that continuously improve speed, quality, and business outcomes.

**Operations**

Enables intelligent, resilient, and proactive management across IT, business, and network environments. It brings together AI driven monitoring, automation, and real time intelligence to streamline IT Ops, Business Ops, Integrated BizTech Ops, Network Ops, and Cybersecurity SOC. By embedding self-healing capabilities and predictive insights, operations improve service reliability, accelerates issue resolution, and ensures seamless, outcome-driven enterprise performance at scale.

**Driving measurable business impact**

ICETS drives measurable business impact by accelerating enterprise-wide AI adoption, enabling faster experimentation and deployment, and strengthening trusted governance. It also improves cost efficiency, operational predictability, and builds future-ready capabilities across industries.

**Looking ahead**

As AI continues to evolve, the next phase of transformation will be defined by execution excellence, ecosystem collaboration, and responsible innovation. Organizations that successfully balance innovation with scalability and governance will lead the way.

ICETS remains committed to equipping enterprises, and to play a catalytic role within Infosys, with the research, experimentation, tools, platforms, and expertise needed to turn emerging technologies into real-world value – pushing the boundaries of what AI can achieve.

## 3. Branding

Brand Infosys is a key intangible asset for the Company, ranked amongst the world's Top 100 brands in FY26, and recognized as the fastest growing IT services brand globally, over a six-year period. It is nurtured by over 3,25,000 purpose-driven Infoscions seeking to amplify human potential and create the next opportunity for people, businesses, and communities. The brand serves to position Infosys as the enterprise AI partner of choice for businesses navigating their transformation. It is built around the premise that the experience we have gained, over four decades, in managing the systems and workings of global enterprises enables us uniquely to be navigators for our clients. We do it by enabling them with an AI-first foundation. We also empower the business with enterprise AI, cloud, and other digital technologies at scale to deliver unprecedented levels of performance and customer delight. Our always-on learning approach drives their continuous improvement through building and transferring skills, expertise, and ideas from our innovation ecosystem. For over four decades, we have been deeply committed to being a well-governed, environmentally sustainable partner for our clients, where diverse talent, in an inclusive workplace, helps them navigate their next.

### 4. Client base

Our client-centric approach continues to bring us high levels of client satisfaction. We, along with our subsidiaries, added 443 new clients, including a substantial number of large global corporations. Our total client base at the end of the year stood at 1,965. The client segmentation, based on the last 12 months' revenue for the current and previous years, on a consolidated basis, is as follows:

| Clients | 2026 | 2025 |
|---|---|---|
| 100 million dollar + | 41 | 39 |
| 50 million dollar + | 88 | 85 |
| 10 million dollar + | 328 | 309 |
| 1 million dollar + | 1,018 | 992 |

### 5. Infosys Leadership Institute (ILI)

As artificial intelligence continues to redefine enterprise priorities, the Infosys Leadership Institute (ILI) plays a pivotal role in building leadership capability aligned to Infosys' long-term strategic objectives. ILI's integrated leadership ecosystem is anchored around four focus areas – succession planning, leadership bench strength, development of title holders, and strengthening inclusivity in leadership – ensuring sustained leadership readiness across the organization.

ILI accelerated AI-led leadership capability through its AI for Business Growth program, delivered in partnership with Kellogg. Over the last two years, more than 1,500 senior leaders across Infosys have completed this program, complemented by focused sessions with internal leaders and external subject matter experts. A day-long AI immersion program designed for senior leaders to build hands-on experience with AI tools, including Infosys Topaz Fabric to solve real industry problems further strengthened AI fluency across our leadership. In parallel, executive leadership programs designed in partnership with Harvard Business School and MIT and delivered as week-long residential cohorts in our Mysuru campus, supported senior leaders in navigating leadership imperatives in an AI-infused context.

ILI continued to strengthen enterprise-wide succession planning through a structured, data-led approach, supported by regular reviews. Detailed leadership profiles and personalized development plans were created for leaders in critical roles, supported by executive education programs with leading global institutions and targeted external coaching for identified successors. The flagship Constellation program – designed to build a robust pipeline of high potential leaders – was refreshed to align closely with enterprise priorities. As part of the Constellation journey, leaders participated in a 10-month signature program with Oxford Saïd Business School and worked in cross-functional teams on strategically critical enterprise projects. A total of 12 Constellation projects were executed during the year, providing leaders with enterprise exposure, senior leader mentorship, and hands-on experience in solving complex organizational challenges.

ILI delivered highly personalized development experiences for title holders through a combination of internal and external programs, mentoring, coaching, and career conversations. Signature offerings included the 10-month Enterprise Leadership Program for AVPs, the Executive Communication program in partnership with The Economist for VPs, and the InFusion program for new title holders. One-on-one leadership advisory discussions not only enable deep personalization of development, they also enabled leaders to translate learning into on-the-job impact. Leadership learning continued at scale, with Infosys leaders collectively investing over 10,000 leadership learning days annually for the last two years, reflecting the relevance, quality, and sustained engagement with ILI's offerings. ILI also maintained strong feedback metrics, including a Net Promoter Score of over 96% for the third consecutive year and recognition as the top unit on Internal Partner Satisfaction for three consecutive years.

Inclusion in leadership remains a strategic priority for Infosys. The #IamtheFuture program continued to strengthen the pipeline of leaders through multi-year, role-specific development journeys focused on accelerating readiness, fostering an inclusive ecosystem, and strengthening the leadership pipeline. The program has covered over 700 leaders, helping strengthen key leadership capabilities and fostering an inclusive culture. The program has been redesigned this year to further differentiate development experiences across career stages, with a strong emphasis on application, simulations, and contextual learning.

Through a combination of world-class academic partnerships, deep internal contextualization, and trusted one-on-one advisory support, ILI remains a strategic partner to business units and leaders-enabling leadership effectiveness, succession readiness, and sustained organizational performance, culminating in being recognized as the Best Business Enabling Function (small) for 2025-26 at the Infosys Awards for Excellence.

### 6. Infosys Knowledge Institute

IKI is the business research and thought leadership arm of Infosys. IKI harnesses the intellectual capital of Infosys' experts and client collaborations to produce novel, distinctive content and insights on the business impact that technology can drive for enterprises. IKI also develops proprietary data and insights through primary research, including large-scale surveys and quantitative analysis. These are published through its flagship Radar maturity reports, the annual Tech Navigator report and ongoing TechCompass tech trends series, and industry-focused market outlooks and executive journals. IKI has collaborated with over 1,000 clients and created over 2,000 assets since inception. For more information, visit https://infosys.com/iki.

## 7. ESG vision and ambitions

In October 2020, we launched our ESG Vision 2030 to 'shape and share solutions that serve the development of businesses and communities.' Our vision continues to reflect our commitment to responsible business. In fiscal 2025, at the mid-point of our journey towards our 2030 goals, we had an opportunity to refresh our ESG ambitions and launch our ESG Vision 2030 Refresh, to address the changing priorities of our stakeholders.

We continue to be carbon neutral across our global operations, for the seventh consecutive year . Our ESG Vision 2030 Refresh articulates our ambition to become climate positive in 2030 by implementing initiatives across Scope 1, 2 and 3 to reduce own carbon footprint and sequester more carbon from the atmosphere than our emissions, thereby going beyond net zero, engaging clients on climate action through our solutions, maintaining 100% recycling of waste water, implementing initiatives to sequester more water than we consume year-on-year and ensuring zero waste to landfill. Further, our digital skilling programs aim to empower more than 18 million people and enable employment opportunities for more than 500,000 people. Our commitment to transform and create sustainable communities through new tech for good initiatives and CSR efforts, including employee volunteering, healthcare and women empowerment, is designed to amplify communities. We remain focused on facilitating best-in-class employee experience and being recognized among the best employers in our key operating regions.

We will continue to bring the interests of all stakeholders to the fore through an empowered, diverse and inclusive board while we shape and embrace leading data privacy standards and be recognized as an industry leader in our information security practices.

# Corporate governance report

Corporate governance guides how a company is directed and its relationships with its stakeholders. With the right structure and systems in place, good corporate governance enables companies to create an environment of trust, transparency, and accountability, which promotes long-term capital and supports economic growth and financial stability.

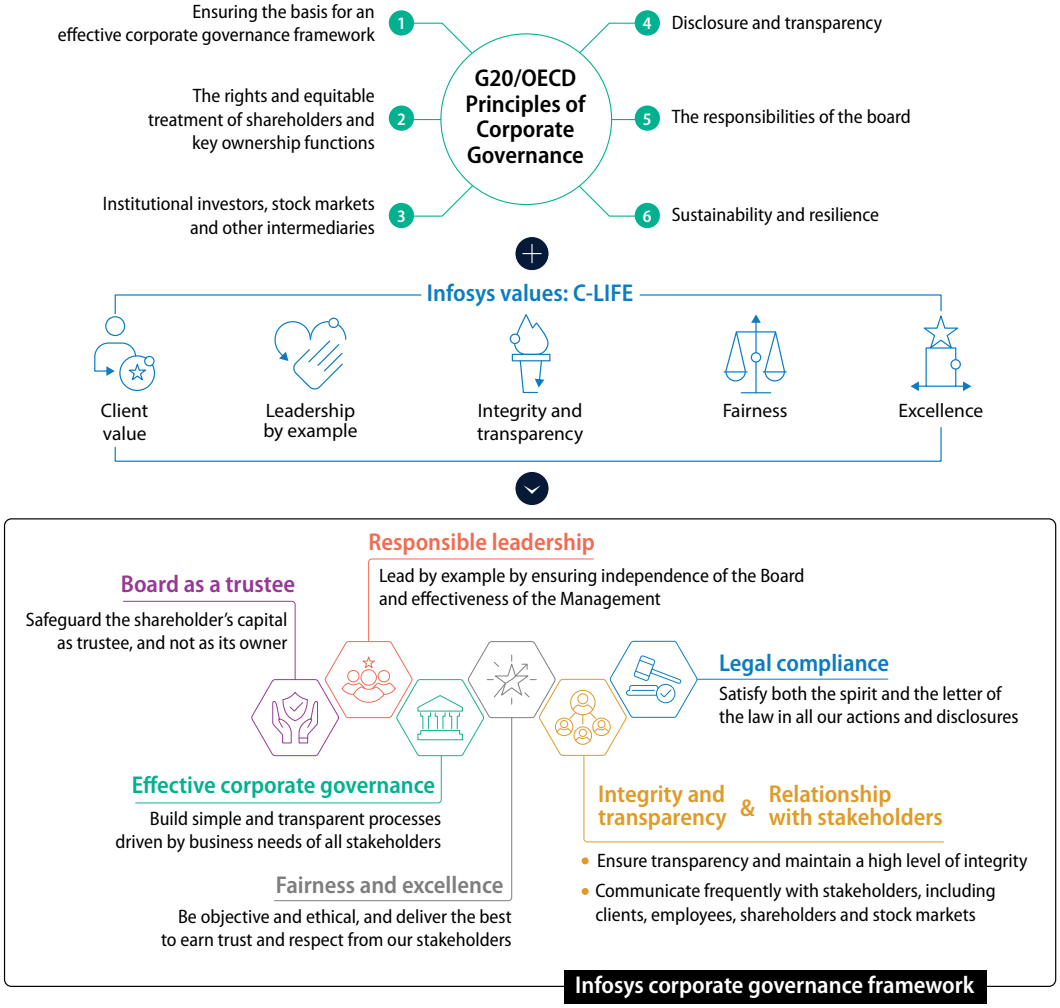

## Our corporate governance philosophy

Our corporate governance reflects our value system, encompassing our culture, policies, and relationships with our stakeholders. Integrity and transparency are key to our corporate governance practices and ensure that we always gain and retain the trust of our stakeholders.

At Infosys ("the Company"), it is imperative that the Company's affairs are managed in a fair and transparent manner. This is ensured by taking ethical business decisions and conducting business with a firm commitment to values, while meeting stakeholders' expectations. We are committed to defining, following, and practicing the highest level of corporate governance across all our business functions.

Our corporate governance is a statement of the values we stand by as we conduct our business and engage with our stakeholders. The Company has been a leader in adopting internationally recognized corporate governance guidelines and has set the highest standards in abiding by them.

Our governance rests on our core value system of C-LIFE (Client value, Leadership by example, Integrity and transparency, Fairness and Excellence), and is guided by the OECD (Organization for Economic Co-operation and Development) principles. Our corporate governance framework thus encompasses:

**Infosys corporate governance framework**

Our corporate governance is reinforced through the Company's Code of Conduct and Ethics, corporate governance guidelines and committee charters. Our Board and Management processes, audits, and internal control systems reflect the principles of our corporate governance framework. This report provides a comprehensive overview of how our governance adheres to the seven pillars of our governance framework.

# Board as a trustee

## The Board recognizes its primary role of trusteeship of shareholder capital. As a trustee, it strives to ensure excellence and integrity in setting world-class corporate governance standards.

### Corporate governance guidelines

Strong corporate governance is the bedrock of our sustained performance and has helped us gain the trust and respect of all our stakeholders. The enhancement of these corporate governance standards, through periodic evaluation and change, is one of the most important aspects of ensuring value creation for our stakeholders.

Our corporate governance follows the guidelines established by the Board of the Company. These guidelines provide a structure within which directors and the Management can effectively pursue the Company's objectives for the benefit of its stakeholders. These are framed in conjunction with the Company's Memorandum & Articles of Association, the charters of the committees of the Board, and applicable laws / regulations / guidelines in force in India, the US, and other jurisdictions, as applicable. The guidelines can be accessed on our website, at https://www.infosys.com/investors/corporate-governance/Documents/corporate-governance-guidelines.pdf.

### Role of the Board of Directors

The primary role of the Board is that of trusteeship – to protect and enhance shareholder value. As trustees, the Board has a fiduciary responsibility to ensure that the Company has clear goals aligned to shareholder value and its growth. Further, the Board is also responsible for:

- Exercising appropriate control to ensure that the Company is managed efficiently to fulfill stakeholders' aspirations and societal expectations.
- Monitoring the effectiveness of the Company's governance practices and making changes as necessary.
- Providing strategic guidance to the Company and ensuring effective monitoring of the Management.
- Exercising independent judgment on corporate affairs.
- Assigning a sufficient number of non-executive members of the Board to tasks where there is a potential for conflict of interest in the exercise of independent judgment.
- Reviewing and guiding corporate strategy, major plans of action, risk policy, annual budgets, and business plans, setting performance objectives, monitoring implementation and corporate performance, and overseeing major capital expenditures, acquisitions, and divestments.

### Independent directors

We abide by the definitions of an independent director, as laid down under the Companies Act, 2013 ("the Act") and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("the Listing Regulations"), as amended, along with the definitions laid down in the New York Stock Exchange (NYSE) listed company manual, the Sarbanes-Oxley Act, and US securities laws by virtue of our listing on the NYSE in the US.

Based on the disclosures received from all independent directors and in the opinion of the Board, the independent directors fulfill the conditions specified in the Act, the Listing Regulations, the NYSE listing manual, and are independent of the Management.

### Board composition

The Company recognizes and embraces the importance of a diverse Board in its success. We believe that a truly diverse Board will leverage differences in thought, perspective, regional and industry experience, cultural and geographical background, age, ethnicity, race, gender, knowledge, skills including, expertise in financial, global business, leadership, technology, mergers and acquisition, Board service, strategy, sales and marketing, Environmental, Social and Governance (ESG), risk and cybersecurity and other domains, which will ensure that Infosys retains its competitive advantage.

As on April 23, 2026, the Board comprised ten members, including a non-executive and non-independent Chairman, a Chief Executive Officer and Managing Director (CEO & MD), and eight independent directors.

The profile of the Board members, encompassing details of nationality, age, date of appointment, (re)appointment, tenure on the Board, term-ending date, shareholding, Board memberships in Indian companies, committee details as per Regulation 26 of the Listing Regulations, and the details of core expertise / competency of each director, is provided under the Infosys Board of Directors section in the Integrated Annual Report. There are no inter se relationships among our Board members. The Company does not have any pecuniary relationship with any of the non-executive directors. Further, during the year, the Company has not provided any loans or advances to firms / companies in which directors are interested.

The Board has six committees – Audit Committee, Nomination and Remuneration Committee, Stakeholders Relationship Committee, Risk Management Committee, Corporate Social Responsibility (CSR) Committee and ESG Committee. All committees comprise only independent directors, one of whom is chosen as the chairperson of the committee. The Company also has a Cybersecurity Risk Sub-committee under the Risk Management Committee. The Sub-committee comprises only independent directors.

## Board meetings

**Scheduling and selection of agenda items for Board meetings**

The tentative dates of Board meetings for the next fiscal are decided in advance and published in the Integrated Annual Report. The Chairman and the Company Secretary, in consultation with the CEO & MD, and lead independent director propose the agenda for each meeting. The agenda, along with explanatory notes is circulated to the directors in advance to facilitate informed deliberation and decision-making. Every Board member can suggest the inclusion of additional items in the agenda.

The Board meets at least once a quarter to review the quarterly results and other items on the agenda. Additional meetings are held when necessary. Independent directors are expected to attend at least four quarterly Board meetings and the Annual General Meeting (AGM). However, with the Board represented by independent directors from various parts of the world, it may not be possible for all of them to be physically present at every meeting. Hence, we provide video / teleconferencing facilities to enable their participation.

The Board members are expected to rigorously prepare, attend, and participate in the Board and applicable committee meetings. Each member is expected to ensure their other commitments do not materially interfere with their responsibilities towards the Company.

## Meeting of independent directors

For the Board to exercise free and fair judgment in all matters related to the functioning of the Company as well as the Board, it is important for the independent directors to have meetings without the presence of the executive management.

Schedule IV of the Act and the Rules thereunder mandate that the independent directors of the Company shall hold at least one meeting in a financial year, without the attendance of non-independent directors and members of the Management. Even before the Act came into effect, our Board's process mandated periodic meetings attended exclusively by the independent directors.

During the year, the independent directors met four times without the presence of executive directors and management. At such meetings, the independent directors discuss, among other matters, the performance of the Company and risks faced by it, the flow of information to the Board, competition, strategy, leadership strengths and weaknesses, governance, compliance, Board movements, succession planning, human resources matters, and the performance of the executive members of the Board, committees, and the Chairman.

# Responsible leadership

**Leading by example is a key tenet of corporate governance at Infosys. Both the Board and the Management work together to set the highest standards of responsible leadership.**

## Responsibilities of the Board leadership

We believe that an active, well-informed, diversified, and independent board is necessary to ensure the highest standards of corporate governance. At Infosys, the Board is at the core of our corporate governance practice. The Board oversees the Management's functions and protects the long-term interests of our stakeholders.

The responsibilities and authority of the Chairman, the CEO & MD and the lead independent director are as follows:

## Chairman

The Company has separated the roles of Chairman and the CEO & MD to create a more balanced governance structure. The Chairman leads the Board and is responsible for fostering and promoting the integrity of the Board while nurturing a culture in which the Board works harmoniously for the long-term benefit of the Company and all its stakeholders. He presides over all meetings of the Board and of the shareholders of the Company.

The Chairman takes a lead role in managing the Board and facilitates effective communication among directors. He is responsible for overseeing matters pertaining to governance, including the organization, composition, and effectiveness of the Board and its committees, and the performance of individual directors.

The Chairman actively works with the Nomination and Remuneration Committee to plan the composition of the Board and Board committees, induct directors to the Board, plan for director succession, participate effectively in the Board evaluation process, and meet with individual directors to provide constructive feedback and advice.

## CEO & MD

The CEO & MD is responsible for executing corporate strategy in consultation with the Board, as well as for brand equity, planning, building external contacts, and all matters related to the management of the Company. He is responsible for achieving annual and long-term business targets. The CEO & MD also monitors the external and internal competitive landscape, and new industry developments and standards, identifies opportunities for expansion and acquisition, and builds relationships with customers and markets to enhance shareholder value and implement the organization's vision, mission, and overall direction.

The CEO & MD acts as a link between the Board and the Management and is also responsible for leading and evaluating the work of other executive leaders.

## Lead Independent Director

The lead independent director was appointed by the Board to ensure robust independent leadership of the Board. The general authority and responsibilities of the lead independent director are decided by the group of independent directors. The lead independent director also performs additional duties as determined by the Board.

The lead independent director provides leadership to the independent directors, liaises on behalf of the independent directors and ensures the Board's effectiveness in maintaining high-quality governance of the organization and effective functioning of the Board.

## Key Board qualifications, expertise and attributes

The table below summarizes the key qualifications, skills, and attributes that are taken into consideration while nominating candidates to serve on the Board.

| | |
|---|---|
| **Financial** | **Leadership of a financial firm or management of the finance function of an enterprise, resulting in proficiency in complex financial management, capital allocation, and financial reporting processes, or experience in actively supervising a principal financial officer, principal accounting officer, controller, public accountant, auditor, or person performing similar functions** |
| **Diversity** | **Representation of gender, ethnic, geographic, cultural, or other perspectives that expand the Board's understanding of the needs and viewpoints of our customers, partners, employees, governments, and other stakeholders worldwide** |
| **Global business** | **Experience in driving business success in markets around the world, with an understanding of diverse business environments, economic conditions, cultures, and regulatory frameworks, and a broad perspective on global market opportunities** |
| **Leadership** | **Extensive leadership experience at a significant enterprise, resulting in a practical understanding of organizations, processes, strategic planning, and risk management. Demonstrated strengths in developing talent, planning succession, and driving change and long-term growth** |
| **Information Technology** | **Significant background in technology, resulting in knowledge of how to anticipate technological trends, generate disruptive innovation, and extend or create new business models** |
| **Mergers and Acquisitions** | **A history of leading growth through acquisitions and other business combinations, with the ability to assess 'build or buy' decisions, analyze the fit of a target with the Company's strategy and culture, accurately value transactions, and evaluate operational integration plans** |
| **Board service and governance** | **Service on a public company board to develop insights about maintaining board and management accountability, protecting shareholder interests, and observing appropriate governance practices** |
| **Sales and marketing** | **Experience in developing strategies to grow sales and market share, build brand awareness and equity, and enhance enterprise reputation** |
| **Sustainability, and Environmental, Social and Governance (ESG)** | **Experience in leading the sustainability and ESG visions of organizations, to be able to integrate these into the strategy of the Company** |
| **Risk management** | **Experience in identifying and evaluating the significant risk exposures to the business strategy of the Company and assessing the Management's actions to mitigate strategic, legal, and compliance, and operational risk exposures** |
| **Cybersecurity** | **Experience in assessing and managing cybersecurity-related risks and implementing cybersecurity policies, procedures, and strategies** |

The details of core expertise / competency of each director are provided in *Infosys Board of Directors* section in the Integrated Annual Report.

## Selection and appointment of new directors

The Board delegates the screening and selection process to the Nomination and Remuneration Committee. It presents a diverse slate of recommendations of eligible candidates to the Board for their approval as per the criteria laid down in the Nomination and Remuneration Policy. Subsequently, the Board recommends and places it before the shareholders for their approval.

## Succession planning

The Nomination and Remuneration Committee works with the Board on the leadership succession plan to ensure orderly succession in appointments to the Board and to senior management positions. The Company strives to maintain an appropriate balance of skills and experience within the organization and the Board in an endeavor to introduce new perspectives while maintaining experience and continuity. In addition, promoting senior management within the organization fuels the ambitions of the talent force to earn future leadership roles.

## Training of Board members

All new non-executive directors inducted to the Board are introduced to our Company culture through orientation sessions. Executive directors and senior management provide an overview of operations and familiarize the new non-executive directors on matters related to our values and commitments. They are also introduced to the organization structure, services, Group structure and subsidiaries, constitution, Board procedures, matters reserved for the Board, major risks, and risk management strategy. The details of the familiarization program are also available on the Company's website, at https://www.infosys.com/investors/reports-filings/Documents/training-board-members2026.pdf.

Non-executive and independent directors of the Board are familiarized through engagements, such as:

Strategy retreat: We organize periodic management strategy retreat with the Board to deliberate on various topics related to strategic planning, progress of ongoing strategic initiatives, risks to strategy execution, and the need for new strategic programs to achieve the Company's long-term objectives. This provides the Board members a platform to bring their expertise to various strategic initiatives, while also giving them an opportunity to understand detailed aspects of execution and challenges relating to the specific theme.

Through this process, members of the Board can interact closely with the senior leadership of the Company and get a comprehensive and balanced perspective on the strategic issues facing the Company, the competitive differentiation being pursued by the Company, and an overview of the execution plan.

During the year, the following trainings were organized for the Board:

Geopolitical impact and preparedness:

Board members were given insights into geopolitical variables such as foreign trade policy, technical / AI competition, immigration, and international relations that may impact the business. The Management team also briefed the Board members on the Company's preparedness to deal with the evolving situations.

Evolving Environmental, Social and Governance (ESG) landscape:

The Board noted the evolving global ESG landscape and its implications for the IT sector. Key trends highlighted included AI-driven emissions growth, increasing exposure to extreme weather risks, the expansion of green technology markets, and rapid shifts in workforce skill requirements. The training also covered the highlights of peer practices across sustainability solutions, inclusive hiring, employee development, and governance disclosures, emphasizing rising stakeholder expectations for transparent ESG reporting and demonstrable, verified outcomes. The training also covered updates on significant regulatory developments relevant for readiness planning, including the EU's simplified CSRD requirements, emerging climate disclosure regulations in California and New York, India's phased climate finance taxonomy, and SEBI's revised timelines for BRSR value chain reporting.

The training underscored the Board's expanding role in ESG oversight, highlighting the need to strengthen governance structures, enhance ESG competencies, improve the flow of ESG-related information, integrate sustainability into strategy and enterprise risk management, and align leadership remuneration with ESG performance metrics.

We also facilitate the continual educational requirements of our directors. Each director is entitled to a training fee of US $5,000 per year. Support is provided to independent directors who choose to attend educational programs in the areas of Board / corporate governance.

During the year, an independent director attended the NACD "AI in Action" event, which focused on the impact of artificial intelligence on board decision-making. Another Independent Director participated in the Master Class® on Technology & Innovation Oversight – an AI Tools workshop, gaining practical insights and frameworks to help boards navigate a tech-driven future and use AI to improve operations, strategy, and governance.

The details of the training programs attended by the Board members (excluding the NACD event and AI Tools workshop mentioned above) in fiscal 2026 are as follows:

# Effective corporate governance

**Our legacy of good corporate governance has translated into trust from all stakeholders. To maintain this trust, continuous efforts are made to facilitate effective corporate governance measures, such as the constitution, governance, and working of Board committees.**

## Availability of information to Board members

The Board has unrestricted access to all the Company-related information, including that of our employees. At Board meetings, managers and representatives who can provide additional insights into the items being discussed are invited. Information is provided to the Board members on a continuous basis for their review, inputs, and approval. Strategic and operational plans are presented to the Board in addition to the quarterly and annual financial statements. Specific cases of acquisitions, important managerial decisions, material positive / negative developments and statutory matters are presented to the committees of the Board and later, with the recommendation of the committees, to the Board for its approval. As part of the process, information to directors is submitted along with the agenda well in advance of Board meetings. Inputs and feedback of Board members are taken into account while preparing the agenda and documents for the Board meetings. At these meetings, directors can provide their inputs and suggestions on various strategic and operational matters.

## Attendance of directors in the Board meetings held during fiscal 2026

Note: Diane Enberg Jurgens was appointed as an Independent Director with effect from April 22, 2026. Accordingly, no meetings were held during her tenure.

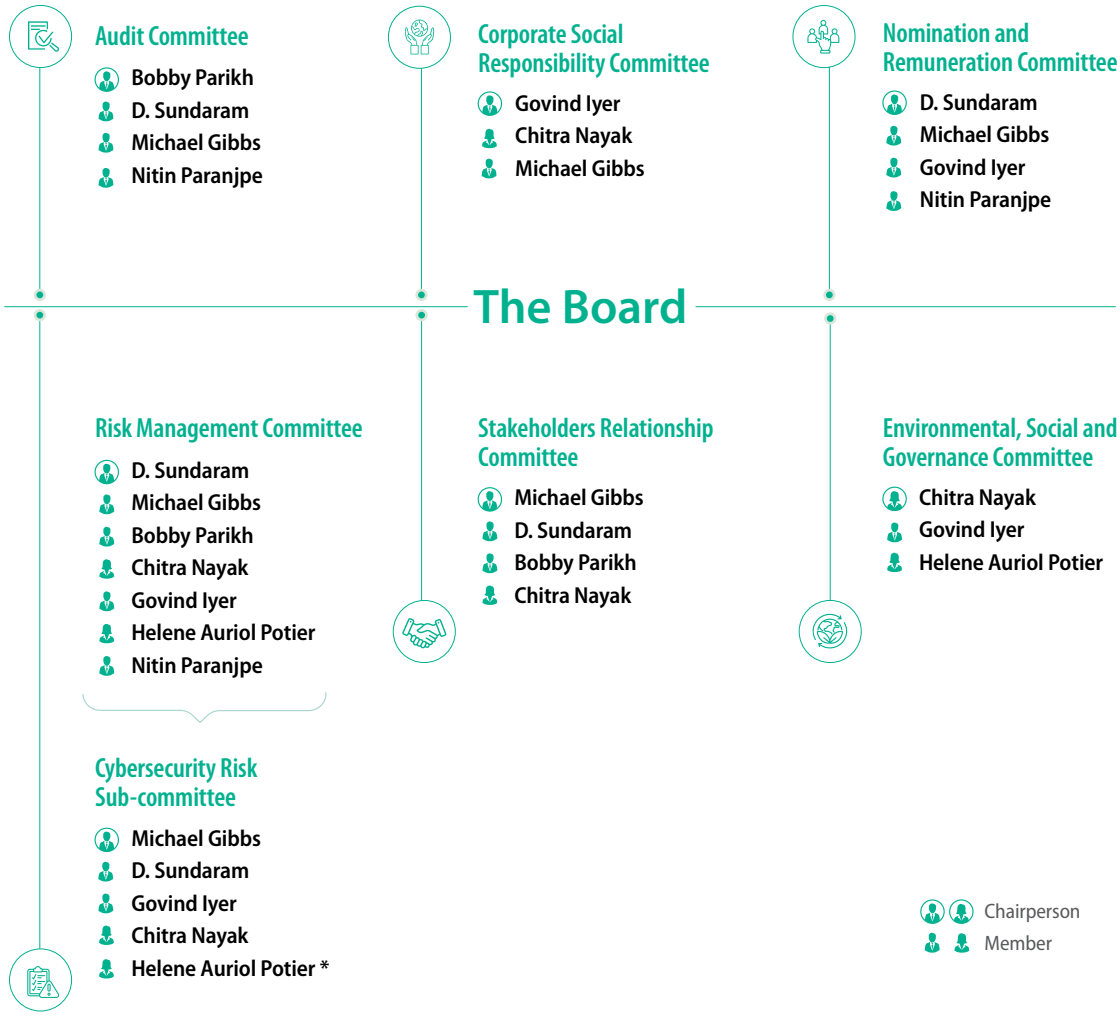

## Governance of Board committees

The Board, in consultation with the Nomination and Remuneration Committee, is responsible for assigning and determining the terms of service for committee members.

The Chairman of the Board, in consultation with the Company Secretary and the respective committee chairperson, determines the frequency of the committee meetings. Generally, all committees meet four times a year. The recommendations of the committees are submitted to the Board for approval. During the year, all recommendations of the committees were approved by the Board.

The quorum for meetings is the higher of two members or one-third of the total number of members of the committee.

## Board committees

* Appointed with effect from August 1, 2025

# Audit Committee

**Bobby Parikh**
*Chairperson and Financial expert*

The Audit Committee ("the Committee") comprises the following, all of whom are independent directors. As on March 31, 2026, the Committee comprised:

1. Bobby Parikh, *Chairperson and Financial expert*
2. D. Sundaram, *Financial Expert*
3. Michael Gibbs
4. Nitin Paranjpe

The Company Secretary acts as the secretary to the Audit Committee.

## Objectives of the Committee

The primary objectives of the Committee are to assist the Board with oversight of:

1. The accuracy, integrity and transparency of the Company's financial statements with adequate and timely disclosures;
2. Compliance with legal and regulatory requirements;
3. The Company's independent auditors' professional qualifications and independence;
4. The performance of the Company's independent auditors and internal auditors; and
5. Acquisitions and investments made by the Company.

## Audit Committee Charter ("the Charter")

In India, we are listed on the BSE Limited (BSE) and the National Stock Exchange of India Limited (NSE). We are also listed on the New York Stock Exchange (NYSE) in the US. In India, Regulation 18 of the Listing Regulations and in the US, the Blue Ribbon Committee set up by the U.S. Securities and Exchange Commission (SEC) mandate that listed companies adopt an appropriate Charter. The Committee is guided by the Charter, which has been adopted by the Board and is available on the Company's website at https://www.infosys.com/investors/corporate-governance/documents/audit-committee-charter.pdf.

| Process adopted by the Committee to fulfill its objectives |
|---|
| Ensuring an effective and independent internal audit function, which works to provide assurance regarding the adequacy and efficacy of the design and operation of internal controls, processes intended to safeguard the Company's assets, effective and efficient use of the Company's resources and, timely and accurate recording of all transactions |
| Meeting the independent auditors at the end of each quarter and financial year to discuss key observations relating to the financial statements for the relevant period |
| Providing an independent channel of communication for the Chief Compliance Officer, the internal auditors, and the independent auditors |
| Inviting members of the Management and, at its discretion, external experts in legal, financial, and technical matters, to provide clarifications, advice and guidance |
| Providing periodic feedback and reports to the Board |
| Reviewing its Charter, structure, processes, membership periodically, and recommending proposed changes to the Board for approval |
| Meeting at least four times in a year and ensuring that the gap between two meetings does not exceed 120 days |

## Committee governance

The Committee comprises four members and fulfills the requirements of:

- Audit Committee Charter
- Section 149 and 177 of the Companies Act, 2013
- Regulation 18 of the Listing Regulations
- NYSE guidelines, as applicable

The Committee, to carry out its responsibilities efficiently and transparently, relies on the Management's financial expertise and that of the internal and independent auditors. The Management is responsible for the Company's internal control over financial reporting and the financial reporting process. The independent

auditors are responsible for performing an independent audit of the Company's financial statements in accordance with the Generally Accepted Auditing Principles and for issuing a report based on the audit.

The Committee met ten times during the year, which is more than the requirement of the Companies Act, 2013 and the Listing Regulations.

## Key recommendations of the Committee

Based on its discussion with the Management and the auditors, and a review of the representations of the Management and the report of the auditors, the Committee has recommended the following to the Board:

- The Company's quarterly condensed financial statements, prepared in accordance with the Ind AS as specified under the Companies Act, 2013, read with the relevant rules thereunder and the IFRS as issued by the International Accounting Standards Board, be accepted by the Board
- The audited financial statements of Infosys Limited, prepared in accordance with Ind AS, for the year ended March 31, 2026, be accepted by the Board as a true and fair statement of the financial status of the Company
- The audited consolidated financial statements of Infosys Limited and its subsidiaries, prepared in accordance with Ind AS, for the year ended March 31, 2026, be accepted by the Board as a true and fair statement of the financial status of the Group
- The audited consolidated financial statements of Infosys Limited and its subsidiaries, prepared in Indian rupees and US dollars in accordance with IFRS, for the quarter and year ended March 31, 2026, be accepted by the Board as a true and fair statement of the financial status of the Group
- The audited consolidated financial statements of Infosys Limited and its subsidiaries, prepared in US dollars in accordance with IFRS, for the year ended March 31, 2026, be accepted by the Board as a true and fair statement of the financial status of the Group and be included in the Company's Annual Report on Form 20-F, to be filed with the SEC
- The appointment of Ernst & Young LLP as the internal auditors of the Company for the year ending March 31, 2027, to review various operations of the Company
- The Committee will be issuing a letter in line with Recommendation No. 9 of the Blue Ribbon Committee on Audit Committee effectiveness, to be provided in the financial statements prepared in accordance with IFRS in the Annual Report on Form 20-F
- In line with mandatory auditor rotation under Section 139 of the Companies Act, 2013, the Audit Committee on April 23, 2026, proposed its intent to recommend the appointment of BSR & Co. LLP as statutory auditors of the company commencing from the audit of the financial statements of the Company for the year ended March 31, 2028, including the audit of the quarterly financial statements for that year
- The Audit Committee also approved the intent to appoint KPMG Assurance and Consulting Services LLP as the independent registered public accounting firm for U.S. SEC filings, effective FY 2027-28, subject to applicable requirements

Relying on its review and the discussions with the Management and the independent auditors, the Committee believes that the Company's financial statements are fairly presented in conformity with Ind AS and IFRS and that there are no significant deficiencies or material weaknesses in the Company's internal control over financial reporting. In conclusion, the Committee is satisfied that it has complied with its responsibilities as outlined in the Charter. The Board has accepted all recommendations made by the Audit Committee.

## Fairness and excellence

**Two of the core values of our C-LIFE, fairness and excellence, are evident in the workings of the Board, its evaluation, and the compensation paid to the directors and the executive leadership.**

### Board member evaluation

One of the key functions of the Board is to monitor and review the Board evaluation framework. The Board works with the Nomination and Remuneration Committee to lay down the evaluation criteria for the performance of the Chairman, the Board, Board committees, and executive / non-executive / independent directors through peer evaluation, excluding the director being evaluated.

Independent directors have three key roles – governance, control, and guidance. Some performance indicators, based on which the independent directors are evaluated, include:

- The ability to contribute to and monitor our corporate governance practices
- The ability to contribute by introducing international best practices to address business challenges and risks
- Active participation in long-term strategic planning
- Commitment to the fulfillment of a director's obligations and fiduciary responsibilities; these include participation in Board and committee meetings.
- To undertake a formal and rigorous Board review annually, in order to improve the effectiveness of the Board; its committees; and that of each individual director.

The Board had engaged Egon Zehnder, a leadership advisory firm on board matters, to conduct the Board evaluation for fiscal 2026. The evaluation process focused on Board dynamics, softer aspects, committee effectiveness, and information flow to the Board or its committees, among other matters. The methodology included various techniques, such as questionnaires, and one-on-one discussions, etc. The aspects of succession planning and committee composition were also considered. The Board evaluation process was completed during fiscal 2026. During the year, the recommendations of the previous year's Board evaluation were discussed with the Board, and individual feedback was provided. Progress on recommendations from last year and the current year's recommendations were discussed.

Further, the evaluation process was based on the affirmation received from the independent directors that they met the independence criteria as required under the Act, the Listing Regulations, and the NYSE listing manual.

### Board and executive leadership compensation

**Executive leadership compensation**

Our executive compensation programs encourage reward for performance. A significant portion of the executives' total rewards is tied to the delivery of long-term corporate performance goals to align with the interests of the shareholders.

As required under the Listing Regulations, the Nomination and Remuneration Committee recommends to the Board the payment of remuneration to the directors, KMP, and senior management. The Nomination and Remuneration Policy of the Company is available on our website, at https://www.infosys.com/investors/corporate-governance/documents/nomination-remuneration-policy.pdf.

**Non-executive and non-independent chairman's compensation**

Nandan M. Nilekani, Chairman, voluntarily chose not to receive any remuneration for his services rendered to the Company.

**Independent directors' compensation**

The compensation payable to the independent directors is limited to a fixed amount per year as determined and approved by the Board, the sum of which does not exceed 1% of net profit for the year, calculated as per the provisions of the Companies Act, 2013. The Board reviews the performance of independent directors on an annual basis.

The Board, while deciding the basis for determining the compensation of the independent directors, takes various things into consideration. These include global board compensation benchmarking, participation of individual directors in Board and committee meetings, other responsibilities, such as membership or chairmanship of committees, time spent in carrying out other duties, roles, and functions as prescribed in Schedule IV of the Companies Act, 2013, Listing Regulations, and such other factors as the Board deems fit.

Shareholders at the 34th AGM held on June 22, 2015 approved a sum not exceeding 1% of the net profit of the Company per annum, calculated in accordance with the provisions of Section 198 of the Companies Act, 2013, to be paid and distributed among some or all of the non-executive directors of the Company in a manner decided by the Board. This payment will be made with respect to the profits of the Company for each year.

The amount payable to the independent directors for the year ended March 31, 2026 is ₹ 19.91 crore. Additionally, independent directors are also reimbursed for expenses incurred in the performance of their official duties. We confirm that none of the non-executive directors received remuneration amounting to 50% of the total remuneration paid to non-executive directors during the year ended March 31, 2026.

The aggregate amount of remuneration (commission) was arrived at using the following criteria:

| Particulars | in ₹ crore | in US$ |
|---|---|---|
| Fixed Board fee | 1.42 | 150,000 |
| Board / committee attendance fee[1] | 0.24 | 25,000 |
| Non-executive chairman fee | 2.85 | 300,000 |
| Chairperson – Audit Committee | 0.47 | 50,000 |
| Members – Audit Committee | 0.28 | 30,000 |
| Chairperson – other committees | 0.28 | 30,000 |
| Members – other committees | 0.19 | 20,000 |
| Travel fee (per meeting)[2] | 0.09 | 10,000 |
| Incidental fees (per meeting)[3] | 0.01 | 1,000 |
| Lead Independent Director | 0.28 | 30,000 |

Notes: 1 US$ = ₹94.84 as on March 31, 2026

The payment is subject to deduction of tax at source (TDS) as required by applicable tax laws.

(1) The Company normally has five regular Board meetings in a year. Independent directors are expected to attend at least four quarterly Board meetings and the AGM.

(2) For directors based overseas, the travel fee shown is per Board meeting. This is based on the fact that additional travel time of two days will have to be accommodated for independent directors to attend Board meetings in India.

(3) For directors based overseas, incidental fees shown is per Board meeting. This fee is paid to independent directors for expenses incurred during their travel to attend Board meetings in India.

The Board believes that the above compensation structure is commensurate with global best practices in terms of remunerating non-executive / independent directors of a company of similar size, and adequately compensates for the time and contribution made by our non-executive / independent directors.

## Indemnification agreements

We have also entered into agreements to indemnify our directors and officers for claims brought against them to the fullest extent permitted under applicable law. These agreements, among other things, indemnify our directors and officers for certain expenses, judgments, fines and settlement amounts incurred by any such person in any action or proceedings, including any action by or in the right of the Company, arising out of such persons' services as our director or officer, expenses in relation to public relations consultation, if required.

## Agreements binding listed entities

Pursuant to Regulation 30A of the Listing Regulations, no agreement has been entered or executed by the shareholders, promoters, promoter group entities, related parties, directors, key managerial personnel and employees of the Company and its subsidiaries during fiscal 2026.

## Materially significant related party transactions

There have been no materially significant related party transactions that may have potential conflict with the interests of the listed entity at large as provided in the Related Party Transactions Policy, which is available on our website, at https://www.infosys.com/investors/corporate-governance/Documents/related-party-transaction-policy.pdf.

During the year, the Company has obtained shareholders' approval for material related party transactions in accordance with Regulation 23 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. The details of these transactions are available at https://www.infosys.com/investors/reports-filings/documents/agm-notice2025.pdf.

# Integrity and transparency & Relationship with stakeholders

**Our Company upholds integrity and transparency in all transactions and communications with stakeholders. Our stakeholders are our partners in our journey to sustained value creation and therefore, our relationship with stakeholders and clear communication with them is at the center of all disclosures and reports.**

## Corporate

Infosys was incorporated in Pune, in 1981, as Infosys Consultants Private Limited, a private limited company under the Companies Act, 1956. In 1983, the corporate headquarters were relocated to Bengaluru. The name of the Company was changed to Infosys Technologies Private Limited in April 1992 and to Infosys Technologies Limited in June 1992, when the Company became a public limited company. We made an Initial Public Offering (IPO) in February 1993 and were listed on stock exchanges in India in June 1993. Trading opened at ₹145 per share, compared to the IPO price of ₹95 per share. In October 1994, we made a private placement of 5,50,000 shares at ₹450 each to Foreign Institutional Investors (FIIs), Financial Institutions (FIs), and body corporates.

On March 11, 1999, Infosys listed on NASDAQ, becoming the first Indian company to do so. We issued 20,70,000 American Depositary Shares (ADSs) (equivalent to 10,35,000 equity shares of par value ₹10 each) at US$34 per ADS under the ADS Program, and these ADSs were listed on the NASDAQ National Market.

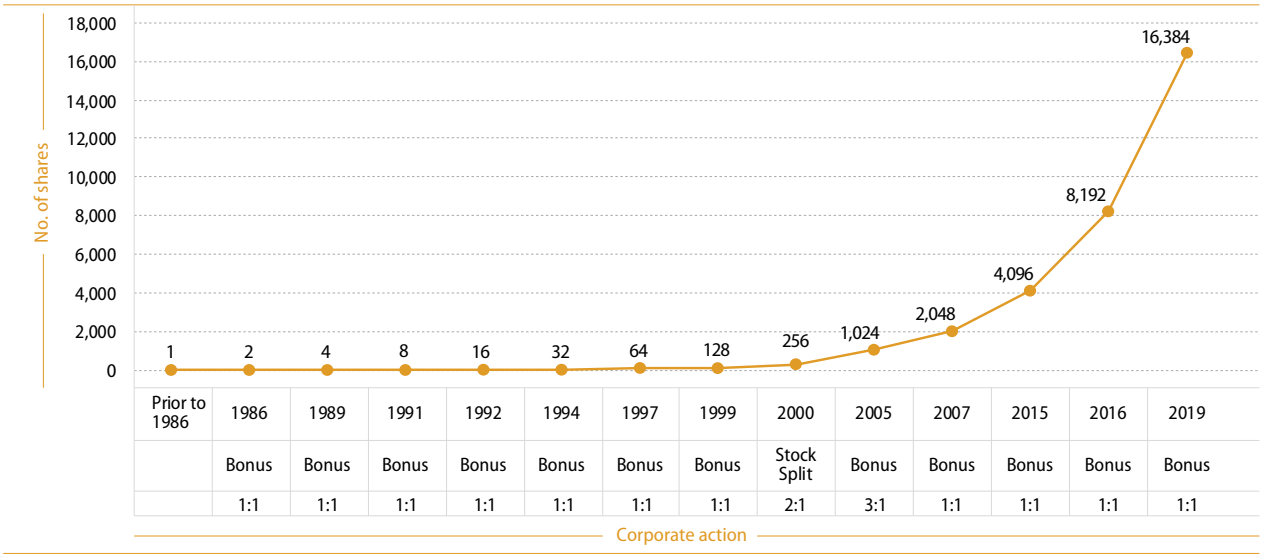

The share data mentioned before is unadjusted for stock split and bonus shares. In July 2003, June 2005. and November 2006, we issued secondary-sponsored American Depositary Receipts (ADRs) of US$294 million, US$1.1 billion, and US$1.6 billion, respectively.

During fiscal 2012, the name of the Company was changed from Infosys Technologies Limited to Infosys Limited to mark the transition from being a technology services provider to a business transformation partner to our clients.

During fiscal 2013, we delisted our ADSs from NASDAQ, and listed them on the New York Stock Exchange (NYSE), Euronext, London and Euronext Paris. During fiscal 2019, the Company voluntarily delisted from Euronext London and Paris due to low trading volume. Infosys equity shares and ADSs are listed on the NSE and BSE in India and on the NYSE, respectively, under the symbol "INFY".

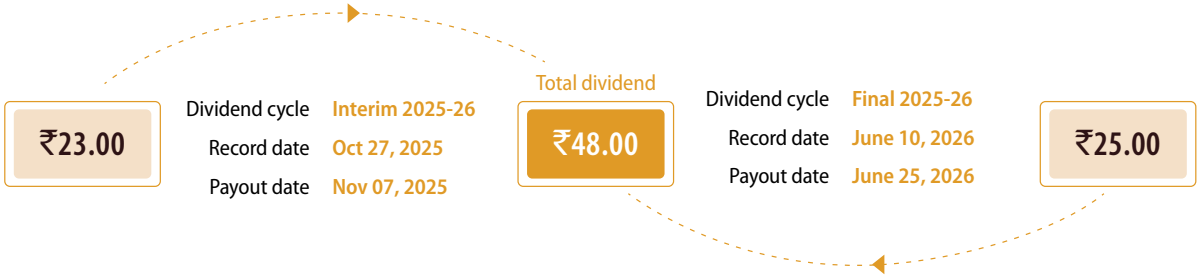

## Bonus issues and stock split

Note:
The above graph depicts the increase in the number of Infosys shares as a result of the Company's bonus issues over the years and a stock split in 2000 in the ratio of 2:1. For example, if the investor / shareholder held one share in 1986 prior to the bonus issue and continued to hold it, he would have 16,384 shares today owing to the bonus share issues and stock split.

## Dividend for fiscal 2026

## Unclaimed dividend

Members wishing to claim dividends that remain unclaimed are requested to correspond with the Registrar & Share Transfer Agent (RTA), KFin Technologies Limited, Unit: Infosys Limited, Selenium Tower B, Plot 31-32, Financial District, Nanakramguda, Serilingampally Mandal, Hyderabad-500 032 and e-mail at einward.ris@kfintech.com., or with the Company Secretary, at the Company's registered office or at investors@infosys.com. Members are requested to note that dividends that are not claimed within seven years from the date of transfer to the Company's Unpaid Dividend Account, will be transferred to the Investor Education and Protection Fund (IEPF) as per Section 124 of the Act, read with the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 ("the Rules"), as amended.

Further, the Rules mandate that the shares on which dividend has not been claimed / encashed for seven consecutive years or more be transferred to the IEPF. Additionally, the Company has not transferred or hold any equity shares in the Demat suspense account or unclaimed suspense account.

The list of years for which unclaimed dividends and their corresponding shares would become eligible to be transferred to the IEPF on the dates mentioned are as follows:

## Investor awareness

We have provided a synopsis of the rights and responsibilities of shareholders on our website, at https://www.infosys.com/investors/shareholder-services/pages/faqs.aspx.

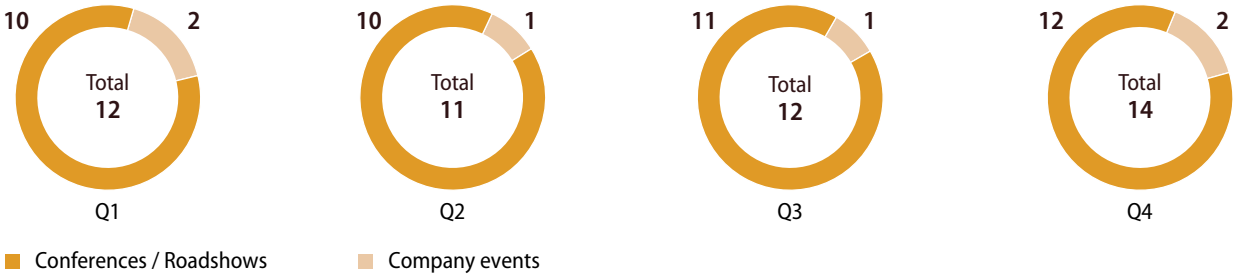

## Share transfer system

SEBI, effective April 01, 2019, barred physical transfer of shares of listed companies and mandated transfers only through demat. However, investors are not barred from holding shares in physical form. We request shareholders whose shares are in physical mode to dematerialize their shares. Shareholders holding shares in dematerialized mode have been requested to register their email address, bank account details and mobile number with their depository participants. Those holding shares in physical mode have been requested to furnish PAN, nomination, contact details, bank account details and specimen signature for their corresponding folios. Shareholders may contact the RTA at, einward.ris@kfintech.com and also refer details at https://www.infosys.com/investors/shareholder-services/investors-service.html.

Pursuant to SEBI Circular dated July 2, 2025, a special window was provided from July 7, 2025 to January 6, 2026 for re-lodgement of transfer requests lodged prior to April 1, 2019 and pending due to deficiencies. This facility has been extended vide SEBI Circular dated January 30, 2026 until February 4, 2027. Eligible shareholders may submit requisite documents within the extended timeline. Securities will be credited only in demat form and will be subject to a one-year lock-in, during which they cannot be transferred, pledged, or encumbered. Further details are available at: https://www.infosys.com/investors/shareholder-services/investors-service.html.

## Investor conferences / events held in fiscal 2026

Infosys holds press meets and investor / analyst calls after every quarterly results announcement, which is accessible to all the shareholders and general public. The Company also holds its Annual General Meeting, which is accessible to all the shareholders. The details of these are sent to the stock exchanges and updated on the website. Infosys also participates in various sell-side / broker-arranged investor conferences and roadshows where the Management / Company representatives interact with investors in one-on-one or group meetings. The details of such participation are sent to the exchanges and updated on the website.

## Investor grievances and investor contacts

We have a Board-level Stakeholders Relationship Committee to examine and redress complaints by shareholders and investors. The status of complaints is reported to the entire Board. The Stakeholders Relationship Committee meets as often as required to resolve shareholder grievances.

We attended to most of the investors' grievances and postal / electronic communications within a period of seven days from the date of receipt of such grievances. The exceptions have been for cases constrained by disputes or legal impediments.

Shareholders may note that the share transfers, dividend payments and all other investor-related activities are attended to and processed at the office of the Company's RTA.

For any grievances / complaints, shareholders may contact the RTA, KFin Technologies Limited at einward.ris@kfintech.com. For any escalations, shareholders may write to the Company at investors@infosys.com and for queries on dividend tax, write to us on dividend.tax@infosys.com. For addresses and contact details for investor queries, RTA, depositary banks, depositories for equity shares in India and stock exchanges, refer to the *Investor contacts*.

## Company shares-related disputes / litigation

There are certain pending civil cases involving rival claims made by parties seeking declaration of title and accrued benefits of the Company's disputed shares. Since the disputed shares relate to the Company, Infosys Limited and the Company's RTA, KFin Technologies Limited are made pro forma defendants in these litigation matters. However, these matters are not material in nature.

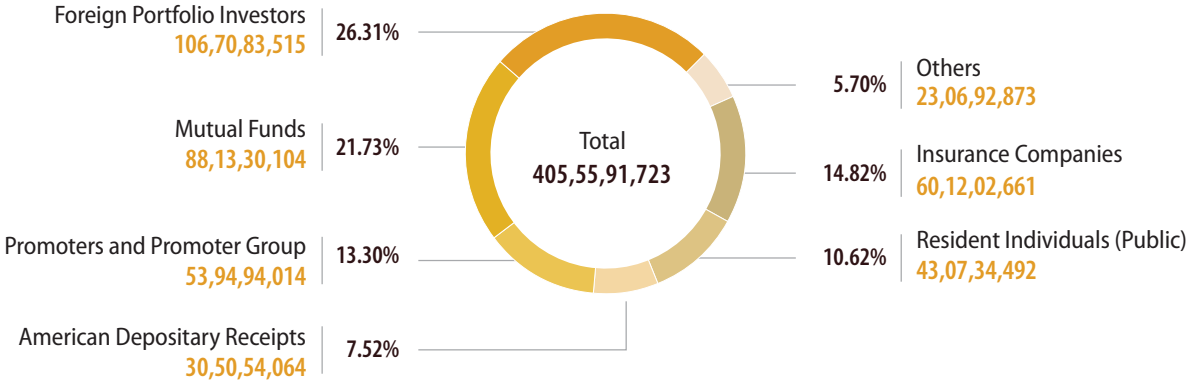

## Commodity price risk or foreign exchange risk and hedging activities

The Company does not deal in commodities and hence the disclosure pursuant to SEBI Master Circular No. SEBI/HO/CFD/PoD2/CIR/P/0155 dated November 11, 2024 is not applicable. For details of foreign exchange risk and hedging activities, refer to Form *20-F* which is available at https://www.infosys.com/investors/reports-filings/annual-report/annual-reports.html.

# Risk management report

*"Over the last fiscal year, businesses worldwide have faced significant challenges due to geopolitical shifts, economic uncertainties, supply chain disruptions, evolving regulations, advances in artificial intelligence, technology upheavals, and cybersecurity risks. These factors have collectively impacted operations and decision-making. Amidst this landscape, our enterprise risk management processes were instrumental in guiding the Company's focus and ensuring we prioritized what mattered most to our stakeholders. By proactively identifying and addressing emerging threats, we maintained resilience and adaptability, allowing us to navigate complexities and uphold our commitment to our stakeholders."*

**Deepak Bhalla**
*EVP – Chief Risk Officer*

*Note: The risk-related information outlined in this section may not be exhaustive. The discussion may contain statements that are forward-looking in nature. Our business is subject to uncertainties that could cause actual results to differ materially from those reflected in the forward-looking statements. If any of the risks materializes, our business, financial conditions or prospects could be materially and adversely affected. Our business, operating results, financial performance, or prospects could also be harmed by risks and uncertainties not currently known to us or that we currently do not believe are material. Readers are advised to refer to the detailed discussion of risk factors and related disclosures in our regulatory filings and exercise their own judgment in assessing risks associated with the Company.*

Our Enterprise Risk Management (ERM) function enables the achievement of the Company's strategic objectives by identifying, analyzing, assessing, mitigating, monitoring, and governing any risk or potential threat to these objectives. While this is the key driver, our values, culture, and commitment to stakeholders – employees, customers, investors, regulatory bodies, partners, and the community around us – are the foundation of our ERM framework. The systematic and proactive identification of risks, and mitigation thereof, enables our organization to boost performance with effective and timely decision-making. Strategic decisions are taken after careful consideration of primary, secondary, consequential, and residual risks. The ERM function also enables effective resource allocation through structured qualitative and quantitative risk impact assessment and prioritization based on our risk appetite, which is defined through the ERM framework. During the assessment, impacts and likelihood or probability of the risks are assessed using a four-point scale, and risks are categorized into four categories based on this. Risks are mitigated in the order of criticality starting with critical risks, followed by high and medium risks. Low impact is the default risk appetite for all risks, supported by impact definitions, robust preventive, detective, and corrective controls, and strong governance mechanisms to manage risks and ensure residual risk exposures remain within acceptable limits.

Our ERM framework also enables the identification of underlying opportunities during risk assessment, which are then further evaluated and actionized by the business. Our ERM framework encompasses all of the Company's risks – strategy and strategy execution; operational; legal and compliance risks. These categories can also have internal or external dimensions. Hence, appropriate risk indicators are used to identify these risks proactively. We take cognizance of risks emanating internally or externally and their cumulative impact while framing our risk responses.

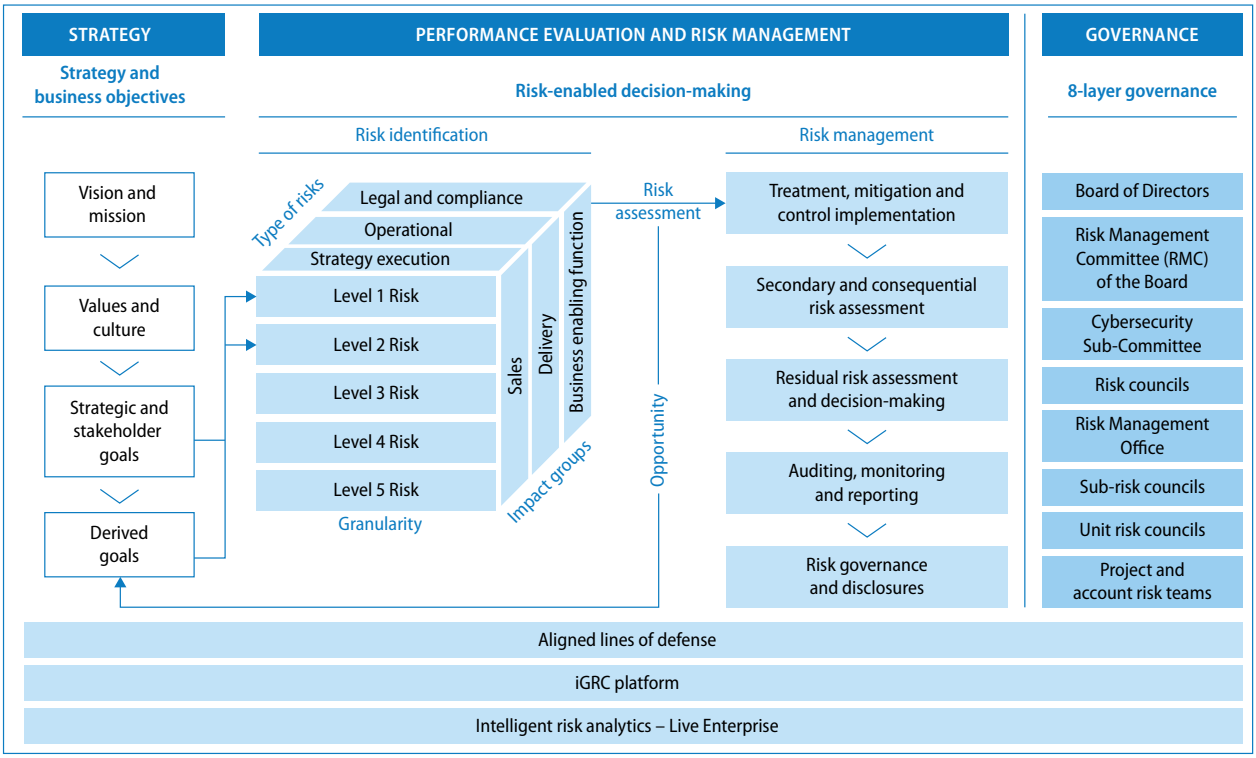

**Emerging risks:** Our ERM framework has defined a process to identify, assess, plan, and monitor risks emerging from internal and external environment which enables the Company to build and maintain resilience in uncertain times. The process includes horizon scanning and SWOT analysis, which cover political, economic, social, technological, legal and environmental aspects. The emerging risks are monitored constantly and discussed in the risk councils and with the Risk Management Committee (RMC) of the Board on a periodic basis.

| | |
|---|---|
| **Strategy and strategy execution** | The risks arising out of the choices we have made in defining our strategy and the risks to the successful execution of our strategy are covered in this category. For example, risks inherent to our industry and our competitiveness are analyzed and mitigated through strategic choices of target markets, our market offerings, business model and talent base. |
| **Operational** | The risks affecting our policies, procedures, people and systems, thereby impacting service delivery or operations, or compromising our core values or business practices are covered in this category. For example, risks such as inefficiencies in internal processes, human rights, fraud risks, business activity disruptions due to natural calamities, climate change events, human conflicts, system failures and cybersecurity attacks. |
| **Legal and compliance** | The risks arising out of threats posed to our financial, organizational, or reputational standing resulting from litigations, non-conformance with laws, regulatory or geopolitical developments, codes of conduct and contractual compliances are covered in this category. |

## Integrated Enterprise Risk Management Framework

We have adopted an integrated ERM framework that is implemented across the organization by the Risk Management Office. Our ERM framework incorporates the best practices based on COSO and ISO 31000 and is tailored to suit our unique business requirements.

**Integrated Enterprise Risk Management Framework**

Risk management at Infosys encompasses all areas, including first, second, and third lines of defence. Risk management is embedded into the core business process and day-to-day decision-making of every function within the Company and forms an integral part of the development process and project execution. Risk management has been embedded into the job description of senior management, middle management, and employees who engage with clients. Achieving strategic goals by proactively managing the risks is the responsibility of the Company's management at all levels. Financial incentives are linked to the achievement of strategic goals. As the first line of defense, they evaluate risks and opportunities before taking key business decisions. This first line works closely with corporate ERM through risk councils and sub-risk councils created across the organization in different units.

The second line of defence consists of various risk functions such as Information Security Group (ISG), Data Privacy Office (DPO), Quality, Delivery Risk Management (DRM), Business Continuity, Legal, Compliance, etc., who work closely with the ERM function in identifying, assessing, reporting and governing the risks. While risks are largely mitigated by the first line / business, they are tracked and governed by the second line. They are reported to the executive leadership through various councils, including the Operational Risk Council (ORC) and the Legal & Compliance Risk Council (LCRC). These key risks are also presented to the Risk Management Committee (RMC) of the Board on a quarterly basis.

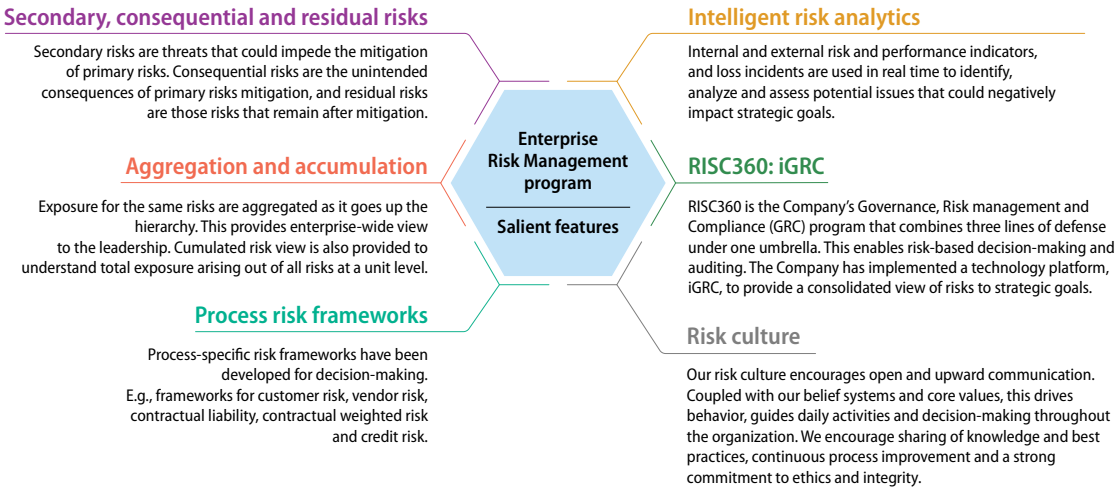

The third line of defense encompasses internal audit, which reviews various risks and controls on a periodic basis to assess the effectiveness of the risk management process and reports independently. Inputs on key risks by the ERM are considered while drafting the audit plan. The Company maintains a single hierarchical risks repository from L1 to L5, covering strategic to tactical risks. All these are governed by the integrated ERM framework of the Company. This is how all lines of defense are aligned as depicted in the ERM framework above.

The Company also conducts maturity assessment of the ERM process on a periodic basis by an independent external agency. The maturity assessment was conducted in March 2024.

Risk management is embedded throughout the organization. The environment to take risk-enabled decisions and the establishment of forums to accelerate decisions to identify and mitigate risks are the hallmarks of a good risk culture. At Infosys, this is enabled through the implementation of the integrated ERM framework. This is a decision support system for the executive leadership. A multi-layered governance structure provides open forums for risk discussions at various levels. Comprehensive awareness and training programs are conducted on a regular basis for all the employees and contractors to cover risks applicable to the business. Lex, our in-house learning platform, offers various risk management courses, which are accessible from anywhere in the world. Periodic table-top exercises are conducted in key areas to review preparedness for high-impact, low-probability risks.

### Salient features of our Enterprise Risk Management program

Our ERM program adopts unique methods to identify risks, evaluate potential impact and promote risk awareness across the organization.

## Highlights of fiscal 2026

During fiscal 2026, various risks management initiatives were undertaken so as to ensure the smooth delivery of services to our clients, transparent communication with all stakeholders, fulfilment of our social responsibility while ensuring employee safety and health by strengthening risk management program and enhancing the risk culture. The Risk Office assessed, monitored and reported on risks related to geopolitical scenarios; uncertainties in the economy; inflation; artificial intelligence, technology disruption and innovation; talent availability; cybersecurity; data protection and privacy; ESG; contractual liabilities; and complex and evolving regulatory environment.

While the Company tracks several risks to its business, the key risks and emerging risks are described below along with the Company's approach to mitigate them.

| Key / Emerging risks | Impact on Company | Mitigation / Opportunity |
|---|---|---|
| Geopolitical, macroeconomic or health events | • Our revenues are concentrated in a few geographies and client industries, and a large part of our revenue is dependent on a limited number of clients. Unfavorable geopolitical, economic, or health events may result in currency volatility and reduced spend on technology products and services that may adversely impact demand for our offerings, which in turn may impact our growth and profitability.<br>• **Emerging risk aspect:** Geopolitical, economic or health events are dynamic in nature and constantly evolving. Uncertainty and unpredictability of policy changes by governments such as tariffs, trade restrictions etc., sometimes make it difficult to predict and assess the impact.<br>• **Impacted capitals:** Financial, Social & Relationship and Human | • Broad-based growth to reduce concentration in any single region, client or industry<br>• Monitor geopolitical and macroeconomic scenarios, identify potential business impact and implement additional controls to build operational agility to respond to situations<br>• Implement currency hedging best practices to minimize the impact due to the volatility<br>• Implement strong business continuity protocols and proactive resilience measures in the regions affected by the geopolitical conflicts to ensure uninterrupted delivery of critical operations and minimize disruptions<br>• Hybrid working model to address evolving geopolitical risks<br>• Diversified supply chain to address potential disruptions due to geopolitical conflicts, tariff or trade restrictions<br>• Acquisitions to expand our footprint in newer areas or regions<br>• **Opportunity** – Clients are looking for cost takeout projects and vendor consolidation |

| Key / Emerging risks | Impact on Company | Mitigation / Opportunity |
|---|---|---|
| Artificial Intelligence (AI) risks | • If we are unable to transform existing services by leveraging AI and / or scale new AI-first service offerings to meet evolving customer requirements, this could affect our win rates, reduce our market share and decrease our revenue and profits.<br>• **Impacted capitals:** Financial and Intellectual | • Differentiation of services through constant innovation and developing industry solutions meeting client requirements leveraging AI<br>• Continued investments to identify, incubate, develop and launch innovative AI-first offerings<br>• Implement proactive measures to identify and mitigate operational issues<br>• Implement AI talent transformation strategy to build an ambidextrous organization<br>• Build deep AI engineering expertise |
| Global Capability Centers (GCCs) risks | • Customers looking inwards by insourcing or establishing or expanding GCCs for various services provided by us may result in loss of addressable market share, thus impacting overall growth and profitability.<br>• **Impacted capitals:** Financial and Intellectual | • Collaboration and co-creation to address the GCC business requirements<br>• Set up and scale GCC practice to cater to different types of engagement models like assisted GCC build, build-operate-transfer, captive carveouts etc.<br>• AI-first model that transforms GCCs into innovation hubs |
| Technology disruption and innovation | • **Emerging risk:** Not having the right framework and approach to identify, invest in, incubate and operationalize new services and offerings that are in line with technology changes like AI, client preferences and market expectations may disrupt our value proposition and reduce our relevance to customers, impacting our revenue and profitability. The speed and nature of technological changes make it difficult to predict the trend.<br>• **Impacted capitals:** Financial, Human and Intellectual | • Innovation council led by executive leadership to identify and incubate next big bets through innovation framework<br>• Joint innovation showcases with clients, industry forums, alliances, partners, academia, etc.<br>• Investments in research and development to develop consulting and industry-domain knowledge-led solutions<br>• Reskilling program for employees in newer technologies and methodologies<br>• Large deal specific investments to drive innovation, enhance productivity and enhance industry-domain expertise<br>• Invest in / develop alliances or partnerships with emerging technology firms<br>• **Opportunity** – Identify, develop and deploy new offerings to customers leveraging next-generation technologies |
| Talent supply constraints | • As of March 31, 2026, we have 3,28,594 employees across the globe. Our success depends on our highly skilled technology, AI and management talent. If we are unable to attract, hire, engage, motivate, reskill and retain technology, AI and management talent, manage leadership succession and transition, reshape the talent model driven by AI strategy at speed, respect and protect human rights, continuously evolve our hybrid work model in response to changing needs and expectations, it could impact our reputation, ability to staff projects or execute large and complex programs, or optimize cost structures.<br>• **Impacted capitals:** Financial, Human, Intellectual and Manufactured | • Focused efforts to improve the recruitment and employee onboarding cycle time<br>• Employee engagement and support initiatives to increase the new employee connect with the organization<br>• Holistic employee retention and recognition efforts for key and tenured employees<br>• Focused career and leadership development programs to develop next-gen leaders<br>• Hybrid operational model that balances client requirements, evolving employee preferences, legal requirements and information security risks<br>• Redesign career architecture to future-proof the organization<br>• Develop a future-ready workforce leveraging our global learning infrastructure |

| Key / Emerging risks | Impact on Company | Mitigation / Opportunity |
|---|---|---|
| Cybersecurity | • Cyber threats evolve rapidly, and there have in the past and could in the future be a scenario where we are unable to adapt our threat detection and prevention measures to detect or prevent new, modified, or evolving threats to our solutions and / or product offerings.<br>• Cyber attacks that breach our information network or failure to protect sensitive and confidential information of our stakeholders in accordance with applicable laws and contractual obligations may adversely impact our operations and client satisfaction or result in significant regulatory penalties.<br>• **Impacted capitals:** Financial, Human, Intellectual and Manufactured | • Robust cybersecurity strategy, framework, processes, policies and controls to enhance cyber resilience<br>• Multi-layered governance process with executive and Board oversight to review the cybersecurity risks and our preparedness to mitigate and respond to such risks<br>• Continued investment in technologies to address risks posed by evolving cyber threat landscape<br>• Close collaboration with cyber intelligence and forensic consultants to identify and prepare for emerging cybersecurity threats, periodic table-top exercises, and maintain the cybersecurity crisis plan up to date<br>• Regular cybersecurity awareness programs and trainings with strong consequence management process<br>• Trainings and workshops for employees on security by design<br>• Strong encryption, data backup and recovery mechanism to ensure business continuity during any crisis<br>• The Cyber Risk Assessment Framework aligned to ISO 31000, ISO 27001, and ISO 27005<br>• **Opportunity** – Cybersecurity services to the customer |
| Data protection and privacy | • Failure to protect personal and sensitive information of our stakeholders in accordance with applicable laws may impact our operations or result in significant regulatory penalties.<br>• **Impacted capitals:** Financial, Human and Intellectual | • Robust data privacy framework, policies, processes and controls<br>• Trainings and workshops for employees on privacy by design and data protection and privacy awareness bringing in geographical nuances<br>• Multi-layered governance process with executive and Board oversight to review the data protection and privacy risks and our preparedness to mitigate and respond to such risks<br>• Continuous monitoring of regulatory landscape |
| Cost inflation / Inability to improve margin | • If we are unable to run our operations effectively and with sustainable cost levers, our long-term profitability may be adversely affected.<br>• **Impacted capitals:** Financial | • Effective operations with sustainable cost optimization and margin improvement levers<br>• Automation and planned capex program focused on technology adoption for efficiencies |
| Environment, Social, Governance (ESG) ambition | • Our reputation, access to capital and longer-term financial stability could be at risk if we are unable to meet our stated goals under our ESG 2030 Vision. For example, climate change risks are increasingly manifesting in our business as strategic, physical and transitional (market and compliance) risks, which if not managed adequately, can affect our operations, reputation and profitability. For more details, visit https://www.infosys.com/about/esg/esg-vision-2030.html.<br>• **Emerging risk aspect:** Expectations on ESG are changing and may change further due to evolving stakeholder expectations and regulatory requirements.<br>• **Impacted capitals:** Financial, Human, Intellectual, Natural, Social & Relationship and Manufactured | • ESG 2030 ambitions and execution roadmap with dedicated owners for each of the ambitions<br>• Board-level governance and oversight through dedicated ESG Committee of the Board<br>• Periodic risk assessments to identify, assess, and mitigate the risks to ESG ambitions<br>• ESG ambitions aligned with the strategy<br>• Regular monitoring of regulatory landscape<br>• **Opportunity** – Climate change-related solutions and services to the customer |

| Key / Emerging risks | Impact on Company | Mitigation / Opportunity |
|---|---|---|
| Contractual liabilities | • Risk of clients demanding more favorable terms, including onerous clauses related to the liability and our inability to adhere to contractual obligations with customers may lead to litigations, fines, and may adversely impact our reputation, revenue and profitability.<br>• **Impacted capitals**: Social & Relationship and Financial | • Engaging clients on contractual terms through dedicated in-house team<br>• Contract legal playbook with risk framework to identify the high-risk clauses and plan appropriate controls to mitigate the risks<br>• Multi-layered governance process for contract approval<br>• Dedicated teams to adhere to, monitor and audit contractual obligations<br>• Comprehensive Board-level monitoring, reporting and governance of contractual risks |
| Complex and evolving regulatory environment | • If we are not able to comply with the existing complex regulatory landscape (e.g., immigration, wages, tax, sanctions), it could result in investigations, regulatory inquiries, litigation, fines, and negative client sentiments.<br>• **Emerging risk aspect:** Evolving regulatory compliance, corporate governance and public disclosure requirements add uncertainty to our compliance policies.<br>• **Impacted capitals:** Financial, Human, Intellectual, Social & Relationship and Natural | • Dedicated in-house compliance team working with external partners to monitor changes to the regulatory landscape<br>• Comprehensive compliance framework, policies, controls and programs to identify changes to regulatory landscape, assess their impact and implement appropriate actions<br>• Regular connect with regulatory authorities and compliance experts to identify and assess changes to the regulatory landscape<br>• Contract awareness programs and trainings for employees and vendors<br>• Periodic compliance certification with clear accountability and responsibility defined<br>• Comprehensive monitoring, reporting and governance, including Board oversight |

## Cybersecurity risk management

Cyber risks, being one of the key risks, is managed through multi-layered controls with a defence-in-depth approach starting from the cybersecurity strategy, supplemented by policies, processes and controls (preventive, detective, and corrective). Our strategy is focused on four areas: Transparency and experience; continual improvement and compliance; cyber resilience; and building and maintaining a positive cybersecurity culture within the organization. A high-level working group, the enterprise Information Security Council (ISC), has been established, which is responsible for governing and overseeing the Information Security Management System (ISMS) at Infosys. ISC focuses on establishing, directing, monitoring, and executing the information security program with representation from various departments and business units at Infosys and reports to the Operational Risk Council highlighting key risks to the executive leadership.

# INDEPENDENT PRACTITIONER'S REASONABLE ASSURANCE REPORT ON IDENTIFIED SUSTAINABILITY INFORMATION IN INFOSYS LIMITED'S BUSINESS RESPONSIBILITY AND SUSTAINABILITY REPORT

**To the Board of Directors**
**of INFOSYS LIMITED**

1. We have undertaken to perform reasonable assurance engagement, for INFOSYS LIMITED (the "Company") vide our engagement letter dated January 16, 2026 in respect of the agreed Sustainability Information listed below (the "Identified Sustainability Information" or "BRSR Core indicators") in accordance with the Criteria stated in paragraph 3 below. This Sustainability Information is included in the Business Responsibility and Sustainability Report (the "BRSR" or the "Report") included within the Integrated Annual Report (the "IAR") of the Company for the year ended March 31, 2026. This engagement was conducted by a multidisciplinary team including assurance practitioners, environmental engineers and specialists.

2. **Identified Sustainability Information**

   Our scope of reasonable assurance consists of the BRSR Core indicators listed in the Appendix I to our report. The reporting boundary of the BRSR is as disclosed in Question 13 of Section A: General Disclosure of the BRSR with exceptions disclosed by way of note under respective questions of the BRSR, where applicable.

   Our reasonable assurance engagement was with respect to the year ended March 31, 2026 information only unless otherwise stated and we have not performed any procedures with respect to any other elements included in the BRSR and, therefore, do not express any opinion thereon.

3. **Criteria**

   The Criteria used by the Company to prepare the Identified Sustainability Information is as under:

   - Regulation 34(2)(f) of the Securities and Exchange Board of India (the "SEBI") (Listing Obligations and Disclosure Requirements), Regulations, 2015 as amended; and
   - Business Responsibility and Sustainability Reporting Requirements for listed entities per Master Circular No. HO/49/14/14(7)2025-CFD-POD2/I/3762/2026 dated January 30, 2026 (the "SEBI Master Circular").

4. **Management's Responsibility**

   The Company's management is responsible for selecting or establishing suitable criteria for preparing the Sustainability Information including the reporting boundary of the BRSR, taking into account applicable laws and regulations, if any, related to reporting on the Sustainability Information, identification of key aspects, engagement with stakeholders, content, preparation and presentation of the Identified Sustainability Information in accordance with the Criteria. This responsibility includes design, implementation and maintenance of internal controls relevant to the preparation of the BRSR and the measurement of Identified Sustainability Information, which is free from material misstatement, whether due to fraud or error.

5. **Inherent limitations**

   The absence of a significant body of established practice on which to draw to evaluate and measure non-financial information allows for different, but acceptable, measures and measurement techniques and can affect comparability between companies.

6. **Our Independence and Quality Control**

   We have maintained our independence and confirm that we have met the requirements of the Code of Ethics issued by the Institute of Chartered Accountants of India (the "ICAI") and the SEBI Master Circular and its clarifications thereto and have the required competencies and experience to conduct this assurance engagement.

   We apply Standard on Quality Control ("SQC") 1, "Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements", and accordingly maintain a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards, and applicable legal and regulatory requirements.

7. **Our Responsibility**

Our responsibility is to express a reasonable assurance opinion on the Identified Sustainability Information listed in Appendix I based on the procedures we have performed and evidence we have obtained.

We conducted our engagement in accordance with the Standard on Sustainability Assurance Engagements (SSAE) 3000, "Assurance Engagements on Sustainability Information", and Standard on Assurance Engagements (SAE) 3410 "Assurance Engagements on Greenhouse Gas Statements" (together the "Standards"), both issued by the Sustainability Reporting Standards Board (the "SRSB") of the ICAI.

These standards require that we plan and perform our engagement to obtain reasonable assurance about whether the Identified Sustainability Information listed in Appendix I and included in the BRSR are prepared, in all material respects, in accordance with the Criteria.

As part of a reasonable assurance engagement in accordance with the Standards, we exercise professional judgment and maintain professional skepticism throughout the engagement.

A reasonable assurance engagement involves identifying and assessing the risks of material misstatement of the Identified Sustainability Information whether due to fraud or error, responding to the assessed risks as necessary in the circumstances.

The procedures we performed were based on our professional judgment and included inquiries, observation of processes performed, inspection of documents, evaluating the appropriateness of quantification methods and reporting policies, analytical procedures and agreeing or reconciling with underlying records.

Given the circumstances of the engagement, in performing the procedures listed above, we:

- Obtained an understanding of the Identified Sustainability Information and related disclosures;
- Obtained an understanding of the assessment criteria and their suitability for the evaluation and/or measurements of the Identified Sustainability Information;
- Made inquiries of Company's management, including environment team, compliance team, human resource team amongst others and those with the responsibility for preparation of the Report;
- Obtained an understanding and performed an evaluation of the design of the key systems, processes and controls for recording, processing and reporting on the Identified Sustainability Information at the corporate office and at other locations/offices on a sample basis. This included evaluating the design of those controls relevant to the engagement and determining whether they have been implemented by performing procedures in addition to inquiry of the personnel responsible for the Identified Sustainability Information;
- Based on the above understanding and the risks that the Identified Sustainability Information may be materially misstated, determined the nature, timing and extent of further procedures;
- Tested the key assumptions, emission factors and methodologies used for calculation of the Greenhouse Gas (the "GHG") emissions;
- Tested the Company's process for collating the sustainability information through agreeing or reconciling the Identified Sustainability Information with the underlying records on a sample basis; and
- Tested the consolidation for locations/offices on a sample basis and corporate office under the reporting boundary for ensuring the completeness of data being reported.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our reasonable assurance opinion.

8. **Exclusions**

Our assurance scope excludes the following and therefore we do not express an opinion on:

- Operations of the Company other than Reporting Boundary set out in Question 13 of Section A: General Disclosures of the BRSR, for the Identified Sustainability Information listed in Appendix I;
- Aspects of the Report and the data/information (qualitative or quantitative) other than the Identified Sustainability Information;
- Data and information outside the defined reporting period i.e. the financial year ended March 31, 2026; and
- The statements that describe expression of opinion, belief, aspiration, expectation, aim, or future intentions provided by the Company.

9. **Other information**

The Company's management is responsible for the other information. The other information comprises the information included within the BRSR, the IAR and the Environment Social and Governance (the "ESG") Report, other than Identified Sustainability Information and our independent assurance reports dated May 27, 2026 thereon.

Our opinion on the Identified Sustainability Information does not cover the other information and we do not express any form of assurance thereon.

In connection with our assurance engagement of the Identified Sustainability Information, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Identified Sustainability Information or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

10. **Reasonable Assurance Opinion**

Based on the procedures we have performed and the evidence we have obtained, the BRSR Core indicators for the year ended March 31, 2026 listed in Appendix I and presented in the BRSR are prepared in all material respects, in accordance with the Criteria as stated in paragraph 3 above.

11. **Restriction on use**

Our Reasonable Assurance report has been prepared and addressed to the Board of Directors of the Company at the request of the Company solely, to assist the Company in reporting on Company's sustainability performance and activities. Accordingly, we accept no liability to anyone, other than the Company. Our Reasonable Assurance report should not be used for any other purpose or by any person other than the addressees of our report. We neither accept nor assume any duty of care or liability for any other purpose or to any other party to whom our report is shown or into whose hands it may come without our prior consent in writing.

# Business Responsibility and Sustainability Report

**Sustainability and responsible business are foundational to Infosys' purpose and the way we create long term value.**

**Our purpose is to amplify human potential and create the next opportunity for people, businesses, and communities through innovative technology and effective solutions. From our inception, we have sought to earn the enduring trust and respect of all stakeholders by building a business that is ethical, transparent, and responsive to the needs of society and the planet. ESG is not an adjunct to our strategy – it is embedded in our decisions, operations, and governance, shaping how we grow, innovate, and lead responsibly.**

**We adopted the GRI Framework in 2008 and in fiscal 2013, we were among the first companies to publish the Business Responsibility Report (BRR). We continue to adopt the GRI standard for our ESG practices and disclosures.**

**The BRSR follows the National Guidelines on Responsible Business Conduct (NGRBC) principles on the social, environmental and economic responsibilities of business.**

**Our BRSR includes our responses to questions about our practices and performance on key principles defined by Regulation 34(2)(f) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations 2015 as amended from time to time, which cover topics across all ESG dimensions.**

## Governance, leadership and oversight

### 7. Statement by director responsible for the business responsibility report, highlighting ESG-related challenges, targets and achievements

"Infosys continues to advance its commitment to building a sustainable, resilient, and purpose-driven enterprise, guided by its ESG Vision 2030. This vision anchors our overall strategy to strengthen governance, drive environmental stewardship, foster an inclusive and diverse workplace, and leverage technology to create long-term value for all stakeholders.

Our strategic priorities remain focused on accelerating our climate commitments, enabling large-scale skilling, and embedding responsible practices across our operations and value chain. These priorities are aligned to evolving stakeholder expectations and material ESG considerations. We operate in a dynamic global environment shaped by climate transition imperatives, rapid technological change, increasing regulatory requirements, and heightened expectations around transparency and accountability. In this context, we continued to enhance our ESG frameworks and disclosures during the year. In fiscal 2026, Infosys made steady progress across its ESG commitments, supported by robust governance mechanisms, defined performance metrics, and active stakeholder engagement. At the same time, we continued to navigate challenges relating to climate transition, talent transformation, and a complex macroeconomic environment. Overall, our performance reflects continued progress toward our stated ESG targets. We remain committed to strengthening our execution, improving transparency, and driving measurable outcomes across environmental, social, and governance dimensions.

Looking ahead, we expect continued evolution in regulatory landscapes, stakeholder expectations, and climate-related risks. Infosys remains confident in its strategy and will continue to enhance its ESG practices to drive sustainable, inclusive, and responsible growth.

Information on our ESG-related challenges, targets, performance, and key achievements are detailed in our ESG Report. You may also refer to 'Approaching Value Creation' and 'Delivering Value' chapters of this Integrated Annual Report."

[2] Our assessment covers 1,100+ upstream value chain partners.

2. Does the entity have processes in place to avoid/ manage conflict of interests involving members of the Board? (Yes/No) If Yes, provide details of the same.

Yes, the Company has established robust processes to avoid and manage conflicts of interest involving members of the Board. These include:

1. Declaration of Interest: All Board members are required to disclose their financial interests, affiliations, or relationships that could influence their decision-making at the time of their appointment and periodically thereafter, in compliance with statutory requirements.
2. Code of Conduct and Ethics: The Company has adopted a formal Code of Conduct and Ethics that defines what constitutes a conflict of interest and provides clear guidelines for identifying and managing conflicts of interest.
3. Recusal procedures: In cases where a potential conflict of interest is identified, the Board member concerned is required to recuse from discussions and voting on the relevant agenda item.
4. Approval requirements: Transactions involving entities in which the directors have an interest require the prior approval of the Board. If such transactions exceed the prescribed threshold, the approval of the shareholders is also required.

# PRINCIPLE 2:
# Businesses should provide goods and services in a manner that is sustainable and safe

## Essential indicators

1. Percentage of R&D and capital expenditure (capex) investments in specific technologies to improve the environmental and social impacts of product and processes to total R&D and capex investments made by the entity, respectively.

| | Fiscal 2026 | Fiscal 2025 | Details of improvements in environmental and social impacts |
|---|---|---|---|
| R&D[1][2] | 19.9 | 16.9 | Education, training and assessment of employees to upskill and reskill, leadership training to build leadership capability and business research to produce novel, distinctive content and insights, and technology to improve environmental and social products and processes |
| Capex[1][2] | 3.6 | 1.5 | Efficient equipment for cooling, lighting, renewable energy, water management, waste management and sustainable material |

[1] Based on standalone financial statements under Ind AS

[2] R&D and capex investments in specific technologies include education, training and assessment platforms that build digital and AI capabilities not only across the workforce, but also among students and other learners in the broader talent ecosystem. These technology investments support the development and adoption of digital and AI-led products and processes that can improve environmental performance through greater efficiency and resource optimization, while also creating social impact by expanding access to future-ready skills, strengthening capabilities, employability, and enabling more inclusive participation in the digital economy.

2a. Does the entity have procedures in place for sustainable sourcing? (Yes/No)

Yes. Infosys has adopted a Responsible Supply Chain & Supplier Diversity Policy as well as a Green Procurement Policy to strengthen its commitment to responsible sourcing. Suppliers are also required to mandatorily sign the Supplier Code of Conduct. Periodic ESG assessments are conducted internally as well as through a third party.

2b. If yes, what percentage of inputs were sourced sustainably?

All our procurements follow the principles of sustainable sourcing. We require suppliers to accept the Supplier Code of Conduct, which is based on the UNGC Principles.

3. Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for

10. Health and safety management system:

10a. Whether an occupational health and safety management system has been implemented by the entity? (Yes / No). If yes, the coverage of such system?

Yes. At Infosys, Health, Safety and Environment (HSE) is an integral part of our ESG framework. Our Health, Safety and Environmental Management System (HSEMS), known as 'Ozone', is anchored in strong management commitment, compliance with applicable legal requirements, and the expectations of our stakeholders.

Ozone has not only enabled assurance of our structured and well-established processes through globally recognized certifications, but it has also cultivated a strong culture of safety and well-being across the organization. Our robust HSEMS has enabled Infosys to achieve ISO 45001:2018 (Occupational Health & Safety) certifications at locations where the system has been in place for over three years. These certifications encompass all India locations and Australia offices, including Infosys Limited and its subsidiaries, in line with our enterprise HSE strategy. Currently, over 85% of Infosys' employees are covered by ISO 45001 certification, highlighting our commitment to employee safety. The HSEMS is globally implemented across locations based on legal requirements and internal benchmarks, and it is included in our internal audit program to ensure consistent governance and performance.

Infosys provides the highest priority to the health, safety, and well-being of its employees and key stakeholders. Our HSE Policy clearly articulates our philosophy and commitment towards proactively managing significant HSE risks and opportunities. To further strengthen occupational health outcomes, Infosys has introduced various initiatives focused on mental and emotional health, ergonomics, safety, lifestyle diseases, and preventive care. Occupational Health Centers are active across all our India campuses, supporting a comprehensive approach to employee health and well-being.

10b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

Infosys follows a structured approach to identify work-related hazards and assess risks across both routine and non-routine activities. Hazard identification and risk assessments are proactively carried out for existing, new, and modified activities, processes, and services, as well as in response to regulatory updates. Routine risk assessments include periodic workplace and ergonomic evaluations, monitoring utility operations, and reviewing employee commute risks. Non-routine tasks such as construction, infrastructure development, preventive maintenance, and facility modifications undergo specific risk assessments before and during their execution. Incidents and near misses are analyzed quarterly to identify trends and emerging risks. Hazards are prioritized and mitigated using the hierarchy of controls, followed by reassessment of residual risks and updates to the risk control matrix as required. Employee and stakeholder participation is integral to the risk assessment process, and learnings from past projects and current operations are incorporated continuously.

10c. Whether you have processes for workers to report the work-related hazards and to remove themselves from such risks. (Y / N)

Yes. Infosys has a robust incident reporting and management process to ensure that all work-related incidents - such as accidents, near misses, unsafe acts, and unsafe conditions - are properly reported, investigated, and resolved with suitable corrective actions. Employees can report health and safety concerns via the Infosys Helpdesk (IHD) or designated email addresses. Contract staff without system access inform their supervisors, who then escalate the issue to the local HSE team. All incidents are subject to root cause analysis, and corrective as well as preventive measures are implemented to avoid recurrence or potential injuries and losses. Employee awareness of incident reporting is strengthened through induction programs, online training modules (Lex), and targeted awareness campaigns and mailers. Learnings and corrective actions are actively shared across locations to promote consistent application and prevent future incidents.

### 10d. Do the employees/ worker of the entity have access to non-occupational medical and healthcare services?

Yes. Well-equipped Occupational Health Centers (OHCs), including physiotherapy facilities, are located across Infosys campuses in India. All statutory and applicable norms are ensured, with competent medical professionals working through accredited partner hospitals to manage the OHCs and physiotherapy centers. Periodic health risk assessments are performed to monitor health trends, facilitating timely specialist consultations and targeted interventions.

Infosys proactively addresses employee well-being by offering a broad range of initiatives, including structured workshops, awareness campaigns, regular health check-ups, online chat sessions, counseling services (like Samaritans), and targeted wellness programs. Details of employee visits to OHCs are recorded digitally, adhering to specific data protection and privacy regulations for each region.

Additionally, Infosys offers extended healthcare benefits through tie-ups with hospitals, granting employees and their dependents access to health screenings and treatments, even for non-occupational illnesses. Employees, including contractual staff, receive comprehensive insurance coverage. For contractual employees, targeted programs, such as mandatory health screenings and specific interventions are carried out, guided by identified risks, hazards, and emerging health trends.

### 12. Describe the measures taken by the entity to ensure a safe and healthy work place.

Infosys acknowledges that Occupational Health and Safety (OH&S) is one of the key aspects of sustainable business practices. OH&S policies, processes, and practices at Infosys promote the physical, emotional, and social well-being of employees in the workplace. The robust Health and Safety Management system at Infosys has earned us the certification of ISO 45001:2018 for all Indian locations and Australia offices, including Infosys Limited and its subsidiaries, in line with our HSE strategy.
The Company has implemented the following measures to ensure a safe and healthy workplace:

1. Incident management: Incidents, which include near misses / potential hazards / accidents, are reported through internal applications or email. The causes of incidents are identified, analyzed and appropriate corrective actions are taken to prevent recurrence or occurrence of incidents leading to injuries / losses.
2. OH&S Committee: Both employees and other than permanent employees are part of the Infosys OH&S Committee, which helps in ensuring their active participation and consultation. The representation from employees in safety committees is 100%. The Committee brings employees and management together in a non-adversarial, cooperative effort to promote OH&S in the workplace.

3. Training and awareness: Training includes awareness building, mock drills, classroom sessions and periodic demonstrations. HSEMS training is a part of our employee induction program. To enable continuous learning, an HSE awareness module is available on Lex, our internal learning platform. For contract staff, job-specific and general training is provided during induction and later through refresher training.
4. Safety interventions: We have always focused on building a culture of safety at Infosys. The safety systems in place include work permits, training, Lock Out Tag Out (LOTO), safety inspections, audits, operational controls, and monitoring. Policies have been established focusing on specific areas such as women's safety, lone working, transport, travel, construction and others.
5. Medical services: We have set up Occupational Health Centers (OHC) on our campuses in India. Majority of our OHCs are operational round the clock based on business requirement. We have ambulance services available or have arrangements for ambulances to be made available at all our India-based locations.
6. Health Risk Assessment (HRA): HRA is conducted annually based on inputs from the OHC. Being an IT / ITES company, the prevalent risks include ergonomics, Musculoskeletal Disorders (MSDs), emotional well-being, etc., associated with the workplace, operation of utilities, and commute. Numerous initiatives, interventions, engagement virtual sessions, and process controls are in place to effectively address these risks.
7. Programs on ergonomics: These include on-site physiotherapy centers in India, interventions by ergonomic experts and the provision of ergonomic infrastructure. Periodic sessions are conducted on back care, Repetitive Stress Injuries, and seating postures for employees across the globe.
8. Physical and emotional well-being: We have nutritionists at our locations in India to provide counseling and guidance. We have also set up state-of-the-art gyms to train physical and mental fitness.
9. Programs for mothers: Pregna Care, a professional healthcare program, is specially designed for expectant mothers and aims to provide maximum comfort for the mother, in India.
10. Working environment: We continued to focus on improving the working environment by monitoring indoor air quality, lux and noise levels and promoting the use of green seal chemicals.

### 13. Number of complaints on the following made by employees and workers:

### 14. Assessment for the year for health and safety:

Our Health, Safety and Environmental Management System (HSEMS) is certified to ISO 45001:2018 standard audited by certifying bodies annually. The scope of HSEMS is applicable to all activities, which are a part of our operations and employees working for and on behalf of the Company, including deputees at client sites. Safety and well-being of our employees is accorded the highest priority. Our internal Corporate Certification Audits and Assessments Team (CCAT) conducts periodic assessments across Infosys locations annually.

| Assessments for the year | % of your plants and offices that were assessed (by entity or statutory authorities or third parties)[1] |
|---|---|
| Health and safety practices | 100 |
| Working conditions | 100 |

## Leadership indicators

1. Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board.

We have identified our most material issues through a data-driven and consultative exercise. The material topics were shortlisted and prioritized based on their impact on our stakeholders and our business. Periodic meetings were held to update the sub-committees of the Board.

2. Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes / No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.

Yes. Our material topics were shortlisted and prioritized based on their impact on our stakeholders and our business. The material topics and the linked ambitions can be accessed through our ESG Vision 2030 and performance updates through our annual ESG Reports.

3. Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable / marginalized stakeholder groups.

Infosys Foundation was set up to support underprivileged sections of society, create opportunities and strive towards a more equitable society. Infosys contributes as a part of its CSR initiatives to Infosys Foundation. The Foundation engages with the community, especially vulnerable and marginalized stakeholder groups, in a variety of focus areas. For information on the percentage of beneficiaries of the CSR projects, refer to Principle 8, Q.6 (Leadership Indicators) in this report. Read the Infosys Foundation annual reports at https://www.infosys.com/infosys-foundation/.

(3) Remuneration excludes retirement benefits and perquisite value of stock incentives.

b. Gross wages paid to females as % of total wages paid by the entity, in the following format

| | Fiscal 2026 | Fiscal 2025 |
|---|---|---|
| Gross wages paid to females as % of total wages* | 29.1 | 29.1 |

* Includes permanent employees only

4. Do you have a focal point (Individual / Committee) responsible for addressing human rights impacts or issues caused or contributed to by the business? (Yes / No)

Yes

5. Describe the internal mechanisms in place to redress grievances related to human rights issues.

Infosys is committed to providing a safe and positive work environment as enshrined in our Code of Conduct. Employees and contract staff have access to a well-established robust grievance resolution mechanism known as Resolution hubs, where they can highlight matters or concerns faced at the workplace including those pertaining to human rights.

Resolution hubs adhere to the principles of natural justice, confidentiality, sensitivity, non-retaliation, and fairness while addressing concerns. The concerns are handled with sensitivity, while delivering timely action and closure. A detailed investigation process ensures fairness for all involved, with an opportunity to present facts and any material evidence.

6. Number of complaints on the following made by employees and workers:

| | Fiscal 2026 | | | Fiscal 2025 | | |
|---|---|---|---|---|---|---|
| | Filed during the year | Pending resolution at the end of year | Remarks | Filed during the year | Pending resolution at the end of year | Remarks |
| Sexual harassment | 105 | 21[1] | Incidents of sexual harassment were reviewed as per the requirements of the POSH Act in India and as per the established grievance redressal process. | 103 | 31[2] | Incidents of sexual harassment were reviewed as per the requirements of the POSH Act in India and as per the established grievance redressal process. |
| Discrimination at workplace | 31 | 12[1] | Incidents pertaining to discrimination were reviewed as per the established grievance redressal process for HEAR. | 13 | 5[2] | Incidents pertaining to discrimination were reviewed as per the established grievance redressal process for HEAR. |
| Child labor | 0 | 0 | | – | – | |
| Forced labor / Involuntary labor | 0 | 0 | | – | – | |
| Wages | 0 | 0 | | – | – | |
| Other human rights-related issues | 0 | 0 | | – | – | |

[1] As on May 20, 2026, we have 7 cases of sexual harassment and five cases of discrimination at workplace, pending resolution.

[2] All the pending cases in fiscal 2025 were resolved.

A robust feedback mechanism ensures employee feedback and concerns are heard and addressed in a timely manner. Read more at https://www.infosys.com/about/esg/social/employee-wellbeing/resolution-hubs.html.

7. Complaints filed under the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013, in the following format:

| | Fiscal 2026 | Fiscal 2025 |
|---|---|---|
| Total complaints reported under Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 (POSH) | 65 | 43 |
| Complaints on POSH as a % of female employees / workers | 0.06 | 0.04 |
| Complaints on POSH upheld | 44 | 33 |

### 8. Mechanism to prevent adverse consequences to the complainant in discrimination and harassment cases

Infosys' non-retaliation policy is an embodiment of our values and a cornerstone of our Code. Infosys commits to protect the complainant and ensures that they are not retaliated against because of any report that they raise in good faith. Infosys does not tolerate any form of retaliation (whether by a manager, co-worker or otherwise) against an individual because he or she made a good faith report of an integrity concern. This protection also extends to anyone who assists with or cooperates in an investigation or reports of an integrity concern or question.

### 9. Do human rights requirements form part of your business agreements and contracts? (Yes / No)

Yes

### 10. Assessments for the year:

| | % of your plants and offices that were assessed (by entity or statutory authorities or third parties)* |
|---|---|
| Child labor | 100 |
| Forced / involuntary labor | 100 |
| Sexual harassment | 100 |
| Discrimination at workplace | 100 |
| Wages | 100 |
| Others – please specify | – |

* India operations, as per the internal assessment plan for the year

### 11. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 10 above

There were no significant risks / concerns arising from the human rights assessments.

## Leadership indicators

### 1. Details of a business process being modified / introduced as a result of addressing human rights grievances / complaints

None

### 2. Details of the scope and coverage of any human rights due diligence conducted.

Infosys conducts comprehensive human rights due diligence to ensure that its business operations and relationships uphold the highest standards of respect for human rights. The due diligence process involves assessing potential and actual human rights impacts across the organization and its supply chain, taking into consideration local laws and international standards. Periodic audits are carried out by our internal audit team, focusing on areas such as labor rights, workplace safety, and non-discrimination. Findings from these assessments are integrated into company policies and practices to prevent, mitigate, and address any adverse impacts.

Additionally, Infosys engages with stakeholders, including employees through Pulse, a periodic survey and suppliers through the VenSat survey, to gather insights and feedback including human rights concerns. The Company provides training and awareness programs to employees and partners to reinforce its human rights commitments. Any identified issues are addressed through established grievance mechanisms, and progress is monitored and reported to ensure accountability and continuous improvement in human rights performance.

3. Is the premise / office of the entity accessible to differently-abled visitors, as per the requirements of the Rights of Persons with Disabilities Act, 2016?

Yes. The premise / office of the entity is accessible to differently-abled visitors, as per the requirements of the Rights of Persons with Disabilities Act, 2016, India.

4. Details on assessment of value chain partners:

| | % of value chain partners (by value of business done with such partners) that were assessed* |
|---|---|
| Sexual harassment | 91.64 |
| Discrimination at workplace | 91.64 |
| Child labor | 91.64 |
| Forced labor / involuntary labor | 91.64 |
| Wages | 91.64 |
| Others – please specify | – |

* We have completed ESG assessment of 1,100+ upstream value chain partners carried out by third party, as on March 31, 2026.

5. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 4 above.

There were no significant risks / concerns arising from the assessments.

## PRINCIPLE 6: Businesses should respect and make efforts to protect and restore the environment

### Essential indicators

1. Details of total energy consumption (in Joules or multiples) and energy intensity, in the following format

| Parameter | Fiscal 2026 (in GJ) | Fiscal 2025 (in GJ) |
|---|---|---|
| **From renewable sources** | | |
| Total electricity consumption (A) | 6,36,639 | 5,82,411 |
| Total fuel consumption (B) | 3,472 | 3,291 |
| Energy consumption through other sources (C) | 0 | 0 |
| Total energy consumption (A + B + C) | 6,40,111 | 5,85,702 |
| **From non-renewable sources** | | |
| Total electricity consumption (D) | 1,96,321 | 2,10,057 |
| Total fuel consumption (E) | 50,761 | 54,675 |
| Energy consumption through other sources (F) | 0 | 0 |
| Total energy consumed from non-renewable sources (D + E + F) | 2,47,082 | 2,64,732 |
| Total energy consumed (A + B + C + D + E + F)[1] | 8,87,193 | 8,50,434 |
| Energy intensity per rupee of turnover (Total energy consumed / revenue from operations) | 0.000000497 | 0.000000522 |
| Energy intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP) (Total energy consumed / Revenue from operations adjusted for PPP)[2] | 0.00001010 | 0.00001078 |
| Energy intensity in terms of physical output (GJ / FTE)* | 2.52 | 2.44 |
| Energy intensity (optional) – the relevant metric may be selected by the entity | Nil | Nil |

Note: Indicate if any independent assessment / evaluation / assurance has been carried out by an external agency? (Y / N) If yes, name of the external agency

Yes, Deloitte Haskins & Sells LLP

(1) Includes global energy consumption

(2) The revenue from operations has been adjusted for PPP based on the latest PPP conversion factor published by the IMF - for India. For the years ended March 31, 2026 and March 31, 2025, it is 20.34 and 20.66, respectively.

* Full-time employee

2. Does the entity have any sites / facilities identified as designated consumers (DCs) under the Performance, Achieve and Trade (PAT) Scheme of the Government of India? (Y / N) If yes, disclose whether targets set under the PAT scheme have been achieved. In case targets have not been achieved, provide the remedial action taken, if any.

Not applicable for IT sector

3. Provide details of the following disclosures related to water:

| Parameter | Fiscal 2026 (in kl) | Fiscal 2025 (in kl) |
|---|---|---|
| **Water withdrawal by source (in kilolitres)** | | |
| (i) Surface water | 2,81,568[1] | 2,77,911[1] |
| (ii) Groundwater | 65,518 | 52,332 |

| Total volume of water withdrawal (i + ii + iii + iv + v) | 21,25,432 | 20,85,580 |
| Total volume of water consumption (in kilolitres) | 20,29,557 | 19,55,525 |
| Water intensity per rupee of turnover (Total water consumption / Revenue from operations) | 0.00000114 | 0.00000119 |
| Water intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP) (Total water consumption / Revenue from operations adjusted for PPP) | 0.00002311 | 0.00002478 |
| Water intensity in terms of physical output (kilolitres / FTE) | 5.76 | 5.61 |
| Water intensity (optional) – the relevant metric may be selected by the entity | Nil | Nil |

Note: Indicate if any independent assessment / evaluation / assurance has been carried out by an external agency? (Y / N) If yes, name of the external agency

Yes, Deloitte Haskins & Sells LLP

(1) As per GRI 303-3, surface water includes collected or harvested rainwater

(2) Grey water is included under third party. Includes global water consumption

4. Provide the following details related to water discharged:

| Parameter | Fiscal 2026 | Fiscal 2025 |
|---|---|---|
| Water discharge by destination and level of treatment (in kilolitres) | | |
| (i) To surface water | NA | NA |

Note: Indicate if any independent assessment / evaluation / assurance has been carried out by an external agency? (Y / N) If yes, name of the external agency.

Yes, Deloitte Haskins & Sells LLP

(1) Treatment in centralized sewage treatment plants is managed by local authorities.

(2) Includes 2 leased locations in India and all leased overseas locations; 2 owned locations in India, where wastewater was temporarily discharged to municipal sewers post intimation from Pollution Control Board and is ultimately treated.

### 5. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

Infosys has implemented in-house sewage treatment plants (STPs) at its India owned campuses to facilitate Zero Liquid Discharge (ZLD) practices. 100% of our owned campuses in India have STPs to ensure that all sewage generated is treated and the resulting recycled water is utilized for irrigation, HVAC systems, and flushing, thereby minimizing wastewater discharge into the environment. In all our owned campuses and leased locations (except 2) in India, STPs are available to treat the waste water. In rest of the locations, wastewater is discharged into municipal sewers for further treatment. This approach supports sustainable water management and aligns with the company's commitment to environmental protection. In addition to wastewater treatment, we also procure greywater (recycled water) from third parties to augment the requirement of landscaping, flushing, and other non-potable purposes. This enables avoiding sourcing fresh water to that quantum.

### 6. Please provide details of air emissions (other than GHG emissions) by the entity, in the following format

| Parameter | Please specify unit | Fiscal 2026 | Fiscal 2025 |
|---|---|---|---|
| NOx | Kg | 26,522 | 40,286 |
| SOx | Kg | 763 | 873 |
| Particulate matter (PM) | Kg | 3,032 | 4,423 |
| Persistent organic pollutants (POP) | NA | NA | NA |
| Volatile organic compounds (VOC) | NA | NA | NA |
| Hazardous air pollutants (HAP) | NA | NA | NA |
| Others – carbon monoxide (CO)* | Kg | 7,178 | 11,919 |

Note: Indicate if any independent assessment / evaluation / assurance has been carried out by an external agency? (Y / N) If yes, name of the external agency.

Yes, Deloitte Haskins & Sells LLP

* Carbon Monoxide (CO) emissions reporting has been initiated in FY2026, with corresponding changes to FY2025 emissions reported.

## 7. Provide details of greenhouse gas emissions (Scope 1 and Scope 2 emissions) and its intensity, in the following format :

| Parameter | Unit | Fiscal 2026 | Fiscal 2025 |
|---|---|---|---|
| Total Scope 1 emissions (Break-up of the GHG into $CO_2$, $CH_4$, $N_2O$, HFCs, PFCs, $SF_6$, $NF_3$, if available)[1] | Metric tonnes of $CO_2$ equivalent | 11,483[3] | 8,745 |
| Total Scope 2 emissions (Break-up of the GHG into $CO_2$, $CH_4$, $N_2O$, HFCs, PFCs, $SF_6$, $NF_3$, if available)[2] | Metric tonnes of $CO_2$ equivalent | 34,351[3] | 38,586 |
| Total Scope 1 and Scope 2 emissions per rupee of turnover (Total Scope 1 and Scope 2 GHG emissions / Revenue from operations) | Metric tonnes of $CO_2$ equivalent per Rupee | 0.000000026 | 0.000000029 |
| Total Scope 1 and Scope 2 emission intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP) (Total Scope 1 and Scope 2 GHG emissions / Revenue from operations adjusted for PPP) | $tCO_2$ e / PPP | 0.00000052 | 0.00000060 |
| Total Scope 1 and Scope 2 emission intensity in terms of physical output | $tCO_2$ e / FTE | 0.13 | 0.14 |
| Total Scope 1 and Scope 2 emission intensity (optional) – the relevant metric may be selected by the entity | Nil | Nil | Nil |

Note: Indicate if any independent assessment / evaluation / assurance has been carried out by an external agency? (Y / N) If yes, name of the external agency.

Yes, Deloitte Haskins & Sells LLP

[1] Scope 1 emissions cover all owned offices (India, US and China) and leased offices in India; Leased space in overseas locations will not be considered as it is falls in de-minimus for diesel / natural gas consumption.

[2] Scope 2 includes India and overseas locations. Scope 2 emissions are reported using the market-based method. The corresponding location-based Scope 2 emissions for fiscal 2026 is 1,45,604 $tCO_2e$

[3] Refer ESG Databook Annexure 4: GHG Emissions and Annexure 6: Emissions factors used for GHG calculations

## 8. Does the entity have any project related to reducing greenhouse gas emission? If yes, provide details.

Yes. Infosys has been carbon neutral since fiscal 2020 across Scope 1, 2 and 3 emissions. Our approach to carbon neutrality is based on reducing and avoiding emissions through energy efficiency and renewable energy. Energy efficiency is achieved through super-efficient new buildings, industry-leading Energy Performance Index (EPI) <65 kWh/m2-yr, real-time monitoring and optimization of building operations through smart building systems, and retrofits in existing buildings. In fiscal 2026, we have undertaken retrofit projects to improve efficiency in lighting and air conditioning systems, which saved 2.04 lakh kWh and reduced emissions by 145 tCO2e. To achieve our goal of transitioning to clean energy, we have installed 62.42 MWp of solar PV capacity and avoided 1.24 lakh kWh in fiscal 2026. Along with captive solar capacity, power purchase agreement and use of green tariff mechanism, Infosys achieved 81.8% of electricity consumption through renewable sources in its India operations.

9. Provide details related to waste management by the entity, in the following format:

| Parameter | Fiscal 2026 | Fiscal 2025 |
|---|---|---|
| **Total waste generated (in metric tonnes)** | | |
| Plastic waste (A) | 139.19 | 118.91 |

| **Total** | 299.65 | 393.99 |

Note: Indicate if any independent assessment / evaluation / assurance has been carried out by an external agency? (Y / N) If yes, name of the external agency.

Yes, Deloitte Haskins & Sells LLP

(1) Includes sanitary waste

(2) Excludes Construction and Demolition waste from infrastructure development

(3) This includes waste generated in India, overseas-owned and e-waste for all locations globally.

(4) Co-processing included in Other recovery operations this year and was included under other disposal operations till last year

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

At Infosys, we see waste not as something to discard, but as a resource to reclaim. The 5R principle –' Refuse, Reduce, Reuse, Refurbish / Repurpose and Recycle' – forms the foundation of Infosys' waste management strategy. Through systematic reduction and recovery, we are moving beyond waste management to resource segregation, where 99% of what we dispose stays out of landfills. This is climate positivity in practice: turning environmental burden into a regenerative solution that restores more than it consumes. We are working towards the 2030 goal of zero waste to landfills by adopting TRUE Zero Waste Certification at our India campuses. As of fiscal 2026, 46% of our owned campuses in India have achieved TRUE Zero Waste Certification from Green Business Certification Inc. (GBCI).

As an IT company, we generate e-waste. We have been persistent in our efforts to reduce, reuse, recycle, and dispose of e-waste responsibly. The Company has adopted a progressive approach to electronic waste management, transitioning towards a refurbishment-first model where feasible. This aligns with circular economic principles while maintaining partnerships with authorized recycling vendors for materials that cannot be refurbished. The authorized (Pollution Control Board) recyclers/refurbishers are periodically evaluated based on their adherence to applicable legal requirements and the extent of resource circularity in their processes.

11. If the entity has operations / offices in / around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones) where environmental approvals are required, please specify details in the following format:

Not applicable

12. Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year:

| Name and brief details of project | EIA Notification No. | Date | Whether conducted by independent external agency (Yes / No) | Results communicated in public domain (Yes / No) | Relevant web-link |
|---|---|---|---|---|---|
| | | | Nil | | |

13. Is the entity compliant with the applicable environmental law / regulations / guidelines in India; such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, Environment Protection Act and rules thereunder (Y / N). If not, provide details of all such non-compliances in the following format:

Yes. Infosys is compliant with all applicable environmental law / regulations / guidelines in India.

## Leadership indicators

1. Water withdrawal, consumption and discharge in areas of water stress (in kilolitres):

For each facility / plant located in areas of water stress, provide the following information:

(i) Name of the area: Provided below is the list of water stressed sites for fiscal 2026:

| As per CGWA Guidelines | As per WRI Aqueduct |

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, Deloitte Haskins & Sells LLP

(1) The intensity provided covers consumption from water-stressed locations and revenue from global operations.

(2) Includes 2 leased locations in India and all leased overseas locations, 1 owned location in India, Jaipur where waste water was channelized to municipal sewers for a few months post intimation to Pollution Control Board. All these pertain to sites in water stressed regions.

* We have evaluated water stress zones in line with CGWA Guidelines for India locations and WRI Aqueduct for overseas locations. Based on the classification as per CGWA we have considered Overexploited and Critical locations as per BRSR guidance. Based on classification as per WRI Aqueduct we have considered High and Extremely High under our water stressed locations. Until the previous year, water stress was assessed using country-level data for the locations of offices. Based on the current year's guidance, India-specific criteria (CGWA) have been applied for domestic operations, while site- or city-level water stress assessments are used for overseas locations. Accordingly the values are restated for fiscal 2025.

2. Please provide details of total Scope 3 emissions and its intensity, in the following format:

| Parameter | Unit | Fiscal 2026 | Fiscal 2025 |
|---|---|---|---|
| Total Scope 3 emissions (Break-up of the GHG into $CO_2$, $CH_4$, $N_2O$, HFCs, PFCs, $SF_6$, $NF_3$, if available) | Metric tonnes of $CO_2$ equivalent | 2,07,374[1][2] | 2,08,659[1] |
| Total Scope 3 emissions per rupee of turnover | Metric tonnes of $CO_2$ equivalent per Rupee | 0.000000116 | 0.000000128 |
| Total Scope 3 emission intensity (optional) – the relevant metric may be selected by the entity | Nil | Nil | Nil |

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, Deloitte Haskins & Sells LLP

(1) Inclusion of emissions from Category 1: Purchased Goods & Services from fiscal 2026, the same has been restated for fiscal 2025

(2) Refer ESG Databook Annexure 4: GHG Emissions and Annexure 6: Emissions factors used for GHG calculations

3. With respect to the ecologically sensitive areas reported at Question 11 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.

NA

4. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format

| S.No. | Initiative undertaken | Details of the initiative (Web-link, if any, may be provided along-with summary) | Outcome of the initiative |
|---|---|---|---|
| 1 | Energy efficiency improvement in buildings | Radiant heating – Innovative approach to utilize existing radiant panels to heat the surface which radiates heat into the room which reduces the need for conventional, high intensity heating.<br><br>Free cooling – In favorable climate, the cooling tower will generate naturally cool water that supports efficient waterside free cooling. Cooled water is circulated through plate heat exchanger and supplies a dedicated free cooling coil in the Air Handling Units (AHUs), reducing the mechanical cooling. | This system is designed for one of the office locations and has the potential to reduce ~70 % energy consumption compared with traditional resistance heating.<br><br>This strategy is part of the design for one of the office locations and contributed to approximately 15% reduction in the building's annual HVAC load. This is expected to decrease energy consumption, thereby helping in reduction of Scope 2 emissions, and enhancing the overall sustainability performance of the facility. |
| 2 | Supply chain decarbonization initiatives | Embedding climate action and sustainable packaging into IT hardware procurement – Infosys integrated climate action and sustainable packaging requirements in its procurement process, transforming sourcing into a measurable ESG intervention. Suppliers were required to disclose verified Product Carbon Footprint (PCF), climate commitments, and detailed packaging material details along with technical specifications. | In the procurement of laptops in fiscal 2026, the lowest-scoring supplier was excluded, while purchase volumes were allocated proportionately to higher-performing suppliers, ensuring sustainable packaging and climate performance influenced sourcing decisions alongside cost and quality. This has led to an avoided emission of 8,955 $tCO_2e$ against a standard product specification.<br><br>With this, Infosys embedded circularity and climate accountability into IT hardware sourcing, strengthening its value-chain sustainability outcomes and creating a framework for IT hardware procurement. |

| S.No. | Initiative undertaken | Details of the initiative (Web-link, if any, may be provided along-with summary) | Outcome of the initiative |
|---|---|---|---|
| 3 | Supply chain decarbonization initiatives | Institutionalizing green material standards to accelerate our Net Zero journey – These specifications emphasize low embodied carbon, energy and water efficiency, responsible material sourcing, elimination of hazardous substances, circular economy practices, and improved indoor environmental quality. | The initiative establishes standardized sustainable specifications for a wide range of materials — including steel, concrete, glazing, furniture, HVAC systems, electrical equipment, IT hardware, and landscaping elements etc. |
| 4 | Smart water metering | The meters are installed in the water pipes at the distribution and consumption points. They record the flow rate in real time. | Smart water metering systems installed on most of our campuses have helped us identify undetected leaks and reduce unaccounted water. Smart water meters have enabled us to plug leaks, identify opportunities for savings, and provide valuable insights for new designs. |

5. Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.

Yes. Infosys has a Business Continuity Management System (BCMS) called Phoenix, certified by ISO 22301:2019 Security and Resilience – Business Continuity Management Standard. This program is designed to ensure seamless continuity of business and the utmost safety of our employees and assets while continuously meeting client expectations. The BCMS program provides a robust framework for planning, establishing, implementing, operating, monitoring, reviewing, maintaining, and continually improving business continuity measures across Infosys and its subsidiaries. Apart from Phoenix plan at the corporate level, comprehensive business continuity plans are created at three operational levels covering business functions, locations, and accounts. Integrated into our Enterprise Risk Management Framework, the BCMS plans guide our typical response to events, such as catastrophes and natural or human-made disasters, which could disrupt or severely constrain our operations. This covers various crisis scenarios as part of detailed risk assessments (at functions, locations, and accounts level), which are documented with mitigation plans along with controls put in place. The management system has been continuously validated across levels through tests and exercises, and various incidents have been successfully tackled without significant business continuity or employee safety impacts. An efficient business continuity management policy has enabled us to maintain status quo during disasters.

6. Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard.

As per ESG assessment of 1,100+ top upstream value chain partners, carried out by third-party no significant adverse impacts to environment were identified.

7. Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts.

91.64*

* We have completed ESG assessment of 1,100+ upstream value chain partners, carried out by third-party as on March 31, 2026.

8. How many Green Credits have been generated or procured:

Zero

8a. By the listed entity

8b. By the top ten (in terms of value of purchases and sales, respectively) value chain partners]

### Enabling Responsible Value Chain Disclosure and Decarbonization

In fiscal 2026, Infosys strengthened its value chain transparency efforts by initiating a structured, SEBI-aligned supplier engagement program focused on ESG disclosures under the BRSR Core framework. As part of this initiative, Infosys engaged with suppliers to collect ESG-related disclosures for fiscal 2025 data, covering the top 2% of upstream suppliers by spend focusing on the high impact supplier segment including human resource service providers and IT service vendors. These suppliers represented a combined value of approximately 13% of total spend.

The engagement enabled collection of granular ESG data, providing insights into supplier climate practices, emissions management approaches, and reporting maturity. Based on the assessment, 667 $tCO_2e$ of Scope 1 emissions and 219 $tCO_2e$ of Scope 2 emissions were attributed to Infosys, representing approximately 1.6% of the suppliers' combined Scope 1 and Scope 2 emissions. Emissions attributable to Infosys were calculated using a spend-based allocation methodology aligned with the GHG Protocol, for the purpose of value chain disclosure under SEBI requirements, and not as part of Infosys' reported Scope 3 inventory.

This exercise has further strengthened Infosys' supply chain decarbonization efforts by improving emissions visibility, deepening supplier engagement, and enabling informed prioritization of decarbonization opportunities. Through continued collaboration with suppliers and integration of climate considerations into procurement processes, Infosys is progressing toward a more transparent, data-driven, and low-carbon value chain.

## PRINCIPLE 7: Businesses, when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent

**Essential indicators**

1. a. Number of affiliations with trade and industry chambers / associations.

# Independent Auditor's Report

To The Members Of Infosys Limited

## Report on the Audit of the Standalone Financial Statements

### Opinion

We have audited the accompanying Standalone Financial Statements of **INFOSYS LIMITED** (the "Company"), which comprise the Balance Sheet as at March 31, 2026, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date and notes to the financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as the "Standalone Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, its profit, and it's other comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the Standalone Financial Statements in accordance with the Standards on Auditing ("SAs") specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the Standalone Financial Statements under the provisions of the Act and the rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Financial Statements.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Financial Statements of the current period. These matters were addressed in the context of our audit of the Standalone Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

| Sr. No. | Key Audit Matter |
|---|---|
| 1 | *Revenue recognition*<br><br>The Company's contracts with customers include contracts with multiple products and services. The Company derives revenues from IT services comprising software development and related services, maintenance, consulting and package implementation, licensing of software products and platforms across the Company's core and digital offerings and business process management services. The Company assesses the services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligations to determine the deliverables and the ability of the customer to benefit independently from such deliverables involves significant judgement.<br><br>In certain integrated services arrangements, contracts with customers include subcontractor services or third-party vendor equipment or software. In these types of arrangements, revenue from sales of third-party vendor products or services is recorded net of costs when the Company is acting as an agent between the customer and the vendor, and gross when the Company is the principal for the transaction. In doing so, the Company first evaluates whether it obtains control of the specified goods or service before it is transferred to the customer. The Company considers whether it is primarily responsible for fulfilling the promise to provide the specified goods or service, inventory risk, pricing discretion and other factors to determine whether it controls the products or service and therefore, is acting as a principal or an agent.<br><br>Fixed price maintenance revenue is recognized ratably either on (1) a straight-line basis when services are performed through an indefinite number of repetitive acts over a specified period or (2) using a percentage of completion method when the pattern of benefits from the services rendered to the customer and the Company's costs to fulfil the contract is not even through the period of contract because the services are generally discrete in nature and not repetitive. The use of method to recognize the maintenance revenues requires judgment and is based on the promises in the contract and nature of the deliverables.<br><br>As certain contracts with customers involve management's judgment in (1) identifying distinct performance obligations, (2) determining whether the Company is acting as a principal or an agent and (3) whether fixed price maintenance revenue is recognized on a straight-line basis or using the percentage of completion method, revenue recognition from these judgments were identified as a key audit matter and required a higher extent of audit effort.<br><br>Refer Notes 1.4 and 2.18 to the Standalone Financial Statements. |
| | Auditor's Response |
| | *Principal Audit Procedures Performed included the following:*<br><br>Our audit procedures related to the (1) identification of distinct performance obligations, (2) determination of whether the Company is acting as a principal or agent and (3) whether fixed price maintenance revenue is recognized on a straight-line basis or using the percentage of completion method included the following, among others:<br><br>• We tested the effectiveness of controls relating to the (a) identification of distinct performance obligations, (b) determination of whether the Company is acting as a principal or an agent and (c) determination of whether fixed price maintenance revenue for certain contracts is recognized on a straight-line basis or using the percentage of completion method.<br>• We selected a sample of contracts with customers and performed the following procedures:<br><br>– Obtained and read contract documents for each selection, including master service agreements, and other documents that were part of the agreement.<br>– Identified significant terms and deliverables in the contract to assess management's conclusions regarding the (i) identification of distinct performance obligations (ii) whether the Company is acting as a principal or an agent and (iii) whether fixed price maintenance revenue is recognized on a straight-line basis or using the percentage of completion method. |

| Sr. No. | Key Audit Matter |
|---|---|
| 2 | *Revenue recognition - Fixed price contracts using the percentage of completion method*<br><br>Fixed price maintenance revenue is recognized ratably either (1) on a straight-line basis when services are performed through an indefinite number of repetitive acts over a specified period or (2) using a percentage of completion method when the pattern of benefits from services rendered to the customer and the Company's costs to fulfil the contract is not even through the period of contract because the services are generally discrete in nature and not repetitive. Revenue from other fixed-price, fixed-timeframe contracts, where the performance obligations are satisfied over time is recognized using the percentage-of-completion method.<br><br>Use of the percentage-of-completion method requires the Company to determine the actual efforts or costs expended to date as a proportion of the estimated total efforts or costs to be incurred. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. The estimation of total efforts or costs involves significant judgement and is assessed throughout the period of the contract to reflect any changes based on the latest available information. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract.<br><br>We identified the estimate of total efforts or costs to complete fixed price contracts measured using the percentage of completion method as a key audit matter as the estimation of total efforts or costs involves significant judgement and is assessed throughout the period of the contract to reflect any changes based on the latest available information. This estimate has a high inherent uncertainty and requires consideration of progress of the contract, efforts or costs incurred to-date and estimates of efforts or costs required to complete the remaining contract performance obligations over the term of the contracts.<br><br>This required a high degree of auditor judgment in evaluating the audit evidence and a higher extent of audit effort to evaluate the reasonableness of the total estimated amount of revenue recognized on fixed-price contracts.<br><br>Refer Notes 1.4 and 2.18 to the Standalone Financial Statements. |
| | Auditor's Response |
| | *Principal Audit Procedures Performed included the following:*<br><br>Our audit procedures related to estimates of total expected costs or efforts to complete for fixed-price contracts included the following, among others:<br><br>• We tested the effectiveness of controls relating to (1) recording of efforts or costs incurred and estimation of efforts or costs required to complete the remaining contract performance obligations and (2) access and application controls pertaining to time recording, allocation and budgeting systems which prevents unauthorised changes to recording of efforts incurred.<br>• We selected a sample of fixed price contracts with customers measured the using percentage-of-completion method and performed the following:<br><br>– Evaluated management's ability to reasonably estimate the progress towards satisfying the performance obligation by comparing actual efforts or costs incurred to prior year estimates of efforts or costs budgeted for performance obligations that have been fulfilled.<br>– Compared efforts or costs incurred with Company's estimate of efforts or costs incurred to date to identify significant variations and evaluate whether those variations have been considered appropriately in estimating the remaining costs or efforts to complete the contract.<br>– Tested the estimate for consistency with the status of delivery of milestones and customer acceptances and sign off from customers to identify possible delays in achieving milestones, which require changes in estimated costs or efforts to complete the remaining performance obligations. |

## Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility and Sustainability Report, Corporate Governance and Shareholder's Information, but does not include the Consolidated Financial Statements, Standalone Financial Statements and our auditor's report thereon.

Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## Responsibilities of Management and Board of Directors for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Company's Board of Directors are also responsible for overseeing the Company's financial reporting process.

## Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to Standalone Financial Statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Standalone Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Standalone Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Standalone Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal financial controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:
   a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
   b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
   c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account.
   d) In our opinion, the aforesaid Standalone Financial Statements comply with the Ind AS specified under Section 133 of the Act.
   e) On the basis of the written representations received from the directors as on March 31, 2026 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2026 from being appointed as a director in terms of Section 164(2) of the Act.
   f) With respect to the adequacy of the internal financial controls with reference to Standalone Financial Statements of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to Standalone Financial Statements.
   g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
   h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
      i. The Company has disclosed the impact of pending litigations on its financial position in its Standalone Financial Statements. Refer Note 2.23 to the Standalone Financial Statements.
      ii. The Company has made provision as required under applicable law or accounting standards for material foreseeable losses. Refer Note 2.16 to the Standalone Financial Statements. The Company did not have any long-term derivative contracts.
      iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

iv. (a) The Management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The Management has represented, that, to the best of its knowledge and belief, no funds have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

v. As stated in Note 2.12.3 to the Standalone Financial Statements

(a) The final dividend proposed in the previous year, declared and paid by the Company during the year is in accordance with Section 123 of the Act, as applicable.

(b) The interim dividend declared and paid by the Company during the year and until the date of this report is in compliance with Section 123 of the Act.

(c) The Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with section 123 of the Act, as applicable.

vi. Based on our examination, which included test checks, the Company has used accounting software systems for maintaining its books of account for the financial year ended March 31, 2026 which have the feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software systems. Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with and the audit trail has been preserved by the Company as per the statutory requirements for record retention.

2. As required by the Companies (Auditor's Report) Order, 2020 (the "Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

# Annexure "A" to the Independent Auditor's Report

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of Infosys Limited of even date)

**Report on the Internal Financial Controls with reference to Standalone Financial Statements under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 (the "Act")**

We have audited the internal financial controls with reference to Standalone Financial Statements of **INFOSYS LIMITED** (the "Company") as of March 31, 2026 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

## Management's and Board of Directors' Responsibilities for Internal Financial Controls

The Company's Management and Board of Directors are responsible for establishing and maintaining internal financial controls with reference to Standalone Financial Statements based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

## Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to Standalone Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to Standalone Financial Statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Standalone Financial Statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to Standalone Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to Standalone Financial Statements included obtaining an understanding of internal financial controls with reference to Standalone Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to Standalone Financial Statements.

### Meaning of Internal Financial Controls with reference to Standalone Financial Statements

A company's internal financial control with reference to Standalone Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to Standalone Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### Inherent Limitations of Internal Financial Controls with reference to Standalone Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Standalone Financial Statements to future periods are subject to the risk that the internal financial control with reference to Standalone Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls with reference to Standalone Financial Statements and such internal financial controls with reference to Standalone Financial Statements were operating effectively as at March 31, 2026, based on the criteria for internal financial control with reference to Standalone Financial Statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

# Annexure 'B' to the Independent Auditor's Report

(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of Infosys Limited of even date)

To the best of our information and according to the explanations provided to us by the Company and the books of account and records examined by us in the normal course of audit, we state that:

i. In respect of the Company's property, plant and equipment, right-of-use assets and intangible assets:

(a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment and relevant details of right-of-use assets.

(B) The Company has maintained proper records showing full particulars of intangible assets.

(b) The Company has a program of physical verification of property, plant and equipment and right-of-use assets so to cover all the assets once every three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program, certain property, plant and equipment and right-of-use assets were due for verification during the year and were physically verified by the Management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.

(c) Based on our examination of the property tax receipts and lease agreement for land on which building is constructed, registered sale deed / transfer deed / conveyance deed provided to us, we report that, the title in respect of self-constructed buildings and title deeds of all other immovable properties (other than properties where the company is the lessee and the lease agreements are duly executed in favour of the lessee), disclosed in the financial statements included under Property, Plant and Equipment are held in the name of the Company as at the balance sheet date.

(d) The Company has not revalued any of its property, plant and equipment (including right-of-use assets) and intangible assets during the year.

(e) No proceedings have been initiated during the year or are pending against the Company as at March 31, 2026 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.

ii. (a) The Company does not have any inventory and hence reporting under clause 3(ii)(a) of the Order is not applicable.

(b) The Company has not been sanctioned working capital limits in excess of ₹ 5 crore, in aggregate, at any points of time during the year, from banks or financial institutions on the basis of security of current assets and hence reporting under clause 3(ii)(b) of the Order is not applicable.

iii. The Company has made investments in, Companies and granted unsecured loans to other parties, during the year, in respect of which:

(a) The Company has not provided any loans or advances in the nature of loans or stood guarantee, or provided security to any other entity during the year, and hence reporting under clause 3(iii)(a) of the Order is not applicable.

(b) In our opinion, the investments made and the terms and conditions of the grant of loans, during the year are, prima facie, not prejudicial to the Company's interest.

(c) In respect of loans granted by the Company, the schedule of repayment of principal and payment of interest has been stipulated and the repayments of principal amounts and receipts of interest are generally regular as per stipulation.

(d) In respect of loans granted by the Company, there is no overdue amount remaining outstanding as at the balance sheet date.

(e) No loan granted by the Company which has fallen due during the year, has been renewed or extended or fresh loans granted to settle the overdue of existing loans given to the same parties.

(f) The Company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment during the year. Hence, reporting under clause 3(iii)(f) is not applicable.

The Company has not made investments in Firms and Limited Liability Partnerships during the year. Further the Company has not provided any guarantee or security or granted any advances in the nature of loans, secured or unsecured, to Companies, Firms, Limited Liability Partnerships or any other parties.

iv. The Company has complied with the provisions of Sections 185 and 186 of the Companies Act, 2013 in respect of loans granted, investments made and guarantees and securities provided, as applicable.

v. The Company has not accepted any deposit or amounts which are deemed to be deposits. Hence, reporting under clause 3(v) of the Order is not applicable.

vi. The maintenance of cost records has not been specified by the Central Government under sub-section (1) of section 148 of the Companies Act, 2013 for the business activities carried out by the Company. Hence, reporting under clause (vi) of the Order is not applicable to the Company.

vii. In respect of statutory dues:

(a) In our opinion, the Company has generally been regular in depositing undisputed statutory dues, including Goods and Services tax, Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Service Tax, duty of Custom, duty of Excise, Value Added Tax, Cess and other material statutory dues applicable to it with the appropriate authorities.

There were no undisputed amounts payable in respect of Goods and Service tax, Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Service Tax, duty of Custom, duty of Excise, Value Added Tax, Cess and other material statutory dues in arrears as at March 31, 2026 for a period of more than six months from the date they became payable.

viii. There were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).

ix. (a) The Company has not taken any loans or other borrowings from any lender. Hence, reporting under clause 3(ix)(a) of the Order is not applicable.

(b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.

(c) The Company has not taken any term loan during the year and there are no outstanding term loans at the beginning of the year and hence, reporting under clause 3(ix)(c) of the Order is not applicable.

(d) On an overall examination of the financial statements of the Company, funds raised on short-term basis have, prima facie, not been used during the year for long-term purposes by the Company.

(e) On an overall examination of the financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries.

(f) The Company has not raised any loans during the year and hence reporting on clause 3(ix)(f) of the Order is not applicable.

x. (a) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause 3(x)(a) of the Order is not applicable.

(b) During the year, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) and hence reporting under clause 3(x)(b) of the Order is not applicable.

xi. (a) No fraud by the Company and no material fraud on the Company has been noticed or reported during the year.

(b) No report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report.

(c) We have taken into consideration the whistle blower complaints received by the Company during the year (and upto the date of this report), while determining the nature, timing and extent of our audit procedures.

xii. The Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable.

xiii. In our opinion, the Company is in compliance with Section 177 and 188 of the Companies Act, 2013 with respect to applicable transactions with the related parties and the details of related party transactions have been disclosed in the Standalone Financial Statements as required by the applicable accounting standards.

xiv. (a) In our opinion, the Company has an adequate internal audit system commensurate with the size and the nature of its business

(b) We have considered, the internal audit reports for the year under audit, issued to the Company during the year and till date, in determining the nature, timing and extent of our audit procedures.

xv. In our opinion, during the year the Company has not entered into any non-cash transactions with its Directors or persons connected with its directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.

xvi. (a) In our opinion, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause 3(xvi)(a), (b) and (c) of the Order is not applicable.

# Standalone Statement of Cash Flows

## Accounting Policy

Cash flows are reported using the indirect method, whereby profit for the year is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated. The Company considers all highly liquid investments that are readily convertible to known amounts of cash to be cash equivalents.

# Overview and Notes to the Standalone Financial Statements

## 1. Overview

### 1.1 Company overview

Infosys Limited ("the Company" or Infosys) provides AI-first business consulting and technology services, to enable organizations to unlock AI value at scale. With over four decades of experience in managing the systems and workings of global enterprises, Infosys accelerates business transformation through its AI-first value framework, deep domain expertise, and unique ability to orchestrate innovations from its AI-native partner ecosystem. Infosys' strategy is to be the navigator for its clients as they ideate, plan and execute on their journey to an AI-first future.

The Company is a public limited company incorporated and domiciled in India and has its registered office at Electronics City, Hosur Road, Bengaluru 560100, Karnataka, India. The Company has its primary listings on the BSE Ltd. and National Stock Exchange of India Limited. The Company's American Depositary Shares (ADS) representing equity shares are listed on the New York Stock Exchange (NYSE).

The *Standalone financial statements* are approved for issue by the Company's Board of Directors on April 23, 2026.

### 1.2 Basis of preparation of financial statements

These *Standalone Financial Statements* are prepared in accordance with the provisions of the Companies Act, 2013 (''the Act''), guidelines issued by the Securities and Exchange Board of India (SEBI) and Indian Accounting Standard (Ind AS) under the historical cost convention on accrual basis except for certain financial instruments which are measured at fair values, defined benefit liability / (asset) which is recognized at the present value of defined benefit obligation less fair value of plan assets. The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter.

Accounting policies have been consistently applied except where a newly-issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. The material accounting policy information used in preparation of the audited *Standalone Financial Statements* have been discussed in the respective notes.

As the year-end figures are taken from the source and rounded to the nearest digits, the figures reported for the previous quarters might not always add up to the year-end figures reported in this statement.

### 1.3 Use of estimates and judgments

The preparation of the financial statements in conformity with Ind AS requires the management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. The application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements have been disclosed in Note no. 1.4. Critical accounting estimates and judgments could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates and judgements are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the *Standalone Financial Statements.*

### 1.4 Critical accounting estimates and judgments

#### a. Revenue recognition

The Company's contracts with customers include promises to transfer multiple products and services to a customer. Revenues from customer contracts are considered for recognition and measurement when the contract has been approved, in writing, by the parties to the contract, the parties to contract are committed to perform their respective obligations under the contract, and the contract is legally enforceable. The Company assesses the services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligations to determine the deliverables and the ability of the customer to benefit independently from such deliverables, and allocation of transaction price to these distinct performance obligations involves significant judgement.

Fixed-price maintenance revenue is recognized ratably on a straight-line basis when services are performed through an indefinite number of repetitive acts over a specified period. Revenue from fixed-price maintenance contract is recognized ratably using a percentage-of-completion method when the pattern of benefits from the services rendered to the customer and Company's costs to fulfil the contract is not even through the period of the contract because the services are generally discrete in nature and not repetitive. The use of method to recognize the maintenance revenues requires judgment and is based on the promises in the contract and nature of the deliverables.

The Company uses the percentage-of-completion method in accounting for other fixed-price contracts. Use of the percentage-of-completion method requires the Company to determine the actual efforts or costs expended to date as a proportion of the estimated total efforts or costs to be incurred. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. The estimation of total efforts or costs involves significant judgement and is assessed throughout the period of the contract to reflect any changes based on the latest available information.

Contracts with customers includes subcontractor services or third-party vendor equipment or software in certain integrated services arrangements. In these types of arrangements, revenue from sales of third-party vendor products or services is recorded net of costs when the Company is acting as an agent between

the customer and the vendor, and gross when the Company is the principal for the transaction. In doing so, the Company first evaluates whether it obtains control of the specified goods or services before they are transferred to the customer. The Company considers whether it is primarily responsible for fulfilling the promise to provide the specified goods or services, inventory risk, pricing discretion and other factors to determine whether it controls the specified goods or services and therefore, is acting as a principal or an agent.

Provisions for estimated losses, if any, on incomplete contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract.

### b. Income taxes

The Company's two major tax jurisdictions are India and the United States, though the Company also files tax returns in other overseas jurisdictions.

Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid / recovered for uncertain tax positions.

In assessing the realizability of deferred income tax assets, the Management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, the Management believes that the Company will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced. (*Refer to Note 2.17*).

### c. Property, plant and equipment

Property, plant and equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined by the management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology. (*Refer to Note 2.1*).

## 2. Notes to the Standalone Financial Statements

### 2.1 Property, plant and equipment

#### Accounting Policy

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by the Management. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The Company depreciates property, plant and equipment over their estimated useful lives using the straight-line method.

The estimated useful lives of assets are as follows:

| | |
|---|---|
| Building[(1)] | 22-25 years |
| Plant and machinery[(1)] | 5 years |
| Office equipment | 5 years |
| Computer equipment[(1)] | 3-5 years |
| Furniture and fixtures[(1)] | 5 years |
| Vehicles[(1)] | 5 years |
| Leasehold improvements | Lower of useful life of the asset or lease term |

(1) Based on technical evaluation, the Management believes that the useful lives as given above best represent the period over which the Management expects to use these assets. Hence, the useful lives for these assets is different from the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end. The useful lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date is classified as capital advances under other non-current assets and the cost of assets not ready to use before such date are disclosed under 'Capital work-in-progress'. Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset.

### Impairment

Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated depreciation) had no impairment loss been recognized for the asset in prior years.

The changes in the carrying value of property, plant and equipment for the year ended March 31, 2026 are as follows:

### 2.2.2 Other intangible assets

#### Accounting policy

Intangible assets are stated at cost less accumulated amortization and impairment. Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is based on a number of factors, including the effects of obsolescence, demand, competition, and other economic factors (such as the stability of the industry, and known technological advances), and the level of maintenance expenditures required to obtain the expected future cash flows from the asset. Amortization methods and useful lives are reviewed periodically, including at each financial year end.

Research costs are expensed as incurred. Software product development costs are expensed as incurred unless technical and commercial feasibility of the project is demonstrated, future economic benefits are probable, the Company has an intention and ability to complete and use or sell the software and the costs can be measured reliably. The costs which can be capitalized include the cost of material, direct labor and overhead costs that are directly attributable to prepare the asset for its intended use.

During the year ended March 31, 2026, the intangible assets having carrying value of zero were derecognized.

The changes in the carrying value of acquired intangible assets for the year ended March 31, 2025 are as follows:

## 2.3 Leases

### Accounting policy

#### The Company as a lessee

The Company's lease asset classes primarily consist of leases for land, buildings and computers. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low-value leases. For these short-term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

As a lessee, the Company determines the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors, such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to Infosys' operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The ROU assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

ROU assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

ROU assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

#### The Company as a lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately. The sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease.

For finance lease, finance income is recognised over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease and for operating leases, rental income is recognized on a straight-line basis over the term of the relevant lease.

The changes in the carrying value of right-of-use assets for the year ended March 31, 2026 are as follows:

## 2.11 Financial instruments

### Accounting policy

### 2.11.1 Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

### 2.11.2 Subsequent measurement

**a. Non-derivative financial instruments**

(i) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) Financial assets carried at fair value through other comprehensive income (FVOCI)

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Company has made an irrevocable election for certain investments which are classified as equity instruments to present the subsequent changes in fair value in other comprehensive income based on its business model.

(iii) Financial assets carried at fair value through profit or loss (FVTPL)

A financial asset which is not classified in any of the above categories is subsequently fair valued through profit or loss.

(iv) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination which is subsequently measured at fair value through profit or loss.

(v) Investment in subsidiaries

Investment in subsidiaries is carried at cost in the separate financial statements.

**b. Derivative financial instruments**

The Company holds derivative financial instruments, such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for such contracts is generally a bank.

(i) Financial assets or financial liabilities, carried at fair value through profit or loss.

This category includes derivative financial assets or liabilities which are not designated as hedges.

Although the Company believes that these derivatives constitute hedges from an economic perspective, they may not qualify for hedge accounting under Ind AS 109, Financial Instruments. Any derivative that is either not designated as hedge, or is so designated but is ineffective as per Ind AS 109, is categorized as a financial asset or financial liability, at fair value through profit or loss.

Derivatives not designated as hedges are recognized initially at fair value and attributable transaction costs are recognized in net profit in the Statement of Profit and Loss when incurred. Subsequent to initial recognition, these derivatives are measured at fair value through profit or loss and the resulting exchange gains or losses are included in other income. Assets / liabilities in this category are presented as current assets / current liabilities if they are either held for trading or are expected to be realized within 12 months after the Balance Sheet date.

(ii) Cash flow hedge

Primarily the Company designates certain foreign exchange forward and options contracts as cash flow hedges to mitigate the risk of foreign exchange exposure on highly probable forecast cash transactions.

When a derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognized in other comprehensive income and accumulated in the cash flow hedge reserve. Any ineffective portion of changes in the fair value of the derivative is recognized immediately in the net profit in the Statement of Profit and Loss. If the hedging instrument no longer meets the criteria for hedge accounting, then hedge accounting is discontinued prospectively. If the hedging instrument expires or is sold, terminated or exercised, the cumulative gain or loss on the hedging instrument recognized in cash flow hedge reserve till the period the hedge was effective remains in cash flow hedge reserve until the forecasted transaction occurs. The cumulative gain or loss previously recognized in the cash flow hedge reserve is transferred to the net profit in the Statement of Profit and Loss upon the occurrence of the related forecasted transaction. If the forecasted transaction is no longer expected to occur, then the amount accumulated in cash flow hedge reserve is reclassified to net profit in the Statement of Profit and Loss.

### 2.11.3 Derecognition of financial instruments

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

### 2.11.4 Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, option pricing model, market multiples, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

Refer to table 'Financial instruments by category' below for the disclosure on carrying value and fair value of financial assets and liabilities. For financial assets and liabilities maturing within one year from the Balance Sheet date and which are not carried at fair value, the carrying amounts approximate fair value due to the short maturity of these instruments.

### 2.11.5 Impairment

The Company recognizes loss allowances using the Expected Credit Loss (ECL) model for the financial assets and unbilled revenues which are not fair valued through profit or loss. Loss allowance for trade receivables and unbilled revenues with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL.

The Company determines the allowance for credit losses based on historical loss experience adjusted to reflect current and estimated future economic conditions. The Company considers current and anticipated future economic conditions relating to industries the Company deals with and the countries where it operates.

The amount of ECLs (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recorded is recognized as an impairment loss or gain in Statement of Profit and Loss.

## Financial risk management

### Financial risk factors

The Company's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Company is foreign exchange risk. The Company uses derivative financial instruments to mitigate foreign exchange related risk exposures. The Company's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers.

### Market risk

The Company operates internationally and a major portion of the business is transacted in several currencies and consequently the Company is exposed to foreign exchange risk through its sales and services in the United States and elsewhere, and purchases from overseas suppliers in various foreign currencies. The Company holds derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The Company is also exposed to foreign exchange risk arising on intercompany transaction in foreign currencies. The exchange rate between the Indian rupee and foreign currencies has changed substantially in recent years and may fluctuate substantially in the future. Consequently, the results of the Company's operations are adversely affected as the rupee appreciates / depreciates against these currencies.

The foreign currency risk from financial assets and liabilities as at March 31, 2026 is as follows:

(In ₹ crore)

| Particulars | U.S. dollars | Euro | United Kingdom Pound Sterling | Australian dollars | Other currencies | Total |
|---|---|---|---|---|---|---|
| Net financial assets | 25,934 | 10,443 | 2,074 | 1,679 | 3,507 | 43,637 |

| **Total** | **13,008** | **7,011** | **966** | **632** | **1,845** | **23,462** |

### Sensitivity analysis between Indian Rupee and US Dollar

| Particulars | Year ended March 31, | |
|---|---|---|
| | 2026 | 2025 |
| Impact on the Company's incremental operating margins | 0.47% | 0.46% |

Sensitivity analysis is computed based on the changes in the income and expenses in foreign currency upon conversion into functional currency, due to exchange rate fluctuations between the previous reporting period and the current reporting period.

### Derivative financial instruments

The Company primarily holds derivative financial instruments such as foreign currency forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts is generally a bank. These derivative financial instruments are valued based on quoted prices for similar assets and liabilities in active markets or inputs that are directly or indirectly observable in the marketplace.

The details in respect of outstanding foreign currency forward and option contracts are as follows:

The foreign exchange forward and option contracts mature within 12 months. The table below analyzes the derivative financial instruments into relevant maturity groupings based on the remaining period as at the Balance Sheet date:

(In ₹ crore)

| Particulars | As at March 31, | |
|---|---|---|
| | 2026 | 2025 |
| Not later than one month | 19,944 | 14,515 |
| Later than one month and not later than three months | 17,034 | 15,175 |
| Later than three months and not later than one year | 1,043 | 898 |
| **Total** | **38,021** | **30,588** |

During the year ended March 31, 2026 and March 31, 2025, the Company has designated certain foreign exchange forward and option contracts as cash flow hedges to mitigate the risk of foreign exchange exposure on highly probable forecast cash transactions. The related hedge transactions for balance in cash flow hedge reserve as at March 31, 2026, are expected to occur and reclassified to Statement of Profit and Loss within 3 months.

The Company determines the existence of an economic relationship between the hedging instrument and hedged item based on the currency, amount and timing of its forecasted cash flows. Hedge effectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and hedging instrument, including whether the hedging instrument is expected to offset changes in cash flows of hedged items.

If the hedge ratio for risk management purposes is no longer optimal but the risk management objective remains unchanged and the hedge continues to qualify for hedge accounting, the hedge relationship will be rebalanced by adjusting either the volume of the hedging instrument or the volume of the hedged item so that the hedge ratio aligns with the ratio used for risk management purposes. Any hedge ineffectiveness is calculated and accounted for in the Statement of Profit or Loss at the time of the hedge relationship rebalancing.

The reconciliation of cash flow hedge reserve for the years ended March 31, 2026 and March 31, 2025 is as follows:

(In ₹ crore)

| Particulars | Year ended March 31, | |
|---|---|---|
| | 2026 | 2025 |
| **Gain / (Loss)** | | |
| Balance at the beginning of the year | (18) | 6 |

| Amount reclassified to profit and loss during the year | 304 | (27) |
| Tax impact on above | 1 | 8 |
| **Balance at the end of the year** | **(19)** | **(18)** |

The Company offsets a financial asset and a financial liability when it currently has a legally enforceable right to set off the recognized amounts and the Company intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

The quantitative information about offsetting of derivative financial assets and derivative financial liabilities is as follows:

(In ₹ crore)

## Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to ₹30,337 crore and ₹26,413 crore as at March 31, 2026 and March 31, 2025, respectively and unbilled revenue amounting to ₹13,706 crore and ₹11,988 crore as at March 31, 2026 and March 31, 2025, respectively. Trade receivables and unbilled revenue are typically unsecured and are derived from revenue from customers majorly located in the United States of America and Europe. Credit risk has always been managed by the Company through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of the customers to which the Company grants credit terms in the normal course of business. The Company uses the expected credit loss model to assess any required allowances and uses a provision matrix to compute the expected credit loss allowance for trade receivables and unbilled revenues. This matrix takes into account credit reports and other related credit information to the extent available.

The Company's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers. Exposure to customers is diversified and there is no single customer contributing more than 10% of outstanding trade receivables and unbilled revenues.

The details in respect of percentage of revenues generated from top five customers and top ten customers are as follows:

(In %)

| Particulars | Year ended March 31, | |
|---|---|---|
| | 2026 | 2025 |
| Revenue from top five customers | 12.7 | 12.0 |
| Revenue from top ten customers | 20.5 | 19.9 |

### Credit risk exposure

The Company's credit period generally ranges from 30-75 days.

The allowance for lifetime expected credit loss on customer balances recognized for the year ended March 31, 2026 and March 31, 2025 is ₹113 crore and ₹63 crore, respectively.

The movement in credit loss allowance on customer balance is as follows:

(In ₹ crore)

| Particulars | Year ended March 31, | |
|---|---|---|
| | 2026 | 2025 |
| Balance at the beginning | 702 | 721 |
| Impairment loss recognized / (reversed), net | 113 | 63 |
| Amounts written off | (165) | (69) |
| Translation differences | 71 | (13) |
| **Balance at the end** | **721** | **702** |

The gross carrying amount of a financial asset is written off (either partially or in full) when there is no realistic prospect of recovery.

**Credit exposure**

(In ₹ crore)

| Particulars | Year ended March 31, | |
|---|---|---|
| | 2026 | 2025 |
| Trade receivables | 30,337 | 26,413 |
| Unbilled revenues | 13,706 | 11,988 |

Credit risk on cash and cash equivalents is limited as the Company generally invest in deposits with banks with high ratings assigned by international and domestic credit rating agencies. Ratings are monitored periodically, and the Company has considered the latest available credit ratings as at the date of approval of these financial statements.

The investments of the Company primarily include investment in mutual fund units, target maturity fund units, tax-free bonds, certificates of deposit, commercial paper, treasury bills, government securities, non-convertible debentures, quoted bonds issued by government and quasi government organizations. The Company invests after considering counterparty risks based on multiple criteria, including Tier I Capital, Capital Adequacy Ratio, credit rating, profitability, NPA levels and deposit base of banks and financial institutions. These risks are monitored regularly as per Group's risk management program.

### Liquidity risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time.

The Company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The Company has no outstanding borrowings. The Company believes that the working capital is sufficient to meet its current requirements.

As at March 31, 2026, the Company had a working capital of ₹40,794 crore, including cash and cash equivalents of ₹8,727 crore and current investments of ₹12,039 crore. As at March 31, 2025, the Company had a working capital of ₹45,406 crore, including cash and cash equivalents of ₹14,265 crore and current investments of ₹11,147 crore.

As at March 31, 2026 and March 31, 2025, the outstanding compensated absences were  2,819 crore and  2,412 crore, respectively, which have been substantially funded. Accordingly, no liquidity risk is perceived.

## 2.12 Equity

### Accounting policy

#### Ordinary shares

Ordinary shares are classified as equity share capital. Incremental costs directly attributable to the issuance of new ordinary shares, share options and buyback are recognized as a deduction from equity, net of any tax effects.

### Description of reserves

#### Capital redemption reserve

In accordance with Section 69 of the Indian Companies Act, 2013, the Company creates capital redemption reserve equal to the nominal value of the shares bought back as an appropriation from general reserve / retained earnings.

#### Retained earnings

Retained earnings represent the amount of accumulated earnings of the Company.

#### Securities premium

The amount received in excess of the par value of equity shares has been classified as securities premium. Amounts have been utilized for bonus issue and share buyback from share premium account.

#### Share options outstanding account

The Share options outstanding account is used to record the fair value of equity-settled share based payment transactions with employees. The amounts recorded in share options outstanding account are transferred to securities premium upon exercise of stock options and transferred to general reserve on account of stock options not exercised by employees.

#### Special Economic Zone Re-investment reserve

The Special Economic Zone Re-investment reserve has been created out of the profit of the eligible SEZ unit in terms of the provisions of Section 10AA (1)(ii) of Income Tax Act, 1961. The reserve should be utilized by the Company for acquiring new plant and machinery for the purpose of its business in terms of the provisions of the Section 10AA (2) of the Income Tax Act, 1961.

### Other components of equity

Other components of equity include remeasurement of net defined benefit liability / asset, equity instruments fair valued through other comprehensive income, changes on fair valuation of investments and changes in fair value of derivatives designated as cash flow hedges, net of taxes.

### Cash flow hedge reserve

When a derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognized in other comprehensive income and accumulated in the cash flow hedge reserve. The cumulative gain or loss previously recognized in the cash flow hedging reserve is transferred to the Statement of Profit and Loss upon the occurrence of the related forecasted transaction.

In the period of five years immediately preceding March 31, 2026, the Company had purchased and extinguished a total of 21,62,33,685 fully paid-up equity shares of face value ₹5/- each from the stock exchange. The Company has only one class of equity shares.

#### Capital allocation policy

Effective fiscal 2025, the Company expects to continue its policy of returning approximately 85% of the free cash flow cumulatively over a 5-year period through a combination of semi-annual dividends and / or share buyback / special dividends subject to applicable laws and requisite approvals, if any.

Under this policy, the Company expects to progressively increase its annual dividend per share (excluding special dividend if any).

Free cash flow is defined as net cash provided by operating activities less capital expenditure as per the consolidated statement of cash flows prepared under IFRS. Dividend and buyback include applicable taxes.

#### Buyback completed in December 2025

In line with the capital allocation policy, the Board, at its meeting held on September 11, 2025, approved a proposal for the Company to buyback its fully paid-up equity shares of face value of ₹5/- each from the eligible equity shareholders of the Company for an amount of ₹18,000 crore subject to shareholders' approval by way of Postal Ballot. The shareholders approved the said proposal of buyback of Equity Shares recommended by its Board of Directors by way of e-voting through postal ballot, the results of which were declared on November 6, 2025. The Buyback offer comprised a purchase of 10,00,00,000 Equity Shares comprising approximately 2.41% of the total paid-up equity share capital of the Company as of June 30, 2025 (on standalone basis) at a price of ₹1,800 per Equity share. The buyback was offered to all eligible equity shareholders (including those who became equity shareholders as on the Record date by cancelling American Depository Shares and withdrawing underlying Equity shares) of the Company as on the Record Date (i.e. November 14, 2025) on a proportionate basis through the "Tender offer" route. The tender period for buyback commenced on November 20, 2025, and was open until November 26, 2025. The Company concluded the buyback procedures on December 4, 2025, and 10,00,00,000 equity shares were bought back and extinguished. The buyback resulted in cash outflow of ₹18,000 crore (excluding transaction costs). The Company funded the buyback from its free reserves including securities premium as explained in Section 68 of the Companies Act, 2013. In accordance with Section 69 of the Companies Act, 2013, as at March 31, 2026, the Company has created a Capital Redemption Reserve of ₹50 crore equal to the nominal value of the shares bought back as an appropriation from the general reserve.

The Company's objective when managing capital is to safeguard its ability to continue as a going concern and to maintain an optimal capital structure so as to maximize shareholder value. In order to maintain or achieve an optimal capital structure, the Company may adjust the amount of dividend payment, return capital to shareholders, issue new shares or buy back issued shares. As of March 31, 2026, the Company has only one class of equity shares and has no debt. Consequent to the above capital structure there are no externally imposed capital requirements.

### 2.12.4 Employee Stock Option Plan (ESOP)

Accounting policy

The Company recognizes compensation expense relating to share-based payments in net profit based on estimated fair-values of the awards on the grant date. The estimated fair value of awards is recognized as an expense in the statement of profit and loss on a straight-line basis over the requisite service period for each separately vesting portion of the award as if the award was in-substance, multiple awards with a corresponding increase to share options outstanding account.

Infosys Expanded Stock Ownership Program 2019 (the 2019 Plan):

On June 22, 2019, pursuant to approval by the shareholders in the Annual General Meeting, the Board has been authorized to introduce, offer, issue and provide share-based incentives to eligible employees of the Company and its subsidiaries under the 2019 Plan. The maximum number of shares under the 2019 plan shall not exceed 5,00,00,000 equity shares. To implement the 2019 Plan, up to 4,50,00,000 equity shares may be issued by way of secondary acquisition of shares by Infosys Expanded Stock Ownership Trust. The Restricted Stock Units (RSUs) granted under the 2019 plan shall vest based on the achievement of defined annual performance parameters as determined by the administrator (Nomination and Remuneration Committee). The performance parameters will be based on a combination of relative Total Shareholder Return (TSR) against selected industry peers and certain broader market domestic and global indices and operating performance metrics of the Company as decided by administrator. Each of the above performance parameters will be distinct for the purposes of calculation of quantity of shares to vest based on performance. These instruments will generally vest between a minimum of one to maximum of three years from the grant date.

2015 Stock Incentive Compensation Plan (the 2015 Plan):

On March 31, 2016, pursuant to the approval by the shareholders through postal ballot, the Board was authorized to introduce, offer, issue and allot share-based incentives to eligible employees of the Company and its subsidiaries under the 2015 Plan. The maximum number of shares under the 2015 plan shall not exceed 2,40,38,883 equity shares (this includes 1,12,23,576 equity shares which are held by the trust towards the 2011 Plan as at March 31, 2016). These instruments will generally vest over a period of 4 years. The plan numbers mentioned above are further adjusted with the September 2018 bonus issue.

The equity settled and cash settled RSUs and stock options would vest generally over a period of 4 years and shall be exercisable within the period as approved by the Nomination and Remuneration Committee (NARC). The exercise price of the RSUs will be equal to the par value of the shares and the exercise price of the stock options (ESOPs) would be the market price as on the date of grant.

Controlled trust holds 86,50,911 and 96,55,927 shares as at March 31, 2026 and March 31, 2025, respectively under the 2015 plan. Out of these shares, 2,00,000 equity shares each have been earmarked for welfare activities of the employees as at March 31, 2026 and March 31, 2025.

### Notes on grants to KMP:

**CEO & MD**

Under the 2015 Plan:

The Board, on April 17, 2025, based on the recommendations of the Nomination and Remuneration Committee approved the following grants for fiscal 2026. In accordance with such approval the following grants were made effective May 2, 2025.

- 2,30,621 performance-based RSUs (Annual performance equity grant) of fair value of ₹34.75 crore. These RSUs will vest in line with the employment agreement based on achievement of certain performance targets.

- 13,273 performance-based grant of RSUs (Annual performance equity ESG grant) of fair value of ₹2 crore. These RSUs will vest in line with the employment agreement based on achievement of certain environment, social and governance milestones as determined by the Board.
- 33,183 performance-based grant of RSUs (Annual performance Equity TSR grant) of fair value of ₹5 crore. These RSUs will vest in line with the employment agreement based on Company's performance on cumulative relative TSR over the years and as determined by the Board.

Further, in accordance with the employee agreement which has been approved by the shareholders, the CEO is eligible to receive an annual grant of RSUs of fair value ₹3 crore which will vest overtime in three equal annual installments upon the completion of each year of service from the respective grant date. Accordingly, annual time-based grant of 18,132 RSUs was made effective February 1, 2026, for fiscal 2026.

Though the annual time based grants and annual performance equity TSR grant for the remaining employment term ending on March 31, 2027, have not been granted as of March 31, 2026, since the service commencement date precedes the grant date, the Company has recorded employment stock compensation expense in accordance with Ind AS 102, Share based payment. The grant date for this purpose in accordance with Ind AS 102, Share based payment is July 1, 2022.

Under the 2019 Plan:

The Board, on April 17, 2025, based on the recommendations of the Nomination and Remuneration Committee, approved performance-based grant of RSUs amounting to ₹10 crore for fiscal 2026 under the 2019 Plan. These RSUs will vest based on achievement of certain performance targets. Accordingly, 66,366 performance-based RSUs were granted effective May 2, 2025.

**Other KMP**

Under the 2015 Plan:

During the year ended March 31, 2026, based on recommendations of Nomination and Remuneration Committee, the Board approved time based grants of 2,37,370 ESOPs to Other KMP under the 2015 Plan. These ESOPs will vest over a period of 4 years and shall be exercisable within the period as approved by the Committee. The exercise price of the ESOPs would be the market price as on the date of grant.

Further, during the year ended March 31, 2026, based on recommendations of Nomination and Remuneration Committee, the Board approved 82,400 time based RSUs to Other KMPs under the 2015 Plan. Time-based RSUs will vest over four years.

Under the 2019 Plan:

During the year ended March 31, 2026, based on recommendations of Nomination and Remuneration Committee, the Board approved performance based grants of 60,600 RSUs to other KMPs under the 2019 plan. These RSUs will vest over three years based on achievement of certain performance targets.

As at March 31, 2026 and March 31, 2025, 3,87,949 and 2,88,384 cash settled options were outstanding respectively. The carrying value of liability towards cash settled share based payments was ₹5 crore and ₹8 crore as at March 31, 2026 and March 31, 2025, respectively.

The fair value of the awards are estimated using the Black-Scholes Model for time and non-market performance-based options and Monte Carlo simulation model is used for TSR based options.

The inputs to the model include the share price at date of grant, exercise price, expected volatility, expected dividends, expected term and the risk free rate of interest. Expected volatility during the expected term of the options is based on historical volatility of the observed market prices of the Company's publicly traded equity shares during a period equivalent to the expected term of the options. Expected volatility of the comparative company have been modelled based on historical movements in the market prices of their publicly traded equity shares during a period equivalent to the expected term of the options. Correlation coefficient is calculated between each peer entity and the indices as a whole or between each entity in the peer group.

The fair value of each equity settled award is estimated on the date of grant using the following assumptions:

| Particulars | For options granted in | | | | | |
|---|---|---|---|---|---|---|
| | Fiscal 2026-Equity Shares-RSU | Fiscal 2026-ADS-RSU | Fiscal 2026-Equity Shares-ESOP | Fiscal 2026-ADS-ESOP | Fiscal 2025-Equity Shares-RSU | Fiscal 2025-ADS-RSU |

## 2.16 Provisions

### Accounting policy

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The Company recognizes a reimbursement asset when, and only when, it is virtually certain that the reimbursement will be received if the Company settles the obligation.

a. Post-sales client support

The Company provides its clients with a fixed-period post-sales support on its fixed-price, fixed-timeframe contracts. Costs associated with such support services are accrued at the time related revenues are recorded and included in the Statement of Profit and Loss. The Company estimates such costs based on historical experience and estimates are reviewed on a periodic basis for any material changes in assumptions and likelihood of occurrence.

b. Onerous contracts

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. Provisions for estimated losses, if any, on incomplete contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognizes any impairment loss on the assets associated with that contract.

### Provision for post-sales client support and other provisions

| Provision utilized | (344) | (618) |
| Translation difference | 105 | 28 |
| **Balance at the end** | **1,064** | **993** |

Provision for post-sales client support majorly represents costs associated with providing post-sales support services which are accrued at the time of recognition of revenues and are expected to be utilized over a period of 1 year.

## 2.17 Income taxes

### Accounting policy

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the Statement of Profit and Loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity or other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes

the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. Deferred income taxes are not provided on the undistributed earnings of subsidiaries and branches where it is expected that the earnings of the subsidiary or branch will not be distributed in the foreseeable future.

The Company offsets current tax assets and current tax liabilities; deferred tax assets and deferred tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. The income tax provision for the interim period is made based on the best estimate of the annual average tax rate expected to be applicable for the full financial year. Tax benefits of deductions earned on exercise of employee share options in excess of compensation charged to income are credited to equity.

Income tax expense in the Statement of Profit and Loss comprises:

(In ₹ crore)

| Particulars | As at March 31, | |
|---|---|---|
| | 2026 | 2025 |
| Current taxes | 10,459 | 10,836 |
| Deferred taxes | (913) | (963) |
| **Income tax expense** | **9,546** | **9,873** |

A reconciliation of the income tax provision to the amount computed by applying the statutory income tax rate to the income before income taxes is summarized below:

(In ₹ crore)

| Particulars | As at March 31, | |
|---|---|---|
| | 2026 | 2025 |
| Profit before income taxes | 38,757 | 35,441 |
| Enacted tax rates in India | 25.17% | 25.17% |
| Computed expected tax expense | 9,754 | 8,920 |
| Overseas taxes | 1,080 | 1,064 |
| Tax provision (reversals) | (779) | 97 |
| Effect of exempt non-operating income | (687) | (413) |
| Effect of non-deductible expenses | 254 | 168 |
| Others | (76) | 37 |
| **Income tax expense** | **9,546** | **9,873** |

The applicable Indian corporate statutory tax rate for the year ended March 31, 2026, is 25.17% and for the year ended March 31, 2025, is 25.17%.

Income tax expense for the year ended March 31, 2026, and March 31, 2025, includes reversal (net of provisions) of ₹779 crore and provisions (net of reversals) of ₹97 crore, respectively. These provisions and reversals pertaining to prior periods are primarily on account of adjudication of certain disputed matters, upon filing of tax return and completion of assessments, across various jurisdictions.

During the year ended March 31, 2026, the Company received orders under sections 250 and 254 of the Income Tax Act, 1961, from the Income Tax Authorities in India for the assessment years, 2013-14 and assessment years 2017-18 to 2021-22. These orders confirmed the Company's position with respect to tax treatment of certain matters. As a result interest income (pre-tax) of ₹381 crore was recognized and provision for income tax aggregating ₹869 crore was reversed with a corresponding credit to the Statement of Profit and Loss. Also, upon resolution of the disputes, an amount aggregating to ₹86 crore has been reduced from contingent liabilities.

During the quarter ended March 31, 2025, the Company received orders under section 250 of the Income Tax Act, 1961, from the Income Tax Authorities in India for the assessment years, 2016-17 and 2019-20. These orders confirmed the Company's position with respect to tax treatment of certain matters. As a result interest income (pre-tax) of ₹327 crore was recognised and provision for income tax aggregating ₹183 crore was reversed with a corresponding credit to the Statement of Profit and Loss. Also, upon resolution of the disputes, an amount aggregating to ₹1,068 crore has been reduced from contingent liabilities.

The foreign tax expense is due to income taxes payable overseas, principally in the United States.

In India, the Company has benefited from certain income tax incentives that the Government of India had provided for export of software and services from the units registered under the Special Economic Zones Act (SEZs), 2005 in the prior years. SEZ units which began the provision of services on or after April 1, 2005, are eligible for a deduction of 100% of profits or gains derived from the export of services for the first five years from the financial year in which the unit commenced the provision of services and 50% of such profits or gains for further five years. Up to 50% of such profits or gains is also available for a further five years subject to creation of a Special Economic Zone Re-investment reserve out of the profit for the eligible SEZ units and utilization of such reserve by the Company for acquiring new plant and machinery for the purpose of its business as per the provisions of the Income Tax Act, 1961. *(Refer to Special Economic Zone Re-investment reserve under Note 2.12 Equity).*

Deferred income tax for the year ended March 31, 2026 and March 31, 2025, substantially relates to origination and reversal of temporary differences.

Infosys is subject to a 15% Branch Profit Tax (BPT) in the U.S. to the extent its US branch's net profit during the year is greater than the increase in the net assets of the US branch during the year, computed in accordance with the Internal Revenue Code. As at March 31, 2026, Infosys' US branch net assets amounted to approximately ₹7,736 crore. As at March 31, 2026, the Company has a deferred tax liability for branch profit tax of ₹207 crore (net of credits), as the Company estimates that these branch profits are expected to be distributed in the foreseeable future.

Deferred income tax liabilities have not been recognized on temporary differences amounting to ₹19,270 crore and ₹16,593 crore as at March 31, 2026 and March 31, 2025, respectively, associated with investments in subsidiaries and branches as the Company is able to control the timing of reversal of the temporary difference and it is probable that the temporary

differences will not reverse in the foreseeable future. The Company majorly intends to repatriate earnings from subsidiaries and branches only to the extent these can be distributed in a tax-free manner.

Deferred income tax assets have not been recognized on accumulated losses of ₹1,310 crore and ₹1,466 crore as at March 31, 2026 and March 31, 2025, respectively as it is probable that future taxable profit will not be available against which the unused tax losses can be utilized in the foreseeable future. Majority of the accumulated losses as at March 31, 2026, will expire between financial years 2028 to 2033.

The details of income tax assets and income tax liabilities as at March 31, 2026 and March 31, 2025 are as follows:

The tax effects of significant temporary differences that resulted in deferred income tax assets and liabilities are as follows:

(In ₹ crore)

| Particulars | As at March 31, | |
|---|---|---|
| | 2026 | 2025 |
| Deferred income tax assets after set off | 1,347 | 497 |
| Deferred income tax liabilities after set off | (990) | (1,062) |

In assessing the realizability of deferred income tax assets, the management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. The management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, management believes that the Company will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

The Company's Advanced Pricing Arrangement (APA) with the Internal Revenue Service (IRS) for US branch income tax expired in March 2021. The Company has applied for renewal of APA and currently the US taxable income is based on the Company's best estimate determined based on the expected value method.

## 2.18 Revenue from operations

### Accounting policy

The Company derives revenues primarily from IT services comprising software development and related services, cloud and infrastructure services, maintenance, consulting and package implementation, licensing of software products and platforms across the Company's core and digital offerings (together called as "software related services"). Contracts with customers are either on a time-and-material, unit of work, fixed-price or on a fixed-timeframe basis.

Revenues from customer contracts are considered for recognition and measurement when the contract has been approved in writing, by the parties, to the contract, the parties to contract are committed to perform their respective obligations under the contract, and the contract is legally enforceable. Revenue is recognized upon transfer of control of promised products or services ("performance obligations") to customers in an amount that reflects the consideration the Company has received or expects to receive in exchange for these products or services ("transaction price"). When there is uncertainty as

to collectability, revenue recognition is postponed until such uncertainty is resolved.

The Company assesses the services promised in a contract and identifies distinct performance obligations in the contract. The Company allocates the transaction price to each distinct performance obligation based on the relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. In the absence of such evidence, the primary method used to estimate standalone selling price is the expected cost plus a margin, under which the Company estimates the cost of satisfying the performance obligation and then adds an appropriate margin based on similar services.

The Company's contracts may include variable consideration, including rebates, volume discounts and penalties. The Company includes variable consideration as part of transaction price when there is a basis to reasonably estimate the amount of the variable consideration and when it is probable that a significant reversal of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is resolved.

Revenue on time-and-material and unit of work-based contracts, are recognized as the related services are performed. Fixed-price maintenance revenue is recognized ratably either on a straight-line basis when services are performed through an indefinite number of repetitive acts over a specified period or ratably using a percentage of completion method when the pattern of benefits from the services rendered to the customer and Company's costs to fulfil the contract is not even through the period of contract because the services are generally discrete in nature and not repetitive. Revenue from other fixed-price, fixed-timeframe contracts, where the performance obligations are satisfied over time is recognized using the percentage-of-completion method. Efforts or costs expended are used to determine progress towards completion as there is a direct relationship between input and productivity. Progress towards completion is measured as the ratio of costs or efforts incurred to date (representing work performed) to the estimated total costs or efforts. Estimates of transaction price and total costs or efforts are continuously monitored over the term of the contracts and are recognized in net profit in the period when these estimates change or when the estimates are revised. Revenues and the estimated total costs or efforts are subject to revision as the contract progresses. Provisions for estimated losses, if any, on incomplete contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract.

The billing schedules agreed with customers include periodic performance based billing and / or milestone based progress billings. Revenues in excess of billing are classified as unbilled revenue while billing in excess of revenues are classified as contract liabilities (which we refer to as "unearned revenues").

In arrangements for software development and related services and maintenance services, by applying the revenue recognition criteria for each distinct performance obligation, the arrangements with customers generally meet the criteria for considering software development and related services as distinct performance obligations. For allocating the transaction price, the Company measures the revenue in respect of each performance obligation of a contract at its relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. In cases, where the Company is unable to determine the standalone selling price, the Company uses the expected cost plus margin approach in estimating the standalone selling price. For software development and related services, the performance obligations are satisfied as and when the services are rendered since the customer generally obtains control of the work as it progresses.

Certain cloud and infrastructure services contracts include multiple elements which may be subject to other specific accounting guidance, such as leasing guidance. These contracts are accounted in accordance with such specific accounting guidance. In such arrangements where the Company is able to determine that hardware and services are distinct performance obligations, it allocates the consideration to these performance obligations on a relative standalone selling price basis. In the absence of standalone selling price, the Company uses the expected cost-plus margin approach in estimating the standalone selling price. When such arrangements are considered as a single performance obligation, revenue is recognized over the period and measure of progress is determined based on promise in the contract.

Revenue from licenses where the customer obtains a "right-to-use" the licenses is recognized at the time the license is made available to the customer. Revenue from licenses where the customer obtains a "right-to-access" is recognized over the access period.

Arrangements to deliver software products generally have three elements: license, implementation and Annual Technical Services (ATS). When implementation services are provided in conjunction with the licensing arrangement and the license and implementation have been identified as two distinct separate performance obligations, the transaction price for such contracts are allocated to each performance obligation of the contract based on their relative standalone selling prices. In the absence of standalone selling price for implementation, the Company uses the expected cost plus margin approach in estimating the standalone selling price. Where the license is required to be substantially customized as part of the implementation service the entire arrangement fee for license and implementation is considered to be a single performance obligation and the revenue is recognized using the percentage-of-completion method as the implementation is performed. Revenue from client training, support and other services arising due to the sale of software products is recognized as the performance obligations are satisfied. ATS revenue is recognized ratably on a straight-line basis over the period in which the services are rendered.

Contracts with customers includes subcontractor services or third-party vendor equipment or software in certain integrated services arrangements. In these types of arrangements, revenue from sales of third-party vendor products or services is recorded net of costs when the Company is acting as an agent between the customer and the vendor, and gross when the Company is the principal for the transaction. In doing so, the Company first evaluates whether it obtains control of the specified goods or services before they are transferred to the customer. The Company considers whether it is primarily responsible for

fulfilling the promise to provide the specified goods or services, inventory risk, pricing discretion and other factors to determine whether it controls the specified goods or services and therefore, is acting as a principal or an agent.

A contract modification is a change in the scope or price or both of a contract that is approved by the parties to the contract. A contract modification that results in the addition of distinct performance obligations are accounted for either as a separate contract if the additional services are priced at the standalone selling price or as a termination of the existing contract and creation of a new contract if they are not priced at the standalone selling price. If the modification does not result in a distinct performance obligation, it is accounted for as part of the existing contract on a cumulative catch-up basis.

The incremental costs of obtaining a contract (i.e., costs that would not have been incurred if the contract had not been obtained) are recognized as an asset if the Company expects to recover them.

Certain eligible, non-recurring costs (e.g. set-up or transition or transformation costs) that do not represent a separate performance obligation are recognized as an asset when such costs (a) relate directly to the contract; (b) generate or enhance resources of the Company that will be used in satisfying the performance obligation in the future; and (c) are expected to be recovered.

Capitalized contract costs relating to upfront payments to customers are amortized to revenue and other capitalized costs are amortized to expenses over the respective contract life on a systematic basis consistent with the transfer of goods or services to customer to which the asset relates. Capitalized costs are monitored regularly for impairment. Impairment losses are recorded when present value of projected remaining operating cash flows is not sufficient to recover the carrying amount of the capitalized costs.

The Company presents revenues net of indirect taxes in its Statement of Profit and Loss.

Revenue from operations for the year ended March 31, 2026 and March 31, 2025 is as follows:

(In ₹ crore)

| Particulars | Year ended March 31, | |
|---|---|---|
| | 2026 | 2025 |
| Revenue from software services | 1,47,806 | 1,35,525 |
| Revenue from products and platforms | 1,013 | 1,067 |
| **Total revenue from operations** | **1,48,819** | **1,36,592** |

### Products & platforms

The Company derives revenues from the sale of products and platforms, including Infosys Applied AI which applies next-generation AI and machine learning.

The percentage of revenue from fixed-price contracts for each of the year ended March 31, 2026 and March 31, 2025, is 58%.

### Trade receivables and Contract Balances

The timing of revenue recognition, billings and cash collections results in receivables, unbilled revenue, and unearned revenue on the Company's Balance Sheet. Amounts are billed as work progresses in accordance with agreed-upon contractual terms, either at periodic intervals (e.g., monthly or quarterly) or upon achievement of contractual milestones.

The Company's receivables are rights to consideration that are unconditional. Unbilled revenues comprising revenues in excess of billings from time and material contracts and fixed-price maintenance contracts are classified as financial asset when the right to consideration is unconditional and is due only after a passage of time.

Invoicing to the clients for other fixed-price contracts is based on milestones as defined in the contract and therefore the timing of revenue recognition is different from the timing of invoicing to the customers. Therefore unbilled revenues for other fixed-price contracts (contract asset) are classified as non-financial asset because the right to consideration is dependent on completion of contractual milestones.

Invoicing in excess of earnings are classified as unearned revenue.

Trade receivables and unbilled revenues are presented net of impairment in the Balance Sheet.

During the year ended March 31, 2026 and March 31, 2025, the company recognized revenue of ₹5,276 crore and ₹4,404 crore arising from opening unearned revenue as of April 1, 2025 and April 1, 2024, respectively.

During the year ended March 31, 2026 and March 31, 2025, ₹4,413 crore and ₹4,448 crore of unbilled revenue pertaining to other fixed-price and fixed-timeframe contracts as of April 1, 2025 and April 1, 2024, respectively has been reclassified to Trade receivables upon billing to customers on completion of milestones.

### Remaining performance obligation disclosure

The remaining performance obligation disclosure provides the aggregate amount of the transaction price yet to be recognized as at the end of the reporting period and an explanation as to when the Company expects to recognize these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the Company has not disclosed the remaining performance obligation related disclosures for contracts where the revenue recognized corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts where invoicing is on time-and-material and unit of work-based contracts. Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts, periodic revalidations, adjustment for revenue that has not materialized and adjustments for currency fluctuations.

The aggregate value of performance obligations that are completely or partially unsatisfied as at March 31, 2026, other than those meeting the exclusion criteria mentioned above, is ₹1,13,675 crore. Out of this, the Company expects to recognize

revenue of around 50.1% within the next one year and around 21.6% between one and two years and remaining thereafter. The aggregate value of performance obligations that are completely or partially unsatisfied as at March 31, 2025, is ₹90,815 crore. The contracts can generally be terminated by the customers and typically includes an enforceable termination penalty payable by them. Generally, customers have not terminated contracts without cause.

## 2.19 Other income, net

### 2.19.1 Other income

**Accounting policy**

Other income is comprised primarily of interest income, dividend income, gain / loss on investments and exchange gain / loss on forward and options contracts and on translation of foreign currency assets and liabilities. Interest income is recognized using the effective interest method. Dividend income is recognized when the right to receive payment is established.

### 2.19.2 Foreign currency

**Accounting policy**

Functional currency

The functional currency of the Company is the Indian rupee. These financial statements are presented in Indian rupees (rounded off to crore; one crore equals ten million).

Transactions and translations

Foreign-currency denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are recognized in the standalone Statement of Profit and Loss and reported within exchange gains / (losses) on translation of assets and liabilities, net, except when deferred in Other Comprehensive Income as qualifying cash flow hedges. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction. The related revenue and expense are recognized using the same exchange rate.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

Other Comprehensive Income, net of taxes includes translation differences on non-monetary financial assets measured at fair value at the reporting date, such as equities classified as financial instruments and measured at fair value through other comprehensive income (FVOCI).

Government grant

The Company recognizes government grants only when there is reasonable assurance that the conditions attached to them shall be complied with, and the grants will be received. Government grants related to assets are treated as deferred income and are recognized in the net profit in the Statement of Profit and Loss on a systematic and rational basis over the useful life of the asset. Government grants related to revenue are recognized on a systematic basis in the net profit in the Statement of Profit and Loss over the periods necessary to match them with the related costs which they are intended to compensate.

### 2.20.1 Impact of Labour Codes

On November 21, 2025, the Government of India notified provisions of the Code on Wages, 2019, the Industrial Relations Code, 2020, the Code on Social Security, 2020 and the Occupational Safety, Health and Working Conditions Code, 2020, ('Labour Codes') which consolidate twenty-nine existing labour laws into a unified framework governing employee benefits during employment and post-employment. The Labour Codes, amongst other things introduces changes, including a uniform definition of wages and enhanced benefits relating to leave. The Company has assessed the financial implications of these changes which has resulted in increase in gratuity liability, a defined benefit plan arising out of past service cost relating to plan amendments and increase in compensated absences by ₹1,146 crore. Considering the impact arising out of an enactment of the new legislation is an event of non-recurring nature, the Company has presented this incremental amount as "Impact of Labour Codes" under "Exceptional Item" in the Standalone Statement of Profit and Loss for the year ended March 31, 2026. The Company continues to monitor the developments pertaining to Labour Codes and will evaluate impact if any on the measurement of the employee benefits liability.

## 2.21 Employee benefits

**Accounting policy**

### 2.21.1 Gratuity and pensions

The Company provides for gratuity, a defined benefit retirement plan ('the Gratuity Plan') covering eligible Indian employees of Infosys. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment with the Company. The Company contributes Gratuity liabilities to the Infosys Limited Employees' Gratuity Fund Trust (the Trust). Trustees administer contributions made to the Trusts and contributions are invested in a scheme with the Life Insurance Corporation of India as permitted by Indian law.

The Company operates defined benefit pension plan in certain overseas jurisdictions, in accordance with the local laws. These plans are managed by third-party fund managers. The plans provide for periodic payouts after retirement and / or a lumpsum payment as set out in rules of each fund and includes death and disability benefits. The defined benefit plans require contributions which are based on a percentage of salary that varies depending on the age of the respective employees.

Liabilities with regard to these defined benefit plans are determined by actuarial valuation, performed by an external actuary, at each Balance Sheet date using the projected unit credit method. These defined benefit plans expose the Company to actuarial risks, such as longevity risk, interest rate risk and market risk.

The Company recognizes the net obligation of a defined benefit plan in its Balance Sheet as an asset or liability. Gains and losses through re-measurements of the net defined benefit liability / (asset) are recognized in other comprehensive income and are not reclassified to profit or loss in subsequent periods. The actual return of the portfolio of plan assets, in excess of the yields computed by applying the discount rate used to measure the defined benefit obligation is recognized in other comprehensive income. The effect of any plan amendments is recognized in net profit in the Statement of Profit and Loss.

### 2.21.2 Provident fund

Eligible employees of Infosys receive benefits from a provident fund, which is a defined benefit plan. Both the eligible employee and the Company make monthly contributions to the provident fund plan equal to a specified percentage of the covered employee's salary. The Company contributes a portion to the Infosys Limited Employees' Provident Fund Trust. The trust invests in specific designated instruments as permitted by Indian law. The remaining portion is contributed to the government administered pension fund. The rate at which the annual interest is payable to the beneficiaries by the trust is being administered

by the Government of India. The Company has an obligation to make good the shortfall, if any, between the return from the investments of the Trust and the notified interest rate.

### 2.21.3 Superannuation

Certain employees of Infosys are participants in a defined contribution plan. The Company has no further obligations to the Plan beyond its monthly contributions which are periodically contributed to a trust fund, the corpus of which is invested with the Life Insurance Corporation of India.

### 2.21.4 Compensated absences

The Company has a policy on compensated absences which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an external actuary at each Balance Sheet date using projected unit credit method on the additional amount expected to be paid / availed as a result of the unused entitlement that has accumulated at the Balance Sheet date. Expense on non-accumulating compensated absences is recognized in the period in which the absences occur.

#### a. Gratuity and Pension

The details of the defined benefit retirement plans and the amounts recognized in the standalone financial statements as at March 31, 2026 and March 31, 2025 are as follows:

The weighted-average assumptions used to determine benefit obligations as at March 31, 2026 and March 31, 2025 are as follows:

| Particulars | Gratuity | | Pension | |
|---|---|---|---|---|
| | Year ended March 31, | | Year ended March 31, | |
| | 2026 | 2025 | 2026 | 2025 |
| Discount Rate [1] | 6.50% | 6.5% | 1.1%-4.1% | 0.9%-3.4% |
| Weighted average rate of increase in compensation levels [2] | 6% | 6% | 1%-3% | 1%-3% |
| Weighted average duration of defined benefit obligation [3] | 5.7 years | 5.7 years | 12 years | 13 years |

The weighted-average assumptions used to determine net periodic benefit cost for the year ended March 31, 2026 and March 31, 2025 are as follows:

| Particulars | Gratuity | | Pension | |
|---|---|---|---|---|
| | Year ended March 31, | | Year ended March 31, | |
| | 2026 | 2025 | 2026 | 2025 |
| Discount rate | 6.5% | 7.0% | 0.9%-3.4% | 1.5%-3.4% |
| Weighted average rate of increase in compensation levels | 6% | 6% | 1%-3% | 1%-3% |

(1) For domestic defined benefit plan in India, the market for high-quality corporate bonds being not developed, the yield of government bonds is considered as the discount rate. For most of our overseas defined benefit plan, given that the market for high quality corporate bonds is not developed, the Government bond rate adjusted for corporate spreads is used.

(2) The average rate of increase in compensation levels is determined by the Company, considering factors, such as the Company's past compensation revision trends, inflation in respective markets and management's estimate of future salary increases.

(3) Attrition rate considered is the management's estimate based on the past long-term trend of employee turnover in the Company. The tenure has been considered taking into account the past long-term trend of employees' average remaining service life which reflects the average estimated term of post-employment benefit obligation.

For domestic defined benefit plan in India, assumptions regarding future mortality experience are set in accordance with the published statistics by the Life Insurance Corporation of India. For overseas defined benefit plan, the assumptions regarding future mortality experience are set with regard to the latest statistics in life expectancy, plan experience and other relevant data.

The Company assesses all the above assumptions with its projected long-term plans of growth and prevalent industry standards.

The Company contributes all ascertained liabilities towards gratuity to the Infosys Limited Employees' Gratuity Fund Trust. Trustees administer contributions made to the trust. The plan assets of the overseas defined benefit plan have been primarily invested in insurer managed funds and the asset allocation for plan assets is determined based on the investment criteria prescribed under the relevant regulations applicable to pension funds and the insurer managers. The insurers' investment are diversified and provide for guaranteed interest rates arrangements.

Actual return on assets (including remeasurement) of the gratuity plan for the year ended March 31, 2026 and March 31, 2025, were ₹215 crore and ₹152 crore, respectively and for the pension plan were ₹80 crore and ₹59 crore, respectively.

The contributions for gratuity are invested in a scheme with the Life Insurance Corporation of India as permitted by Indian law. The table below sets out the details of major plan assets into various categories as at March 31, 2026 and March 31, 2025:

(In %)

| Particulars | Pension | |
|---|---|---|
| | As at March 31, | |
| | 2026 | 2025 |
| Equity | 38 | 34 |
| Bonds | 22 | 30 |
| Real Estate / Property | 24 | 26 |
| Cash and Cash Equivalents | 1 | 1 |
| Other | 15 | 9 |

These defined benefit plans expose the Company to actuarial risk which are set out below:

- **Interest rate risk:** The present value of the defined benefit plan liability is generally calculated using a discount rate determined by reference to government bond yields and in certain overseas jurisdictions, it is calculated in reference to government bond yield adjusted for a corporate spread. If bond yields fall, the defined benefit obligation will tend to increase.
- **Life expectancy and investment risk:** The pension fund offers the choice between a lifelong pension and a cash lump sum upon retirement. The pension fund has defined rates for converting the lump sum to a pension and there is the risk that the members live longer than implied by these conversion rates and that the pension assets don't achieve the investment return implied by these conversion rates.
- **Asset volatility:** A proportion of the pension fund is held in equities, which is expected to outperform corporate bonds in the long term but give exposure to volatility and risk in the short term. The pension fund board of insurer is responsible for the investment strategy and equity allocation is justified given the long-term investment horizon of the pension fund and the objective to provide a reasonable long term return on members' account balances.

The sensitivity of significant assumptions used for valuation of defined benefit obligation is as follows:

(In ₹ crore)

| Impact from | As at March 31, 2026 | |
|---|---|---|
| | Gratuity | Pension |
| | 1% point increase/ decrease | 0.5% point increase/ decrease |
| Discount Rate | 185 | 56 |
| Weighted average rate of increase in compensation level | 199 | 9 |

Sensitivity for significant actuarial assumptions is computed by varying one actuarial assumption used for the valuation

of defined benefit obligation, keeping all other actuarial assumptions constant. In practice, this is not probable, and changes in some of the assumptions may be correlated.

The Company expects to contribute ₹490 crore to gratuity and ₹48 crore to pension during the fiscal 2027.

Maturity profile of defined benefit obligation:

(In ₹ crore)

| Particulars | Gratuity | Pension |
|---|---|---|
| Within 1 year | 591 | 88 |
| 1-2 year | 491 | 99 |
| 2-3 year | 464 | 95 |
| 3-4 year | 429 | 86 |
| 4-5 year | 399 | 94 |
| 5-10 years | 1,507 | 407 |

### b. Superannuation

The Company contributed ₹541 crore and ₹493 crore to the Superannuation trust during the year ended March 31, 2026 and March 31, 2025, respectively and the same has been recognized in the Statement of Profit and Loss account under the head employee benefit expense.

### c. Provident fund

Infosys has an obligation to fund any shortfall on the yield of the trust's investments over the administered interest rates on an annual basis. These administered rates are determined annually predominantly considering the social and economic factors. The actuary has provided a valuation for provident fund liabilities on the basis of guidance issued by Actuarial Society of India.

The following tables set out the funded status of the defined benefit provident fund plan of Infosys limited and the amounts recognized in the Company's financial statements as at March 31, 2026 and March 31, 2025:

(In ₹ crore)

| Particulars | As at March 31, | |
|---|---|---|
| | 2026 | 2025 |
| Change in benefit obligations | | |
| Benefit obligations at the beginning | 13,867 | 11,879 |
| Service cost | 1,088 | 952 |
| Employee contribution | 2,036 | 1,683 |

| Irrecoverable Surplus (Effect of Asset Ceiling) | - | (61) |
| **Net defined benefit asset / (liability)** | **(363)** | **-** |

Amount for the year ended March 31, 2026 and March 31, 2025, recognized in the Statement of Profit and Loss under employee benefit expense:

(In ₹ crore)

| Particulars | Year ended March 31, | |
|---|---|---|
| | 2026 | 2025 |
| Service cost | 1,088 | 952 |
| Net interest on the net defined benefit liability | - | 4 |
| **Net provident fund cost** | **1,088** | **956** |

Amount for the year ended March 31, 2026 and March 31, 2025 recognized in the statement of other comprehensive income:

| Particulars | As at March 31, | |
|---|---|---|
| | 2026 | 2025 |
| Remeasurements of the net defined benefit liability / (asset) | | |
| Actuarial (gains) / losses | 95 | 218 |
| (Return) / loss on plan assets excluding amounts included in the net interest on the net defined benefit liability / (asset) | 415 | (245) |
| Asset Ceiling Effect | (61) | 61 |
| Net interest on the net defined benefit asset | (4) | - |
| | **445** | **34** |

The assumptions used in determining the present value obligation of the defined benefit plan under the Deterministic Approach are as follows:

| Particulars | As at March 31, | |
|---|---|---|
| | 2026 | 2025 |
| Government of India (GOI) bond yield [1] | 6.50% | 6.50% |
| Expected rate of return on plan assets | 8.25% | 8.00% |
| Remaining term to maturity of portfolio | 6 years | 6 years |
| Expected guaranteed interest rate | 8.25% | 8.25% |

[1] In India, the market for high-quality corporate bonds being not developed, the yield of government bonds is considered as the discount rate. The tenure has been considered taking into account the past long-term trend of employees' average remaining service life which reflects the average estimated term of the post-employment benefit obligations.

The breakup of the plan assets into various categories as at March 31, 2026 and March 31, 2025 is as follows:

(In %)

| Particulars | As at March 31, | |
|---|---|---|
| | 2026 | 2025 |
| Central and State government bonds | 63 | 60 |
| Public sector undertakings and Private sector bonds | 26 | 28 |
| Others | 11 | 12 |

The asset allocation for plan assets is determined based on the investment criteria prescribed under the relevant regulations.

The actuarial valuation of Provident Fund liability exposes the Company to interest rate risk. The defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase.

As at March 31, 2026, the defined benefit obligation would be affected by approximately ₹76 crore and ₹151 crore on account of a 0.25% increase / decrease in the expected rate of return on plan assets.

The Company contributed ₹1,321 crore and ₹1,158 crore to the provident fund during the year ended March 31, 2026 and March 31, 2025, respectively. The same has been recognized in the net profit in the statement of profit and loss under the head employee benefit expense.

The provident plans are applicable only to employees drawing a salary in Indian rupees.

Employee benefits cost include:

(In ₹ crore)

| Particulars | Year ended March 31, | |
|---|---|---|
| | 2026 | 2025 |
| Salaries and bonus[1] | 70,931 | 65,425 |
| Defined contribution plans | 631 | 560 |
| Defined benefit plans | 2,823 | 1,481 |
| | **74,385** | **67,466** |

[1] Includes employee stock compensation expense of ₹846 crore and ₹712 crore for the year ended March 31, 2026 and March 31, 2025, respectively (*Refer to Note 2.12*).

## 2.22 Earnings per equity share

### Accounting Policy

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Company by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as at the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues, including for changes effected prior to the approval of the financial statements by the Board of Directors.

The computation of basic earnings per equity share is as follows:

| Particulars | Year ended March 31, | |
|---|---|---|
| | 2026 | 2025 |
| Profit for the year | 29,211 | 25,568 |
| Basic earnings per equity share - weighted average number of equity shares outstanding | 4,12,19,31,567 | 4,15,19,36,905 |
| **Basic earnings per equity share** | **70.87** | **61.58** |

The reconciliation of the equity shares used in the computation of basic and diluted earnings per equity share is as follows:

| Particulars | Year ended March 31, | |
|---|---|---|

## 2.23 Contingent liabilities and commitments

### Accounting policy

Contingent liability is a possible obligation arising from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity or a present obligation that arises from past events but is not recognized because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

The claims against the Company primarily represent demands arising on completion of assessment proceedings under the Income Tax Act, 1961. These claims are on account of issues of disallowance of expenditure towards software being held as capital in nature, payments made to Associated Enterprises held as liable for withholding of taxes, among others. These matters are pending before various Income Tax Authorities and the Management including its tax advisors expect that its position will likely be upheld on ultimate resolution and will not have a material adverse effect on the Company financial position and results of operations.

Amount paid to statutory authorities against the tax claims amounted to ₹2,381 crore and ₹3,810 crore as at March 31, 2026 and March 31, 2025, respectively.

(2) Capital contracts primarily comprises of commitments for infrastructure facilities and computer equipments.

### Legal proceedings

#### Government Investigation

The US Department of Justice ("DOJ") is conducting an investigation regarding how the Company classified certain H-1B visa-recipient employees working for one of its clients in immigration documents filed with certain US government authorities. The Company is engaged in discussions with the DOJ regarding its ongoing investigation and continues its own inquiry regarding the matter. At this stage, the Company is unable to predict the outcome of this matter, including whether such outcome could have a material adverse effect on the Company's business and results of operations.

#### Others

Apart from the foregoing, the Company is subject to legal proceedings and claims which have arisen in the ordinary course of business. The Company's management reasonably expects that such ordinary course legal actions, when ultimately concluded and determined, will not have a material and adverse effect on the Company's results of operations or financial condition.

# Independent Auditor's Report

To The Members of Infosys Limited

## Report on the Audit of the Consolidated Financial Statements

### Opinion

We have audited the accompanying consolidated financial statements of **INFOSYS LIMITED** (the "Company") and its subsidiaries (the Company and its subsidiaries together referred to as the "Group") which comprise the Consolidated Balance Sheet as at March 31, 2026, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year ended on that date, and notes to the financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as the "Consolidated Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Financial Statements, give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act, ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2026 and their consolidated profit, their consolidated other comprehensive income, their consolidated changes in equity and their consolidated cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the Consolidated Financial Statements in accordance with the Standards on Auditing ("SAs") specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the Consolidated Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Financial Statements.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Financial Statements of the current period. These matters were addressed in the context of our audit of the Consolidated Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

| Sr. No. | Key Audit Matter |
|---|---|
| 1 | *Revenue recognition*<br><br>The Group's contracts with customers include contracts with multiple products and services. The group derives revenues from IT services comprising software development and related services, maintenance, consulting and package implementation, licensing of software products and platforms across the Group's core and digital offerings and business process management services. The Group assesses the services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligations to determine the deliverables and the ability of the customer to benefit independently from such deliverables involves significant judgement.<br><br>In certain integrated services arrangements, contracts with customers include subcontractor services or third-party vendor equipment or software. In these types of arrangements, revenue from sales of third-party vendor products or services is recorded net of costs when the Group is acting as an agent between the customer and the vendor, and gross when the Group is the principal for the transaction. In doing so, the Group first evaluates whether it obtains control of the specified goods or services before it is transferred to the customer. The Group considers whether it is primarily responsible for fulfilling the promise to provide the specified goods or services, inventory risk, pricing discretion and other factors to determine whether it controls the products or service and therefore, is acting as a principal or an agent.<br><br>Fixed-price maintenance revenue is recognized ratably either on (1) a straight-line basis when services are performed through an indefinite number of repetitive acts over a specified period or (2) using a percentage of completion method when the pattern of benefits from the services rendered to the customer and the Group's costs to fulfil the contract is not even through the period of contract because the services are generally discrete in nature and not repetitive. The use of method to recognize the maintenance revenues requires judgment and is based on the promises in the contract and nature of the deliverables.<br><br>As certain contracts with customers involve management's judgment in (1) identifying distinct performance obligations, (2) determining whether the Group is acting as a principal or an agent and (3) whether fixed-price maintenance revenue is recognized on a straight-line basis or using the percentage of completion method, revenue recognition from these judgments were identified as a key audit matter and required a higher extent of audit effort.<br><br>Refer Notes 1.5 and 2.18 to the Consolidated Financial Statements. |
| | Auditor's Response |
| | *Principal Audit Procedures Performed included the following:*<br><br>Our audit procedures related to the (1) identification of distinct performance obligations, (2) determination of whether the Group is acting as a principal or agent and (3) whether fixed-price maintenance revenue is recognized on a straight-line basis or using the percentage of completion method included the following, among others:<br><br>• We tested the effectiveness of controls relating to the (a) identification of distinct performance obligations, (b) determination of whether the Group is acting as a principal or an agent and (c) determination of whether fixed-price maintenance revenue for certain contracts is recognized on a straight-line basis or using the percentage of completion method.<br>• We selected a sample of contracts with customers and performed the following procedures:<br><br>– Obtained and read contract documents for each selection, including master service agreements, and other documents that were part of the agreement.<br>– Identified significant terms and deliverables in the contract to assess management's conclusions regarding the (i) identification of distinct performance obligations (ii) whether the Group is acting as a principal or an agent and (iii) whether fixed-price maintenance revenue is recognized on a straight-line basis or using the percentage of completion method |

| 2 | *Revenue recognition - Fixed-price contracts using the percentage of completion method*<br><br>Fixed-price maintenance revenue is recognized ratably either (1) on a straight-line basis when services are performed through an indefinite number of repetitive acts over a specified period or (2) using a percentage of completion method when the pattern of benefits from services rendered to the customer and the Group's costs to fulfil the contract is not even through the period of contract because the services are generally discrete in nature and not repetitive. Revenue from other fixed-price, fixed-timeframe contracts, where the performance obligations are satisfied over time is recognized using the percentage-of-completion method.<br><br>Use of the percentage-of-completion method requires the Group to determine the actual efforts or costs expended to date as a proportion of the estimated total efforts or costs to be incurred. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. The estimation of total efforts or costs involves significant judgement and is assessed throughout the period of the contract to reflect any changes based on the latest available information. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract.<br><br>We identified the estimate of total efforts or costs to complete fixed-price contracts measured using the percentage of completion method as a key audit matter as the estimation of total efforts or costs involves significant judgement and is assessed throughout the period of the contract to reflect any changes based on the latest available information. This estimate has a high inherent uncertainty and requires consideration of progress of the contract, efforts or costs incurred to-date and estimates of efforts or costs required to complete the remaining contract performance obligations over the term of the contracts.<br><br>This required a high degree of auditor judgment in evaluating the audit evidence and a higher extent of audit effort to evaluate the reasonableness of the total estimated amount of revenue recognized on fixed-price contracts.<br><br>Refer Notes 1.5 and 2.18 to the Consolidated Financial Statements. |
| | Auditor's Response |
| | *Principal Audit Procedures Performed included the following:*<br><br>Our audit procedures related to estimates of total expected costs or efforts to complete for fixed-price contracts included the following, among others:<br><br>• We tested the effectiveness of controls relating to (1) recording of efforts or costs incurred and estimation of efforts or costs required to complete the remaining contract performance obligations and (2) access and application controls pertaining to time recording, allocation and budgeting systems which prevents unauthorised changes to recording of efforts incurred.<br>• We selected a sample of fixed-price contracts with customers measured the using percentage-of-completion method and performed the following:<br><br>– Evaluated management's ability to reasonably estimate the progress towards satisfying the performance obligation by comparing actual efforts or costs incurred to prior year estimates of efforts or costs budgeted for performance obligations that have been fulfilled.<br>– Compared efforts or costs incurred with Group's estimate of efforts or costs incurred to date to identify significant variations and evaluate whether those variations have been considered appropriately in estimating the remaining costs or efforts to complete the contract.<br>– Tested the estimate for consistency with the status of delivery of milestones and customer acceptances and sign off from customers to identify possible delays in achieving milestones, which require changes in estimated costs or efforts to complete the remaining performance obligations. |

## Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility and Sustainability Report, Corporate Governance and Shareholder's Information, but does not include the Consolidated Financial Statements, standalone financial statements and our auditor's report thereon.

Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information, consider whether the other information is materially inconsistent with the Consolidated Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## Responsibilities of Management and Board of Directors for the Consolidated Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these Consolidated Financial Statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including Ind AS specified under section 133 of the Act. The respective Boards of Directors/Trustees of the entities included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Financial Statements by the Directors of the Company, as aforesaid.

In preparing the Consolidated Financial Statements, the respective Boards of Directors/Trustees of the entities included in the Group are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Boards of Directors either intends to liquidate their respective entities or to cease operations, or have no realistic alternative but to do so.

The respective Boards of Directors/Trustees of the entities included in the Group are also responsible for overseeing the financial reporting process of the Group.

## Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company and its subsidiary companies which are companies incorporated in India, has adequate internal financial controls with reference to Consolidated Financial Statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify

our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities within the Group to express an opinion on the Consolidated Financial Statements.

Materiality is the magnitude of misstatements in the Consolidated Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Consolidated Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Consolidated Financial Statements.

We communicate with those charged with governance of the Company and such other entities included in the Consolidated Financial Statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal financial controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**Report on Other Legal and Regulatory Requirements**

1. As required by Section 143(3) of the Act, based on our audit we report that:
   a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Financial Statements.
   b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid Consolidated Financial Statements have been kept by the Group, including relevant records so far as it appears from our examination of those books.
   c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the Consolidated Financial Statements.
   d) In our opinion, the aforesaid Consolidated Financial Statements comply with the Ind AS specified under section 133 of the Act.
   e) On the basis of the written representations received from the directors of the Company as on March 31, 2026 taken on record by the Board of Directors of the Company and the reports of the statutory auditors of its subsidiary companies incorporated in India, none of the directors of the Group companies incorporated in India is disqualified as on March 31, 2026 from being appointed as a director in terms of Section 164 (2) of the Act.
   f) With respect to the adequacy of the internal financial controls with reference to Consolidated Financial Statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure A" which is based on the auditors' reports of the Company and its subsidiary companies incorporated in India. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of internal financial controls with reference to Consolidated Financial Statements of those companies.
   g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:

i) The Consolidated Financial Statements disclose the impact of pending litigations on the consolidated financial position of the Group. Refer Note 2.24 to the Consolidated Financial Statements.

ii) The Group has made provision as required under applicable law or accounting standards for material foreseeable losses. Refer Note 2.16 to the Consolidated Financial Statements. The Group did not have any long-term derivative contracts.

iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company and its subsidiary companies incorporated in India.

iv) (a) The respective Managements of the Company and its subsidiaries which are companies incorporated in India, whose financial statements have been audited under the Act, have represented to us that, to the best of their knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company or any of such subsidiaries to or in any other person or entity, outside the Group, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company or any of such subsidiaries ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(b) The respective Managements of the Company and its subsidiaries which are companies incorporated in India, whose financial statements have been audited under the Act, have represented to us that, to the best of their knowledge and belief, no funds have been received by the Company or any of such subsidiaries from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company or any of such subsidiaries shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances performed by us on the Company and its subsidiaries which are companies incorporated in India whose financial statements have been audited under the Act, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

v) As stated in Note 2.12 to the Consolidated Financial Statements

a. The final dividend proposed in the previous year, declared and paid by the Company during the year is in accordance with Section 123 of the Act, as applicable.

b. The interim dividend declared and paid by the Company during the year and until the date of this report is in compliance with Section 123 of the Act.

c. The Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with section 123 of the Act, as applicable.

vi) Based on our examination which included test checks, performed by us on the Company and its subsidiaries incorporated in India, except for the instances mentioned below, have used accounting software systems for maintaining their respective books of account for the financial year ended March 31, 2026 which have the feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software systems. Further, during the course of audit, we have not come across any instance of the audit trail feature being tampered with. Additionally, the audit trail has been preserved by the Parent Company and above referred subsidiary companies incorporated in India as per the statutory requirements for record retention.

The financial statements of five subsidiaries that are not material to the Consolidated Financial Statements of the Group, have not been audited under the provisions of the Act as of the date of this report. Therefore, we are unable to comment on the reporting requirement under Rule 11 (g) of the Companies (Audit and Auditors) Rules, 2014 in respect of these five subsidiaries.

2. With respect to the matters specified in paragraphs 3(xxi) and 4 of the Companies (Auditor's Report) Order, 2020 (the "Order"/ "CARO") issued by the Central Government in terms of Section 143(11) of the Act, to be included in the Auditor's report, according to the information and explanations given to us, and based on the Auditor's Reports on the financial statements of Company and its subsidiaries as at and for the year ended March 31, 2026, included in the Consolidated Financial Statements of the Group, we report in respect of those companies where audits have been completed under section 143 of the Act, we have not reported any qualifications or adverse remarks. In respect of the following company included in the consolidated financial statements of the Company, whose audit under section 143 of the Act has not yet been completed, the CARO report as applicable in respect of these subsidiaries are not available.

# Annexure "A" To The Independent Auditor's Report

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of Infosys Limited of even date)

### Report on the Internal Financial Controls with reference to Consolidated Financial Statements under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 (the "Act")

In conjunction with our audit of the Consolidated Financial Statements of the Company as of and for the year ended March 31, 2026, we have audited the internal financial controls with reference to Consolidated Financial Statements of **INFOSYS LIMITED** (hereinafter referred to as the "Company") and its subsidiary companies, which are companies incorporated in India, as of that date.

### Management's and Board of Directors' Responsibilities for Internal Financial Controls

The respective Company's management and Boards of Directors of the Company and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

### Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to Consolidated Financial Statements of the Company and its subsidiary companies, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI") and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to Consolidated Financial Statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Consolidated Financial Statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to Consolidated Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to Consolidated Financial Statements included obtaining an understanding of internal financial controls with reference to Consolidated Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to Consolidated Financial Statements of the Company and its subsidiary companies, which are companies incorporated in India.

### Meaning of Internal Financial Controls with reference to Consolidated Financial Statements

A company's internal financial control with reference to Consolidated Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to Consolidated Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### Inherent Limitations of Internal Financial Controls with reference to Consolidated Financial Statements

Because of the inherent limitations of internal financial controls with reference to Consolidated Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Consolidated Financial Statements to future periods are subject to the risk that the internal financial control with reference to Consolidated Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Company and its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system with reference to Consolidated Financial Statements and such internal financial controls with reference to Consolidated Financial Statements were operating effectively as at March 31, 2026, based on the criteria for internal financial control with reference to Consolidated Financial Statements established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

# Consolidated Statement of Cash Flows

### Accounting policy

Cash flows are reported using the indirect method, whereby profit for the year is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Group are segregated. The Group considers all highly liquid investments that are readily convertible to known amounts of cash to be cash equivalents.

# Overview and notes to the Consolidated Financial Statements

## 1. Overview

### 1.1 Company overview

Infosys Limited ("the Company" or Infosys) provides AI-first business consulting and technology services, to enable organizations to unlock AI value at scale. With over four decades of experience in managing the systems and workings of global enterprises, Infosys accelerates business transformation through its AI-first value framework, deep domain expertise, and unique ability to orchestrate innovations from its AI-native partner ecosystem. Infosys' strategy is to be the navigator for its clients as they ideate, plan and execute on their journey to an AI-first future.

Infosys together with its subsidiaries and controlled trusts is hereinafter referred to as "the Group".

The Company is a public limited company incorporated and domiciled in India and has its registered office at Electronics city, Hosur Road, Bengaluru 560100, Karnataka, India. The Company has its primary listings on the BSE Ltd. and National Stock Exchange of India Limited. The Company's American Depositary Shares (ADS) representing equity shares are listed on the New York Stock Exchange (NYSE).

The Group's *Consolidated financial statements* are approved for issue by the Company's Board of Directors on April 23, 2026.

### 1.2 Basis of preparation of financial statements

These *Consolidated financial statements* are prepared in accordance with the provisions of the Companies Act, 2013 (''the Act''), guidelines issued by the Securities and Exchange Board of India (SEBI) and Indian Accounting Standard (Ind AS) under the historical cost convention on accrual basis except for certain financial instruments which are measured at fair values and defined benefit liability / (asset) which is recognized at the present value of defined benefit obligation less fair value of plan assets. The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter.

Accounting policies have been consistently applied except where a newly-issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. The material accounting policy information used in preparation of the audited consolidated financial statements have been discussed in the respective notes.

As the quarter and year-to-date figures are taken from the source and rounded to the nearest digits, the quarter figures in this statement added up to the figures reported for the previous quarters might not always add up to the year-to-date figures reported in this statement.

### 1.3 Basis of consolidation

Infosys consolidates entities which it owns or controls. The *Consolidated financial statements* comprise the financial statements of the Company, its controlled trusts and its subsidiaries. Control exists when the parent has power over the entity, is exposed, or has rights to variable returns from its involvement with the entity and has the ability to affect those returns by using its power over the entity. Power is demonstrated through existing rights that give the ability to direct relevant activities, those which significantly affect the entity's returns. Subsidiaries are consolidated from the date control commences until the date control ceases.

The financial statements of the Group companies are consolidated on a line-by-line basis and intra-group balances and transactions including unrealized gain / loss from such transactions are eliminated upon consolidation. These financial statements are prepared by applying uniform accounting policies in use at the Group. Non-controlling interests which represent part of the net profit or loss and net assets of subsidiaries that are not, directly or indirectly, owned or controlled by the Company, are excluded.

*Refer to Note 2.25* for the list of subsidiaries and controlled trusts of the Company.

### 1.4 Use of estimates and judgments

The preparation of the consolidated financial statements in conformity with Ind AS requires the Management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the consolidated financial statements and reported amounts of revenues and expenses during the period. The application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements have been disclosed in Note 1.5. Critical accounting estimates and judgments could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates and judgments are reflected in the *Consolidated financial statements* in the period in which changes are made and, if material, their effects are disclosed in the notes to the *Consolidated financial statements*.

### 1.5 Critical accounting estimates and judgments

#### a. Revenue recognition

The Group's contracts with customers include promises to transfer multiple products and services to a customer. Revenues from customer contracts are considered for recognition and measurement when the contract has been approved, in writing, by the parties to the contract, the parties to contract are committed to perform their respective obligations under the contract, and the contract is legally enforceable. The Group assesses the services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligations to determine the deliverables and the ability of the customer to benefit independently from

such deliverables, and allocation of transaction price to these distinct performance obligations involves significant judgment.

Fixed-price maintenance revenue is recognized ratably on a straight-line basis when services are performed through an indefinite number of repetitive acts over a specified period. Revenue from fixed-price maintenance contract is recognized ratably using a percentage-of-completion method when the pattern of benefits from the services rendered to the customer and the Group's costs to fulfill the contract is not even through the period of the contract because the services are generally discrete in nature and not repetitive. The use of method to recognize the maintenance revenues requires judgment and is based on the promises in the contract and nature of the deliverables.

The Group uses the percentage-of-completion method in accounting for other fixed-price contracts. Use of the percentage-of-completion method requires the Group to determine the actual efforts or costs expended to date as a proportion of the estimated total efforts or costs to be incurred. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. The estimation of total efforts or costs involves significant judgment and is assessed throughout the period of the contract to reflect any changes based on the latest available information.

Contracts with customers includes sub-contractor services or third-party vendor equipment or software in certain integrated services arrangements. In these types of arrangements, revenue from sales of third-party vendor products or services is recorded net of costs when the Group is acting as an agent between the customer and the vendor, and gross when the Group is the principal for the transaction. In doing so, the Group first evaluates whether it obtains control of the specified goods or services before they are transferred to the customer. The Group considers whether it is primarily responsible for fulfilling the promise to provide the specified goods or services, inventory risk, pricing discretion and other factors to determine whether it controls the specified goods or services and therefore, is acting as a principal or an agent.

Provisions for estimated losses, if any, on incomplete contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract.

### b. Income taxes

The Group's two major tax jurisdictions are India and the United States, though the Company also files tax returns in other overseas jurisdictions.

Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid / recovered for uncertain tax positions.

In assessing the realizability of deferred income tax assets, the Management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. The Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, the Management believes that the Group will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced *(Refer to Notes 2.17)*.

### c. Business combinations and intangible assets

Business combinations are accounted for using Ind AS 103, *Business Combinations*. Ind AS 103 requires us to fair value identifiable intangible assets and contingent consideration to ascertain the net fair value of identifiable assets, liabilities and contingent liabilities of the acquiree. These valuations are conducted by external valuation experts. Estimates are required to be made in determining the value of contingent consideration, value of option arrangements and intangible assets. These measurements are based on information available at the acquisition date and are based on expectations and assumptions that have been deemed reasonable by the Management *(Refer to Note 2.1 and 2.4.2)*.

### d. Property, plant and equipment

Property, plant and equipment represent a significant proportion of the asset base of the Group. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Group's assets are determined by the Management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology *(Refer to Note 2.2)*.

### e. Impairment of goodwill

Goodwill is tested for impairment on an annual basis and whenever there is an indication that the recoverable amount of a Cash Generating Unit (CGUs) is less than its carrying amount. For the impairment test, goodwill is allocated to the CGU or groups of CGUs which benefit from the synergies of the acquisition and which represent the lowest level at which goodwill is monitored for internal management purposes.

The recoverable amount of CGUs is determined based on higher of value-in-use and fair value less cost to sell. Key assumptions in the cash flow projections are prepared based on current economic conditions and comprises estimated long-term growth rates, weighted average cost of capital and estimated operating margins *(Refer to note 2.4.1)*.

## 2. Notes to the Consolidated financial statements

### 2.1 Business combinations

#### Accounting policy

Business combinations have been accounted for using the acquisition method under the provisions of Ind AS 103, *Business Combinations*.

The purchase price in an acquisition is measured at the fair value of the assets transferred, equity instruments issued and liabilities incurred or assumed at the date of acquisition, which is the date on which control is transferred to the Group. The purchase price also includes the fair value of any contingent consideration. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair value on the date of acquisition. Contingent consideration is remeasured at fair value at each reporting date and changes in the fair value of the contingent consideration are recognized in the Consolidated Statement of Profit and Loss.

The interest of non-controlling shareholders is initially measured either at fair value or at the non-controlling interests' proportionate share of the acquiree's identifiable net assets. The choice of measurement basis is made on an acquisition-by-acquisition basis. Subsequent to acquisition, the carrying amount of non-controlling interests is the amount of those interests at initial recognition plus the non-controlling interests' share of subsequent changes in equity of subsidiaries.

Business combinations between entities under common control is accounted for at carrying value of the assets acquired and liabilities assumed in the Group's consolidated financial statements.

The payments related to options issued by the Group over the non-controlling interests in its subsidiaries are accounted as financial liabilities and initially recognized at the estimated present value of gross obligations. Such options are subsequently measured at fair value in order to reflect the amount payable under the option at the date at which it becomes exercisable. In the event that the option expires unexercised, the liability is derecognized.

#### Acquisition during the year ended March 31, 2026

During the year ended March 31, 2026, the Group, completed two business combinations by acquiring 100% partnership interests / voting interests in:

1. MRE Consulting Ltd., a leading energy and business consulting services company, headquartered in Texas, USA on April 30, 2025, which is expected to bring newer capabilities for the Group in trading and risk management, especially in the energy sector.
2. The Missing Link Security Pty. Ltd., The Missing Link Security Limited and The Missing Link Automation Pty. Ltd. (collectively known as "The Missing Link"), a leading Cybersecurity service provider headquartered in Australia on April 30, 2025, which is expected to further strengthen the Group's capabilities in the cybersecurity sector and bolster its presence in the fast growing Australian Market.

The purchase price is allocated to assets acquired and liabilities assumed based upon determination of fair values at the date of acquisition as follows:

(In ₹ crore)

| Component | Acquiree's carrying amount | Fair value adjustments | Purchase price allocated |
|---|---|---|---|
| Net assets[1] | 118 | – | 118 |
| Intangible assets: | | | |
| Customer related | – | 222 | 222 |
| Vendor relationship | – | 55 | 55 |
| Brand | – | 20 | 20 |
| Deferred tax liabilities on intangible assets | – | (46) | (46) |
| **Total** | **118** | **251** | **369** |
| Goodwill | | | 444 |
| **Total purchase price** | | | **813** |

[1] Includes cash and cash equivalents acquired of ₹ 102 crore

The excess of the purchase consideration paid over the fair value of assets acquired has been attributed to goodwill. The primary items that generated this goodwill are the value of the acquired assembled workforce and estimated synergies, neither of which qualify as an intangible asset.

Goodwill amounting to ₹79 crore is expected to be deductible for tax purposes.

The total purchase consideration of ₹813 crore includes upfront cash consideration of ₹743 crore and contingent consideration with an estimated fair value of ₹70 crore as on the date of acquisition.

At the acquisition date, the key inputs used in determination of the fair value of contingent consideration are the probabilities assigned towards achievement of financial targets and discount rates ranging from 2-3%. The undiscounted value of contingent consideration as of March 31, 2026 was approximately ₹88 crore.

Additionally, these acquisitions have retention bonus and management incentives payable to the employees of the acquiree over 2-3 years, subject to their continuous employment with the Group and achievement of financial targets for the respective years. Retention bonus and management incentives are recognized in employee benefit expenses in the Consolidated Statement of Profit and Loss over the period of service.

Fair value of trade receivables acquired is ₹194 crore as of acquisition date and as of March 31, 2026, the amounts are substantially collected.

Transaction costs that the Group incurs in connection with a business combination such as finder's fees, legal fees, due diligence fees, and other professional and consulting fees are expensed as incurred. The transaction costs of ₹34 crore related to the acquisition have been included under administrative expenses in the Consolidated Statement of Profit and Loss for the year ended March 31, 2026.

## Acquisition during the year ended March 31, 2025

### InSemi

On May 10, 2024, Infosys Ltd acquired 100% voting interests in InSemi Technology Services Private Limited, a semiconductor design services company headquartered in India. This acquisition is expected to strengthen our expertise in semiconductor ecosystem and engineering R&D services.

The purchase price is allocated to assets acquired and liabilities assumed based upon determination of fair values at the date of acquisition as follows:

(In ₹ crore)

| Component | Acquiree's carrying amount | Fair value adjustments | Purchase price allocated |
|---|---|---|---|
| Net assets[1] | 40 | – | 40 |
| Intangible assets: | | | |
| Customer-related | – | 60 | 60 |
| Brand | – | 13 | 13 |
| Deferred tax liabilities on intangible assets | – | (18) | (18) |
| **Total** | | | **95** |
| Goodwill | | | 103 |
| **Total purchase price** | | | **198** |

[1] Includes cash and cash equivalents acquired of ₹41 crore.

The excess of the purchase consideration paid over the fair value of assets acquired has been attributed to goodwill. The primary items that generated this goodwill are the value of the acquired assembled workforce and estimated synergies, neither of which qualify as an intangible asset.

Goodwill is not tax-deductible.

The purchase consideration of ₹198 crore includes cash of ₹168 crore and contingent consideration with an estimated fair value of ₹30 crore as on the date of acquisition.

At the acquisition date, the key inputs used in determination of the fair value of contingent consideration are the probabilities assigned towards achievement of financial targets and discount rate of 5.9%. The undiscounted value of contingent consideration as of March 31, 2026 was approximately ₹20 crore.

Additionally, this acquisition has retention bonus and management incentive payable to the employees of the acquiree over three years, subject to their continuous employment with the Group and achievement of financial targets for the respective years. Bonus and incentives are recognized in employee benefit expenses in the Statement of Profit and Loss over the period of service.

Fair value of trade receivables acquired is ₹32 crore as of acquisition date and as of March 31, 2026, the amounts are fully collected.

Transaction costs that the Group incurs in connection with a business combination such as finder's fees, legal fees, due diligence fees, and other professional and consulting fees are expensed as incurred. The transaction costs of ₹2 crore related to the acquisition have been included under administrative expenses in the Consolidated Statement of Profit and Loss for the year ended March 31, 2025.

### In-tech Holding GmbH

On July 17, 2024, Infosys Germany GmbH, a wholly-owned step down (As it is consistent with PY annual report and CY FS) subsidiary of Infosys Limited acquired 100% voting interests in in-tech Holding GmbH, a leading provider of engineering R&D services headquartered in Germany. This acquisition is expected to strengthen Infosys' engineering R&D capabilities and reaffirms its continued commitment to global clients to navigate their digital engineering journey.

The purchase price is allocated to assets acquired and liabilities assumed based upon determination of fair values at the date of acquisition as follows:

(In ₹ crore)

| Component | Acquiree's carrying amount | Fair value adjustments | Purchase price allocated |
|---|---|---|---|
| Assets[1] | 731 | – | 731 |

| Loan repayment | | | 985 |
| **Total cash outflow** | | | **4,213** |

[1] Includes cash and cash equivalents acquired of ₹197 crore

The excess of the purchase consideration paid over the fair value of assets acquired has been attributed to goodwill. The primary items that generated this goodwill are the value of the acquired assembled workforce and estimated synergies, neither of which qualify as an intangible asset.

Goodwill is not tax-deductible.

The total purchase consideration of EUR 356 million (₹3,228 crore) comprises the cash consideration paid to selling shareholders at the acquisition date.

Additionally, this acquisition has retention bonus and management incentive payable to the employees of the acquiree over two to five years, subject to their continuous employment with the Group and achievement of financial targets for the respective years. Bonus and incentives are recognized in employee benefit expenses in the Statement of Profit and Loss over the period of service.

Fair value of trade receivables acquired is ₹139 crore as of acquisition date and as of March 31, 2026, the amounts are fully collected.

Transaction costs that the Group incurs in connection with a business combination such as finder's fees, legal fees, due diligence fees, and other professional and consulting fees are expensed as incurred. The transaction costs of ₹4 crore related to the acquisition have been included under administrative expenses in the Consolidated Statement of Profit and Loss for the year ended March 31, 2025.

### Proposed acquisitions

1. On August 13, 2025, Infosys Singapore Pte. Ltd., a wholly-owned subsidiary of Infosys Limited, entered into a definitive agreement to acquire 75% of the equity share capital in Telstra Purple Pty Ltd, including some of its subsidiaries (together known as Versent Group), Australia's leading Digital Transformation Solutions Provider for a consideration including earn-outs and deferred consideration amounting up to AUD 233 million (approximately ₹1,335 crore), excluding retention bonus and management incentives, subject to regulatory approvals and customary closing adjustments.
2. On March 25, 2026, Infosys Nova Holdings LLC, a wholly-owned subsidiary of Infosys Limited, entered into a definitive agreement to acquire 100% of the equity share capital of Optimum Achieve Holdings Inc., a leading healthcare digital transformation and consulting firm headquartered in USA, along with its other subsidiaries including Optimum Healthcare IT, LLC, for a consideration including earn-outs amounting up to $465 million (approximately ₹4,410 crore), excluding management incentives and retention bonus, subject to customary closing adjustments.

### Update on acquisition completed after the end of the reporting period

On March 25, 2026, Infosys Nova Holdings LLC, a wholly-owned subsidiary of Infosys Limited, entered into a definitive agreement to acquire 100% of the partnership interests of Stratus Global LLC, a leading insurance technology partner serving P&C insurers and managing general agents (MGAs), headquartered in USA, for a consideration including earn-outs amounting up to $95 million (approximately ₹901 crore), excluding management incentives, and retention bonus, subject to customary closing adjustments. Subsequently in April 2026, as on the date these financial statements were authorized for issuance, Infosys Nova Holdings LLC has completed its acquisition of Stratus Global LLC. Given the recent timing of the acquisition and pending completion of the valuations for identifiable net assets acquired and liabilities assumed, at the time these financial statements were authorized for issuance, the initial accounting for the business combination is incomplete. Accordingly, all the required disclosures for the business combination have not been made.

## 2.2 Property, plant and equipment

### Accounting policy

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by the Management. The charge in respect of periodic depreciation is derived at after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The Group depreciates property, plant and equipment over their estimated useful lives using the straight-line method. The estimated useful lives of assets are as follows:

| | |
|---|---|
| Buildings[1] | 22-25 years |
| Plant and machinery[1][2] | 5 years |
| Office equipment | 5 years |
| Computer equipment[1] | 3-5 years |
| Furniture and fixtures[1] | 5 years |
| Vehicles[1] | 5 years |
| Leasehold improvements | Lower of useful life of the asset or lease term |

[1] Based on technical evaluation, the Management believes that the useful lives as given above best represent the period over which the Management expects to use these assets. Hence, the useful lives for these assets is different from the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

[2] Includes solar plant with a useful life of 25 years

Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end. The useful lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date is classified as capital advances under other non-current assets and the cost of assets not ready to use before such date are disclosed under 'Capital work-in-progress'. Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Group and the cost of the item can be measured reliably. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset.

### Impairment

Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Consolidated Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Consolidated Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated depreciation) had no impairment loss been recognized for the asset in prior years.

The changes in the carrying value of property, plant and equipment for the year ended March 31, 2026 are as follows:

Consequent to the Companies (Corporate Social Responsibility Policy) Amendment Rules, 2021 ("the Rules"), the Company was required to transfer its CSR capital assets installed prior to January 2021. Towards this the Company had incorporated a subsidiary 'Infosys Green Forum' (IGF) under Section 8 of the Companies Act, 2013. During the year ended March 31, 2022, the Company had completed the transfer of assets upon obtaining the required approvals from regulatory authorities, as applicable. During fiscal 2024, the application filed by IGF for regularization of the provisional registration was rejected and registration cancelled vide order dated March 26, 2024 by the Income Tax Commissioner (Exemption). IGF had filed an appeal before Income Tax Appellate Tribunal (ITAT) against the order. During fiscal 2026, ITAT had upheld the order of Commissioner (Exemption) and dismissed the IGF's appeals. IGF has filed an appeal before the Hon'ble High Court against the ITAT order.

## 2.4 Goodwill and other intangible assets

### 2.4.1 Goodwill

#### Accounting policy

Goodwill represents the purchase consideration in excess of the Group's interest in the net fair value of identifiable assets, liabilities and contingent liabilities of the acquired entity. When the net fair value of the identifiable assets, liabilities and contingent liabilities acquired exceeds purchase consideration, the fair value of net assets acquired is reassessed and the bargain purchase gain is recognized in capital reserve. Goodwill is measured at cost less accumulated impairment losses.

#### Impairment

Goodwill is tested for impairment on an annual basis and whenever there is an indication that the recoverable amount of a Cash Generating Unit (CGU) is less than its carrying amount. For the impairment test, goodwill is allocated to the CGU or groups of CGUs which benefit from the synergies of the acquisition and which represents the lowest level at which goodwill is monitored for internal management purposes. A CGU is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or group of assets. Impairment occurs when the carrying amount of a CGU including the goodwill, exceeds the estimated recoverable amount of the CGU. The recoverable amount of a CGU is the higher of its fair value less cost to sell and its value-in-use. Value-in-use is the present value of future cash flows expected to be derived from the CGU. Key assumptions in the cash flow projections are prepared based on current economic conditions and includes estimated long term growth rates, weighted average cost of capital and estimated operating margins.

A summary of changes in the carrying amount of goodwill is as follows:

(In ₹ crore)

| Particulars | As at March 31, | |
|---|---|---|
| | 2026 | 2025 |
| **Carrying value at the beginning** | **10,106** | **7,303** |
| Goodwill on acquisitions *(Refer to Note 2.1)* | 444 | 2,593 |
| Translation differences | 1,567 | 210 |
| **Carrying value at the end** | **12,117** | **10,106** |

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to the CGU or groups of CGUs, which benefit from the synergies of the acquisition. The Group internally reviews the goodwill for impairment at the operating segment level, after allocation of the goodwill to CGUs or groups of CGUs.

The allocation of goodwill to operating segments as at March 31, 2026 and March 31, 2025 is as follows:

(In ₹ crore)

| Segment | As at March 31, | |
|---|---|---|
| | 2026 | 2025 |
| Financial services | 1,842 | 1,510 |
| Retail | 1,123 | 961 |
| Communication | 813 | 691 |
| Energy, Utilities, Resources and Services | 1,763 | 1,337 |
| Manufacturing | 3,523 | 2,986 |
| Life Sciences | 1,155 | 975 |
| | **10,219** | **8,460** |
| Operating segments without significant goodwill | 785 | 650 |
| **Total** | **11,004** | **9,110** |

The goodwill pertaining to Panaya amounting to ₹1,113 crore and ₹996 crore as at March 31, 2026 and March 31, 2025, respectively is tested for impairment at the entity level.

The recoverable amount of a CGU is the higher of its fair value less cost to sell and its value-in-use. The fair value of a CGU is determined based on the market capitalization. Value-in-use is determined based on discounted future cash flows. The key assumptions used for the calculations are as follows:

(In %)

| Particulars | As at March 31, | |
|---|---|---|
| | 2026 | 2025 |
| Long-term growth rate | 7-10 | 7-10 |
| Operating margins | 19-21 | 19-21 |
| Discount rate | 14 | 13 |

The above discount rate is based on the Weighted Average Cost of Capital (WACC) of the Company. As at March 31, 2026, the estimated recoverable amount of the CGU exceeded its carrying amount. Reasonable sensitivities in key assumptions is unlikely to cause the carrying amount to exceed the recoverable amount of the CGUs.

### 2.4.2 Other intangible assets

#### Accounting policy

Intangible assets are stated at cost less accumulated amortization and impairment. Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, demand, competition, and other economic factors (such as the stability of the industry, and known technological advances) and the level of maintenance expenditures required to obtain the expected future cash flows from the asset. Amortization methods and useful lives are reviewed periodically including at each financial year end.

Research costs are expensed as incurred. Software product development costs are expensed as incurred unless technical and commercial feasibility of the project is demonstrated, future economic benefits are probable, the Group has an intention and ability to complete and use or sell the software and the costs can be measured reliably. The costs which can be capitalized include the cost of material, direct labor, overhead costs that are directly attributable to prepare the asset for its intended use.

#### Impairment

Intangible assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Consolidated Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Consolidated Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization) had no impairment loss been recognized for the asset in prior years.

The changes in the carrying value of acquired intangible assets for the year ended March 31, 2026 are as follows :

## 2.11 Financial instruments

### Accounting policy

### 2.11.1 Initial recognition

The Group recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

### 2.11.2 Subsequent measurement

**a. Non-derivative financial instruments**

(i) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) Financial assets carried at fair value through other comprehensive income (FVOCI)

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Group has made an irrevocable election for certain investments which are classified as equity instruments to present the subsequent changes in fair value in other comprehensive income based on its business model.

(iii) Financial assets carried at fair value through profit or loss (FVTPL)

A financial asset which is not classified in any of the above categories is subsequently fair valued through profit or loss.

(iv) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration and financial liability under option arrangements recognized in a business combination which is subsequently measured at fair value through profit or loss.

**b. Derivative financial instruments**

The Group holds derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for such contracts is generally a bank.

(i) Financial assets or financial liabilities, carried at fair value through profit or loss.

This category includes derivative financial assets or liabilities which are not designated as hedges.

Although the Group believes that these derivatives constitute hedges from an economic perspective, they may not qualify for hedge accounting under Ind AS 109, *Financial Instruments*. Any derivative that is either not designated as hedge, or is so designated but is ineffective as per Ind AS 109, is categorized as a financial asset or financial liability, at fair value through profit or loss.

Derivatives not designated as hedges are recognized initially at fair value and attributable transaction costs are recognized in net profit in the Consolidated Statement of Profit and Loss when incurred. Subsequent to initial recognition, these derivatives are measured at fair value through profit or loss and the resulting exchange gains or losses are included in other income. Assets / liabilities in this category are presented as current assets / current liabilities if they are either held for trading or are expected to be realized within 12 months after the Balance Sheet date.

(ii) Cash flow hedge

Primarily, the Group designates certain foreign exchange forward and options contracts as cash flow hedges to mitigate the risk of foreign exchange exposure on highly probable forecast cash transactions.

When a derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognized in other comprehensive income and accumulated in the cash flow hedge reserve. Any ineffective portion of changes in the fair value of the derivative is recognized immediately in the net profit in the Consolidated Statement of Profit and Loss. If the hedging instrument no longer meets the criteria for hedge accounting, then hedge accounting is discontinued prospectively. If the hedging instrument expires or is sold, terminated or exercised, the cumulative gain or loss on the hedging instrument recognized in cash flow hedge reserve till the period the hedge was effective remains in cash flow hedge reserve until the forecasted transaction occurs. The cumulative gain or loss previously recognized in the cash flow hedge reserve is transferred to the net profit in the Consolidated Statement of Profit and Loss upon the occurrence of the related forecasted transaction. If the forecasted transaction is no longer expected to occur, then the amount accumulated in cash flow hedge reserve is reclassified to net profit in the Consolidated Statement of Profit and Loss.

### 2.11.3 Derecognition of financial instruments

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the Group's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

### 2.11.4 Fair value of financial instruments

In determining the fair value of its financial instruments, the Group uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, option pricing model, market multiples, available quoted market prices and dealer quotes. All methods of

assessing fair value result in general approximation of value, and such value may never actually be realized.

Refer to table 'Financial instruments by category' below for the disclosure on carrying value and fair value of financial assets and liabilities. For financial assets and liabilities maturing within one year from the Balance Sheet date and which are not carried at fair value, the carrying amounts approximates fair value due to the short maturity of these instruments.

### 2.11.5 Impairment

The Group recognizes loss allowances using the Expected Credit Loss (ECL) model for the financial assets and unbilled revenue which are not fair valued through profit or loss. Loss allowance for trade receivables and unbilled revenues with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, ECLs are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL.

The Group determines the allowance for credit losses based on historical loss experience adjusted to reflect current and estimated future economic conditions. The Group considers current and anticipated future economic conditions relating to industries the Group deals with and the countries where it operates.

The amount of ECL (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recorded is recognized as an impairment loss or gain in Consolidated Statement of Profit and Loss.

### Fair value hierarchy

**Level 1** – Quoted prices (unadjusted) in active markets for identical assets or liabilities.

**Level 2** – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

**Level 3** – Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The fair value hierarchy of assets and liabilities measured at fair value on a recurring basis as at March 31, 2026 is as follows:

During the year ended March 31, 2025, government securities and non-convertible debentures of ₹297 crore was transferred from Level 2 to Level 1 of fair value hierarchy, since these were valued based on quoted price. Further, non-convertible debentures and tax-free bonds of ₹554 crore were transferred from Level 1 to Level 2 of fair value hierarchy, since these were valued based on market observable inputs.

Majority of investments of the Group are fair valued based on Level 1 or Level 2 inputs. These investments primarily include investment in mutual fund units, target maturity fund units, tax-free bonds, certificates of deposit, commercial papers, treasury bills, government securities, non-convertible debentures, quoted bonds issued by government and quasi-government organizations. The Group invests after considering counterparty risks based on multiple criteria including Tier I capital, Capital Adequacy Ratio, Credit Rating, Profitability, NPA levels and Deposit base of banks and financial institutions. These risks are monitored regularly as per Group's risk management program.

The movement of assets and liabilities valued using level 3 inputs for the year ended March 31, 2026 and March 31, 2025 is as follows:

## Financial risk management

### Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Group's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Group is foreign exchange risk. The Group uses derivative financial instruments to mitigate foreign exchange related risk exposures. The Group's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers.

### Market risk

The Group operates internationally and a major portion of the business is transacted in several currencies and consequently the Group is exposed to foreign exchange risk through its sales and services in the United States and elsewhere, and purchases from overseas suppliers in various foreign currencies. The Group holds derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The Group is also exposed to foreign exchange risk arising on intercompany transaction in foreign currencies. The exchange rate between the Indian rupee and foreign currencies has changed substantially in recent years and may fluctuate substantially in the future. Consequently, the results of the Group's operations are adversely affected as the rupee appreciates/ depreciates against these currencies.

The analysis of foreign currency risk from financial assets and liabilities as at March 31, 2026 is as follows:

(In ₹ crore)

| Particulars | US Dollar | Euro | United Kingdom Pound Sterling | Australian Dollar | Other currencies | Total |

The Group recognized a net loss of ₹2,309 crore during the year ended March 31, 2026 and a net loss of ₹99 crore for the year ended March 31, 2025, respectively, on derivative financial instruments not designated as cash flow hedges which are included in other income.

The foreign exchange forward and option contracts mature within 12 months. The table below analyses the derivative financial instruments into relevant maturity groupings based on the remaining period as at the Balance Sheet date:

(In ₹ crore)

| Particulars | As at March 31, | |
|---|---|---|
| | 2026 | 2025 |
| Not later than one month | 20,734 | 15,506 |
| Later than one month and not later than three months | 18,657 | 16,641 |
| Later than three months and not later than one year | 1,138 | 898 |
| **Total** | **40,529** | **33,045** |

During the year ended March 31, 2026 and March 31, 2025, the Group has designated certain foreign exchange forward and option contracts as cash flow hedges to mitigate the risk of foreign exchange exposure on highly probable forecast cash transactions. The related hedge transactions for balance in cash flow hedges as of March 31, 2026 are expected to occur and will be reclassified to the Consolidated Statement of Profit and Loss within three months.

The Group determines the existence of an economic relationship between the hedging instrument and the hedged item based on the currency, amount and timing of its forecasted cash flows. Hedge effectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and hedging instrument, including whether the hedging instrument is expected to offset changes in cash flows of hedged items.

If the hedge ratio for risk management purposes is no longer optimal but the risk management objective remains unchanged and the hedge continues to qualify for hedge accounting, the hedge relationship will be rebalanced by adjusting either the volume of the hedging instrument or the volume of the hedged item so that the hedge ratio aligns with the ratio used for risk management purposes. Any hedge ineffectiveness is calculated and accounted for in the Consolidated Statement of Profit and Loss at the time of the hedge relationship rebalancing.

The reconciliation of cash flow hedge reserve for the year ended March 31, 2026 and March 31, 2025 is as follows:

(In ₹ crore)

| Particulars | Year ended March 31, | |
|---|---|---|
| | 2026 | 2025 |
| **Gain / (Loss)** | | |
| Balance at the beginning of the year | (18) | 6 |

### Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to ₹35,234 crore and ₹31,158 crore as at March 31, 2026 and March 31, 2025, respectively and unbilled revenues amounting to ₹17,221 crore and ₹15,083 crore as at March 31, 2026 and March 31, 2025, respectively. Trade receivables and unbilled revenues are typically unsecured and are derived from revenues from customers primarily located in the United States of America and Europe. Credit risk has always been managed by the Group through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Group grants credit terms in the normal course of business. The Group uses the expected credit loss model to assess any required allowances; and uses a provision matrix to compute the expected credit loss allowance for trade receivables and unbilled revenues. This matrix takes into account credit reports and other related credit information to the extent available.

The Group's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers. Exposure to customers is diversified and there is no single customer contributing more than 10% of outstanding trade receivables and unbilled revenues.

The following table gives details in respect of percentage of revenues generated from top five customers and top ten customers:

(In %)

| Particulars | Year ended March 31, | |
|---|---|---|
| | 2026 | 2025 |
| Revenue from top five customers | 12.9 | 13.2 |
| Revenue from top ten customers | 20.5 | 20.5 |

### Credit risk exposure

The Group's credit period generally ranges from 30-75 days.

The allowance for lifetime expected credit loss on customer balances for the year ended March 31, 2026 and March 31, 2025 was ₹75 crore and ₹108 crore, respectively.

The movement in credit loss allowance on customer balance is as follows:

(In ₹ crore)

| Particulars | Year ended March 31, | |
|---|---|---|
| | 2026 | 2025 |
| Balance at the beginning | 973 | 953 |
| Impairment loss recognized / (reversed), net | 75 | 108 |
| Amounts written off | (270) | (91) |
| Translation differences | 108 | 3 |
| **Balance at the end** | **886** | **973** |

The gross carrying amount of a financial asset is written off (either partially or in full) when there is no realistic prospect of recovery.

### Credit exposure

(In ₹ crore)

| Particulars | Year ended March 31, | |
|---|---|---|
| | 2026 | 2025 |
| Trade receivables | 35,234 | 31,158 |
| Unbilled revenues | 17,221 | 15,082 |

Days sales outstanding was 67 days and 69 days as of March 31, 2026 and March 31, 2025, respectively.

Credit risk on cash and cash equivalents is limited as the Group generally invest in deposits with banks with high ratings assigned by international and domestic credit rating agencies. Ratings are monitored periodically and the Group has considered the latest available credit ratings as at the date of approval of these Consolidated financial statements.

The investments of the Group primarily include investment in mutual fund units, target maturity fund units, tax free bonds, certificates of deposit, commercial paper, treasury bills, government securities, non-convertible debentures, quoted bonds issued by government and quasi government organizations. The Group invests after considering counterparty risks based on multiple criteria including Tier I Capital, Capital Adequacy Ratio, credit rating, profitability, NPA levels and deposit base of banks and financial institutions. These risks are monitored regularly as per Group's risk management program.

### Liquidity risk

Liquidity risk is defined as the risk that the Group will not be able to settle or meet its obligations on time.

The Group's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The Group has no outstanding borrowings. The Group believes that the working capital is sufficient to meet its current requirements.

As at March 31, 2026, the Group had a working capital of ₹51,167 crore including cash and cash equivalents of ₹22,201 crore and current investments of ₹12,950 crore. As at March 31, 2025, the Group had a working capital of ₹54,249 crore including cash and cash equivalents of ₹24,455 crore and current investments of ₹12,482 crore.

As at March 31, 2026 and March 31, 2025, the outstanding compensated absences were ₹3,641 crore and ₹3,007 crore, respectively, which have been substantially funded. Accordingly, no liquidity risk is perceived.

## 2.12 Equity

### Accounting policy

#### Ordinary shares

Ordinary shares are classified as equity share capital. Incremental costs directly attributable to the issuance of new ordinary shares, share options and buyback are recognized as a deduction from equity, net of any tax effects.

#### Treasury shares

When any entity within the Group purchases the Company's ordinary shares, the consideration paid including any directly attributable incremental cost is presented as a deduction from total equity, until they are cancelled, sold or reissued. When treasury shares are sold or reissued subsequently, the amount received is recognized as an increase in equity, and the resulting surplus or deficit on the transaction is transferred to / from securities premium.

### Description of reserves

#### Capital redemption reserve

In accordance with Section 69 of the Indian Companies Act, 2013, the Company creates capital redemption reserve equal to the nominal value of the shares bought back as an appropriation from general reserve / retained earnings.

#### Retained earnings

Retained earnings represent the amount of accumulated earnings of the Group.

#### Securities premium

The amount received in excess of the par value of equity shares has been classified as securities premium. Amounts have been utilized for bonus issue and share buyback from share premium account.

#### Share options outstanding account

The share options outstanding account is used to record the fair value of equity-settled, share-based payment transactions with employees. The amounts recorded in share options outstanding account are transferred to securities premium upon exercise of stock options and transferred to general reserve on account of stock options not exercised by employees.

#### Special Economic Zone Re-investment reserve

The Special Economic Zone Re-investment reserve has been created out of the profit of the eligible SEZ unit in terms of the provisions of Section 10AA (1)(ii) of Income Tax Act, 1961. The reserve should be utilized by the Company for acquiring new plant and machinery for the purpose of its business in terms of the provisions of the Section 10AA (2) of the Income Tax Act, 1961.

#### Other components of equity

Other components of equity include currency translation, remeasurement of net defined benefit liability / asset, equity instruments fair valued through other comprehensive income, changes on fair valuation of investments and changes in fair value of derivatives designated as cash flow hedges, net of taxes.

#### Currency translation reserve

The exchange differences arising from the translation of financial statements of foreign subsidiaries with functional currency other than Indian rupees is recognized in other comprehensive income and is presented within equity.

#### Cash flow hedge reserve

When a derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognized in other comprehensive income and accumulated in the cash flow hedging reserve. The cumulative gain or loss previously recognized in the cash flow hedge reserve is transferred to the Consolidated Statement of Profit and Loss upon the occurrence of the related forecasted transaction.

The Company has only one class of shares referred to as equity shares having a par value of ₹5/-. Each holder of equity shares is entitled to one vote per share. The equity shares represented by American Depositary Shares (ADS) carry similar rights to voting and dividends as the other equity shares. Each ADS represents one underlying equity share.

In the event of liquidation of the Company, the holders of equity shares will be entitled to receive any of the remaining assets of the Company in proportion to the number of equity shares held by the shareholders, after distribution of all preferential amounts. However, no such preferential amounts exist currently, other than the amounts held by irrevocable controlled trusts. For irrevocable controlled trusts, the corpus would be settled in favor of the beneficiaries.

There are no voting, dividend or liquidation rights to the holders of options issued under the Company's share option plans.

For details of shares reserved for issue under the employee stock option plan of the Company refer to the note below.

**In the period of five years immediately preceding March 31, 2026:**

Buyback

In the period of five years immediately preceding March 31, 2026, the Company had purchased and extinguished a total of 21,62,33,685 fully paid-up equity shares of face value ₹5/- each from the stock exchange.

Capital Allocation Policy

Effective fiscal 2025, the Company expects to continue its policy of returning approximately 85% of the free cash flow cumulatively over a five-year period through a combination of semi-annual dividends and/or share buyback/ special dividends subject to applicable laws and requisite approvals, if any.

Under this policy, the Company expects to progressively increase its annual dividend per share (excluding special dividend if any).

Free cash flow is defined as net cash provided by operating activities less capital expenditure as per the Consolidated Statement of Cash Flows prepared under IFRS. Dividend and buyback include applicable taxes.

Buyback completed in December 2025

In line with the Capital Allocation Policy, the Board, at its meeting held on September 11, 2025, approved a proposal for the Company to buyback its fully paid-up equity shares of face value of ₹5/- each from the eligible equity shareholders of the Company for an amount of ₹18,000 crore subject to shareholders' approval by way of Postal Ballot. The shareholders approved the said proposal of buyback of Equity Shares recommended by its Board of Directors by way of e-voting through postal ballot, the results of which were declared on November 6, 2025. The Buyback offer comprised a purchase of 10,00,00,000 Equity Shares comprising approximately 2.41% of the total paid-up equity share capital of the Company as of June 30, 2025 (on standalone basis) at a price of ₹1,800 per Equity share. The buyback was offered to all eligible equity shareholders (including those who became equity shareholders as on the Record date by cancelling American Depository Shares and withdrawing underlying Equity shares) of the Company as on the Record Date (i.e. November 14, 2025) on a proportionate basis through the "Tender offer" route. The tender period for buyback commenced on November 20, 2025 and was open until November 26, 2025. The Company concluded the buyback procedures on December 4, 2025 and 10,00,00,000 equity shares were bought back and extinguished. The buyback resulted in cash outflow of ₹18,000 crore (excluding transaction costs). The Company funded the buyback from its free reserves including securities premium as explained in Section 68 of the Companies Act, 2013. In accordance with Section 69 of the Companies Act, 2013, as at March 31, 2026, the Company has created a Capital Redemption Reserve of ₹50 crore equal to the nominal value of the shares bought back as an appropriation from the general reserve.

The Company's objective when managing capital is to safeguard its ability to continue as a going concern and to maintain an optimal capital structure so as to maximize shareholder value. In order to maintain or achieve an optimal capital structure, the Company may adjust the amount of dividend payment, return capital to shareholders, issue new shares or buy back issued shares. As of March 31, 2026, the Company has only one class of equity shares and has no debt. Consequent to the above capital structure there are no externally imposed capital requirements.

## Employee Stock Option Plan (ESOP):

### Accounting policy

The Group recognizes compensation expense relating to share-based payments in net profit based on estimated fair values of the awards on the grant date. The estimated fair value of awards is recognized as an expense in the Statement of Profit and Loss on a straight-line basis over the requisite service period for each separately vesting portion of the award as if the award was in-substance, multiple awards with a corresponding increase to share options outstanding account.

### Infosys Expanded Stock Ownership Program 2019 ("the 2019 Plan")

On June 22, 2019, pursuant to approval by the shareholders in the Annual General Meeting, the Board has been authorized to introduce, offer, issue and provide share-based incentives to eligible employees of the Company and its subsidiaries under the 2019 Plan. The maximum number of shares under the 2019 Plan shall not exceed 5,00,00,000 equity shares. To implement the 2019 Plan, up to 4,50,00,000 equity shares may be issued by way of secondary acquisition of shares by Infosys Expanded Stock Ownership Trust. The Restricted Stock Units (RSUs) granted under the 2019 Plan shall vest based on the achievement of defined annual performance parameters as determined by the administrator (Nomination and Remuneration Committee). The performance parameters will be based on a combination of relative Total Shareholder Return (TSR) against selected industry peers and certain broader market domestic and global indices and operating performance metrics of the Company as decided by administrator. Each of the above performance parameters will be distinct for the purposes of calculation of quantity of shares to vest based on performance. These instruments will generally vest between a minimum of one to maximum of three years from the grant date.

### 2015 Stock Incentive Compensation Plan ("the 2015 Plan")

On March 31, 2016, pursuant to the approval by the shareholders through postal ballot, the Board was authorized to introduce, offer, issue and allot share-based incentives to eligible employees of the Company and its subsidiaries under the 2015 Stock Incentive Compensation Plan. The maximum number of shares under the 2015 Plan shall not exceed 2,40,38,883 equity shares (this includes 1,12,23,576 equity shares which are held by the trust towards the 2011 Plan as at March 31, 2016). These instruments will generally vest over a period of 4 years. The plan numbers mentioned above are further adjusted with the September 2018 bonus issue.

The equity-settled and cash-settled RSUs and stock options would vest generally over a period of 4 years and shall be exercisable within the period as approved by the Nomination and Remuneration Committee (NARC). The exercise price of the RSUs will be equal to the par value of the shares and the exercise price of the stock options (ESOPs) would be the market price as on the date of grant.

The Controlled trust holds 86,50,911 and 96,55,927 shares as at March 31, 2026 and March 31, 2025, respectively, under the 2015 Plan. Out of these shares, 2,00,000 equity shares each have been earmarked for welfare activities of the employees as at March 31, 2026 and March 31, 2025.

The Board, on April 17, 2025, based on the recommendations of the Nomination and Remuneration Committee approved the following grants for fiscal 2026. In accordance with such approval the following grants were made effective May 2, 2025.

- 2,30,621 performance-based RSUs (Annual performance equity grant) of fair value of ₹34.75 crore. These RSUs will vest in line with the employment agreement based on achievement of certain performance targets.
- 13,273 performance-based grant of RSUs (Annual performance equity ESG grant) of fair value of ₹2 crore. These RSUs will vest in line with the employment agreement based on achievement of certain environment, social and governance milestones as determined by the Board.
- 33,183 performance-based grant of RSUs (Annual performance Equity TSR grant) of fair value of ₹5 crore. These RSUs will vest in line with the employment agreement based on Company's performance on cumulative relative TSR over the years and as determined by the Board.

Further, in accordance with the employee agreement which has been approved by the shareholders, the CEO is eligible to receive an annual grant of RSUs of fair value ₹3 crore which will vest overtime in three equal annual installments upon the completion of each year of service from the respective grant date. Accordingly, annual time-based grant of 18,132 RSUs was made effective February 1, 2026 for fiscal 2026.

Though the annual time based grants and annual performance equity TSR grant for the remaining employment term ending on March 31, 2027 have not been granted as of March 31, 2026, since the service commencement date precedes the grant date, the company has recorded employment stock compensation expense in accordance with Ind AS 102, *Share based payment*. The grant date for this purpose in accordance with Ind AS 102, *Share based payment*, is July 1, 2022.

### Under the 2019 Plan

The Board, on April 17, 2025, based on the recommendations of the Nomination and Remuneration Committee, approved performance-based grant of RSUs amounting to ₹10 crore for fiscal 2026 under the 2019 Plan. These RSUs will vest based on achievement of certain performance targets. Accordingly, 66,366 performance-based RSUs were granted effective May 2, 2025.

## Other KMP

### Under the 2015 Plan

During the year ended March 31, 2026, based on recommendations of Nomination and Remuneration Committee, the Board approved time-based grants of 2,37,370 ESOPs to other KMP under the 2015 Plan. These ESOPs will vest over a period of four years and shall be exercisable within the period as approved by the Committee. The exercise price of the ESOPs would be the market price as on the date of grant.

Further, during the year ended March 31, 2026, based on recommendations of Nomination and Remuneration Committee, the Board approved 82,400 time-based RSUs to other KMP under the 2015 Plan. Time-based RSUs will vest over four years.

### Under the 2019 Plan

During the year ended March 31, 2026, based on recommendations of Nomination and Remuneration Committee, the Board approved performance-based grants of 60,600 RSUs to other KMPs under the 2019 Plan. These RSUs will vest over three years based on achievement of certain performance targets.

As at March 31, 2026 and March 31, 2025, 3,87,949 and 2,88,384 cash-settled options were outstanding respectively. The carrying value of liability towards cash-settled, share-based payments was ₹15 crore and ₹18 crore as at March 31, 2026 and March 31, 2025, respectively.

The fair value of the awards are estimated using the Black-Scholes Model for time and non-market performance-based options and Monte Carlo simulation model is used for TSR-based options.

The inputs to the model include the share price at date of grant, exercise price, expected volatility, expected dividends, expected term and the risk free rate of interest. Expected volatility during the expected term of the options is based on historical volatility of the observed market prices of the Company's publicly traded equity shares during a period equivalent to the expected term of the options. Expected volatility of the comparative company have been modelled based on historical movements in the market prices of their publicly traded equity shares during a period equivalent to the expected term of the options. Correlation coefficient is calculated between each peer entity and the indices as a whole or between each entity in the peer group.

The fair value of each equity-settled award is estimated on the date of grant using the following assumptions:

| Particulars | For options granted in | | | | | |
|---|---|---|---|---|---|---|
| | Fiscal 2026-Equity Shares-RSU | Fiscal 2026-ADR-RSU | Fiscal 2026-Equity Shares-ESOP | Fiscal 2026-ADS-ESOP | Fiscal 2025-Equity Shares-RSU | Fiscal 2025-ADS-RSU |
| Weighted average share price (₹) / ($ ADS) | 1,641 | 17.55 | 1,554 | 17.93 | 1,808 | 21.44 |
| Exercise price (₹) / ($ ADS) | 5.00 | 0.10 | 1,554 | 17.93 | 5.00 | 0.07 |
| Expected volatility (%) | 23–26 | 25–29 | 25–28 | 26–30 | 21–26 | 23–28 |
| Expected life of the option (years) | 1–4 | 1–4 | 3–7 | 3–7 | 1–4 | 1–4 |
| Expected dividends (%) | 2–3 | 2–3 | 2–3 | 2–3 | 2–3 | 2–3 |
| Risk-free interest rate (%) | 6 | 4 | 6 | 4 | 7 | 4–5 |
| Weighted average fair value as on grant date (₹) / ($ ADS) | 1,331 | 14.16 | 390 | 4.09 | 1,555 | 18.20 |

The expected life of the RSU/ESOP is estimated based on the vesting term and contractual term of the RSU/ESOP, as well as expected exercise behavior of the employee who receives the RSU/ESOP.

## 2.16 Provisions

### Accounting policy

A provision is recognized if, as a result of a past event, the Group has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The Group recognizes a reimbursement asset when, and only when, it is virtually certain that the reimbursement will be received if the Group settles the obligation.

a. Post-sales client support

The Group provides its clients with a fixed-period post-sales support on its fixed-price, fixed-timeframe contracts. Costs associated with such support services are accrued at the time related revenues are recorded and included in Consolidated Statement of Profit and Loss. The Group estimates such costs based on historical experience and estimates are reviewed on a periodic basis for any material changes in assumptions and likelihood of occurrence.

b. Onerous contracts

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Group from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. Provisions for estimated losses, if any, on incomplete contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established the Group recognizes any impairment loss on the assets associated with that contract.

**Provision for post-sales client support and other provisions:**

(In ₹ crore)

| Particulars | Year ended March 31, | |
|---|---|---|
| | 2026 | 2025 |
| Current | | |
| Others | | |
| Post-sales client support and others | 1,512 | 1,325 |
| Other provisions pertaining to settlement *(Refer to note 2.24.2)* | – | 150 |
| **Total provisions** | **1,512** | **1,475** |

The movement in the provision for post-sales client support and others is as follows:

(In ₹ crore)

| Particulars | Year ended March 31, 2026 |
|---|---|
| **Balance at the beginning** | **1,325** |
| Provision recognized / (reversed) | 482 |
| Provision utilized | (445) |
| Translation difference | 150 |
| **Balance at the end** | **1,512** |

Provision for post-sales client support majorly represents costs associated with providing post-sales support services which are accrued at the time of recognition of revenues and are expected to be utilized over a period of 1 year.

## 2.17 Income taxes

### Accounting policy

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the Consolidated Statement of Profit and Loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity or other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. Deferred income taxes are not provided on the undistributed earnings of subsidiaries and branches where it is expected that the earnings of the subsidiary or branch will not be distributed in the foreseeable future.

The Group offsets current tax assets and current tax liabilities; deferred tax assets and deferred tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. The income tax provision for the interim period is made based on the best estimate of the annual average tax rate expected to be applicable for the full financial year. Tax benefits of deductions earned on exercise of employee share options in excess of compensation charged to income are credited to equity.

Income tax expense in the Consolidated Statement of Profit and Loss comprises:

(In ₹ crore)

| Particulars | Year ended March 31, | |
|---|---|---|
| | 2026 | 2025 |
| Current taxes | 11,767 | 12,130 |
| Deferred taxes | (1,246) | (1,272) |
| **Income tax expense** | **10,521** | **10,858** |

A summary of reconciliation of the income tax provision to the amount computed by applying the statutory income tax rate to the income before income taxes is as follows:

(In ₹ crore)

| Particulars | Year ended March 31, | |
|---|---|---|
| | 2026 | 2025 |
| Profit before income taxes | 39,995 | 37,608 |
| Enacted tax rates in India | 25.17% | 25.17% |
| Computed expected tax expense | 10,066 | 9,465 |
| Overseas taxes | 1,114 | 1,109 |
| Tax provision (reversals) | (877) | 132 |
| Effect of exempt non-operating income | (13) | (31) |
| Effect of unrecognized deferred tax assets | 99 | 161 |
| Effect of differential tax rates | (69) | (79) |
| Effect of non-deductible expenses | 336 | 276 |
| Others | (135) | (175) |
| **Income tax expense** | **10,521** | **10,858** |

The applicable Indian corporate statutory tax rate for the year ended March 31, 2026 is 25.17% and for the year ended March 31, 2025 is 25.17%.

Income tax expense for the year ended March 31, 2026 and March 31, 2025 includes reversal (net of provisions) of ₹877 crore and provisions (net of reversals) of ₹132 crore, respectively. These provisions and reversals pertaining to prior periods are primarily on account of adjudication of certain disputed matters, upon filing of tax return and completion of assessments, across various jurisdictions.

During the year ended March 31, 2026, the Company received orders under Section 250 and Section 254 of the Income Tax Act, 1961, from the Income Tax Authorities in India for the assessment years, 2013-14 and assessment years 2017-18 to 2021-22. These orders confirmed the Company's position with respect to tax treatment of certain matters. As a result interest income (pre-tax) of ₹381 crore was recognized and provision for income tax aggregating ₹869 crore was reversed with a corresponding credit to the Statement of Profit and Loss. Also, upon resolution of the disputes, an amount aggregating to ₹86 crore has been reduced from contingent liabilities.

During the year ended March 31, 2025, the Company received orders under Section 250 of the Income Tax Act, 1961, from the Income Tax Authorities in India for the assessment years, 2016-17 and 2019-20. These orders confirmed the Company's position with respect to tax treatment of certain matters. As a result interest income (pre-tax) of ₹327 crore was recognised and provision for income tax aggregating ₹183 crore was reversed with a corresponding credit to the Statement of Profit and Loss. Also, upon resolution of the disputes, an amount aggregating to ₹1,068 crore has been reduced from contingent liabilities.

The foreign tax expense is due to income taxes payable overseas principally in the United States. In India, the Group has benefited from certain tax incentives that the Government of India had provided for export of software and services from the units registered under the Special Economic Zones (SEZs) Act, 2005 in the prior years. SEZ units which began the provision of services on or after April 1, 2005 are eligible for a deduction of 100% of profits or gains derived from the export of services for the first five years from the financial year in which the unit commenced the provision of services and 50% of such profits or gains for further five years. Up to 50% of such profits or gains is also available for a further five years subject to creation of a Special Economic Zone re-Investment Reserve out of the profit of the eligible SEZ units and utilization of such reserve by the Group for acquiring new plant and machinery for the purpose of its business as per the provisions of the Income Tax Act, 1961. (Refer to Special Economic Zone Re-investment reserve under Note 2.12 Equity)

Deferred income tax for the year ended March 31, 2026 and March 31, 2025 substantially relates to origination and reversal of temporary differences.

Infosys is subject to a 15% Branch Profit Tax (BPT) in the US to the extent its US branch's net profit during the year is greater than the increase in the net assets of the US branch during the year, computed in accordance with the Internal Revenue Code.

As at March 31, 2026, Infosys' US branch net assets amounted to approximately ₹7,736 crore. As at March 31, 2026, the Company has a deferred tax liability for Branch Profit Tax of ₹207 crore (net of credits), as the Company estimates that these branch profits are expected to be distributed in the foreseeable future.

Deferred income tax liabilities have not been recognized on temporary differences amounting to ₹19,270 crore and ₹16,593 crore as at March 31, 2026 and March 31, 2025, respectively, associated with investments in subsidiaries and branches as the Company is able to control the timing of reversal of the temporary difference and it is probable that the temporary differences will not reverse in the foreseeable future. The Group majorly intends to repatriate earnings from subsidiaries and branches only to the extent these can be distributed in a tax-free manner.

Deferred income tax assets have not been recognized on accumulated losses of ₹4,868 crore and ₹4,597 crore as at March 31, 2026 and March 31, 2025, respectively, as it is probable that future taxable profit will not be available against which the unused tax losses can be utilized in the foreseeable future.

The details of expiration of unused tax losses as at March 31, 2026 are as follows:

In assessing the realizability of deferred income tax assets, the Management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. The management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, the Management believes that the Group will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

The Company's Advanced Pricing Arrangement (APA) with the Internal Revenue Service (IRS) for US branch income tax expired in March 2021. The Company has applied for renewal of APA and currently the US taxable income is based on the Company's best estimate determined based on the expected value method.

## 2.18 Revenue from operations

### Accounting policy

The Group derives revenues primarily from IT services comprising software development and related services, cloud and infrastructure services, maintenance, consulting and package implementation, licensing of software products and platforms across the Group's core and digital offerings (together called as "software related services") and business process management services. Contracts with customers are either on a time-and-material, unit of work, fixed-price or on a fixed-timeframe basis.

Revenues from customer contracts are considered for recognition and measurement when the contract has been approved in writing by the parties, to the contract, the parties to contract are committed to perform their respective obligations under the contract, and the contract is legally enforceable. Revenue is recognized upon transfer of control of promised products or services ("performance obligations") to customers in an amount that reflects the consideration the Group has received or expects to receive in exchange for these products or services ("transaction price"). When there is uncertainty as to collectability, revenue recognition is postponed until such uncertainty is resolved.

The Group assesses the services promised in a contract and identifies distinct performance obligations in the contract.

The Group allocates the transaction price to each distinct performance obligation based on the relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. In the absence of such evidence, the primary method used to estimate standalone selling price is the expected cost plus a margin, under which the Group estimates the cost of satisfying the performance obligation and then adds an appropriate margin based on similar services.

The Group's contracts may include variable consideration including rebates, volume discounts and penalties. The Group includes variable consideration as part of transaction price when there is a basis to reasonably estimate the amount of the variable consideration and when it is probable that a significant reversal of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is resolved.

Revenue on time-and-material and unit of work-based contracts, are recognized as the related services are performed. Fixed-price maintenance revenue is recognized ratably either on a straight-line basis when services are performed through an indefinite number of repetitive acts over a specified period or ratably using a percentage-of-completion method when the pattern of benefits from the services rendered to the customer and the Group's costs to fulfill the contract is not even through the period of contract because the services are generally discrete in nature and not repetitive. Revenue from other fixed-price, fixed-timeframe contracts, where the performance obligations are satisfied over time is recognized using the percentage-of-completion method. Efforts or costs expended are used to determine progress towards completion as there is a direct relationship between input and productivity. Progress towards completion is measured as the ratio of costs or efforts incurred to date (representing work performed) to the estimated total costs or efforts. Estimates of transaction price and total costs or efforts are continuously monitored over the term of the contracts and are recognized in net profit in the period when these estimates change or when the estimates are revised. Revenues and the estimated total costs or efforts are subject to revision as the contract progresses. Provisions for estimated losses, if any, on incomplete contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract.

The billing schedules agreed with customers include periodic performance-based billing and / or milestone-based progress billings. Revenues in excess of billing are classified as unbilled revenue while billing in excess of revenues are classified as contract liabilities (which we refer to as unearned revenues).

In arrangements for software development and related services and maintenance services, by applying the revenue recognition criteria for each distinct performance obligation, the arrangements with customers generally meet the criteria for considering software development and related services as distinct performance obligations. For allocating the transaction price, the Group measures the revenue in respect of each performance obligation of a contract at its relative standalone selling price. The price that is regularly charged for an item

when sold separately is the best evidence of its standalone selling price. In cases where the Group is unable to determine the standalone selling price, the Group uses the expected cost plus margin approach in estimating the standalone selling price. For software development and related services, the performance obligations are satisfied as and when the services are rendered since the customer generally obtains control of the work as it progresses.

Certain cloud and infrastructure services contracts include multiple elements which may be subject to other specific accounting guidance, such as leasing guidance. These contracts are accounted in accordance with such specific accounting guidance. In such arrangements where the Group is able to determine that hardware and services are distinct performance obligations, it allocates the consideration to these performance obligations on a relative standalone selling price basis. In the absence of standalone selling price, the Group uses the expected cost-plus margin approach in estimating the standalone selling price. When such arrangements are considered as a single performance obligation, revenue is recognized over the period and measure of progress is determined based on promise in the contract.

Revenue from licenses where the customer obtains a "right-to-use" the licenses is recognized at the time the licenses are made available to the customer. Revenue from licenses where the customer obtains a "right-to-access" is recognized over the access period.

Arrangements to deliver software products generally have three elements: license, implementation and Annual Technical Services (ATS). When implementation services are provided in conjunction with the licensing arrangement and the license and implementation have been identified as two distinct separate performance obligations, the transaction price for such contracts are allocated to each performance obligation of the contract based on their relative standalone selling prices. In the absence of standalone selling price for implementation, the Group uses the expected cost plus margin approach in estimating the standalone selling price. Where the license is required to be substantially customized as part of the implementation service the entire arrangement fee for license and implementation is considered to be a single performance obligation and the revenue is recognized using the percentage-of-completion method as the implementation is performed. Revenue from client training, support and other services arising due to the sale of software products is recognized as the performance obligations are satisfied. ATS revenue is recognized ratably on a straight-line basis over the period in which the services are rendered.

Contracts with customers includes sub-contractor services or third-party vendor equipment or software in certain integrated services arrangements. In these types of arrangements, revenue from sales of third-party vendor products or services is recorded net of costs when the Group is acting as an agent between the customer and the vendor, and gross when the Group is the principal for the transaction. In doing so, the Group first evaluates whether it obtains control of the specified goods or services before they are transferred to the customer. The Group considers whether it is primarily responsible for fulfilling the promise to provide the specified goods or services, inventory risk, pricing discretion and other factors to determine whether it controls the specified goods or services and therefore, is acting as a principal or an agent.

A contract modification is a change in the scope or price or both of a contract that is approved by the parties to the contract. A contract modification that results in the addition of distinct performance obligations are accounted for either as a separate contract if the additional services are priced at the standalone selling price or as a termination of the existing contract and creation of a new contract if they are not priced at the standalone selling price. If the modification does not result in a distinct performance obligation, it is accounted for as part of the existing contract on a cumulative catch-up basis.

The incremental costs of obtaining a contract (i.e., costs that would not have been incurred if the contract had not been obtained) are recognized as an asset if the Group expects to recover them.

Certain eligible, non-recurring costs (e.g. set-up or transition or transformation costs) that do not represent a separate performance obligation are recognized as an asset when such costs (a) relate directly to the contract; (b) generate or enhance resources of the Group that will be used in satisfying the performance obligation in the future; and (c) are expected to be recovered.

Capitalized contract costs relating to upfront payments to customers are amortized to revenue and other capitalized costs are amortized to expenses over the respective contract life on a systematic basis consistent with the transfer of goods or services to customer to which the asset relates. Capitalized costs are monitored regularly for impairment. Impairment losses are recorded when present value of projected remaining operating cash flows is not sufficient to recover the carrying amount of the capitalized costs.

The Group presents revenues net of indirect taxes in its Consolidated Statement of Profit and Loss.

Revenue from operations for the year ended March 31, 2026 and March 31, 2025 is as follows:

(In ₹ crore)

| Particulars | Year ended March 31, | |
|---|---|---|
| | 2026 | 2025 |
| Revenue from software services | 1,70,122 | 1,55,395 |
| Revenue from products and platforms | 8,528 | 7,595 |
| **Total revenue from operations** | **1,78,650** | **1,62,990** |

### Products and platforms

The Group also derives revenues from the sale of products and platforms like Finacle – core banking solution, Edge Suite of products, Panaya platform, Stater digital platform and Infosys McCamish – insurance platform.

### Disaggregated revenue information

Revenue disaggregation by business segments has been included in segment information (Refer to Note 2.26). The table below presents disaggregated revenues from contracts with customers by geography and contract type. The Group believes that this disaggregation best depicts how the nature, amount, timing and uncertainty of revenues and cash flows are affected by industry, market and other economic factors.

For the year ended March 31, 2026 and March 31, 2025:

(In ₹ crore)

| Particulars | Year ended March 31, | |
|---|---|---|
| | 2026 | 2025 |
| **Revenues by Geography*** | | |
| North America | 1,00,167 | 94,397 |
| Europe | 57,454 | 48,595 |
| India | 5,102 | 5,014 |
| Rest of the World | 15,927 | 14,984 |
| **Total** | **1,78,650** | **1,62,990** |

* *Geographical revenue is based on the domicile of customer.*

The percentage of revenue from fixed-price contracts for the year ended March 31, 2026 and March 31, 2025 is 54% and 54%, respectively.

### Trade receivables and contract balances

The timing of revenue recognition, billings and cash collections results in receivables, unbilled revenue, and unearned revenue on the Group's Consolidated Balance Sheet. Amounts are billed as work progresses in accordance with agreed-upon contractual terms, either at periodic intervals (e.g., monthly or quarterly) or upon achievement of contractual milestones.

The Group's receivables are rights to consideration that are unconditional. Unbilled revenues comprising revenues in excess of billings from time and material contracts and fixed-price maintenance contracts are classified as financial asset when the right to consideration is unconditional and is due only after a passage of time.

Invoicing to the clients for other fixed-price contracts is based on milestones as defined in the contract and therefore the timing of revenue recognition is different from the timing of invoicing to the customers. Therefore unbilled revenues for other fixed-price contracts (contract asset) are classified as non-financial asset because the right to consideration is dependent on completion of contractual milestones.

Invoicing in excess of earnings are classified as unearned revenue.

Trade receivables and unbilled revenues are presented net of impairment in the Consolidated Balance Sheet.

During the year ended March 31, 2026 and March 31, 2025, the Company recognized revenue of ₹6,608 crore and ₹5,669 crore arising from opening unearned revenue as of April 1, 2025 and April 1, 2024, respectively.

During the year ended March 31, 2026 and March 31, 2025, ₹4,839 crore and ₹4,896 crore of unbilled revenue pertaining to other fixed-price and fixed-time frame contracts as of April 1, 2025 and April 1, 2024, respectively has been reclassified to trade receivables upon billing to customers on completion of milestones.

### Remaining performance obligation disclosure

The remaining performance obligation disclosure provides the aggregate amount of the transaction price yet to be recognized as at the end of the reporting period and an explanation as to when the Group expects to recognize these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the Group has not disclosed the remaining performance obligation related disclosures for contracts where the revenue recognized corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts where invoicing is on time and material and unit of work based contracts. Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts, periodic revalidations, adjustment for revenue that has not materialized and adjustments for currency fluctuations.

The aggregate value of performance obligations that are completely or partially unsatisfied as at March 31, 2026, other than those meeting the exclusion criteria mentioned above, is ₹1,30,017 crore. Out of this, the Group expects to recognize revenue of around 49.7% within the next one year and the remaining thereafter. The aggregate value of performance obligations that are completely or partially unsatisfied as at March 31, 2025 is ₹1,04,785 crore. The contracts can generally be terminated by the customers and typically includes an enforceable termination penalty payable by them. Generally, customers have not terminated contracts without cause.

## 2.19 Other income, net

### Accounting policy

Other income is comprised primarily of interest income, dividend income, gain/loss on investment and exchange gain/loss on forward and options contracts and on translation of foreign currency assets and liabilities. Interest income is recognized using the effective interest method. Dividend income is recognized when the right to receive payment is established.

## Foreign currency

### Accounting policy

#### Functional currency

The functional currency of Infosys, its Indian subsidiaries and controlled trusts is the Indian rupee. The functional currencies for foreign subsidiaries are their respective local currencies. These financial statements are presented in Indian rupees (rounded off to crore; one crore equals ten million).

#### Transactions and translations

Foreign-currency denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are recognized in the Consolidated Statement of Profit and Loss and reported within exchange gains/ (losses) on translation of assets and liabilities, net, except when deferred in Other Comprehensive Income as qualifying cash flow hedges. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction. The related revenue and expense are recognized using the same exchange rate.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

The translation of financial statements of the foreign subsidiaries to the presentation currency is performed for assets and liabilities using the exchange rate in effect at the Balance Sheet date and for revenue, expense and cash-flow items using the average exchange rate for the respective periods. The gains or losses resulting from such translation are included in currency translation reserves under other components of equity. When a subsidiary is disposed off, in full, the relevant amount is transferred to net profit in the Consolidated Statement of Profit and Loss. However when a change in the parent's ownership does not result in loss of control of a subsidiary, such changes are recorded through equity.

Other Comprehensive Income, net of taxes includes translation differences on non-monetary financial assets measured at fair value at the reporting date, such as equities classified as financial instruments and measured at fair value through other comprehensive income (FVOCI).

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the exchange rate in effect at the Balance Sheet date.

#### Government grant

The Group recognizes government grants only when there is reasonable assurance that the conditions attached to them shall be complied with, and the grants will be received. Government grants related to assets are treated as deferred income and are recognized in net profit in the Consolidated Statement of Profit and Loss on a systematic and rational basis over the useful life of the asset. Government grants related to revenue are recognized on a systematic basis in net profit in the Consolidated Statement of Profit and Loss over the periods necessary to match them with the related costs which they are intended to compensate.

Other income for the year ended March 31, 2026 and March 31, 2025 is as follows:

### 2.20.1 Impact of labour codes

On November 21, 2025, the Government of India notified provisions of the Code on Wages, 2019, the Industrial Relations Code, 2020, the Code on Social Security, 2020 and the Occupational Safety, Health and Working Conditions Code, 2020, ('Labour Codes') which consolidate twenty-nine existing labour laws into a unified framework governing employee benefits during employment and post-employment. The Labour Codes, amongst other things introduces changes, including a uniform definition of wages and enhanced benefits relating to leave. The Group has assessed the financial implications of these changes which has resulted in increase in gratuity liability, a defined benefit plan arising out of past service cost and increase in compensated absences by ₹1,289 crore. Considering the impact arising out of an enactment of the new legislation is an event of non-recurring nature, the Group has presented this incremental amount as "Impact of Labour Codes" under "Exceptional Item" in the Consolidated Statement of Profit and Loss for the year ended March 31, 2026. The Group continues to monitor the developments pertaining to Labour Codes and will evaluate impact if any on the measurement of the employee benefits liability.

## 2.21 Leases

### Accounting policy

#### The Group as a lessee

The Group's lease asset classes primarily consist of leases for land, buildings and computers. The Group assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the group assesses whether: (1) the contract involves the use of an identified asset (2) the Group has substantially all of the economic benefits from use of the asset through the period of the lease and (3) the Group has the right to direct the use of the asset.

At the date of commencement of the lease, the Group recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Group recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

As a lessee, the Group determines the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Group makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Group considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to Group's operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The ROU assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

ROU assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

ROU assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related ROU asset if the Group changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

### The Group as a lessor

Leases for which the Group is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Group is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately. The sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease.

For finance lease, finance income is recognised over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease and for operating leases, rental income is recognized on a straight-line basis over the term of the relevant lease.

The changes in the carrying value of right-of-use assets for the year ended March 31, 2026 are as follows:

(In ₹ crore)

| Particulars | Category of ROU asset | | | | Total |
|---|---|---|---|---|---|
| | Land | Buildings | Vehicles | Computers | |

## 2.22 Employee benefits

### Accounting policy

Gratuity and pension

The Group provides for gratuity, a defined benefit retirement plan ("the Gratuity Plan") covering eligible employees majorly of Infosys and its Indian subsidiaries. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment with the Group. The Company contributes Gratuity liabilities to the Infosys Limited Employees' Gratuity Fund Trust ("the Trust"). In case of Infosys BPM and EdgeVerve, contributions are made to the Infosys BPM Employees' Gratuity Fund Trust and EdgeVerve Systems Limited Employees' Gratuity Fund Trust, respectively. Trustees administer contributions made to the Trusts and contributions are invested in a scheme with the Life Insurance Corporation of India as permitted by Indian law.

The Group operates defined benefit pension plan in certain overseas jurisdictions, in accordance with the local laws. These plans are managed by third party fund managers. The plans provide for periodic payouts after retirement and/or a lumpsum payment as set out in rules of each fund and includes death and disability benefits. The defined benefit plans require contributions which are based on a percentage of salary that varies depending on the age of the respective employees.

Liabilities with regard to these defined benefit plans are determined by actuarial valuation, performed by an external actuary, at each Balance Sheet date using the projected unit credit method. These defined benefit plans expose the Group to actuarial risks, such as longevity risk, interest rate risk and market risk.

The Group recognizes the net obligation of a defined benefit plan in its Balance Sheet as an asset or liability. Gains and losses through re-measurements of the net defined benefit liability / (asset) are recognized in other comprehensive income and

are not reclassified to profit or loss in subsequent periods. The actual return of the portfolio of plan assets, in excess of the yields computed by applying the discount rate used to measure the defined benefit obligation is recognized in other comprehensive income. The effect of any plan amendments is recognized in net profit in the Consolidated Statement of Profit and Loss.

### Provident fund

Eligible employees of Infosys receive benefits from a provident fund, which is a defined benefit plan. Both the eligible employee and the Company make monthly contributions to the provident fund plan equal to a specified percentage of the covered employee's salary. The Company contributes a portion to the Infosys Limited Employees' Provident Fund Trust. The trust invests in specific designated instruments as permitted by Indian law. The remaining portion is contributed to the government administered pension fund. The rate at which the annual interest is payable to the beneficiaries by the trust is being administered by the Government of India. The Company has an obligation to make good the shortfall, if any, between the return from the investments of the trust and the notified interest rate.

In respect of Indian subsidiaries, eligible employees receive benefits from a provident fund, which is a defined contribution plan. Both the eligible employee and the respective companies make monthly contributions to this provident fund plan equal to a specified percentage of the covered employee's salary. Amounts collected under the provident fund plan are deposited in a government administered provident fund. The Companies have no further obligation to the plan beyond its monthly contributions.

### Superannuation

Certain employees of Infosys, Infosys BPM and EdgeVerve are participants in a defined contribution plan. The Group has no further obligations to the plan beyond its monthly contributions which are periodically contributed to a trust fund, the corpus of which is invested with the Life Insurance Corporation of India.

### Compensated absences

The Group has a policy on compensated absences which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an external actuary at each Balance Sheet date using projected unit credit method on the additional amount expected to be paid / availed as a result of the unused entitlement that has accumulated at the Balance Sheet date. Expense on non-accumulating compensated absences is recognized in the period in which the absences occur.

The weighted-average assumptions used to determine benefit obligations as at March 31, 2026 and March 31, 2025 are as follows:

(In %)

| Particulars | Gratuity | | Pension | |
|---|---|---|---|---|
| | As at March 31, | | As at March 31, | |

| Weighted average duration of defined benefit obligation[3] | 5.7 years | 5.7 years | 12 years | 13 years |

The weighted-average assumptions used to determine net periodic benefit cost for the year ended March 31, 2026 and March 31, 2025 are as follows:

(In %)

| Particulars | Gratuity | | Pension | |
|---|---|---|---|---|
| | Year ended March 31, | | Year ended March 31, | |
| | 2026 | 2025 | 2026 | 2025 |
| Discount rate | 6.5 | 7.0 | 0.9-3.7 | 1.5-3.4 |
| Weighted average rate of increase in compensation levels | 6.0 | 6.0 | 1-3.3 | 1-3 |

(1) For domestic defined benefit plan in India, the market for high quality corporate bonds being not developed, the yield of government bonds is considered as the discount rate. For most of our overseas defined benefit plan, given that the market for high quality corporate bonds is not developed, the Government bond rate adjusted for corporate spreads is used.

(2) The average rate of increase in compensation levels is determined by the Company, considering factors such as, the Company's past compensation revision trends, inflation in respective markets and management's estimate of future salary increases.

(3) Attrition rate considered is the Management's estimate based on the past long-term trend of employee turnover in the Company. The tenure has been considered taking into account the past long-term trend of employees' average remaining service life which reflects the average estimated term of post-employment benefit obligation.

For domestic defined benefit plan in India, assumptions regarding future mortality experience are set in accordance with the published statistics by the Life Insurance Corporation of India. For overseas defined benefit plan, the assumptions regarding future mortality experience are set with regard to the latest statistics in life expectancy, plan experience and other relevant data.

The Group assesses all of the above assumptions with its projected long-term plans of growth and prevalent industry standards.

The Company contributes all ascertained liabilities towards gratuity to the Infosys Limited Employees' Gratuity Fund Trust. In case of Infosys BPM and EdgeVerve, contributions are made to the Infosys BPM Employees' Gratuity Fund Trust and EdgeVerve Systems Limited Employees Gratuity Fund Trust, respectively. Trustees administer contributions made to the trust as at March 31, 2026 and March 31, 2025, and contributions for gratuity are invested in a scheme with the Life Insurance Corporation of India as permitted by Indian law. The plan assets of the overseas defined benefit plan have been primarily invested in insurer managed funds and the asset allocation for plan assets is determined based on the investment criteria prescribed under the relevant regulations applicable to pension funds and the insurer managers. The insurers' investment are diversified and provide for guaranteed interest rates arrangements.

Actual return on assets (including remeasurements) of the gratuity plan for the year ended March 31, 2026 and March 31, 2025 were ₹241 crore and ₹173 crore, respectively and for the pension plan were ₹90 crore and ₹79 crore, respectively.

The contributions for gratuity are invested in a scheme with the Life Insurance Corporation of India as permitted by Indian law.

The details of major plan assets into various categories as at March 31, 2026 and March 31, 2025 are as follows:

(In %)

| Particulars | Pension | |
|---|---|---|
| | As at March 31, | |
| | 2026 | 2025 |
| Equity | 37 | 34 |
| Bonds | 21 | 30 |
| Real estate/Property | 23 | 26 |
| Cash and cash equivalents | 1 | 1 |
| Other | 18 | 9 |

These defined benefit plans expose the Group to actuarial risk which are set out below:

**Interest rate risk:** The present value of the defined benefit plan liability is generally calculated using a discount rate determined by reference to government bond yields and in certain overseas jurisdictions, it is calculated in reference to government bond yield adjusted for a corporate spread. If bond yields fall, the defined benefit obligation will tend to increase.

**Life expectancy and investment risk:** The pension fund offers the choice between a lifelong pension and a cash lump sum upon retirement. The pension fund has defined rates for converting the lumpsum to a pension and there is the risk that the members live longer than implied by these conversion rates and that the pension assets don't achieve the investment return implied by these conversion rates.

**Asset volatility:** A proportion of the pension fund is held in equities, which is expected to outperform corporate bonds in the long term but give exposure to volatility and risk in the short term. The pension fund board of insurer is responsible for the investment strategy and equity allocation is justified given the long-term investment horizon of the pension fund and the objective to provide a reasonable long-term return on members' account balances.

Sensitivity of significant assumptions used for valuation of defined benefit obligation:

(In ₹ crore)

| Impact from | As at March 31, 2026 | |
|---|---|---|
| | Gratuity | Pension |
| | 1% point increase / decrease | 0.5% point increase / decrease |
| Discount rate | 205 | 70 |
| Weighted average rate of increase in compensation levels | 220 | 12 |

Sensitivity to significant actuarial assumptions is computed by varying one actuarial assumption used for the valuation of the defined benefit obligation and keeping all other actuarial assumptions constant. In practice, this is not probable, and changes in some of the assumptions may be correlated.

The Group expects to contribute ₹540 crore to gratuity and ₹66 crore to pension during the fiscal 2027.

The maturity profile of defined benefit obligation is as follows:

(In ₹ crore)

| Particulars | Gratuity | Pension |
|---|---|---|
| Within 1 year | 721 | 118 |
| 1-2 year | 589 | 126 |
| 2-3 year | 543 | 117 |
| 3-4 year | 493 | 110 |
| 4-5 year | 451 | 121 |
| 5-10 years | 1,660 | 556 |

### 2.22.2 Provident fund

Infosys has an obligation to fund any shortfall on the yield of the trust's investments over the administered interest rates on an annual basis. These administered rates are determined annually predominantly considering the social and economic factors. The actuary has provided a valuation for provident fund liabilities on the basis of guidance issued by the Actuarial Society of India.

The the funded status of the defined benefit provident fund plan of Infosys Limited and the amounts recognized in the Group's financial statements as at March 31, 2026 and March 31, 2025 are as follows:

(In ₹ crore)

| Particulars | Year ended March 31, | |

Amount for the year ended March 31, 2026 and March 31, 2025 recognized in the Consolidated Statement of Profit and Loss under employee benefit expense is as follows:

(In ₹ crore)

| Particulars | Year ended March 31, | |
|---|---|---|
| | 2026 | 2025 |
| Service cost | 1,088 | 952 |
| Net interest on the net defined benefit liability | – | 4 |
| **Net provident fund cost** | **1,088** | **956** |

Amount for the year ended March 31, 2026 and March 31, 2025 recognized in the Consolidated Statement of Other Comprehensive Income is as follows:

(In ₹ crore)

| Particulars | Year ended March 31, | |
|---|---|---|
| | 2026 | 2025 |
| Remeasurements of the net defined benefit liability / (asset) | | |
| Actuarial (gains) / losses | 95 | 218 |

| Irrecoverable surplus – effect of asset ceiling | (61) | 61 |
| Net interest on the net defined benefit asset | (4) | - |
| | **445** | **34** |

The assumptions used in determining the present value obligation of the defined benefit plan under the Deterministic Approach are as follows:

(In %)

| Particulars | As at March 31, | |
|---|---|---|
| | 2026 | 2025 |
| Government of India (GOI) bond yield[1] | 6.50 | 6.50 |
| Expected rate of return on plan assets | 8.25 | 8.00 |
| Remaining term to maturity of portfolio | 6 years | 6 years |
| Expected guaranteed interest rate | 8.25 | 8.25 |

[1] In India, the market for high quality corporate bonds being not developed, the yield of government bonds is considered as the discount rate. The tenure has been considered taking into account the past long-term trend of employees' average remaining service life which reflects the average estimated term of the post-employment benefit obligations.

The breakup of the plan assets into various categories as at March 31, 2026 and March 31, 2025 are as follows:

(In %)

| Particulars | As at March 31, | |
|---|---|---|
| | 2026 | 2025 |
| Central and state government bonds | 63 | 60 |
| Public sector undertakings and private sector bonds | 26 | 28 |
| Cash and cash equivalents | 3 | 4 |
| Others | 8 | 8 |

The asset allocation for plan assets is determined based on the investment criteria prescribed under the relevant regulations.

The actuarial valuation of provident fund liability exposes the Group to interest rate risk. The defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase.

As at March 31, 2026, the defined benefit obligation would be affected by approximately ₹76 crore and ₹151 crore on account of a 0.25% increase / decrease in the expected rate of return on plan assets.

The Group contributed ₹1,515 crore and ₹1,323 crore to the provident fund during the year ended March 31, 2026 and March 31, 2025, respectively. The same has been recognized in the Consolidated Statement of Profit and Loss under the head employee benefit expense.

The provident plans are applicable only to employees drawing a salary in Indian rupees.

### 2.22.3 Superannuation

The Group contributed ₹570 crore and ₹512 crore during the year ended March 31, 2026 and March 31, 2025, respectively and the same has been recognized in the Consolidated Statement of Profit and Loss under the head employee benefit expense.

### 2.22.4 Employee benefit costs include

(In ₹ crore)

| Particulars | Year ended March 31, | |
|---|---|---|
| | 2026 | 2025 |
| Salaries and bonus[1] | 92,505 | 83,667 |
| Defined contribution plans | 861 | 749 |
| Defined benefit plans | 3,017 | 1,534 |
| | **96,383** | **85,950** |

[1] Includes employee stock compensation expense of ₹952 crore and ₹802 crore for the year ended March 31, 2026 and March 31, 2025, respectively.

## 2.23 Earnings per equity share

### Accounting policy

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Group by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Group by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as at the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

The computation of basic earnings per equity share is as follows:

| Particulars | Year ended March 31, | |
|---|---|---|
| | 2026 | 2025 |
| Profit attributable to equity holders of the Company (in ₹ crore) | 29,440 | 26,713 |
| Basic earnings per equity share - weighted average number of equity shares outstanding [1] | 411,28,14,745 | 414,16,11,738 |
| **Basic earnings per equity share (₹)** | **71.58** | **64.50** |

[1] Excludes treasury shares

The reconciliation of the equity shares used in the computation of basic and diluted earnings per equity share and computation of diluted earnings per equity share is as follows:

| Particulars | Year ended March 31, | |
|---|---|---|
| | 2026 | 2025 |
| Profit attributable to equity holders of the Company (in ₹ crore) | 29,440 | 26,713 |
| Weighted average number of equity shares outstanding used in computing in basic earnings per equity share | 411,28,14,745 | 414,16,11,738 |
| Effect of dilutive common equivalent shares – share options outstanding | 72,93,423 | 1,04,39,446 |
| Weighted average number of equity shares and common equivalent shares outstanding used in computing diluted earnings per equity share | 412,01,08,168 | 415,20,51,184 |
| **Diluted earnings per equity share (₹)** | **71.46** | **64.34** |

For the years ended March 31, 2026 and March 31, 2025, there were 1,235,321 and 13,931 options to purchase equity shares which had an anti-dilutive effect.

## 2.24 Contingent liabilities and commitments

### Accounting policy

Contingent liability is a possible obligation arising from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity or a present obligation that arises from past events but is not recognized because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

| Claims against the Group, not acknowledged as debts[1] | 3,117 | 2,953 |
| [Amount paid to statutory authorities ₹2,621 crore (₹4,207 crore)] | | |

[1] As at March 31, 2026 and March 31, 2025, claims against the Group not acknowledged as debts in respect of income tax matters amounted to ₹1,964 crore and ₹1,933 crore, respectively.

The claims against the Group primarily represent demands arising on completion of assessment proceedings under the Income Tax Act, 1961. These claims are on account of issues of disallowance of expenditure towards software being held as capital in nature, payments made to Associated Enterprises held as liable for withholding of taxes, among others. These matters are pending before various Income Tax Authorities and the Management including its tax advisors expect that its position will likely be upheld on ultimate resolution and will not have a material adverse effect on the Group's financial position and results of operations.

Amount paid to statutory authorities against the tax claims amounted to ₹2,594 crore and ₹4,199 crore as at March 31, 2026 and March 31, 2025, respectively.

### 2.24.2 Legal proceedings

#### McCamish Cybersecurity incident

In November 2023, certain systems of Infosys McCamish Systems LLC ("McCamish"), a subsidiary of Infosys BPM Limited (a wholly-owned subsidiary of Infosys Limited), were encrypted by ransomware, resulting in the non-availability of certain applications and systems. McCamish initiated its incident response and engaged cybersecurity and other specialists to assist in its investigation of and response to the incident and remediation and restoration of impacted applications and systems. By December 31, 2023, McCamish, with external specialists' assistance, substantially remediated and restored the affected applications and systems. McCamish in coordination with its third-party eDiscovery vendor has identified corporate customers and individuals whose information was subject to unauthorized access and exfiltration. McCamish processes personal data on behalf of its corporate customers.

From March 6, 2024 through July 25, 2024, six actions were filed in the US District Court for the Northern District of Georgia against McCamish. The actions arise out of the cybersecurity incident at McCamish initially disclosed on November 3, 2023. All six actions have since been consolidated, and the consolidated class action complaint was filed on November 7, 2024, purportedly on behalf of all persons residing in the United States whose personally identifiable information was compromised in the incident, including all who were sent a notice of the incident.

On March 13, 2025, McCamish and the plaintiffs engaged in mediation, resulting in an in-principle agreement that sets forth the terms of a proposed settlement of the class action lawsuits against McCamish, as well as seven class action lawsuits arising out of the incident that have been filed against McCamish's customers. Under the settlement terms, McCamish agreed to pay $17.5 million (approximately ₹150 crore) into a fund to settle these matters. McCamish had accrued for the settlement amount along with the insurance reimbursement receivable during the quarter ended March 31, 2025. On December 18, 2025, the Court granted final approval of the class action lawsuit settlement. The settlement amount has since been paid. The settlement has become effective and resolves all allegations made in the class action lawsuits filed against Infosys and certain of its customers without admission of any liability.

McCamish may incur additional costs including from indemnities or damages/claims, which are indeterminable at this time.

Government Investigation

The US Department of Justice ("DOJ") is conducting an investigation regarding how the Company classified certain H-1B visa-recipient employees working for one of its clients in immigration documents filed with certain US government authorities. The Company is engaged in discussions with the DOJ regarding its ongoing investigation and continues its own inquiry regarding the matter. At this stage, the Company is unable to predict the outcome of this matter, including whether such outcome could have a material adverse effect on the Company's business and results of operations.

Others

Apart from the foregoing, the Group is subject to legal proceedings and claims which have arisen in the ordinary course of business. The Group's management reasonably expects that such ordinary course legal actions, when ultimately concluded and determined, will not have a material and adverse effect on the Group's results of operations or financial condition.

## 2.26 Segment reporting

Ind AS 108, *Operating segments*, establishes standards for the way that public business enterprises report information about operating segments and related disclosures about products and services, geographic areas, and major customers. The Group's operations predominantly relate to providing end-to-end business solutions to enable clients to enhance business performance. The Chief Operating Decision Maker (CODM) evaluates the Group's performance and allocates resources based on an analysis of various performance indicators by business segments. Accordingly, information has been presented along business segments. The accounting principles used in the preparation of the financial statements are consistently applied to record revenue and expenditure in individual segments, and are as set out in the accounting policies.

Business segments of the Group are primarily enterprises in Financial Services and Insurance, enterprises in Manufacturing, enterprises in Retail, Consumer Packaged Goods and Logistics, enterprises in the Energy, Utilities, Resources and Services, enterprises in Communication, Telecom OEM and Media, enterprises in Hi-Tech, enterprises in Life Sciences and Healthcare and all other segments. The Financial services reportable segments has been aggregated to include the Financial Services operating segment and Finacle operating segment because of the similarity of the economic characteristics. All other segments represent the operating segments of businesses in India, Japan, China, Infosys Public Services and identified enterprises in Public Services.

Revenue and identifiable operating expenses in relation to segments are categorized based on items that are individually identifiable to that segment. Revenue for 'all other segments' represents revenue generated by Infosys Public services and revenue generated from customers located in India, Japan and China and other enterprises in Public services. Allocated expenses of segments include expenses incurred for rendering services from the Group's offshore software development centers and on-site expenses, which are categorized in relation to the associated efforts of the segment. Certain expenses such as depreciation and amortization, which form a significant component of total expenses, are not specifically allocable to specific segments as the underlying assets are used interchangeably. The Management believes that it is not practical to provide segment disclosures relating to those costs and expenses, and accordingly these expenses are separately disclosed as "unallocated" and adjusted against the total income of the Group.

Assets and liabilities used in the Group's business are not identified to any of the reportable segments, as these are used interchangeably between segments. The Management believes that it is currently not practicable to provide segment disclosures relating to total assets and liabilities since a meaningful segregation of the available data is onerous.

Business segment revenue information is collated based on individual customers invoiced or in relation to which the revenue is otherwise recognized.

Disclosure of revenue by geographic locations is given in Note 2.18, Revenue from operations.

# Notice of the 45th Annual General Meeting

Notice is hereby given that the 45th Annual General Meeting (AGM) of the members of Infosys Limited ("the Company") will be held on Tuesday, June 23, 2026, at 4:00 p.m. IST through video conference / other audio-visual means ("VC") to transact the following business:

## Ordinary business

### Item no. 1 – Adoption of financial statements

To consider and adopt the audited financial statements (including the consolidated financial statements) of the Company for the financial year ended March 31, 2026 and the reports of the Board of Directors ("the Board") and auditors thereon.

### Item no. 2 – Declaration of dividend

To declare a final dividend of ₹25/- per equity share for the financial year ended March 31, 2026.

### Item no. 3 – Appointment of Nandan M. Nilekani as a director, liable to retire by rotation

To appoint a director in place of Nandan M. Nilekani (DIN: 00041245), who retires by rotation and being eligible, seeks reappointment.

Explanation: Based on the terms of appointment, executive directors, and the non-executive and non-independent chairman are subject to retirement by rotation. Nandan M. Nilekani, who was initially appointed on August 24, 2017 and last appointed on June 26, 2024, and whose office is liable to retire at the ensuing AGM, being eligible, seeks reappointment. Based on his performance evaluation and the recommendation of the Nomination and Remuneration Committee, the Board recommends his reappointment.

To consider and if thought fit, to pass the following resolution as an ordinary resolution:

**RESOLVED THAT** pursuant to the provisions of Section 152 and other applicable provisions of the Companies Act, 2013, the approval of members of the Company, be and is hereby accorded to reappoint Nandan M. Nilekani (DIN: 00041245) as a director who is liable to retire by rotation.

## Special business

### Item no. 4 – Approval of the proposed amendment to the Infosys Expanded Stock Ownership Program – 2019 ("Amended 2019 Plan") and grant of stock incentives to the eligible employees of the Company under the Amended 2019 Plan

To consider and, if thought fit, to pass the following resolution as a Special Resolution:

**RESOLVED THAT** pursuant to the applicable provisions of the Companies Act, 2013, the Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021 ("SEBI Regulations") for the time being in force and as may be modified from time to time, and other rules, regulations, circulars and guidelines of any / various statutory / regulatory authority(ies) that are or may become applicable (collectively referred to herein as "Applicable Laws") and subject to any approvals, permissions and sanctions of any / various authority(ies) as may be required and subject to such conditions and modifications as may be prescribed or imposed while granting such approvals, permissions and sanctions which may be agreed to by the Board of Directors of the Company (hereinafter referred to as "the Board", which term shall include the Nomination and Remuneration Committee and any other committee(s) constituted / to be constituted by the Board to exercise its powers including the powers conferred by this resolution) the approval of the shareholders be and is hereby accorded to the proposed amendments to the Infosys Expanded Stock Ownership Program – 2019 (such amended plan is hereinafter referred as the "Amended 2019 Plan") and to introduce, offer, issue and provide share-based incentives under the Amended 2019 Plan, details whereof are furnished in the explanatory statement to this Notice and the same shall be deemed to be incorporated herein.

**RESOLVED FURTHER THAT** the Board for this purpose be and is hereby authorized (including authorizing any officials of the Company) to grant such stock incentives, to such person(s) who are in the permanent employment of the Company, whether working in India or out of India, and to the directors of the Company and to such other persons as may from time to time be allowed to be eligible for the benefits of the stock incentives under Applicable Laws prevailing from time to time (all such persons are hereinafter collectively referred to as "Eligible Employees"), except persons who are promoters or belong to the promoter group, an independent director or a director who either himself / herself or through his relative / any body corporate holds more than 10% of the outstanding equity shares in the Company; at such price or prices, in one or more tranches and on such terms and conditions as may be determined by the Board in accordance with the Amended 2019 Plan;

**RESOLVED FURTHER THAT** the approval of the shareholders be and is hereby accorded to the Board to carry out the following amendments / modifications to the existing plan:

A) To amend and modify Section 13 of the existing plan to extend the period during which awards may be granted under the Amended 2019 Plan to Eligible Employees by a further period of seven years from the date of approval by the Company's shareholders, subject to such terms and conditions as may be determined from time to time, and consequently, the Amended 2019 Plan to continue to remain in effect for a further period of 10 years from the date of such approval by the Company's shareholders,

B) To amend and modify Section 6(c) of the existing plan pertaining to vesting based on performance parameters,

C) To amend and modify Section 3 of the existing plan to reflect the unutilized share pool available for grant,

D) To amend and modify the existing plan for certain editorial and clarificatory changes, and to bring it in line with the amended SEBI Regulations.

**RESOLVED FURTHER THAT** the maximum number of stock incentives granted to Eligible Employees of both the Company and its subsidiaries (in aggregate) under the Amended 2019 Plan will be 3,26,63,903 equity shares representing the unutilized balance equity shares out of the original approved pool of 5,00,00,000 equity shares approved by the shareholders and that the exercise price and the vesting criteria will be decided by the Board or by the Nomination and Remuneration Committee (hereinafter referred to as "the Administrator"), which to the extent of secondary acquisition of the Company's equity shares by the Infosys Expanded Stock Ownership Trust and related administrative matters shall also include delegation of administration to the Infosys Expanded Stock Ownership Trust from time to time in accordance with the Amended 2019 Plan;

**RESOLVED FURTHER THAT** in case of any corporate action(s) such as rights issues, bonus issues, merger, or sale of division(s) of the Company or other similar events, the Board and / or the Administrator (as the case may be) be and is hereby authorized to do all such acts, deeds, matters and things as it may deem fit in its absolute discretion and as permitted under Applicable Laws, so as to ensure that fair and equitable benefits under the Amended 2019 Plan are passed on to the Eligible Employees;

**RESOLVED FURTHER THAT** the Board be and is hereby authorized to allot equity shares of the Company as may be required for the Amended 2019 Plan;

**RESOLVED FURTHER THAT** the Board and / or the Administrator (as the case may be) be and is hereby authorized to take necessary steps for listing of the shares allotted under the Amended 2019 Plan on the stock exchanges as per the provisions of Applicable Laws and any listing-related requirements of the concerned stock exchanges;

**RESOLVED FURTHER THAT** for the purpose of bringing into effect the Amended 2019 Plan and generally for giving effect to these resolutions, the Board and / or the Administrator be and is hereby authorized, on behalf of the Company, to do all such acts, deeds, matters and things as it may in its absolute discretion deem fit, necessary or desirable for such purpose and with power to settle any issues, questions, difficulties or doubts that may arise in this regard;

**RESOLVED FURTHER THAT** the Infosys Expanded Stock Ownership Trust formed with the purpose to inter alia administer the Amended 2019 Plan and trustees of the Infosys Expanded Stock Ownership Trust be and are hereby authorized to take such steps as may be required in relation to the Amended 2019 Plan or its implementation.

**RESOLVED FURTHER THAT** the Board and / or the Administrator (as the case may be) be and is hereby authorized to delegate all or any powers conferred herein, to any committee of directors, with power to further delegate such powers to any executives / officers of the Company to do all such acts, deeds, matters and things as also to execute such documents, writings, etc., as may be necessary in this regard.

**Notes**

1. Pursuant to the General Circular No. 3/2025 dated September 22, 2025, issued by the Ministry of Corporate Affairs (MCA) and the Circulars issued from time to time by SEBI (hereinafter collectively referred to as "the Circulars"), companies are allowed to hold AGM through VC, without the physical presence of members at a common venue. Hence, in compliance with the Circulars, the AGM of the Company is being held through VC.
2. A member entitled to attend and vote at the AGM is entitled to appoint a proxy to attend and vote on his / her behalf and the proxy need not be a member of the Company. Since the AGM is being held through VC, the facility for the appointment of proxies by the members will not be available.
3. Participation of members through VC will be reckoned for the purpose of quorum for the AGM as per Section 103 of the Act.
4. Corporate members intending to authorize their representatives to participate and vote at the meeting are requested to send a certified copy of the Board resolution / authorization letter to the Scrutinizer by email to evoting@infosys.com with a copy marked to evoting@nsdl.com.
5. The register of directors and Key Managerial Personnel (KMP) and their shareholding, maintained under Section 170 of the Act, and the register of contracts or arrangements in which the directors are interested, maintained under Section 189 of the Act, will be available electronically for inspection by the members during the AGM. All documents referred to in the Notice will also be available for electronic inspection without any fee from the date of circulation of this Notice up to the date of AGM, i.e. June 23, 2026. Members seeking to inspect such documents can send an email to investors@infosys.com.
6. In accordance with relevant SEBI Circulars, dividend payments are mandated to be made through the Electronic Clearing System (ECS). Members holding shares in physical mode are encouraged to opt for and utilize ECS to ensure timely receipt of dividends. Members holding shares in demat mode are requested to promptly notify any changes in their address or bank account details to their respective Depository Participants (DPs). Please refer to point no. 16 for the procedure to update bank account details.
7. Members may note that the Board, at its meeting held on April 23, 2026, has recommended a final dividend of ₹25 per equity share for the financial year ended March 31, 2026. The record date for the purpose of final dividend is June 10, 2026. The final dividend, once approved by the members in the ensuing AGM, will be paid on June 25, 2026, through various modes. Members are requested to update their KYC with their depositories (where shares are held in dematerialized mode) and with the Company's Registrar and Transfer Agent (RTA) (where shares are held in physical mode) to enable receipt of dividend directly into their bank account on the payout date.
8. Members may note that the Income-tax Act, 2025, ("the IT Act 2025"), mandates that dividend paid or distributed by a company shall be taxable in the hands of members. The Company shall therefore be required to deduct tax at source (TDS) at the time of making the payment of final dividend. To enable us to determine the appropriate TDS rate as applicable, members are requested to submit relevant documents, as specified in the below paragraphs, in accordance with the provisions of the IT Act 2025.

For resident shareholders, taxes shall be deducted at source under Section 393 of the IT Act as follows:

| | |
|---|---|
| Members having valid Permanent Account Number (PAN) | 10%* or as notified by the Government of India (GOI) |
| Members not having PAN / valid PAN | 20% or as notified by the GOI |

* As per Section 262 of the IT Act 2025, every person who has been allotted a PAN and who is eligible to obtain Aadhaar, shall be required to link the PAN with Aadhaar. In case of failure to comply with this, the PAN allotted shall be deemed invalid / inoperative and, such person shall be liable to all consequences under the IT Act 2025 and tax shall be deducted at the higher rates as provided in Section 397 of the IT Act 2025, i.e., 20% of tax deduction at source.

However, no tax shall be deducted on the dividend payable to resident individual shareholders if the total dividend to be received by them during tax year 2026-27 does not exceed ₹10,000 and also in cases where members provide Form 121, subject to conditions specified in the IT Act 2025. Resident shareholders may also submit any other document as prescribed under the IT Act 2025 to claim a lower / nil withholding of tax. PAN is mandatory for members providing Form 121 or any other document as mentioned above.

For non-resident shareholders, taxes are required to be withheld in accordance with the provisions of Section 393 and other applicable sections of the IT Act 2025, at the rates in force. The withholding tax shall be at the rate of 20% (plus applicable surcharge and cess) or as notified by the GOI on the amount of dividend payable. However, as per Section 159 of the IT Act 2025, non-resident shareholders have the option to be governed by the provisions of the Double Tax Avoidance Agreement ("tax treaty" or "DTAA"), read with Multilateral Instrument (MLI), if any, between India and the country of tax residence of the shareholders, if they are more beneficial to them. For this purpose, i.e. to avail the benefits under the DTAA read with MLI, non-resident shareholders will have to provide the following:

- Copy of the PAN card allotted by the Indian Income Tax authorities duly attested by the shareholders/ authorized signatory. In case of non-availability of PAN, information under sub-rule 2 of rule 217 of the Income-tax Rules, 2026
- Copy of the Tax Residency Certificate for the tax year 2026-27 obtained from the revenue or tax authorities of the country of tax residence, duly attested by shareholders / authorized signatory
- Form 41 (for claiming tax treaty benefit), which can be obtained electronically through the e-filing portal of the income tax website at https://www.incometax.gov.in/iec/foportal
- Self-declaration by the shareholders of having no permanent establishment in India in accordance with the applicable tax treaty and IT Act 2025
- Self-declaration of beneficial ownership of equity shares by the non-resident shareholder
- Self-declaration of fulfilling all conditions of applicable tax treaty for being eligible to claim benefit of the tax treaty read with MLI
- Any other documents as prescribed under the IT Act 2025, if applicable, or certificate for lower withholding of taxes, duly attested by the shareholders.

In case of Foreign Institutional Investors (FII) / Foreign Portfolio Investors (FPI), tax will be deducted under Section 393 of the IT Act 2025 at the rate of 20% (plus applicable surcharge and cess) or the rate provided in relevant DTAA, read with MLI, whichever is more beneficial, subject to the submission of the above documents, if applicable.

The aforementioned documents are required to be uploaded on the shareholder portal at https://www.infosys.com/investors/shareholder-services/dividend-tax.html on or before June 11, 2026. Members are requested to visit https://www.infosys.com/investors/shareholder-services/dividend-tax.html for more instructions and information on this subject. No communication would be accepted from members after June 11, 2026, regarding tax-withholding matters. Shareholders may write to dividend.tax@infosys.com for any clarifications on this subject.

Shareholders can check their tax credit in Form 168 (erstwhile Form 26AS) from the e-filing account at https://www.incometax.gov.in/iec/foportal

9. Members are requested to address all correspondence, including dividend-related matters, to RTA, KFin Technologies Limited, Unit: Infosys Limited, Selenium Tower B, Plot 31-32, Financial District, Nanakramguda, Serilingampally Mandal, Hyderabad-500 032 and e-mail at einward.ris@kfintech.com.
10. Members wishing to claim dividends that remain unclaimed are requested to correspond with the RTA as mentioned above, or with the Company Secretary, at the Company's registered office or at investors@infosys.com. Members are requested to note that dividends that are not claimed within seven years from the date of transfer to the Company's Unpaid Dividend Account, will be transferred to the Investor Education and Protection Fund (IEPF). Shares on which dividend remains unclaimed for seven consecutive years shall be transferred to the IEPF as per Section 124 of the Act, read with applicable IEPF rules.
11. In compliance with Section 108 of the Act, read with the corresponding rules, Regulation 44 of the LODR Regulations and in terms of SEBI circular no. SEBI/HO/CFD/CMD/ CIR/P/2020/242 dated December 9, 2020, the Company has provided a facility to its members to exercise their votes electronically through the electronic voting (e-voting) facility provided by the National Securities Depository Limited (NSDL). Members who have cast their votes by remote e-voting prior to the AGM may participate in the AGM but shall not be entitled to cast their votes again. The manner of voting remotely by members holding shares in dematerialized mode, physical mode and for members who have not registered their email addresses is provided in the 'Instructions for e-voting' section which forms part of this Notice. The Board has appointed Hemanth, Holla & Co., (Membership No. FCS 6374) (CP No. 6519) Practicing Company Secretaries, as the scrutinizer ("Scrutinizer") for conducting the e-voting process in a fair and transparent manner.

12. Members holding shares either in physical or dematerialized mode, as on cut-off date, i.e. June 16, 2026, may cast their votes electronically. The e-voting period commences on Thursday, June 18, 2026 (9:00 a.m. IST) and ends on Monday, June 22, 2026 (5:00 p.m. IST). The e-voting module will be disabled by NSDL thereafter. Members will not be allowed to vote again on any resolution on which vote has already been cast. The voting rights of members shall be proportionate to their share of the paid-up equity share capital of the Company as on the cut-off date, i.e. June 16, 2026. A person who is not a member as on the cut-off date is requested to treat this Notice for information purposes only.
13. The facility for voting will also be made available during the AGM. Members present in the AGM through VC and who have not cast their vote on the resolutions through remote e-voting and are otherwise not barred from doing so, shall be eligible to vote through the e-voting system during the AGM.
14. Any person holding shares in physical mode or a person, who acquires shares and becomes a member of the Company after the Notice is sent and holding shares as on the cut-off date, i.e. June 16, 2026, may obtain the login ID and password by sending a request to evoting@nsdl.com. However, if he / she is already registered with NSDL for remote e-voting, then he / she can use his / her existing user ID and password for casting the vote.
15. In compliance with the Circulars, the Integrated Annual Report for 2025-26, the Notice of the 45th AGM, and instructions for e-voting are being sent through electronic mode to those members whose email addresses are registered with the Company / depository participant(s) (DP). A letter providing the web-link for accessing the Integrated Annual report, including the exact path, will be sent to those members who have not registered their email address with the Company.
16. We urge members to support our commitment to environmental protection by choosing to receive the Company's communication through email. Members holding shares in demat mode, who have not registered their email addresses, are requested to register their email addresses with their respective DP, and members holding shares in physical mode are requested to update their email addresses with the Company's RTA, KFin Technologies Limited at einward.ris@kfintech.com, to receive copies of the Integrated Annual Report 2025-26 in electronic mode. 18. An Explanatory Statement pursuant to Section 102 of the Act in respect of the business under item nos. 4 to 6 set out above and additional information, pursuant to Regulation 36 of the LODR Regulations, in respect of the directors seeking appointment / reappointment at the AGM, forms part of this Notice.
19. All holders of physical shares are requested to furnish their KYC details for their respective folios. [viz (i) PAN, (ii) contact details (postal address with PIN and mobile number), (iii) bank account details, and (iv) specimen signature.] Accordingly, effective April 1, 2024, dividends will be paid exclusively through electronic mode and only to those physical shareholders who have duly complied with the mandatory KYC requirements. Shareholders are requested to complete their KYC by writing to the Company's RTA, KFin Technologies Limited, at einward.ris@kfintech.com. The forms for updating the same are available at https://www.infosys.com/investors/shareholder-services/investors-service.html.

20. As per Section 72 of the Act, members holding shares in physical mode may submit their nomination by submitting SH-13 which can be downloaded from the Company's website at https://www.infosys.com/investors/shareholder-services/documents/investors-service/form-sh13.pdf. Members holding shares in demat mode may contact their respective DPs to update the nomination.
21. The Scrutinizer will submit his report to the Chairman of the Company ("the Chairman") or to any other person authorized by the Chairman after the completion of the scrutiny of the e-voting (votes cast during the AGM and votes cast through remote e-voting), not later than 48 hours from the conclusion of the AGM. The result declared along with the Scrutinizer's report shall be communicated to the stock exchanges, NSDL and RTA, and will also be displayed on the Company's website, www.infosys.com.
22. Since the AGM will be held through VC in accordance with the Circulars, the route map, proxy form and attendance slip are not attached to this Notice.

# Explanatory Statement

## Background and context for item nos. 4 and 5

Approval of the proposed amendment to the Infosys Expanded Stock Ownership Program – 2019 (such amended plan is hereinafter referred as the "Amended 2019 Plan") and grant of stock incentives to the eligible employees of the Company and its subsidiaries under the Amended 2019 Plan.

The Company has been a pioneer in India by rewarding its employees through stock ownership programs starting in 1994. This philosophy has created a culture of aligning employee and shareholder interests. The 2015 Incentive Compensation Plan ("2015 Plan") was approved by shareholders pursuant to the postal ballot dated March 31, 2016, and stock incentives continue to be granted to the eligible employees of the Company thereunder. The vesting criteria for stock incentives under the 2015 Plan are largely time-based.

The existing plan was approved by shareholders pursuant to the Annual General Meeting held on June 22, 2019. The shareholders had approved the existing plan and the grant of stock incentives to the Eligible Employees of the Company and its subsidiaries thereunder, which provided for approximately 1.15% of the equity shares of the Company then outstanding, amounting to approximately 5,00,00,000 equity shares. As on date of the Notice, 3,26,63,903 equity shares remain available for grant under the existing plan, representing the unutilized balance equity shares out of the original shareholder approved pool of 5,00,00,000 equity shares, and constituting approximately 0.8% of the outstanding equity shares of the Company as on the date of this Notice.

As on the date of this Notice, the Company has 4,44,19,917 RSUs available for grant under all ESOP Plans, representing approximately 1.1% of the outstanding equity share capital of the Company. This includes RSUs that have vested but remain unexercised, as well as RSUs that are yet to vest.

The shareholders had approved the Expanded Stock Ownership Program, 2019 ("2019 Plan") for a period of seven years, which is due to expire on June 21, 2026.

To ensure continuity of the Company's performance-based stock incentive plan and in line with its philosophy of aligning employee interests with long-term shareholder value creation, the Board has approved the amendments to ensure:

- Continuity of performance-based stock incentive program across an expanded employee base
- Ability to attract, retain and incentivize key talent in an increasingly competitive and evolving market
- Sustained alignment of employee interests with long-term shareholder value creation

## The summary of the proposed amendments is as under:

1. **Extension of the 2019 Plan tenure:**

   Extension of 2019 Plan for a further period of seven (7) years from the date of shareholder approval. The grants made under the 2019 Plan shall be made over seven (7) years, and the 2019 Plan shall be valid for a period of ten (10) years from the date of receipt of approval of shareholders.

2. **Strengthening alignment with Long-Term Shareholder Value creation and rationalization of Operational Metrics based on the inputs received from investors:**
   - In line with the feedback received from shareholders to align the Management compensation with long-term interests of shareholders, the introduction of a three-year rolling Relative Total Shareholder Return (TSR) as a vesting parameter for strengthening alignment with sustained shareholder value creation and reinforcing long-term market performance.
   - Rationalization of the Operating metrics to ensure continued focus on the core financial metrics of revenue and margin, ensuring consistency and comparability over time. Given the rapid evolution of technology and business models, sub-segment metrics (like digital revenue growth) may become transient and less comparable.

3. The proposed extension of the 2019 Plan does not involve any increase in the share pool of 5,00,00,000 equity shares that was initially approved. The Company will continue to operate within the existing approved pool, and accordingly, there will be no further dilution of the equity share capital. The shareholders had approved the existing plan and the grant of stock incentives to the Eligible Employees of the Company and its subsidiaries thereunder, which provided for approximately 1.15% of the equity shares of the Company then outstanding, amounting to approximately 5,00,00,000 equity shares. As on date of this Notice, 3,26,63,903 equity shares remain available for grant under the existing plan, representing the unutilized balance equity shares out of the original shareholder approved pool of 5,00,00,000 equity shares, and constituting approximately 0.8% of the equity share capital of the Company as on the date of this Notice.

4. Other amendments for clarity, consistency and to bring the 2019 Plan in line with the Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021.

The proposed extension to the 2019 Plan is continuity-driven and aimed at further strengthening alignment between employee interest and long-term shareholder value creation. The 2019 Plan continues to support the Company's ability to attract, retain and incentivize key talent, while reinforcing a culture of ownership and performance. The enhancements to vesting parameters with long-term TSR further strengthens linkage to shareholder value creation. The proposal will not result in further dilution of equity share capital.

| Section 6(e) | Notwithstanding the foregoing, the Exercise Period for the circumstances enumerated in Section 6(c)(iv) above (as relevant) shall be the following:<br>iii) In the event of termination of employment, or resignation of the Participant, Restricted Stock Units that have vested in the Participant as on the date of termination / resignation (as the case may be, if the termination is not for misconduct), shall be exercised by the Participant within an Exercise Period of 90 calendar days of the date of termination / resignation. | Notwithstanding the foregoing, the Exercise Period for the circumstances enumerated in Section 6(c)(II) above (as relevant) shall be the following:<br>iii) In the event of termination of employment, or resignation of the Participant, Restricted Stock Units that have vested in the Participant as on the date of termination / resignation (as the case may be, if the termination is not for misconduct), shall be exercised by the Participant within an Exercise Period of 90 calendar days of the date of vesting. | The changes have been made for clarity and to ensure consistency in the operation of the relevant provisions of the Plan relating to exercise period of the vested RSUs. The revised language clarifies that the exercise period shall commence from the date on which the relevant RSUs vest. |

The Board of Directors of the Company (hereinafter referred to as "the Board", which term shall include the Nomination and Remuneration Committee constituted by the Board, to exercise its powers in relation hereto, including the powers conferred by these resolutions), at its meeting held on April 23, 2026, has approved the above amendments to the existing plan.

The Company's philosophy continues to align employee interests with shareholder value creation. To incentivize, retain, and attract key talent through the performance-based stock incentive plan among an expanded employee base, it is considered appropriate to extend the term of the existing plan.

The Board approved amendment of performance parameters with a view to

- Strengthen alignment with long term shareholder value creation and investor expectations,
- Reinforce a long-term performance orientation within the organization, and
- Align operating performance metrics to relevant financial metrics.

A copy of the Amended 2019 Plan is available for review by the shareholders on https://www.infosys.com/investors/reports-filings/Documents/expanded-stock-ownership-program2019.pdf

The Resolutions contained in Item 4 and Item 5 seek to obtain the shareholders' approval to amend the existing plan and authorize the Board to grant RSUs, create, issue, offer and provide equity shares, American Depositary Receipts (ADRs) or cash, from time to time, to the Eligible Employees (as defined in the Amended 2019 Plan) of the Company or its subsidiaries under the Amended 2019 Plan.

Pursuant to Regulation 6 and Regulation 14 of the SEBI Regulations, as well as the requirements prescribed by Section 67(3)(b) of the Companies Act, 2013 read with Rule 16(2) of the Companies (Share Capital and Debentures) Rules, 2014, the key details of the Amended 2019 Plan are set out below:

All capitalized terms not defined herein shall carry the same meaning as ascribed to them in the 2019 Plan.

### 1. Brief description of the Amended 2019 Plan

The purpose of the Amended 2019 Plan is to :

- Encourage employees to align individual performance with the Company's shareholder value creation objectives;
- Attract, retain and motivate talented and identified employees; and
- Reward employee performance with ownership.

The Amended 2019 Plan grants Restricted Stock Units (RSUs) to Eligible Employees, and subject to applicable law and conditions, the Eligible Employees shall be entitled to receive equity shares, ADRs or cash on exercise of the RSUs. The Amended 2019 Plan shall be administered by the NRC (hereinafter referred to as "the Administrator", which to the extent of secondary acquisition and related administrative matters shall also include delegation of administration to the Infosys Expanded Stock Ownership Trust) from time to time, whose decisions, determinations, and interpretations will be final and binding on all Eligible Employees and participants under the Amended 2019 Plan. Each RSU granted shall be evidenced by an award agreement that will specify such terms and conditions as the Administrator will determine.

The total rewards for the Eligible Employees are designed to ensure their continued alignment with organizational goals. The emphasis on the performance-linked RSUs ensures alignment with shareholders' interests, through a continued focus on the Company's sustainable, long-term performance and value creation.

### 2. Total number of shares or benefits to be granted

The total number of equity shares and ADRs to be provided pursuant to the exercise of the RSUs under the Amended 2019 Plan to the Eligible Employees of the Company and its subsidiaries shall not cumulatively exceed 3,26,63,903 equity shares representing the balance unutilized equity shares out of the original shareholder approved pool of 5,00,00,000 equity shares (approximately 0.8% of the issued capital as on the date of this Notice).

### 3. Identification of classes of employees entitled to participate and be beneficiaries in the 2019 Plan

'Employees', as defined under the SEBI Regulations, of the Company and its subsidiary companies, whether working in India or abroad, will be entitled to participate in the Amended 2019 Plan, subject to the fulfillment of such eligibility criteria as may be specified in the SEBI Regulations and / or as may be determined by the Administrator from time to time.

It is clarified that as per the SEBI Regulations and the Companies Act 2013, Eligible Employees who are promoters or members of the promoter group, independent directors or directors who themselves or through a relative / body corporate (directly or indirectly) holds more than 10% of the outstanding equity shares of the Company; shall not be eligible to participate in the Amended 2019 Plan.

For determining the grant of RSUs under the Amended 2019 Plan, the appraisal process set forth in paragraph 8 below shall be considered.

**4. Requirements of vesting and period of vesting**

The RSUs granted under the Amended 2019 Plan shall vest as based on the following three performance parameters, the relative weightage of which shall be determined by the NRC provided that each parameter shall have a weightage of at least 25% and no single parameter will have a weightage of more than 50% :

i) Long-term Relative Total Shareholder Return ("Relative TSR") for rolling 3 years TSR against a peer comparator group of not less than 8 comparators, which will be identified by the Administrator from a basket of the following 10 industry peers, including Indian and global companies such as Accenture, DXC Technologies, Wipro, TCS, Cognizant, IBM, Capgemini, Tech Mahindra, Atos, and HCL.

   In case of delisting of any of the above-mentioned peer group companies during the performance measurement period, the NRC is entitled to include an additional peer set company to the comparator group.

   The Company will implement a phased transition to a three-year rolling relative TSR parameter, measured against a peer comparator group, with vesting based on one-year TSR in Year 1, two-year TSR in Year 2, and a full three-year TSR measure from Year 3 onwards.

ii) Annual TSR:

   A: Relative TSR against a peer comparator group not less than 8 comparators, which will be identified by the Administrator from a basket of the following 10 industry peers, including Indian and global companies such as Accenture, DXC Technologies, Wipro, TCS, Cognizant, IBM, Capgemini, Tech Mahindra, Atos, and HCL.

   In case of delisting of any of the above-mentioned peer group companies during the performance measurement period, the NRC is entitled to include an additional peer set company to the comparator group.

   B: Relative TSR against broader market domestic and global Indices comprising of MSCI, S&P 500 & Nifty 50 to be determined by the Administrator.

iii) Annual operating performance metrics of the Company, which are used to derive shareholder value, measured by

   a. Total revenue growth; and

   b. Operating margin.

The performance targets against these metrics shall be determined by the Administrator.

Each of the above three performance parameters will be distinct for the purposes of calculation of quantity of shares to vest based on performance.

Shares will vest based on the Company's performance on Relative TSR in (i) and (ii) above as follows:

- If it ranks in the 75$^{th}$ percentile and above, then a maximum of 100% of the RSUs due for vesting will vest.
- If it ranks in the 50$^{th}$ to 75$^{th}$ percentile, then the RSUs due for vesting will vest proportionately on a linear scale between 60% to 100%, and the balance will lapse.
- If it ranks below the 50$^{th}$ percentile, then no RSUs due for vesting will vest.

Shares will vest based on the Company's operating performance metrics of the Company (iii) above as follows:

- If performance achievement is at the minimum (threshold) level, 75% of the Restricted Stock Units due for vesting shall vest. If the performance achievement is below the minimum (threshold) level, no Restricted Stock Units due for vesting shall vest, it will lapse.
- If the performance achievement is at target level, 100% of the Restricted Stock Units due for vesting shall vest.
- If the performance achievement is at stretch target level, 125% of the Restricted Stock Units due for vesting shall vest.
- If the performance achievement is greater than the threshold level and less than target level, then the Restricted Stock Units due for vesting shall vest proportionately on a linear scale between 75% to 100%, and the balance will lapse.
- If the performance achievement is greater than the target level and less than the stretch target level, then the Restricted Stock Units due for vesting shall vest proportionately on a linear scale between 100% to 125%.

While individual performance outcome may result in achievement levels above 100%, aggregate vesting under operating performance parameter shall not exceed 100% of the shares due for vesting under such parameter.

The increased dilution of the equity share capital, if any and / or cost of secondary acquisition of equity shares, if any, is expected to be offset by growth in shareholder value and increased returns to the shareholders.

All RSUs granted shall vest as per the schedule determined by the Administrator from the date of the grant.

Any RSUs which lapse or are forfeited shall be available for future grants.

The Company shall disclose in its subsequent annual reports, details of the above-mentioned performance parameters and weightage, the target achievement for each of the performance parameters and achievement during the year, basis which the vesting of the RSUs was allowed, count of employees covered, number of RSUs granted, count of employees whose RSUs vested, number of RSUs due for vesting as per the vesting schedule and number of RSUs vested as per vesting schedule meeting the vesting conditions.

The Company has a Compensation Recovery Policy, which is intended to further the Company's pay-for- performance philosophy. The Compensation Recovery Policy of the Company is available on our website at https://www.infosys.com/investors/corporate-governance/documents/compensation-recovery-policy.pdf

### 5. Maximum period within which the RSUs shall vest

The RSUs shall vest between a minimum of 1 year to a maximum of 3 years from the date of grant (such period shall not be less than 1 year from the date of the grant, as decided by the Administrator) and shall be provided in the award agreement with the Eligible Employees. No tranche of vesting shall exceed 50% of the total grants made under the scheme.

In determining the vesting schedule for an Eligible Employee, the Administrator shall consider factors including, alignment with accelerated shareholder value creation, retention of key talent, future potential and tenure.

The RSUs shall vest based on the achievement of the defined performance criteria as per paragraph 4 above.

### 6. Exercise price, purchase price or pricing formula

The exercise price for the RSUs will be equal to the par value of the shares.

### 7. Exercise period and process of exercise

The exercise period for RSUs shall be up to 90 days (except in the case of death or permanent incapacitation of the employee, where RSUs may be exercised within 365 days). The Administrator also has the discretion to decide the exercise period and process of exercise and the same shall be mentioned in the respective Eligible Employee's award agreement. Further, the RSUs shall be deemed exercised when the Company or its appointed agent receives written or electronic notice of the exercise from the person entitled to exercise the RSUs; and subject to the terms of award agreement with the Eligible Employees, full payment for the equity shares or ADRs with respect to which the RSUs are exercised along with applicable tax amount payable by such person (unless the person entitled to exercise the RSUs, being eligible to avail of cashless exercise of RSUs, exercise that option).

However, in cases where the Administrator so decides, the income tax amounts will be deducted from the concerned employee's salary and in such events, the payment for the equity shares or ADRs need not be accompanied by the tax amount.

The RSUs granted to an Eligible Employee under an award agreement shall lapse on the concerned employee's failure to exercise the RSUs within the exercise period.

### 8. The appraisal process for determining the eligibility of employees for the Amended 2019 Plan

The appraisal process for determining the eligibility of employees for the grant of RSUs under the Amended 2019 Plan will be determined by the Administrator, and will be based on their level in the organization, their performance and future potential, and any other criteria as will be determined by the Administrator from time to time. The selection of Eligible Employees will be based on these criteria on recommendations of the management of the Company.

### 9. Maximum number of shares, to be issued per employee and in aggregate

The maximum number of RSUs to be granted per Eligible Employee shall be as follows :

- No Eligible Employee will be issued more than 50,00,000 (as may be adjusted for any changes in capital structure of the Company) equity shares of the Company.
- The grant of RSUs during any one year covering a number of equity shares or ADRs equal to or exceeding 1% of the issued capital of the Company at the time of grant of the RSUs shall be subject to the approval of shareholders by way of a special resolution passed at a general meeting.
- The total number of equity shares or ADRs to be provided to employees of the Company and its subsidiaries pursuant to the exercise of the RSUs under the Amended 2019 Plan shall not cumulatively exceed 3,26,63,903 equity shares (as may be adjusted for any changes in capital structure of the Company).

### 10. Maximum quantum of benefits to be provided per employee under the scheme(s)

Please see paragraph 9 above.

### 11. Whether the scheme(s) is to be implemented and administered directly by the Company or through a trust

The Nomination and Remuneration Committee shall administer the Amended 2019 Plan, which to the extent of secondary acquisition and related administrative matters shall also include delegation of administration to the Infosys Expanded Stock Ownership Trust.

### 12. Whether the scheme(s) involves fresh issue of shares by the Company or secondary acquisition by the trust or both

The equity shares can be acquired both by way of fresh issue and secondary acquisition by the Infosys Expanded Stock Ownership Trust subject to regulatory approvals, as originally approved by the shareholders in the 38th Annual General Meeting of the Company dated June 22, 2019.

**13. The amount of provision of money (by way of grant and / or loan) to be provided for implementation of the scheme(s) by the Company to the trust – and if a loan, its tenure, utilization, repayment terms, etc.**

The Company shall (from time to time) make provision for money by way of a grant and / or loan and / or provide guarantee or security in connection with the loan granted or to be granted to the Infosys Expanded Stock Ownership Trust to fund the Infosys Expanded Stock Ownership Trust, which shall be utilized for the purpose of purchase of equity shares of the Company from the secondary market on the platform of a recognized stock exchange for the Amended 2019 Plan. Such amount provisioned to the Infosys Expanded Stock Ownership Trust shall not exceed the statutory limits. To the extent a loan is made by the Company, the exercise price received from the Eligible Employees upon exercise of the RSUs shall be used to repay the loan to the Company. Additionally, any dividends received on equity shares purchased pursuant to the Amended 2019 Plan shall be used in such manner as the Administrator may deem fit, including (i) for secondary acquisition of shares and / or (ii) repayment of the loan (if any) made by the Company to the Infosys Expanded Stock Ownership Trust. The tenure and other relevant terms of the loan (if any) made by the Company to the Infosys Expanded Stock Ownership Trust shall be as may be mutually agreed at the time of grant of the loan.

As the Company may provide money for purchase of its own shares for the purpose of implementing the Amended 2019 Plan, the details required in the explanatory statement for the provision of such money, under Section 67 read with Rule 16 of the Companies (Share Capital and Debentures) Rules, 2014, are as follows:

a. The class of employees for whose benefit the Amended 2019 Plan is being implemented, and money is being provided for purchase of or subscription to shares:

   As mentioned in paragraph 3 above.

b. The particulars of the trustee in whose favor such shares are to be registered:

   Same as paragraph 13(c) below.

c. The particulars of trust and name, address, occupation and nationality of trustees and their relationship with the promoters / promoter group, directors or key managerial personnel:

   Name of the trust : Infosys Expanded Stock Ownership Trust

   Address of the trust : Electronics City, Hosur Road, Bengaluru – 560100

   Particulars of the trustees are given below:

   1. Nandini S, an Indian Citizen, Infosys Limited, Electronics City, Hosur Road, Bengaluru – 560100, Karnataka
   2. Shaji Mathew, an Indian citizen, Infosys Limited, Electronics City, Hosur Road, Bengaluru – 560100, Karnataka
   3. Deepak Bhalla, an Indian citizen, Infosys Limited, Electronics City, Hosur Road, Bengaluru – 560100, Karnataka
   4. Gopalakrishnan Ramachandran, an Indian citizen, Infosys Limited, Electronics City, Hosur Road, Bengaluru – 560100, Karnataka

   All the above trustees are presently employees of the Company. None of the above trustees and their respective relatives are related to the promoters / promoter group, directors or key managerial personnel of the Company.

d. Any interest of key managerial personnel, directors or promoters in the 2019 Plan or trust and effect thereof

   Directors and key managerial personnel may be deemed to be interested to the extent of RSUs as may be granted to them under the Amended 2019 Plan, and to the extent of their shareholding as shareholders of the Company.

e. The detailed particulars of benefits which will accrue to the employees from the implementation of the 2019 Plan

   The employee can receive equity shares, ADRs, or cash upon exercise of RSUs granted to them as per the relevant award agreement.

f. Details about who would exercise the voting rights and how in respect of the equity shares to be purchased or subscribed under the Amended 2019 Plan would be exercised.

   The SEBI Regulations provide that the trustee of a trust governed under the SEBI Regulations, shall not vote in respect of the shares held by the trust, so as to avoid any misuse arising out of exercising such voting rights.

**14. Maximum percentage of secondary acquisition (subject to limits specified under the regulations) that can be made by the trust for the purposes of the scheme(s)**

The Infosys Expanded Stock Ownership Trust can acquire such equity shares through secondary acquisition as originally approved by the shareholders in the 38th Annual General Meeting of the Company dated June 22, 2019, which is within the limits specified under the applicable laws.

**15. A statement to the effect that the Company shall conform to the accounting policies specified in Regulation 15**

The Company will conform to the applicable accounting policies prescribed under the SEBI Regulations, or any other policy(ies) that may be prescribed under law with respect to accounting for stock options including the disclosure requirements prescribed therein.

**16. The method which the Company shall use to value its options:**

To calculate the employee compensation cost, the Company shall use the Fair Value Method for the valuation of the RSUs granted.

### 17. Lock-in

The shares issued pursuant to exercise of RSUs shall not be subject to any lock-in period restriction.

#### Validity period of the Amended 2019 Plan

The grants made under the Amended 2019 Plan shall be made over a further period of seven (7) years from the date of approval of the Amended Plan by the Company's shareholders, and the Amended 2019 Plan will continue in effect for a further period of ten (10) years from the date of approval of the Amended Plan by the Company's shareholders. This validity period can be extended (if required) by the shareholders.

As the Amended 2019 Plan provides for issue of equity shares and ADRs to be offered to persons other than the existing shareholders of the Company, consent of the shareholders is being sought pursuant to Section 62 and all other applicable provisions, if any, of the Companies Act, 2013 and as per Regulation 6 of the SEBI Regulations.

Pursuant to the provisions of the SEBI Regulations, a separate resolution is required to be passed if the grant of RSUs, to the employees of subsidiaries. Accordingly, the resolutions set as Item Nos. 4 and 5 are being placed separately for the approval of shareholders. None of the promoters / promoter group or their relatives are in any way concerned or interested in these resolutions except to the extent of their shareholding as shareholders. The directors, key managerial personnel or their relatives may be deemed to be concerned or interested in these resolutions to the extent of RSUs granted to them and to the extent of their shareholding as shareholders.

The Board of Directors of the Company recommends the passing of the proposed resolutions stated in item nos. 4 and 5 as special resolutions.

## Background and context for item no. 6

Regulation 31A of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("LODR Regulations") as amended, provides a regulatory mechanism for re-classification of members from the 'Promoters and Promoter group' to 'Public' category subject to fulfilment of conditions as provided therein.

The Company is in receipt of a joint request letter dated April 30, 2026 ("Request Letter") from Mr. Shreyas Shibulal and Ms. Bhairavi Madhusudhan Shibulal (collectively, the "Applicants"), seeking reclassification from the 'Promoter and Promoter Group' category to the 'Public' category, in accordance with Regulation 31A of the LODR Regulations. Details of the Applicants, along with their shareholding in the Company (as of March 31, 2026) are set out below:

| Sl. No. | Name of outgoing promoter/ promoter group member(s) | No. of shares held | % of holding |
|---|---|---|---|
| 1. | Shreyas Shibulal | 1,79,37,000 | 0.44 |
| 2. | Bhairavi Madhusudhan Shibulal | 48,85,500 | 0.12 |
| **Total** | | **2,28,22,500** | **0.56** |

The Applicants have stated in the Request Letter that their classification as 'Promoter and Promoter Group' is solely because of their relationship with Mr. S. D. Shibulal (Mr. Shreyas Shibulal being his son and Ms. Bhairavi Madhusudhan Shibulal being his daughter-in-law). Mr. S. D. Shibulal is the promoter of the Company and was one of the co-founders of the Company, however, since 2014, he has ceased to be involved in the Company. The Applicants have further stated that neither of them have worked with the Company in any capacity, nor have they been involved in the business, management, or decision-making in relation to the Company. The Applicants have never held any position of KMP or director in the Company, and do not have any right either to appoint any director of the Company or any ability to control the management or policy decisions of the Company in any manner whatsoever. Further, the Applicants have confirmed that they only receive information about the Company as ordinary public shareholders of the Company, and their classification as 'Promoter and Promoter Group' is solely because of their relationship with Mr. S. D. Shibulal (being his son and daughter-in-law).

A copy of the request letter received from the Applicants has been disseminated to the stock exchanges on April 30, 2026, and is publicly available at www.nseindia.com, www.bseindia.com, and www.infosys.com.

The Applicants have given an undertaking that, in terms of Regulation 31A(3) of the LODR Regulations, the Applicants and the person(s) related to the Applicants together:

i. do not hold more than ten percent of the total voting rights in the Company;

ii. do not exercise control over the affairs of the Company directly or indirectly;

iii. do not have any special rights with respect to the Company through formal or informal arrangements including through any shareholder agreements;

iv. are not being represented on the Board (including by way of nominee directorship)

v. do not act as key managerial personnel in the Company

vi. are not a 'wilful defaulter(s)' as per the Reserve Bank of India Guidelines;

vii. are not a fugitive economic offender

The Applicants have confirmed that there is no pending regulatory action against them. The Applicants have further confirmed that they shall:

(a) at all times from the date of re-classification, continue to comply with the conditions specified in sub-clause (i), (ii) and (iii) of clause (b) of Regulation 31A(3) of the LODR Regulations; and

(b) comply with the conditions mentioned in sub-clauses (iv), (v) of clause (b) of Regulation 31A(3) of the LODR Regulations for a period of not less than 3 (three) years from the date of reclassification.

The Board of Directors of the Company ("Board"), at its meeting held on April 30, 2026, had inter alia taken note of the following:

i. The Applicants are engaged in their respective independent professions / businesses and are neither connected, directly or indirectly, with the operations or decision-making of the Company, nor do they exercise any influence over the decisions of the Company.

ii. The Applicants do not have any representation on the Board and are not acting as key managerial personnel of the Company.

iii. The Applicants hold less than 1% of the paid-up equity share capital of the Company, and the Applicants together with the persons related to them hold less than 10% of the paid-up equity share capital of the Company.

The Board considered the facts stated above and approved the request for re-classification of the Applicants from 'Promoter and Promoter Group' category to 'Public' category, subject to receipt of necessary approval from the stock exchanges and compliance with such other requirements as may be prescribed in this regard, including obtaining approval from the shareholders.

Pursuant to such approval by the Board, the Company filed applications dated May 1, 2026, with BSE Limited ("BSE") and National Stock Exchange of India Limited ("NSE", together with BSE, "Stock Exchanges"). In response to the Company's applications, the Company received No-objection letters from BSE vide letter no. LIST/ COMP/ HG/ 059/ 2026-27 and NSE vide letter no. NSE/ LIST/ COMP/ INFY/ 587/ 2026-2027 both dated May 11, 2026, respectively for reclassification of the Applicants from 'Promoter and Promoter Group' category to 'Public' category.

Further, the Board confirms the following:

i. The Company is compliant with the requirement for minimum public shareholding as required under Regulation 38 of the LODR Regulations;

ii. The trading in the Company's equity shares is not suspended by any of the Stock Exchanges on which the Company is listed;

iii. The Company does not have any outstanding dues to the Securities and Exchange Board of India , the Stock Exchanges or the depositories.

Considering the above, the Board recommends the passing of the proposed resolution stated in Item no. 6 as an ordinary resolution. The members may note that in accordance with Regulation 31A(3)(a)(vi) of the LODR Regulations, the Applicants and the persons related to them (as defined under clause (b) of sub-regulation (1) of Regulation 31A of the LODR Regulations) shall not vote on this resolution.

No directors, key managerial personnel or their relatives are interested or concerned in the resolution.

## Safe Harbor

This Annual Report contains 'forward-looking statements' within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements generally relate to future events or our future financial or operating performance and are based on our current expectations, assumptions, estimates and projections about the Company, our industry, economic conditions in the markets in which we operate, and certain other matters. Generally, these forward-looking statements can be identified by the use of forward-looking terminology such as 'may', 'anticipate', 'believe', 'estimate', 'expect', 'continue', 'intend', 'will', 'project', 'seek', 'could', 'would', 'should' and similar expressions. These statements are subject to substantial known and unknown risks, uncertainties and other factors, which may cause actual results or outcomes to differ materially from those implied by the forward-looking statements. Important factors that may cause actual results or outcomes to differ from those implied by the forward-looking statements include, but are not limited to, risks and uncertainties regarding the execution of our business strategy, increased competition for talent, our ability to attract and retain personnel, increase in wages, investments to reskill our employees, our ability to effectively implement a hybrid work model, economic uncertainties and geopolitical situations, technological disruptions and innovations such as artificial intelligence, the complex and evolving regulatory landscape including immigration regulation changes particularly in the United States, our Environmental, Social, and Governance ("ESG") vision, our capital allocation policy and expectations concerning our market position, future operations, margins, profitability, liquidity and capital resources, our corporate actions including acquisitions, and cybersecurity matters, the outcome of pending litigation and the US government investigation, and the effect of current and future tariffs. These and additional factors that may cause actual results or outcomes to differ from those implied by the forward-looking statements are discussed in the "Outlook, risks and concerns" and Risk management report sections in this Annual Report and are detailed in our Form 20-F filed with the U.S. Securities and Exchange Commission. In light of these and other uncertainties, you should not conclude that the results or outcomes referred to in any of the forward-looking statements will be achieved. All forward-looking statements included in this Annual Report are based on information and estimates available to us on the date hereof, and we do not undertake any obligation to update these forward-looking statements unless required to do so by law.
